According to Jewish History
(Written in Yahweh's Book) and
Yahweh's Clock (49 - Year Luni
Solar Cycle): In the 2656th Luni

Pesach in Egypt on Thursday night
on 16th June 1579 BCE. Please see
the 498th page under Yahweh's

Saturday night on 24th June 1539 BCE. Please see the 506th page under Yahweh's Clock and the 1/71th page under Jewish History on www.yhwhcalendar49.com. It's observed that the Hindu 60 - Year Luni Solar Cycle is not giving accurate Phases of the Moon, Seasons, and New Years because the Hindu Tropical Year takes 365.1949488 days and the Hindu Synodic Month takes 29.53058885 days. Moreover, it was verified that the discoveries of Astronomers (NASA or IAU) had been misleading the World.

According to the Hindu 60 - Year Luni Solar Cycle (Hindu Calendar):
3889516th Ugadi = 12th Sep., 1539 BCE. 14th day of Chaitra Month = 24th to 25th Sep., 1539 BCE. Israelis celebrated Pesach in Gilgal before the Full Moon Day on Sunday night on 24th Sep., 1539 BCE if the Hindu calendar is considered just as the Grecian Calendar considered.

Please note that according to 60 - Year Cycle, 2695.5 Luni Solar Years are completed from 4234 BCE to 1539 BCE. It was observed that the Synodic Month (29.53058885 days) gives the Tropical Year as 365.1949488 days (For Seasons) because of the 60 - Year Cycle. This is the time to realize that the 60 - Year Luni Solar Cycle is not giving
