1 to 69 Weeks		483		455 BCE to CE 29		4263		Daniel 9:24-25																			
70th Week		7		CE 29 to CE 36		4270		Daniel 9:24-25																			
CE 36 to CE 2136		2100		CE 36 to CE 2136		6370		Daniel 2:44; 12:10																			
Total = 6,370 Scriptural Luni Solar Years = 78,780 Scriptural Lunar Months = 2,326,480 days.																											
400 - Year Luni Solar Cycle = Gregorian 400 - Year Tropical Cycle. There is no Luni Solar Cycle and Tropical Cycle for the discoveries of astronomers. Who can deliver the people from the clutches of religious and scientific delusion?																											
"YEARS" = Luni Solar Years (Number of Lunar Months, Nights, and days) are completed.																											
Any Religious Book will be proved as the Book of the true Creator if that Religious Book recorded the date of the Creation of Sun, Moon, and stars, the 7 - Day Weekly Cycle, the 49 - Year Luni Solar Cycle, and History of Empires. Yahweh's Book gave 6,370 Luni Solar years as 78,780 Lunar Months = 2,326,480 nights and 2,326,480 days from 23rd Feb., 4234 BCE to 27th Sep., CE 2136 (Isaiah 34:16; Lev. 25:8-9). Oh, 12m, on 26th Sep., CE 2136 is NASA'S New Moon time. So NASA data (2000 BCE - CE 4000) = fake!																											
This History proved that the Creator is Yahweh because, in the beginning, Yahweh determined Day as 24 hours or 1,440 minutes or 86,400 seconds per 360° per 1 day; Synodic Month as 29.53135314 days per 360° per 1 Synodic Month; Tropical Year as 365.2244898 days per 360° per 1 Tropical Year; Luni Solar Difference Per Month as Tropical Month - Synodic Month = 30.43537415 days - 29.53135314 days = 0.904021014 days; Days per 49 - Year Luni Solar Cycle as 17,896 days; and Days per 49 - Year Tropical Cycle as 17,896 days. These are Constant forever (Jeremiah 32:27; 33:19-26). 5 proofs are given from 1st to 4th page. Please note that NASA/IAU didn't observe the data between 2000 BCE and CE 4000.																											
The discoveries of NASA and IAU such as Day (23 hours, 56 minutes, and 4 seconds), Synodic Month (29.53058885 days), and Tropical Year (365.24219 days) are not giving accurate nights, days, Phases of the Moon, and the Seasons. What is the necessity to believe in the calculations of NASA, IAU, and all religious leaders as the volume of the Moon is Constant forever? All inaccurate Calendars (Julian, Gregorian, Hindus, Muslims etc.) are misleading the people to this very day under the veil of the Creator, gods, or goddesses, and science. For example: Please study the Phases of the Moon, Seasons, and beginning of each Hindu and NASA 60 - Year Luni Solar Cycle (From 169th to 179th page + 379th to 381st page), and compare with Yahweh's 49 - Year Luni Solar Cycle (From 183rd to 194th page). I observed that the Phases of the Moon, and Seasons vary from one method to another method. So it is necessary to teach basic Astronomy from 10th class to College because people are losing money and time under the veil of the fake creators, gods, goddesses, and Astrologers. Any Creator or god or goddess is fake if the origin of 7 - Day Weekly Cycle, History from the very first man, and the formula of Luni Solar Calendar or Lunar Calendar are not written in The Bible or The Geeta, or The Quran etcetera. Muslim Calendar is fake because 8 hours, 48 minutes, and 34.51968 seconds are remaining at the end of each Scientific Lunar Year (354.3670662 days). Muslims didn't realize this. 30 - Year Cycle is repeated in the Hindu 60 - Year Cycle but Hindus, and Chinese didn't realize this. Astronomers forgot about 49 Years (Lev. 25:8-9).																											
All Geological, Astronomical, Archeological, and Carbon dating proofs are not ACCURATE SCIENTIFIC PROOFS always because History proved that the people used Bronze, brass, silver, gold, lead, iron, steel etcetera by Metallurgy about between 3712 BCE and 618 BCE only (Gen. 1:1-31, 4:16-24; Num. 31:22-23; Jer. 15:12; Eze. 22:17-20, 27:12). So History that is recorded in the Book of Yahweh is genuine!

This History gives how many days (ND20), Weeks (NS20), Lunar Months (CCM/RCM), and Years (SM/MH) are completed from the beginning to this very day. So please study 5 proofs from 1st to 4th page.																											

JEWISH HISTORY FROM 4234 BCE TO CE 2136 (WITH HISTORICAL AND SCIENTIFIC PROOFS - GENESIS 1:13-19; DAN. 2:1-49;7:1-28; EPH. 1:1-19)																																																																																				
From Adam	Methuselah	Lemek	Noah	Shem	Arphaxad	Selah	Eber	Peleg	Reu	Serug	Nahor	Terah and Clues	Abraham Galatians 2:14, 3:7-29; Rom. 9:6-9, 11:17	Issac	Yacob	Yoseph and Clues	Years from Canaan (MH)	Kings of Judah		Missing Years/Clue	Kings of Israel		Total Years (SM)	BC = BCE and AD = CE	Subject, Emperor's name/Ottoman King/PM of Israel	49 - YC	References, and Name of Pope (Daniel 7:1-25; Rev.13:1-9)																																																									
The greater light (Sun), and lesser light (Moon) give accurate Phases of the Moon, and Seasons (Genesis 1:13-19; Lev. 25:8-9; Psalms 104:19; Jer. 33:19-26). These two lights give a formula. It is explained below.																		Astronomers didn't discover the Creator because they didn't realize that 1 Cycle = 49 Years = 49 - Year Luni Solar Cycle = 49 - Year Tropical Cycle = 606 Lunar Months = 588 Tropical Months = 17,896 days.																																																																		
0	Yahweh introduced 7 - Day Weekly Cycle in the Beginning. Adam was created by Yahweh on Friday morning 26th Feb., 4234 BCE. - Genesis 1:1-31.																	0	4234 BCE	Geenesis 1:1-31		0	Leviticus 25:8,9																																																													
1	IAU, and NSA are giving inaccurate Phases of the Moon since CE 1675/1919/1958.	The Book of Yahweh recorded 7,370 Years of History (4234 BCE to CE 3136). This history is satisfying the Phases of the Moon, Seasons, Extra Months, Luni Solar New Years (1st Ethanin that occurs always in Summer in Israel and 1st Abib that occurs always in flowering in Northern Hemisphere), Sabbatical Years, Years of Tithe, and the Jubilee Years. Yahweh's Luni Solar Calendar is Constant forever. Eve was created by Yahweh on Friday 30th August 4231 BCE = 14th Abib (Gen. 2:18-25; 1 Cor. 15:44-49; Eph.1:1-12; 5:29-32). https://drive.google.com/file/d/1rVvEh1BrA0SZwAI-s3_RrObISuLry-ly/view?usp=sharing The Day of Resurrection is Saturday only Yahweh created all languages in 2477 BCE (Gen. 11:16; 10:24-25; 1:1-31; 2:1-3; 11:1-9). Yahweh is coming soon about in CE 2136. https://drive.google.com/file/d/1QWexCkPzqIRBmCwT4Jpw2_2NVF7GdZd/view?usp=sharing Pdf One and only Amazing Proof! Attention please: Rabbis are misleading the Jewish nation with 19 - Year and 50 - Year Luni Solar Cycle since AD/CE 1948. Formula/Principles of Yahweh's Calendar: 1 Cycle = 7 times 7 years = 49 Years = 49 Luni Solar Years = 606 Lunar Months = 17,896 days = 49 Tropical Years = 588 Tropical Months. This Formula only gives accurate Nights, days, Seasons, Phases of the Moon, 1st Ethanin (New Year in Summer in Israel), 1st Abib (New Year in flowering), Extra Months, Sabbatical Years, Jubilee Years, and Years of Tithe forever. Please see Ob00 (Genesis 1:13-19; Leviticus 25:8-9; Jer. 31:35-37; 33:19-26; Psalms 104:19; John 11:9; Job 26:7; 38:1-33; Isa. 48:13). Attention please: Imams are misleading Muslims with inaccurate Lunar Calendar since AD/CE 622. Fake = 29.53058885 days.																	1	4233 BCE	Leviticus 25:8-9; Genesis 1:13-19 gives the relation (Formula) between the Earth, Sun, and Moon (Jeremiah 33:19-26; 31:35-37; Job 26:7). 49 - YC stands for how many 49 - Year Luni Solar Cycles are completed from the beginning. "SM" stands for Civil Luni Solar Years are counted from the date of the Creation of Sun, Moon, and stars (Genesis 1:14; Ps.19:4, 104:19). "MH" stands for Religious Luni Solar Years are counted from the land of Milk and Honey (Genesis 1:13-19; Leviticus 25:1-9, Psalms 104:19).		Religious leaders, and astronomers are misleading the people because people don't know basic Astronomy.	* 1st Ethanin (Head of the Civil Year - Genesis 1:13-19; Ps. 89:36-37) falls always in Summer in Israel whereas 1st Abib (Head of the Religious Year which occurs in the middle of the Civil Year - Exodus 12:1) falls always in flowering time in Winter (Exodus 9:29-32; John 18:18; Mark 11:12-14; 20:24). So don't think that 1st Ethanin falls always between September and October, and 1st Abib falls always between March and April.

15	http://astropixels.com/ephemeris/phasescat.html gives New Moon as 21h, 47m, on 29th Sep., AD/CE 1989	All this Chronology, and History is counted according to Yahweh's 49 - Year Luni Solar Cycle which is the formula of Yahweh's Luni Solar Calendar (Leviticus 25:8-9). So Julian Calendar is used from 4234 BCE to CE 1582, and Gregorian Calendar is used from CE 1582 to CE 2136 but all years between 4234 BCE and CE 2136 are Luni Solar Years only (Leviticus 25:8-9; Deut. 31:24-30). Note: All Religious leaders are misleading people with different Calendars - 1 Kings 4:29-34; 8:41-43; 10:22-24; 2 Chr. 9:20-26. The Universal Lunar Month (Yahweh's Lunar Month) = 17,896 days ÷ 606 Lunar Months = 29.53135314 days (29 days, 12 hours, 45 minutes, and 8.91088992 seconds) according to 49 - Year Luni Solar Cycle (Lev. 25:8-9). Acts 17:10-12; 1 Cor. 2:10-16; 3:11; 14:26-40; 1 Thess. 5:21 KJV The Universal Tropical Year (Yahweh's Tropical Year) = 17,896 days ÷ 49 Years = 365.2244898 days (365 days, 5 hours, 23 minutes, and 15.9183744 seconds) according to 49 - Year Tropical Cycle (Leviticus 25:8-9). PROOF - 2: Yahweh created the Sun, Moon, and stars at (b). Yahweh counted 7 - Day Weekly Cycle from (a). Civil 49 - Year Luni Solar Cycle is completed 127 times between (b), and (c). 324,685 Weeks are completed between (a), and (c). 6,223 Civil Luni Solar Years, 6223 Tropical Years, and 76,962 Civil Lunar Months are completed between (b), and (c). <table><thead><tr><th>Roman Year</th><th>M</th><th>Day</th><th>H</th><th>M</th><th>S</th><th>DLM</th><th>DL</th><th>Month</th><th>DW</th><th>Say</th><th>CCM X LM</th><th>SM</th><th>NS20</th><th>CCM</th><th>ND20</th></tr></thead><tbody><tr><td>4234 BCE</td><td>Feb.</td><td>20</td><td>18</td><td>00</td><td>00</td><td>0°</td><td>35°E</td><td>-</td><td>Sat.</td><td>(a)</td><td>-</td><td>-</td><td>Begins</td><td>-</td><td>Begins</td></tr><tr><td>4234 BCE</td><td>Feb.</td><td>23</td><td>18</td><td>00</td><td>00</td><td>0°</td><td>35°E</td><td>Begins</td><td>Tue.</td><td>(b)</td><td>0</td><td>Begins</td><td>Begins</td><td>-</td><td>-</td></tr><tr><td>CE 1989</td><td>Sep.</td><td>30</td><td>18</td><td>00</td><td>00</td><td>0°</td><td>35°E</td><td>Elul ends</td><td>Sat.</td><td>(c)</td><td>2,272,792</td><td>6,223</td><td>324685</td><td>76,962</td><td>2292795</td></tr></tbody></table> 2,272,792 days are completed between (b), and (c). And 2,272,795 days are completed between (a), and (c). Where M = Month; DLM = Degrees of Longitudes determined by Yahweh and is discovered by Me; DL = Degrees of Longitudes; DW or DOW = Day Of Week; CCM = Number of Lunar Months Completed from the date of Creation of sun, Moon, and stars (Gen. 1:13-19). 89		4234 BCE	Feb.	23	03	40	00	Tue.	IDL (Old)	II.ST - 14h, 20m		180°E	- 215°	(h)	86	4148 BCE											
90	Yahweh determined time, the Phases of the Moon, Seasons, 7 X 7 times years, Jubilee Years, Years of Tithe, and Extra Months according to 49 - Year Luni Solar Cycle only. 50 - Year Luni Solar Cycle is not giving accurate Phases of the Moon, and Seasons (Study under 0f0000).																				87	4147 BCE	Gentiles should follow the Chosen Jews - Gal. 2:14; Rom. 11:13-23; Zec. 8:23.				
91																					88	4146 BCE					
92	Where II.ST = Israel Standard Time at 35°E, Jerusalem because 1 Cor. 5:7-8; Adam, the very first man began to eat fruits of different Yahweh, the Creator determined this method (Jer. 33:19-26). Acts 18:20-21 trees before 6 PM on 26th Feb., 4234 BCE (Genesis 1:26-31).																			89	4145 BCE						
93																				90	4144 BCE						
94	Cain, an Abel	NOTE: Yahweh speaks about beginning of His Month (Numbers 10:10), Beginning and end of His Luni Solar Year (Deuteronomy 11:11-12). And Yahweh is commanding that count His 7 times 7 Years to get the dates of all His Appointed times (Leviticus 25:8-9). Yahweh didn't speak about conjunction, Equinoxes, Visible Crescent, and barley's ears whether they are ripened or not. So don't follow false Prophets (Mark 9:38-41; 7:1-23; Matt. 24:5-11; 23:13-14; 15:9-11; 1 Tim. 4:1-2). Let's keep the FEASTS in the right time as the Chosen people henceforth.																			91	4143 BCE	Adam and Eve expelled from Eden (4135 BC)				
95		M = Month; D = Days; H = Hours; M = Minutes; S = Seconds; DW = Day of Week; DLM = Degrees of Longitudes revealed to Me by Yahweh.																			92	4142 BCE					
96		Adam and Eve might have been expelled from Eden on 19th Feb., 4135 BCE (Gen. 3:1-24). So Adam begot Cain, and Abel at the age of 99 years (Let's say).																			93	4141 BCE					
97																					94	4140 BCE					
98																					95	4139 BCE					
99	0	Adam and Eve might have been expelled from Eden on 19th Feb., 4135 BCE (Gen. 3:1-24). So Adam begot Cain, and Abel at the age of 99 years (Let's say).																			96	4138 BCE	So Ethaniam begins as soon as 77,358th or 396th Month ends. 77,358 Lunar Months, 6255 Tropical Years, and 6255 Luni Solar Years are completed from 4234 BCE to CE 2021. Study at 396th, and 77,358th Moon under z20 or 1b Case - 5, and 77,359th New Moon Report. 1st January as New Year is fake.				
100	1	PROOF - 5: HISTORY GIVES PHASES OF THE MOON, AND SEASONS TO THIS VERY DAY Please visit: www.yhwhcalendar.com																			97	4137 BCE					
101	2	Let's discover the Phases of the Moon, Season, and how many Luni Solar Years, and Tropical Years are completed from the beginning to CE 2021.																			98	4136 BCE					
102	3	Generally, 6255 Years (Luni Solar/Tropical) are there between 4234 BCE and CE 2021. The 49 - Year Cycle is completed 127 times in 6255 years.																			99	4135 BC					
103	4	Please note that 1 Cycle = 49 Years = 606 Lunar Months = 588 Tropical Months = 17,896 days. So 127 Cycles = 127 X 49 Years = 6,223 Luni Solar Years = 6,223 Tropical Years = 74,676 Tropical Months = 76,962 Lunar Months = 2,272,792 days according to the Formula (0b00 on www.yhwhcalendar.com).																			100	4134 BCE					
104	5	32 Years are there between CE 1989 and CE 2021. So 32 Luni Solar Years = 396 Lunar Months according to 49 - Year Luni Solar Cycle (Yahweh's formula).																			101	4133 BCE	Elul, and Ethaniam indicates Summer always in Israel. So Yahweh's Book gives History, Phases of the Moon, Seasons, 7 times 7 years, Extra Months, Jubilee Years, and Years of Tithe to this very day - Psalms 104:19; Jer. 33:19-26.				
105	6	So 6255 Years = 6223 Years + 32 Years = 6255 Luni Solar Years = 6255 Tropical Years = 76,962 Lunar Months + 396 Lunar Months = 77,358 Months.																			102	4132 BCE					
106	7	Let's calculate how many days, months, and years are completed at the end of 77,358th Month. 1 Month = 29.53135314 days (According to Formula).																			103	4131 BCE					
107	8	Yahweh created the Sun, Moon, and stars at (a).																			104	4130 BCE					
108	9																				105	4129 BCE					
109	10	Roman Year	M	D	H	M	S	DW	Country	DL	DLM	Say	So 77,358 Scriptural Months = 2,284,486.416 days = 2,284,486 days, 9 hours, 58 min., and 48.576 seconds. 2,284,486 days are there between (a), and (b). Residue = 9 hours, 58 min., and 48.576 seconds which is added to (b) to get the end of 77,358th Lunar Month. So 77,358th Scriptural Month ends at (c).										106	4128 BCE

235	105	0	Seth begot Enos - Genesis 5:6-8								Seth begot Enos when Adam had 235 years. Prayers began in 3999 BCE (Genesis 4:25-26 Cf. Genesis 5:6-8).													235	3999 BCE	Birth of Enos		Genesis 5:6									
236	1	The Book of Yahweh gives the history from the very first man, Adam to the end of the 1000 years of ruling of the Jewish Messiah (4234 BCE to CE 3136 = Genesis 1st to 50th Chapter; 1 Kings, 2nd Kings, etc.). Some history is recorded in the form of Prophecies (Daniel 2:1-47; 4:1-37; 6:1-28; 7:1-28; Revelations 13:1-18). All these years are Luni Solar Years that are based on 49 - Year Luni Solar Cycle (Leviticus 25:8-9). So Roman years (365.25 days or 365.2425 days = Both are inaccurate) are not equal to the Scriptural Luni Solar Years. That's why the Scriptural years (Luni Solar Years) are different from the Roman years (Tropical Years). For example: Let's observe the occurrences of some 49 - Year Luni Solar																		NOTE: Ab to Ethanin always fall in Summer in Israel and Abib always fall in flowering/budding in Northern Hemisphere.		236	3998 BCE

JEWISH HISTORY FROM 4234 BCE TO CE 2136 (WITH HISTORICAL AND SCIENTIFIC PROOFS - GENESIS 1:13-19; DAN. 2:1-49;7:1-28; EPH. 1:1-19)																											
From Adam	Methuselah	Lemek	Noah	Shem	Arphaxad	Selah	Eber	Peleg	Reu	Serug	Nahor	Terah and Clues	Abraham Galatians 2:14,3:7-29; Rom. 9:6-9,11:17	Issac	Jacob	Yoseph and Clues	Years from Canaan (MH)	Kings of Judah		Missing Years/Clue	Kings of Israel		Total Years (SM)	BC = BCE and AD = CE	Subject, Emperor's name/Ottoman King/PM of Israel	49 - YC	References, and Name of Pope (Daniel 7:1-25; Rev.13:1-9)
																		Years	Name		Name	Years					
309		74																					309	3925 BCE			
310		75																					310	3924 BCE			
311		76	99 Civil Years are completed between (a) and (b).																Note: The Word of Yahweh is written as Mystery, Allegoric, Parables, Shadow etc. So Leviathan is the Submarine only but not the sea fish/dragon - Job 41st Chapter. So 49 Years means 49 - Year Luni Solar Cycle. These 49 Years are equal to 49 Tropical Years. So 49 Years = 49 - Year Luni Solar Cycle = 49 - Year Tropical Cyle = 606 Lunar Months = 588 Tropical Months = 17,896 days = 49 Luni Solar Years = 49 Tropical Years (Lev. 25:8-9; Job 38:1-33; Jer. 33:19-26; 31:35-37).				311	3923 BCE			
312		77	Say	Year	M	Day	Hrs.	Min.	Sec.	DW	CCM	SM	DL	DLM	312	3922 BCE											
313		78	(a)	4234 BCE	Feb.	23	18	00	00	Tue.	0	0	35°E	0°	313	3921 BCE

985	298	111				363																	986	3248 BCE				
986	299	112				364	Enock killed by Lamech - 1 with bronze or iron tool (From Cain's lineage) according to Genesis 4:16-24. So Bronze (Copper + Tin), and Iron are used about between 3712 BCE and 3247 BCE/608 BCE (Genesis 7:1-17; 13:2; 41:42-43; Exodus 28:18, 39:11; Ezekiel 22:17-22). So human history began from 4234 BCE is true (Isaiah 34:16; 44:7-11).																	987	3247 BC	Death of Enok	Genesis 5:21-24	
987	300	113				365																		988	3246 BCE			
988	301	114					Elijah went to Heaven in 929 BCE and sent a letter to Jehoram in 920 BCE, and may be died in 920 BCE (2 Kings 1:1-17 Cf. 2 Chronicles 21:1-20). So went to Heaven means went to Mountain (Ex. 3:12, 19:3). Elijah died on the Mountain.																	989	3245 BCE			
989	302	115																						990	3244 BCE			
990	303	116																						991	3243 BCE			
991	304	117																						992	3242 BCE			
992	305	118					Note: King Solomon didn't use steel in his reign (1103 BCE to 1063 BCE). Rulers of the World visited him - 1 Kings 10:14-29.																	993	3241 BCE			
993	306	119					There is no record of airplanes, computers etcetera in human history from 4234 BCE to about CE 1900 - 1 Kings 10:14-29.																	994	3240 BCE			
994	307	120					Yahweh's Book says about 4 Empires in 625 BCE that rule the World from 626 BCE to CE 1798 (Daniel 1:1-21; 2:1-49; 7:1-28 etc.)																	995	3239 BCE			
995	308	121					* Yahweh's Book recorded that people used copper, brass, tin, zinc, and iron before 3712 BCE - according to Genesis 4:1-22.																	996	3238 BCE			
996	309	122					* People used iron tools in the construction of Pyramids - (Genesis 6:1-4 Cf. Deut. 2:10).																	997	3237 BCE			
997	310	123					* Noah used iron in the construction of the ship in 2578 BCE - according to Genesis 7:1-23.																	998	3236 BCE			
998	311	124					* Israelis, and other people used silver, bronze, gold, pearls, iron, diamonds etcetera before 1579 BCE - Exodus 25:4;28:18; 39:11.																	999	3235 BCE			
999	312	125					* People used steel about between 726 BCE and 626 BCE - according to Jeremiah 15:12 Cf. 1 Kings 4:29-34.																	1000	3234 BCE			
1000	313	126					The Book of Yahweh proved that Israelis, Ishmaelis, the English [{Mainly USA (Manasseh) + UK (Ephraim) = Genesis 48:5, 13-20; 49:22-26}], and some European countries are the seed of Abraham - Genesis 17:20-23. This seed invented many. The World is blessed is blessed by the seed of Abraham (Genesis 12:3; 27:29; 28:14; 35:11-12). So please don't curse the seed of Abraham.																	1001	3233 BCE			
1001	314	127					49 Years are proved that the Creator is Yahweh because it is the relation between the Earth, Sun, Moon, and stars (Lev. 25:8-9; Gen. 1:14-19). Bigger light (Sun), and smaller light (Moon) gives Nights, Days, Phases of the Moon, and Seasons.																	1002	3232 BCE			
1002	315	128					Adam and Eve are expelled from Eden about about in 4135 BCE according to Genesis 4:1-12. Sin is counted from 20th year during the days of Mose. So Abel might be killed by Cain when he had about 21 years (Numbers 14:29-38). However, Yahweh is going to fulfill His Word (Matt. 24:35). We are living in the days of Noah and Lot (Luke 17:26-30; Matt. 24:14).																	1003	3231 BCE			
1003	316	129																						1004	3230 BCE			
1004	317	130																						1005	3229 BCE			
1005	318	131																						1006	3228 BCE			
1006	319	132																						1007	3227 BCE			
1007	320	133																						1008	3226 BCE			
1008	321	134					Any Religious Book is a fable if it says people, gods, and goddesses used bronze, iron, steel, and airplanes before 4234 BCE.																	1009	3225 BCE			
1009	322	135																						1010	3224 BCE			
1010	323	136					49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle are giving accurate Phases of the Moon, and Seasons. This is written in Leviticus 25:8-9.

1058	371	184	2	Research (Acts 17:10-12; John 5:39): Egyptian Pyramids were constructed by the children of Angels approximately between 2698 BCE and 2578 BCE. Gaints were born to the Angels during those days. Let's call them as Anakim/Nephilim (About 35 feet = Genesis 6:1-4 Cf. Deut. 1:28; 2:10-11, 21; 9:1-6; Numbers 13:22-33;). Angels were became as young men then they married the daughters of men (Genesis 6:1-5). Those Angels (Sons of God) were chained in 2578 BCE, and the hybrid people (Gaints) died in the Flood in 2578 BCE (Genesis 6:1-4; 7:6-23; Deut. 1:28; Cf. 2 Peter 2:4; Jude 6).																				1058	3176 BCE

1633	946	759	577	75	97																		1633	2601 BCE			

Research (Acts 17:10-12; John 5:39): Egyptian Pyramids were constructed by the children of Angels approximately between 2678 BCE and 2578 BCE because the time given to the children of Angels is 120 Years only (Genesis 6:1-3). Giants were born to the Angels during those days. People called them as Anakim/Nephilim (About 35 feet = Genesis 6:1-4 Cf. Deut. 1:28; 2:10-11, 21; 9:1-6; Num. 13:22-33;). Angels became young men then they married beautiful daughters of men. Yahweh gave time for the children of Angels up to 120 years only (Genesis 6:1-5). Those Angels (Sons of God) were chained in 2578 BCE, and the hybrid people (Giants) died in the Flood in 2578 BCE (Genesis 6:1-4; 7:6-23; Deut. 1:28; Cf. 2 Peter 2:4; Jude 6). Therefore there is no human history beyond 4234 BCE (Genesis 1:24-31), and the Pyramids are constructed between 2578 BCE and 2678 BCE is true. Don't believe in the knowledge of astronomers, and scientists because they are learning from nature. Astronomers and all scientists didn't know the formula of the Luni Solar Calendar which gives Phases of the Moon, and Seasons. How can they predict accurate years of past events without knowing basic knowledge of History that is based on the Luni Solar Calendar? This is the time learn accurate History through the Book of Yahweh. Yahweh is going to punish all in the future about from CE 3136 according to Rom. 14:10-12.

The Book of Yahweh gave the record of brass, tin, silver, lead, copper, iron, steel, gold, diamonds, and so on. The people in this World used metals by Metallurgy only. How can you believe that there are Giants beyond 4234 BCE? How can you believe that there are metals, and alloys before the existence of the people? Religious leaders and scientists are misleading the people under the veil of the Creator and science. Please confirm History with scientific proofs only. Please note that history should be written in terms of Luni Solar Years only because there are Phases of the Moon, and Seasons in the History. That is why the Book of Yahweh gave History in terms of Phases of the Moon, and Seasons (Psalms 104:19; John 18:18 Cf. Mark 11:12-14; Jeremiah 40:1-12; Exodus 9:1-35 etc.).

JEWISH HISTORY FROM 4234 BCE TO CE 2136 (WITH HISTORICAL AND SCIENTIFIC PROOFS - GENESIS 1:13-19; DAN. 2:1-49;7:1-28; EPH. 1:1-19)																													
From Adam	Methuselah	Lemek	Noah	Shem	Arphaxad	Selah	Eber	Peleg	Reu	Serug	Nahor	Terah and Clues	Abraham Galatians 2:14,3:7-29; Rom. 9:6-9,11:17	Issac	Yacob	Yoseph and Clues	Years from Canaan (MH)	Kings of Judah		Missing Years/Clue	Kings of Israel		Total Years (SM)	BC = BCE and AD = CE	Subject, Emperor's name/Ottoman King/PM of Israel	49 - YC	References, and Name of Pope (Daniel 7:1-25; Rev.13:1-9)		
																			Years	Name		Name	Years						
1634	947	760	578	76	98																		1634	2600 BCE					
1635	948	761	579	77	99		Note: All Dinosaurs died in the flood strictly in 2578 BCE only because the Ark can't bear the load of dinosaurs, and their length - Genesis 7:21-23. Plants, grass, herbs, and grains, etcetera are the food of the dinosaurs from 26th Feb., 4234 BCE to about 4135 BCE according to Genesis 1:30-31 Cf. Genesis 3:17-19. Yahweh, the Creator created the grass, herbs, and trees on 23rd February 4234 BCE according to Genesis 1:9-13. All fish and birds are created by Yahweh on 25th February 4234 BCE only according to Genesis 1:20-23. Finally, all reptiles, animals, beasts, Dragons, dinosaurs, etcetera, and Adam are created by Yahweh on 26th February 4234 BCE according to Genesis 1:24-31. Cattle, birds, and fish may be the food of dinosaurs after Adam, and Eve are cursed (Genesis 3:17-19). Adam's food may be the clean fish, cattle, and birds after Adam, and Eve are cursed (Genesis 9:1-7). All this proved that there is no light, Sun, Moon, stars, grass, fish, animals, and Adam before 6 AM on 21st February 4234 BCE according to Genesis 1:1-31. There is darkness and no life until 23rd February 4234 BCE (Genesis 1:9-13). Astronomers, Geologists, Zoologists, Ornithologists, Archeologists, and other scientists are guessing that there is life before millions of years. That is why all these scientists are misleading the people under the veil of science just as Religious are misleading the people under the veil of gods, goddesses, the Creator, and their festivals to this very day. So don't believe any scientific fictions, and religious fables henceforth because people are counting years. There is no history if there is no man. This history is recorded in the Book of Yahweh from 4234 BCE to this very day. This history is based on Luni Solar Calendar. This Calendar is again based on a formula. This formula is written in Leviticus 25:8-9. This formula is written in Yahweh's Book. That is why Yahweh is telling all the necessary things. They are written in His Book. So trust in Yahweh's Word and reject the fictions of scientists. Yahweh is going to punish all the wicked according to Jeremiah 25:29; Romans 1:18-32; Matthews 7:15-23; 23:13-36; Luke 6:24-26; 10:10-16.																		1635	2599 BCE

Note: All Dinosaurs died in the flood strictly in 2578 BCE only because the Ark can't bear the load of dinosaurs, and their length - Genesis 7:21-23. Plants, grass, herbs, and grains, etcetera are the food of the dinosaurs from 26th Feb., 4234 BCE to about 4135 BCE according to Genesis 1:30-31 Cf. Genesis 3:17-19. Yahweh, the Creator created the grass, herbs, and trees on 23rd February 4234 BCE according to Genesis 1:9-13. All fish and birds are created by Yahweh on 25th February 4234 BCE only according to Genesis 1:20-23. Finally, all reptiles, animals, beasts, Dragons, dinosaurs, etcetera, and Adam are created by Yahweh on 26th February 4234 BCE according to Genesis 1:24-31. Cattle, birds, and fish may be the food of dinosaurs after Adam, and Eve are cursed (Genesis 3:17-19). Adam's food may be the clean fish, cattle, and birds after Adam, and Eve are cursed (Genesis 9:1-7). All this proved that there is no light, Sun, Moon, stars, grass, fish, animals, and Adam before 6 AM on 21st February 4234 BCE according to Genesis 1:1-31. There is darkness and no life until 23rd February 4234 BCE (Genesis 1:9-13). Astronomers, Geologists, Zoologists, Ornithologists, Archeologists, and other scientists are guessing that there is life before millions of years. That is why all these scientists are misleading the people under the veil of science just as Religious are misleading the people under the veil of gods, goddesses, the Creator, and their festivals to this very day. So don't believe any scientific fictions, and religious fables henceforth because people are counting years. There is no history if there is no man. This history is recorded in the Book of Yahweh from 4234 BCE to this very day. This history is based on Luni Solar Calendar. This Calendar is again based on a formula. This formula is written in Leviticus 25:8-9. This formula is written in Yahweh's Book. That is why Yahweh is telling all the necessary things. They are written in His Book. So trust in Yahweh's Word and reject the fictions of scientists. Yahweh is going to punish all the wicked according to Jeremiah 25:29; Romans 1:18-32; Matthews 7:15-23; 23:13-36; Luke 6:24-26; 10:10-16.

<http://www.aeraweb.org/projects/how-old-are-the-pyramids/>

The children of Angels died in the Flood in 2578 BCE (Genesis 6:1-3). Methuselah died just before the flood (Genesis 5:27).

<http://www.aeraweb.org/projects/how-old-are-the-pyramids/>

Shem begot Arphaxad when he had 100 years.

Yahweh's Word is the stumbling block sometimes. So search for all truth (Matt. 6:30-33; 1 Cor. 2:12-13; 13:10; 2 Tim. 2:15)

Note: Leviathan is the Submarine only but not the sea fish - Job 40th to 41st Chapter. So 49 Years means 49 - Year Luni Solar Cycle. These 49 Years are equal to 49 Tropical Years. So 49 Years = 49 - Year Luni Solar Cycle = 49 - Year Tropical Cyle = 606 Lunar Months = 588 Tropical Months = 17,896 days = 49 Luni Solar Years = 49 Tropical Years (Leviticus 25:8-9).

The sons of God (Angels) who married the beautiful daughters of men before 2698 BCE (Genesis 6:1-8).

1757			701	199	99	64	34	0	Eber begat Peleg. The Continental Drift occurred in 2477 BCE according to Genesis 10:24-25													1757	2477 BCE	Birth of Peleg		Gen. 11:16											
1758			702	200	100	65	35	1															1758	2476 BCE													
1759			703	201	101	66	36	2			All scientists are failed in discovering accruate length of day, Lunar Month, and Tropical year to this very day. Basic Astromy comes under 10th or Intermediate Mathematics. I am disproving the Phases of the Moon calculated by NASA and IAU from 2000 BCE to CE 4000. All these Phases of the Moon are not accurate. Astronomers are simply misleading the World under the veil of scientific fictions. Astronomers were unable to discover the relation between the Earth, Sun, and Moon in the form of Luni Solar Cycle and Tropical Cycle. That is why Astronomers are telling that the length of day, Lunar Month, and Tropical Year vary always. This is the false Cocept. I discovered that the Almighty Yahweh determiend the length of day as 86,400 seconds, Synodic Month as 29.53135314 days, and Tropical Year as 365.2244898 days. These are Constant forever (Jeremiah 33:19-26). So the Continental Drift occurred in 2477 BCE is true forever. All the Scriptural Years are bases on the Scriptural Lunar Month determined by Yahweh.												1759	2475 BCE

NOTE: Scientists are misleading that the Continental Drift tookplace some million of years before. In the similar way, astronomers are misleading that the Earth, Sun, Moon, and stars created by the bigbang theory. None has proved that bingbang occurred in some millions of years before. Yahweh, the Creator says that I created the Universe (Isaiah 45:12).

All scientists are failed in discovering accruate length of day, Lunar Month, and Tropical year to this very day. Basic Astromy comes under 10th or Intermediate Mathematics. I am disproving the Phases of the Moon calculated by NASA and IAU from 2000 BCE to CE 4000. All these Phases of the Moon are not accurate. Astronomers are simply misleading the World under the veil of scientific fictions. Astronomers were unable to discover the relation between the Earth, Sun, and Moon in the form of Luni Solar Cycle and Tropical Cycle. That is why Astronomers are telling that the length of day, Lunar Month, and Tropical Year vary always. This is the false Cocept. I discovered that the Almighty Yahweh determiend the length of day as 86,400 seconds, Synodic Month as 29.53135314 days, and Tropical Year as 365.2244898 days. These are Constant forever (Jeremiah 33:19-26). So the Continental Drift occurred in 2477 BCE is true forever. All the Scriptural Years are bases on the Scriptural Lunar Month determined by Yahweh.

Note: The years between the Flood and the Continental Drift = 101 Years (SM 1757 - SM 1656 = 2477 BCE - 2578 BCE = Luni Solar Years only). The axis of the Earth may be tilted to 24° because Yahweh used few as 3, 7, 10, 12, 24, 30, 40, 49, 50, 70, 490 and so on in His calculations.

JEWISH HISTORY FROM 4234 BCE TO CE 2136 (WITH HISTORICAL AND SCIENTIFIC PROOFS - GENESIS 1:13-19; DAN. 2:1-49;7:1-28; EPH. 1:1-19)																												
From Adam	Methuselah	Lemek	Noah	Shem	Arphaxad	Selah	Eber	Peleg	Reu	Serug	Nahor	Terah and Clues	Abraham Galatians 2:14,3:7-29; Rom. 9:6-9,11:17	Issac	Yacob	Yoseph and Clues	Years from Canaan (MH)	Kings of Judah		Missing Years/Clue	Kings of Israel		Total Years (SM)	BC = BCE and AD = CE	Subject, Emperor's name/Ottoman King/PM of Israel	49 - YC	References, and Name of Pope (Daniel 7:1-25; Rev.13:1-9)	
																			Years	Name	Missing Years/Clue	Name	Years					
1790			734	232	132	97	67	33	3	Research			This is the time to realize which Chronology and History is suitable (1 Corinthians 2:13)										1790	2444 BCE				Deut. 29:29
1791			735	233	133	98	68	34	4														1791	2443 BCE				Deut. 31:12
1792			736	234	134	99	69	35	5			Search The Book of Yahweh to find all truth (1 Thessalonians 5:21).	All Gentiles are circumcised with the circumcision made without hands (Col. 2:11; Php. 3:1-14 Cf. Deut. 30:6; Jer. 4:4, 9:25; Rom. 4:11; 3:31; Gal. 5:3; Acts 24:13-14, 26:23; 1 Cor. 7:17-19). So Jews and gentiles should celebrate the Sabbath, and Feasts such as Pesach, Chag HaMatzoth, Sukkoth and so on (1 Cor. 5:7-8; Acts 18:2-21 KJV; Matt. 24:20; Isaiah 56:3-7; 58:13-14). So the physical seed of Abraham should be Circumcised (Acts 16:1-3 Cf. Gal. 2:1-3 Cf. Gal. 2:1-5) but all Gentiles should walk like Jews (Gal. 2:14). And Gentiles should eat all clean foods only just as Jews (Gal. 2:14; 6:15-16; 3:36-29; 4:28-31; Zech 8:23; Romanns 11:13-23; Exodus 12:48-49; Eph. 4:4-6). Yahweh's Word is preached through His Chosen Servants: As Allegoric (Galatians 4:24), Parables (Matt. 13:3, 10-17, 5, 39; 21:45;), Shadow (Col. 2:17; Heb. 10:1, 8:5), Mystery (Matt. 13:11, Rom. 1:20, 10:7, 17:5, 7), Proverbs (John 16:25, 29), and Rightly dividing (2 Timothy 2:15). So prove all thigs otherwise you will be killed by STUMBLINGBLOCKS that can kill you Spiritually. Yahweh's Word is preached through the Servants of Satan: As a false Teacher in the form of damnable heresies, feigned words, perneicious ways (2 Peter 2:1-3), good words and fair speeches (Romans 16:17-18), Corrupt the Word of God (2 Cor. 2:17), other Gospel (Gal. 1:6-9), Walk like dogs, and for the sake of stomach (Php. 3:1-3, 17-21 Cf. Rev. 22:15; Isaiah 56:10-11), Philosophy, and vain deceit (Col. 2:8, 20-22), False brethren that might bring the Chosen into bondage (Gal. 2:1-6) and so on.										1792	2442 BCE

1854			798	296	196	161	131	97	67	35	5	36	Research: Present Jews and Christians are not following accurate History. That's why the whole Jewish nation is celebrating the Appointed Time of Yahweh on the wrong dates since CE 1948. The occurrence of each Extra Month, Luni Solar New Year, New Moon, Sabbatical Year, Jubilee Year, and Year of Tithe is the greatest puzzle in Israel and in Messianic Jews. This puzzle is solved by this History. So let's restore accurate History, and the formula of Yahweh's Luni Solar Calendar now (Matthews 6:31-33; John 5:39; 1 Thess. 5:21 KJV etcetera).													1854	2380 BCE

2046	58	68	27	488	388	353	323	23	20	227	30	168	98	l	Destruction of Sodom/Gomorrah in 2187 BCE (SM 2047).										2046	2188 BCE			
2047	59	69	28	489	389	354	324	24	21	228	31	169	99	m	Abraham/Ishmael were Circumcised - Gen. 17:23-27.										2047	2187 BC			
2048	60	Lot's Age: > 69 Years (Let's say)	Lot's Son's age: > 28 Years (Let's say)	490	390	355	325	Lot's Elder daughter's age: > 24 (Let's say).	Lot's younger daughter's age: > 21 (Let's say)	229	Lot's son's age: > 31 Years (Let's say)	170	100	Issac	Abraham begat Issac when he had 100 yers.										2048	2186 BCE	Birth of Issac	Gen. 21:5-7	
2049	61			491	391	356	326			230		171	101	1	Issac was Circumcised on 8th day after the distruction of Sodom and Gomorrah - Genesis 21:5; 19:23-29.										2049	2185 BCE	Death of Serug	Gen. 11:22-23	
2050	62			492	392	357	327					172	102	2	Research: The age of Lot may be greater than 69 years. Abraham guessed that Lot's family members may be around 50 persons (Genesis 18:16-33). So Lot might have more than 4 children. The sons of Lot and his sons-in-law didn't believe the words of Angels. The present World is not believing the Word of Yahweh (Luke 17:26-30; 2 Peter 3:7-12). So the age of Lot's sons and daughters may be between 40 and 21. I guess the age of a few persons only.										2050	2184 BCE

2108				550		415	385						160	60	0	Issac begot Esau and Yacob at the age of 60 years.							2108	2126 BCE		Genesis 25:26		
2109				551		416	386						161	61	1								2109	2125 BCE				
2110				552		417	387						162	62	2								2110	2124 BCE				
2111				553		418	388						163	63	3	Note: Yacob (Jacob) was neither a liar nor a cheater but a plain man (Genesis 25:27). Yacob bought Esau's birthright (Genesis 25:29-34). So Yacob had the right to claim that he was Esau to get the double blessings from Issac (Deuteronomy 21:15-17; Psalms 78:8, 71-72). That's why the Word of Yahweh is coming to Yacob first (Acts 13:46; Romans 3:1-2; Numbers 23:23; Psalms 147:19-20).							2111	2123 BCE

3279		Asa reigned 56 years is true because the years completed from the 5th year of Solomon to 10th year of Zedekiah should be 490 Years (1099 BCE to 609 BCE) according to Jeremiah 25:10-12. Israelis/House of Judah didn't keep 70 Land Sabbaths (70 X 7 Years = 490 Luni Solar Years) from 1099 BCE to 609 BCE. So study this History carefully from Adam to CE 2136 (Revelations 20:4-6).												Proof	143	583.5	? 3313															Proof	177	617.5	4	Jehoram	OK	Joram	7	3313	922 BCE	NOTE: Elijah (Elijah) went to Heaven in 929 BCE. Elijah sent a letter to Jehoram in 920 BCE. So Elijah stayed 9 years on the Mountain (Called as Heaven) - 2nd Chronicles 21:12-20 Cf. 2 Kings 1:1-17. This proves that Elijah stayed on a Mountain for 9 years. So Heaven means a Separate place (Holy Mountain). Elijah died after he sent a letter to Jehoram from the Mountain. Angels of Yahweh buried him on the Mountain. So Enok, and Elijah died in Adam is proved (1 Cor. 15:35-58; Genesis 3:17-19).

3398															Proof	262	702.5	?	Amaziah	5	Jeroboam	19	3398	837 BCE				
3399		Amaziah reigned 40 years is true because the years completed from the 5th year of Solomon to 10th year of Zedekiah should be 490 Years (1099 BCE to 609 BCE) according to Jeremiah 25:10-12. Israelis/House of Judah didn't keep 70 Land Sabbaths (70 X 7 Years = 490 Luni Solar Years) from 1099 BCE to 609 BCE. So study this History carefully from Adam to CE 2136 (Revelations 20:4-6).														Proof	263	703.5	?	Amaziah	6	Jeroboam	20	3399	836 BCE

3680			All the Scriptural Luni Solar Years are recorded in the Book of Yahweh according to His Luni Solar Calendar Formula only (49 - Year Luni Solar Cycle = 606 Lunar Months = 17,896 days = Leviticus 25:8-9). The length of the Scriptural Tropical Year determined by Yahweh the Creator = 365.2244898 days only and the Scriptural Lunar Month = 29.53135314 days. So there is a vast difference between gentile history and the Scriptural history. So history that is recorded in the Book of Yahweh is authentic only (Matthews 24:35).												53		984.5	133rd Land Sabbath = 44839 CCM - 44850 CCM = From 6 PM on 29th May, 609 BCE to 6 PM on 18th May, 608 BCE. For the complete picture, please study in z20 or 1b Case - 5 on our website. Note: 88 years (626 BCE - 538 BCE) are recorded in the Book of Yahweh from Nebuchadnezzar to Belsassar. Daniel lived in the reign of Belsassar - Daniel 5:1-31; 7:1-28; 8:1-27. Belsassar may be died in his 3rd year reign (Daniel 5:1-31 Cf. 8:1-27). Jews returned from Captivity in 538 BCE - Lev. 26:34-43; 2 Chr. 36:21-23; Isa. 45:1-13; 44:28; Ezra 1:1-8; Dan. 5:1-31; 6:1-28; 9:1-3.				6	3680	555 BCE	Nabonidus

3753			Ezra came to Jerusalem in 455 BCE whereas Nehemiah came to Jerusalem in 442 BCE - Nehemiah 1:11; 2:1- 20; 3:1-32; 4:1-23; 5:1-19; 6:1-15; 7:1-73. Nehemiah constructed the walls around Jerusalem and repaired them and finished all the necessary work in JERUSALEM with in 12 YEARS from 442 BCE to 430 BCE (Nehemiah 5:14 Cf. Neh. 6:15; 13:6). Scriptural History is authentic but not history that is recorded by men.									Please note that 70 WEEKS PROPHECY began strictly in 455 BCE during the days of Artaxerxes Longmanus. Yahweh used Cyrus, Darius, and Artaxerxes Longmanus between 538 BCE and 455 BCE to finish His mission concerning His will (Acts 4:27-28). So don't be cheated by false history, Chronology, and misinterpretation.						57	1057.5					20	3753	482 BCE	Ahasuerus

4208																428	1512.5		Roman History from Rome		4208	27 BCE	Augustus Caesar	
4209	YOU WILL GIVE THE ACCOUNT TO YAHWEH ON THE DAY OF JUDGEMENT BECAUSE HE GAVE YOU LIFE, HEALTH, FOOD, MONEY, WIFE, AND CHILDREN - ROMANS 14:10-12; EX. 19:5; DEUTERONOMY 28:47; HAGGAI 2:8; MATT. 12:36.															429	1513.5		founded:		4209	26 BCE	Augustus Caesar	
4210																430	1514.5				4210	25 BCE	Augustus Caesar	
4211																431	1515.5		https://en.wikipedia.org/wiki/Timeline_of_Roman_history		4211	24 BCE	Augustus Caesar	
4212																432	1516.5				4212	23 BCE	Augustus Caesar	
4213																433	1517.5		ory		4213	22 BCE	Augustus Caesar	
4214	(1). Yahweh gave His Commandments to the children of Abraham. Yahweh chose His people before the foundations of the Earth (Acts 10:35-36; 15:14-21; Ephesians 1:1-12; Numbers 23:23; Psalms 135:4; 147:19-20). Are you studying Yahweh's Book to obey all His Commandments? - Deuteronomy 27:10. The chosen gentiles followed Israelis from 1579 BCE to CE 33. Now gentiles should follow the same pattern only (Acts 15:12-21; 21:24; 26:23 etc.).															434	1518.5				4214	21 BCE	Augustus Caesar	86
4215																435	1519.5				4215	20 BCE	Augustus Caesar	
4216																436	1520.5		Are you celebrating the Feast of Pesach in the right Seasons as Comanded in 1 Corinthians 5:7-8?		4216	19 BCE	Augustus Caesar	
4217																437	1521.5				4217	18 BCE	Augustus Caesar	
4218																438	1522.5				4218	17 BCE	Augustus Caesar	
4219	(2). You have not been chosen by Yahweh if you would not celebrate the Feast of Pesach in the right Season (1 Cor. 5:7-8; Colossians 2:16). You have not been chosen by Yahweh (Yahshua) if you are not Graffed in the Chosen Jews (Romans 11:13-23 Cf. Gal. 2:14; Zech. 8:23; 8:18-19). Please note that you were not chosen by Yahweh if you didn't change your idolatry names, caste names, Religion names, and all your previous traditions still (2 Cor. 5:17; Rom. 2:13; 2:26-29; 11:17-20; 9:23-26; Php. 3:1-3; 1 Cor. 7:19; Gal. 6:15-16; Eph. 4:4-6). That's why compare your Spiritual life with the CHOSEN JEWS (Matt. 24:20; 1 Thess. 2:14). The New Covenant is not made with gentiles but with the chosen Jews (Jer. 31:31-33). So your foundation should be equal to the foundation of the Jewish Apostles otherwise you were the seed of Satan (Matt. 13:39; 23:33-39; John 8:44-47; 2 Peter 2:1-19; Jude 1-5; 1 Tim. 4:1-2; 1 John 4:1-6).															439	1523.5				4219	16 BCE	Augustus Caesar	
4220																440	1524.5				4220	15 BCE	Augustus Caesar	
4221																441	1525.5				4221	14 BCE	Augustus Caesar	
4222																442	1526.5		Do you know the formula of Yahweh's Luni Solar Calendar to celebrate His Festivals in the right Season?		4222	13 BCE	Augustus Caesar	
4223																443	1527.5				4223	12 BCE	Augustus Caesar	
4224																444	1528.5				4224	11 BCE	Augustus Caesar	
4225																445	1529.5				4225	10 BCE	Augustus Caesar

JEWISH HISTORY FROM 4234 BCE TO CE 2136 (WITH HISTORICAL AND SCIENTIFIC PROOFS - GENESIS 1:13-19; DAN. 2:1-49;7:1-28; EPH. 1:1-19)

From Adam	Methuselah	Lemek	Noah	Shem	Arphaxad	Selah	Eber	Peleg	Reu	Serug	Nahor	Terah and Clues	Abraham Galatians 2:14,3:7-29; Rom. 9:6-9,11:17	Issac	Yacob	Yoseph and Clues	Years from Canaan (MH)	Kings of Judah		Missing Years/Clue	Kings of Israel		Total Years (SM)	BC = BCE and AD = CE	Subject, Emperor's name/Ottoman King/PM of Israel	49 - YC	References, and Name of Pope (Daniel 7:1-25; Rev.13:1-9)				
																		Years	Name		Name	Years									
4323			So let's count years by the inspiration of Yahweh's Spirit (Rom. 8:9).													53	1627.5							4323	CE 89	Domitian		Clement - 1			
4324			Abel died in 4114 BCE - Numbers 14:29; Genesis 5:3; 4:1-9.													54	1628.5			1 Day = 1,000 Years.				4324	CE 90	Domitian		Clement - 1			
4325			1st Day = 4114 BCE to 3114 BCE (Luke 11:50-51).													55	1629.5							4325	CE 91	Domitian		Clement - 1			
4326			2nd Day = 3114 BCE to 2114 BCE (Luke 11:50-51).													56	1630.5							4326	CE 92	Domitian		Clement - 1			
4327			3rd Day = 2114 BCE to 1114 BCE (Luke 11:50-51).													57	1631.5				6 PM to 12 PM = 250 Years.			4327	CE 93	Domitian		Clement - 1			
4328			4th Day = 1114 BCE to 0114 BCE (Luke 11:50-51).													58	1632.5			6 PM to 6 AM = 500 Years.				4328	CE 94	Domitian		Clement - 1			
4329			5th Day = 0114 BCE to CE 0886 (Luke 11:50-51).													59	1633.5							4329	CE 95	Domitian		Clement - 1			
4330			6th Day = CE 0886 to CE 1886 (Luke 11:50-51).													60	1634.5							4330	CE 96	Domitian/Nerva		Clement - 1			
4331			The Bridegroom Tarried = CE 1886 to CE 2136 (2 Watches).													61	1635.5			6 PM to 6 PM = 1,000 Years.				4331	CE 97	Nerva		Clement - 1			
4332			7th Day = CE 2136 to CE 3136 (Luke 11:50-51).													62	1636.5							4332	CE 98	Nerva/Trajan		Clement - 1			
4333			The Jewish Messiah impaled on the stake after the end of the 4th day according to Exodus 12:1-6. The Lamb should not be killed before the 13th Abib or after the 14th Abib. You will be cut off if you kill the Lamb as you wish. Many misunderstood Exodus 12:1-6 and died Spiritually.														63	1637.5						4333	CE 99	Trajan		Cle. 1/Eva.			
4334																	64	1638.5						1st Day = From 6 PM on 9th Abib to 6 PM on 10th Abib = 4114 BCE to 3114 BCE.			4334	CE 100	Trajan		Evaristus
4335																	65	1639.5									4335	CE 101	Trajan		Evaristus
4336																	66	1640.5									4336	CE 102	Trajan		Evaristus
4337			Those who are eating the Bread (The Body of the Messiah), and drinking the Wine (The Blood of the Messiah) after the end of 14th Abib are cut off from the Book of Life - Num. 9:1-14. Please note that 15th Abib begins after the end of 336 hours.														67	1641.5			2nd Day = From 6 PM on 10th Abib to 6 PM on 11th Abib = 3114 BCE to 2114 BCE.				4337	CE 103	Trajan		Evaristus		
4338																	68	1642.5									4338	CE 104	Trajan		Evaristus
4339																	69	1643.5									4339	CE 105	Trajan		Six./Ale.
4340			14th Abib stands for "Yahweh passedover Israelis" - Exodus 12:13, 27.														70	1644.5			3rd Day = From 6 PM on 11th Abib to 6 PM on 12th Abib = 2114 BCE to 1114 BCE.				4340	CE 106	Trajan		Alexander		
4341			15th Abib stands for "Israelis came out of Egypt" - Exodus 12:42; 13:3; 23:15; 34:18; Deut. 16:3.														71	1645.5							4341	CE 107	Trajan		Alexander		
4342			The Paschal Lamb should be killed between 114 BCE and CE 886 because this period of the 5th day. That's why the Messiah died on the 5th day ie. in CE 33.														72	1646.5							4342	CE 108	Trajan		Alexander		
4343																	73	1647.5						4th Day = From 6 PM on 12th Abib to 6 PM on 13th Abib = 1114 BCE to 0114 BCE.			4343	CE 109	Trajan		Alexander
4344			Many are Killing the Paschal Lamb (Eating the Paschal Lamb on 15th Abib) on the 15th Abib (After the end of 14th Abib) now. 6th Day is counted from CE 886 to CE 1886. The Messiah was not impaled between CE 886 and CE 1886. So be careful about the Paschal Lamb (1 Cor. 11:17-34 Cf. 5:7-8). 15th Abib indicates a departure from Egypt (Deut. 16:3; Ex. 13:8; 23:15; 34:18).														74	1648.5							4344	CE 110	Trajan		Alexander		
4345																	75	1649.5									4345	CE 111	Trajan		Alexander
4346																	76	1650.5						5th Day = From 6 PM on 13th Abib to 6 PM on 14th Abib = 0114 BCE to CE 0886.			4346	CE 112	Trajan		Alexander
4347					77	1651.5									4347	CE 113	Trajan		Alexander												
4348					78	1652.5									4348	CE 114	Trajan		Alexander												
4349			The Jewish Messiah died as the Peschal Lamb on the 14th Abib (After the end of 13th Abib). The Messiah died as the Paschal Lamb, Morning and Evening Sacrifice. So 4 days = 4114 BCE to 114 BCE = From 6 PM on 9th Abib to 6 PM on 13th Abib. So Israelis ate up Pescah on the 5th day. This 5th day is 14th Abib. This 5th day is counted from 6 PM on 13th Abib to 6 PM on 14th Abib only - Exodus 12:1-8. You will die spiritually if you don't understand 4 days (Exo. 12:1-7).														79	1653.5			6th Day = From 6 PM on 14th Abib to 6 PM on 15th Abib = CE 0886 to CE 1886.				4349	CE 115	Trajan		Alex./Sixtus		
4350																	80	1654.5									4350	CE 116	Trajan		Sixtus - 1
4351																	81	1655.5									4351	CE 117	Trajan/Hadrian		Sixtus - 1
4352																	82	1656.5									4352	CE 118	Hadrian		Sixtus - 1
4353			2 days for Jews = 2000 Years = CE 136 to CE 2136 (2 Peter 3:8 = Hosea 6:1-3; Lk. 21:24) is true.														83	1657.5			The Paschal Lamb should be killed on the 5th Day but not on the 6th day - Ex. 12:1-6. So the Messiah and the Apostles celebrated Pesach after the end of the 4th day ie. after the end of the 13th Abib (13 X 24 hours = 312 hours). So 14th Abib = From 6 PM on 13th Abib to 6 PM on 14th Abib. The Scribes, and Pharisses kept Pesach on 15th day = Fake (John 18:28 X Ex. 12:1-14).				4353	CE 119	Hadrian		Sixtus - 1		
4354																	84	1658.5									4354	CE 120	Hadrian		Sixtus - 1
4355																	85	1659.5									4355	CE 121	Hadrian		Sixtus - 1
4356			2 days for Gentiles = 2000 Years = CE 36 to CE 2036 (2 Peter 3:8 = John 4:39-45) is true.														86	1660.5							4356	CE 122	Hadrian		Sixtus - 1		
4357																	87	1661.5									4357	CE 123	Hadrian		Sixtus - 1
4358																	88	1662.5									4358	CE 124	Hadrian		Sixtus - 1
4359			Yahweh was not manifest in the flesh before 4 days. So 4 days = 4114 BCE to 114 BCE.														89	1663.5			Abib to 6 PM on 14th Abib. The Scribes, and Pharisses kept Pesach on 15th day = Fake (John 18:28 X Ex. 12:1-14).				4359	CE 125	Hadrian		Six./Tel.		
4360																	90	1664.5									4360	CE 126	Hadrian		Telesphorus
4361			Note: So the Bridegroom tarried from 6 PM to 12 PM (250 Years = CE 1886 to CE 2136) is true.														91	1665.5						4361	CE 127	Hadrian	89	Telesphorus			

JEWISH HISTORY FROM 4234 BCE TO CE 2136 (WITH HISTORICAL AND SCIENTIFIC PROOFS - GENESIS 1:13-19; DAN. 2:1-49;7:1-28; EPH. 1:1-19)

From Adam	Methuselah	Lemek	Noah	Shem	Arphaxad	Selah	Eber	Peleg	Reu	Serug	Nahor	Terah and Clues	Abraham Galatians 2:14,3:7-29; Rom. 9:6-9,11:17	Issac	Yacob	Yoseph and Clues	Years from Canaan (MH)	Kings of Judah		Missing Years/Clue	Kings of Israel		Total Years (SM)	BC = BCE and AD = CE	Subject, Emperor's name/Ottoman King/PM of Israel	49 - YC	References, and Name of Pope (Daniel 7:1-25; Rev.13:1-9)					
																		Years	Name		Name	Years										
4362																92	1666.5	2 Days Prophecy (Hosea 6:1-2)	Jews expelled from Israel in CE 135 in the reign of Hadrian, the Roman Emperor and scattered among all nations (Deut. 28:64). Israelis lived among the gentiles from CE 135 to CE 1948 only according to Luke 21:24; 13:6-9 Cf. Hosea 6:1-2 but 2,000 years will be completed in CE 2136. The fig tree is budding from CE 1948. So the Messiah will come again to rule the chosen Jews and gentiles from the beginning of the 3rd day (Hosea 6:1-3).	4362	CE 128	Hadrian		Telesphorus								
4363															93	1667.5	4363			CE 129	Hadrian		Telesphorus									
4364				4234 BCE to 4114 BCE = 120 Years. Abel died in 4114 BCE at the age of 20 Years is true - Numbers 14:29.											94	1668.5	4364			CE 130	Hadrian		Telesphorus									
4365															95	1669.5	4365			CE 131	Hadrian		Telesphorus									
4366															96	1670.5	4366			CE 132	Hadrian		Telesphorus									
4367															97	1671.5	4367			CE 133	Hadrian		Telesphorus									
4368															98	1672.5	4368			CE 134	Hadrian		Telesphorus									
4369				"The Word of Yahweh" went out of Spiritual Jerusalem, and Spiritual Zion from CE 135 to CE 1948 only. So Micah 4:1-2; Isaiah 2:1-3 are fulfilled between CE 33 and CE 40. So Zion = The Bride. "Upper Room" is located in Jerusalem. So the Word of Yahweh went out of the Upper Room through the Bride (3,000 Saints) - Acts 2:37-47; 13:46. Therefore Isaiah 2:1-3; Micah 4:1-3 are fulfilled already. So we should not use Isaiah 2:1-3 and Micah 4:1-3 now. Some physical Jews and many gentiles are telling about Isaiah 2:1-3; Micah 4:1-3.											99	1673.5	4369			CE 135	Hadrian		Telesphorus

5806																1536	3110.5	1436	1034				5806	CE 1572	Selim - 2		Gregory - 13	
5807																1537	3111.5	1437	1035	Research: Gregorian Calendar is introduced in AD or CE 1582 by Pope Gregory 13th in the reign of 4th Empire (Roman Empire = Daniel 7:7). This proved that Popes ruled the World with religious power from CE 538 to CE 1798 is true. So Daniel 7:25 is fulfilled. Yahweh's Word is true because the Roman Empire ruled the World (Revelations 13:1-3 Cf Daniel 7:1-28; 8th to 12th Chapters). The United Europe (The Old dreaded Beast = Dragon = Revelations 13:3) will rule the whole World about from CE 2132 to 2136. So Julian and Gregorian Calendars are not determined by Yahweh but by the demon, Satan (Ephesians 6:10-12; Romans 1:14-32; Luke 23:31; 22:53). That is why the World, and the serpent seed is following 1st January as the New Year to this very day (Matthews 13:39; 1 Timothy 4:1-2; 1 John 4:1-6; 2 Corinthians 11:4, 13-15 etc.).				5807	CE 1573	Selim - 2		Gregory - 13

6016																1746	3320.5	1646	1244	Proof of the Dark Ages = 1260 Years = Daniel 7:25 = CE 538 to CE 1798.		6016	CE 1782	Abdul Hamid - 1		Pius - 6			
6017	5TH CHURCH AGE began in CE 1798 and it may end in CE 2088. Messianic Jews are preaching 12														1747	3321.5	1647	1245	6017			CE 1783	Abdul Hamid - 1		Pius - 6				
6018	Sabbaths now around the World because THE TENT OF DAVID is repairing in the 5th Synagouge Age (Acts 15:15-21). Aeroplanes can fly with Rocket engines before the Messiah's Kingdom. So														1748	3322.5	1648	1246	6018			CE 1784	Abdul Hamid - 1		Pius - 6				
6019	gentiles will keep the Sabbath and Beginning of Months in Jerusalem when the Messiah comes (Isaiah 66:23; Acts 1:12).														1749	3323.5	1649	1247	From AD/CE 1 to CE 2020: https://www.fischer.org/History/WorldAD.shtml		6019	CE 1785	Abdul Hamid - 1		Pius - 6				
6020															1750	3324.5	1650	1248			6020	CE 1786	Abdul Hamid - 1		Pius - 6				
6021															1751	3325.5	1651	1249			6021	CE 1787	Abdul Hamid - 1		Pius - 6				
6022	Yahweh punished His people with slavery, sword, starvation, eating afterbirth, children, etc.														1752	3326.5	1652	1250	4th Synagogue Age completed in CE 1798 while 5th Synagogue Age began (Rev. 3:18-29 Cf. Rev. 2:3:1-6; 2:18-29).		6022	CE 1788	Abdul Hamid - 1		Pius - 6				
6023	4th Synagogue (Church Age) = About 1260 YEARS = 4th day of Feast of Unleavened Bread = CE 538 to CE 1798 = 59,011 CCM to 74,593 CCM = SM 4771.5 to SM 6031.5. So 4th Church Age = The dark Ages according to Daniel 7:25 (Exodus 12:15-20 Cf. Heb. 13:10-13; Rev. 2:18-29). In the 5th Church Age Yahweh, the Jewish Messiah used Sabbath keepers (SDA etc.), William Marrian Brenham and so on. William Brenham had the Spirit of Eliyah which is suitable to fight against Jezebel (RCM and its children) - Revelations 2:20-23 Cf. 1 Kings 19:1-21; 21:17-29). Now Yahweh is using His servants (Malachi 1:11) to preach His 12 Sabbaths and all His Commandments (1 Corinthians 5:6-8; Rom. 11:13-23; Gal. 2:14).														1753	3327.5	1653	1251			6023	CE 1789	Abd. - 1/Sel. - 3		Pius - 6				
6024															1754	3328.5	1654	1252			6024	CE 1790	Selim - 3		Pius - 6				
6025															1755	3329.5	1655	1253	6025	CE 1791	Selim - 3		Pius - 6						
6026	Sabbaths and all the Appointed times of Yahweh are banned in the 4th Church Age accroding to Daniel 7:25. People are terribly cheated by the doctrines of RCM (Sunday, 1st January, Lent, Good Friday, Easter, Chritmas and so on). RCM and her children are died spiritually (Rev. 2:18-29). Key of David will be given in the 6th Church age in CE 2088.														1756	3330.5	1656	1254	6026	CE 1792	Selim - 3		Pius - 6						
6027															1757	3331.5	1657	1255	6027	CE 1793	Selim - 3	123	Pius - 6						
6028															1758	3332.5	1658	1256	6028	CE 1794	Selim - 3		Pius - 6						
6029	The Jewish Messiah (Yahweh, the Creator) will come and rule His chosen people from CE 2136 to CE 3136. All unrighteous Jews and gentiles will be punished with slavery, starvation, pests, nakedness, finally in the hell fire (Jeremiah 25:29; Luke 6:20-49; Heb. 10:31; Rev. 21:8).														1759	3333.5	1659	1257	Daniel 7:25 is not equal to Daniel 12:7. Daniel 12:7 = 1260 DAYS = Matt. 24:15-22 = About from CE 2132 to CE 2136.		6029	CE 1795	Selim - 3		Pius - 6

6168	THE MYSTERY BEHIND OLIVE AND WILD OLIVE TREES - ROMANS 11:13-23																				1898	3472.5	1798				6168	CE 1934	British rule in Israel		Pius - 11											
6169	The Olive Tree = The Chosen people of Yahweh (From the House of Israel + From the House of Judah = From the House of Gentiles). New Covenant is made with Jewish people only (Jeremiah 31:31-33). Gentiles are called as Israelis as soon as they circumcised (Exodus 12:48-51; Numbers 9:14). 3,000 Chosen Jews were baptized by Apostles first. These are called as the Assembly (Acts 2:36-47). Gentiles are added to the Church later (Acts 10:1-48). Yahweh didn't make New Covenant with Gentiles but grafted in the Chosen Israelis (In 12 Tribes = Gal. 6:15-16; Jeremiah 31:31-33; Romans 11:5; Luke 12:32; Isaiah 10:20-22 etc.) = Isaiah 5:1-7; Ps. 80:8. Wild Olive tree = Gentiles. Some chosen gentiles only are cut down from the Wild Olive tree (Neh. 8:14-18; Romans 11:17), and are grafted in the Olive tree (Chosen Jews). That is why chosen gentiles were forced to follow the Jews from CE 33 to CE 2136 (Gal. 2:14, 6:15-16; Zech. 8:23; Isaiah 56:4-8; 58:13; Matt. 24:20; 1 Cor. 5:7-8; Acts 18:20-21 KJV; Rom. 2:24-29).																					1899	3473.5	1799					6169	CE 1935	British rule in Israel		Pius - 11

6182	BUDDING OF THE FIG TREE - LUKE 21:29-33; ISAIAH 11:11-12; EZEKIEL 37:15-28, ETCETERA																				1912	3486.5	1812	https://www.britannica.com/topic/list-of-prime-ministers-of-Israel-2049993			6182	CE 1948	David Bengureon		Pius - 12											
6183	Fig tree (Nation of Israel) is cursed Spiritually in CE 33 and cut down physically in CE 135 because many didn't accept the Jewish Messiah as their Saviour (John 12:36-42; Romans 11:1-12). The remnant of Jews accepted the Messiah (Romans 11:5). That is why Israelis lived among all nations from CE 135 to CE 1948 (Deut. 28:64-68) and returned to Israel in CE 1948 (Luke 13:6-9; 21:24 Cf. Isaiah 11:11-12; Ezekiel 37:15-28). The Fig tree is budding since CE 1948.																				1913	3487.5	1813				6183	CE 1949	David Bengureon		Pius - 12

1 Cor. 13:10; 2:10-15; YAHWEH SPEAKS ABOUT 4 MIGHTY EMPIRES (Daniel 2nd Chapter to 12th Chapter and Revelations 13th Chapter, 17th to 18th Chapter).															2 Chronicles 16:9; Matt. 6:31-34; Acts 15:28-29; 17:11									
2 Thess. 2:10-12; 5:21															Yahweh is going to punish all unrighteous people whether they are Jews or gentiles about from CE 3136 for few years just as He punished His people with slavery, Sword, after birth, eating children in famine, nakedness etcetera (Jeremiah 25:29; Luke 6:21-26; Matt. 11:20-24; Heb. 10:29-31). So beware of false Prophets (1 Tim. 4:1-2)									
(0) Adam to 4th year of King Jehoiakim = 3609 Years = 4234 BCE to 626 BCE = Adam to Nebuchadnezzar (1st Empire).															Human ruling = Tiberius Caesar (Roman Emperor)									
(1). Lion = Gold = Iraq = From 626 BCE to 538 BCE (Daniel 2:1-38).															130 Cycles = 6370 Years (Rev. 21:1-7)									
(2). Bear = Silver = Iran = From 538 BCE to 331 BCE (Daniel 2:39).															http://penelope.uchicago.edu/Thayer/E/Journals/RASoc/1904/October/Roman_Coins_Found_in_India*.html									
(3). Leopard = Bronze = Greece = From 331 BCE to 146 BCE (Daniel 2:29).															* Continental									
https://en.wikipedia.org/wiki/Greece_in_the_Roman_era															(Note: Read these also: Luke 3:1-2; 2:1-7; Acts 18:1-2, 26:32, 27:1)									
(4). Terrible Beast = Iron + Clay = The Roman Empire = From 146 BCE to CE 1798 (Daniel 2:1-49; 2:40-49; Rev. 13:1-18; 17:1-18; 18:1-24).															Attention please: Yahweh, the Creator chose some people to His Eternal Kingdom before the foundations of the World (Eph. 1:1-14; Rev. 5:9-10; Exodus 32:32).									
(5). The 4th Beast (The Roman Empire) shall rule the World from CE 2132 to CE 2136 = Rev. 13:1-18; 17:1-18; 18:1-24 Cf. Dan. 2:1-49. The Lamb = The False Prophet = Anti Messiah (Matt. 24:15-28; 2 Thess. 2:1-12).															Note: Russia and his friendly countries will be punished about in CE 3136 (Aprox.) - Ezekiel 38:1-23; 39:1-29 Cf. Gen. 12:1-3; 24:60; 27:29; Num. 24:9.									
(0i). Egyptian kings (Ancient History) = Genesis 12:10-20.															https://www.metmuseum.org/toah/hd/phar/hd_phar.htm									
(0ii). Battle of Siddim (Abraham and gentile kings) = Genesis 14:1-24.															http://godswarplan.com/battle-of-siddim-abraham-rescues-lot-war-of-nine-kings-sodom-and-gomorrah-genesis-14									

JEWISH HISTORY FROM 4234 BCE TO CE 2136 (WITH HISTORICAL AND SCIENTIFIC PROOFS - GENESIS 1:13-19; DAN. 2:1-49;7:1-28; EPH. 1:1-19)

From Adam	Methuselah	Lemek	Noah	Shem	Arphaxad	Selah	Eber	Peleg	Reu	Serug	Nahor	Terah and Clues	Abraham Galatians 2:14, 3:7-29; Rom. 9:6-9, 11:17	Issac	Yacob	Yoseph and Clues	Years from Canaan (MH)	Kings of Judah	Missing Years/Clue	Kings of Israel	Total Years (SM)	BC = BCE and AD = CE	Subject, Emperor's name/Ottoman King/PM of Israel	49 - YC	References, and Name of Pope (Daniel 7:1-25; Rev.13:1-9)
																		Years	Name	Name	Years				

THE ABOVE SCIENTIFIC SCRIPTURAL HISTORY IS PROVED HISTORICALLY, ASTRONOMICALLY, AND PRACTICALLY TO THIS VERY DAY (MATTHEWS 24:35)

127th Civil 49 - Year Luni Solar Cycle is completed at (b); 128th at (c); 129th at (d) and 130th Civil 49 - Year Luni Solar Cycle completed at (e). Note: Where SM = Number Civil Years Completed.														Note: At (a), Yahweh, the Creator created Sun, Moon, and stars (Genesis 1:13-19); Where CCM = Number of Civil Months Completed from the date of the Creation of Sun, Moon, and stars; JY = Jubilee Year.				Formula of Yahweh's Luni Solar Calendar or Tropical Calendar = 49 Years = 49 Luni Solar Years = 49 Tropical Years = 606 Lunar Months = 588 Tropical Months = 17,896			
Year	M	D	H	M	S	DW	DL	DLM	Say	CCM	JY	SM	CCC					The Scriptural Lunar Month = Days per 49 - Year Luni Solar Cycle ÷ Months per 49 - Year Luni Solar Cycle = 17,896 days ÷ 606 Lunar Months = 29.53135314 days.			
4234 BCE	Feb.	23	18	00	00	Tue.	35°E	0°	(a)	0	0	0	0					The Scriptural Tropical Year = Days per 49 - Year Tropical Cycle ÷ Years per 49 - Year Tropical Cycle = 17,896 days ÷ 49 Years = 365.2244898 days.			
CE 1989	Sep.	30	18	00	00	Sat.	35°E	0°	(b)	76,962	9-10th Oct.	6223	127					Extra Month occurs according to Luni Solar Difference Per Month (LSDPM). So LSDPM = Tropical Month - Lunar Month = 0.904021014 days. So the above History is proved!			
CE 2038	Sep.	29	18	00	00	Wed.	35°E	0°	(c)	77,568	8-9th Oct.	6272	128								
CE 2087	Sep.	28	28	00	00	Sun.	35°E	0°	(d)	78,174	7-8th Oct.	6321	129								
CE 2136	Sep.	27	18	00	00	Thu.	35°E	0°	(e)	78,780	6-7th Oct.	6370	130								

Note: The above HISTORY from 4234 BCE to CE 2136 is proved scientifically. Scriptural Extra Month is completed as soon as LSDPM is completed. LSDPM occurs at the end of 32 or 33 Lunar Months.

Where M = Month; D = Day; H = Hours; M = Minutes; S = Seconds; DW = Day of Week; DL = Degrees of Longitude; DLM = Degrees of Longitudes determined by Yahweh (Genesis 1:13-19); CCC = Number of Civil 49 - Year Cycle Completed.

SM = Civil Years counted from the date of the Creation of Sun, Moon, and stars (From 18 hours, on 23rd Feb., 4234 BCE, at 35°E); MH = Religious Years counted from the land of Canaan or Milk and Honey;

THE 7 CHURCH AGES (SUITABLE) : STUDY FOR CCM UNDER z20 or 1b Case - 5			Let's search the Scriptures - 2 Chr. 16:9; John 3:19-21; 5:39! http://astropixels.com/ephemeris/calendarconverter.html	Note: Use this link and check the days and day of Week.	PROVE ALL THINGS; HOLD FAST THAT WHICH IS GOOD - 1 THESSALONIANS 5:21 KJV.		
(1) Ephesus = CE 33 to CE 40 = 100% Holy = (Rev. 2:1-7) = 52765 CCM to 52851 CCM.					* We all should learn from our Rabbi, the Jewish Messiah and His 12 disciples only (Matthews 11:28-30; John 21:15; Matt. 16:13-19). We should not learn from Mark 9:38-41; 2 Corinthians 11:4, 13-15; 1 Timothy 4:1-2; 1 John 4:1-6. It is horrible if our names are not written in the Book of Life (Rev. 20:11-15). So let's learn carefully as the children of Yahweh (John 10:34-35)!		
(2) Smyrna = CE 40 to CE 51 = 60 fold (Rev. 2:8-11) = 52851 CCM to 52988 CCM.					"... If any man speak, let him speak as the oracles of God ..." 1 Peter 4:7-11. So Missing 62.5 Luni Solar are discovered when compared history in Kings with		
(3) Pergamos = CE 51 to CE 538 = 30 fold (Rev. 2:12-17) = 52988 CCM to 59011 CCM.					 Come out of all false doctrines - Revelations 2:2; 18:4; 2 Pet. 3:17; Romans 16:17-		
(4). Thyatira = CE 538 to CE 1798 = < 30 fold (Rev. 2:18-29) = 59011 CCM to 74593 CCM.					Yahweh's Spirit inspired me to produce accurate Chronology from Adam to CE 2136, and to discover the Missing 62.5 Luni Solar Years that are completed between 5th Year of King, Solomon and 10th year of King, Zedekiah. The Spirit of Yahweh inspired me to count the Phases of the Moon, Extra Months, Sabbatical Years, Jubilee Years, Years of Tithe etc.		
(5) Sardis = CE 1798 to CE 2088 = 30 fold (Rev. 3:1-6) = 74593 CCM to 78180 CCM.					Let's restore Yahweh's Calendar (Lev. 25:8-9). Present Jews and Christians are following inaccurate Chronology, and History (Romans 15:20-21; Mark 9:38-40).		
(6) Philadelphia = CE 2088 to CE 2129 = 60 fold (Rev. 3:7-13) = 78180 CCM to 78693 CCM.					All the Priests, Scribes, Pharisees, Sadduces, and rich people rejected the message of John (Luke 7:29-35; John 12:36-43; 10:26-27). Please read John 16:1-16; 18:37-38; 1 Thess. 5:21; 1 Cor. 13:10; Php. 3:15-16; Deut. 29:29 etc.		
(7) Laodiceans = CE 2129 to 2136 = 100% Holy (Rev. 3:14-22) = 78693 CCM to 78780 CCM.							
*The 1st day of Sukkoth (Feast of Tabernacles) is fulfilled as the Birth of the Jewish Messiah according to Luke 1:1-36 Cf. Matthews 5:17-18 Cf. Lev. 23:33-36; 39-44.							
* Pesach is fulfilled in the Messiah as His impalement (Luke 22:19-20 = Lev. 23:5).							
* 7 days of Feast of Unleavened Bread (Chag HaMatzoth) is fulfilling now as 7 Church Ages (Revelations 1:10-20; 2:1-29; 3:1-22 = Exodus 12:18-20).							
* 5th Church Age is going on now from CE 1798 (Revelations 3:1-6).							
* Shavuoth is fulfilled as Anointing with Holy Spirit (Acts 2:1-21 = Lev. 23:15-21).							
Yom Teruvah will be fulfilled as 2nd Coming of Yahshua (1 Cor. 15:51-54 = Lev. 23:23-25).							
* Azereth Shemni will be fulfilled as the Day of Judgement (Rev. 20:11-15 = Lev. 23:36).							

The Bride should celebrate the Festivals (Pesach etc.) as commanded by Apostles (Jeremiah 31:31-33 = Chosen Israelis + Chose Gentiles = Romans 11:13-23; 2:24-29; 1 Cor. 5:6-8; 16:7-9; 11:20-34; 14:26-33; 3:10-11; 2 Cor. 12:18; 13:8; Gal. 1:6-8; 1 Thess. 2:14; Gal. 2:14; Eph. 2:20-22; 1 Tim. 1:3-11; Matt. 24:20; Acts 23:14-15; 26:23; 18:20-21 KJV; Isaiah 56:1-7; 66:23; Col. 2:16; Php. 3:15-16 = CE 1948 - CE 2136 = Ezekiel 36:24-38; 37:15-28). The Word Lord's Supper is the Stumbling block to Christians (2 Pet. 3:15-17), but Jewish History is the stumbling block to all. Jewish History is extremely useful to celebrate the Festivals in the right Season henceforth.

JEWISH HISTORY FROM 4234 BCE TO CE 2136 (WITH HISTORICAL AND SCIENTIFIC PROOFS - GENESIS 1:13-19; DAN. 2:1-49;7:1-28; EPH. 1:1-19)

From Adam	Methuselah	Lemek	Noah	Shem	Arphaxad	Selah	Eber	Peleg	Reu	Serug	Nahor	Terah and Clues	Abraham Galatians 2:14,3:7-29; Rom. 9:6-9,11:17	Issac	Yacob	Yoseph and Clues	Years from Canaan (MH)	Kings of Judah		Missing Years/Clue	Kings of Israel		Total Years (SM)	BC = BCE and AD = CE	Subject, Emperor's name/Ottoman King/PM of Israel	49 - YC	References, and Name of Pope (Daniel 7:1-25; Rev.13:1-9)
																		Years	Name		Name	Years					

THE BELOW PROPHECIES ARE FULFILLED HISTORICALLY ACCORDING TO YAHWEH'S LUNI SOLAR CALENDAR FORMULA (MATTHEWS 24:35; LEVITICUS 25:8-9; GEN. 1:13-19)

(1). The birth of the Creator, Yahweh (Father = God = Spirit = John 4:24; Eph. 1:17-19) as the Jewish Messiah (Son of Man = 1 Tim. 3:16) is prophesied about in Eden in 4135 BCE (Genesis 3:15), in 791 BCE and 761 BCE (Isaiah 6:1, 7:1, 9:6). It is fulfilled (Luke 2:1-20) on the full moon at 9 PM on 10th November, 1 BCE (Wednesday). For the details, please study at 52,364 CCM under z20 or 1b Case - 5i in our website. Hebrew Date = 15 – 1 – SM 4235 = 15 – 7 – MH 1539. Note: Summer occurred in November in those days according to Yahweh's Formula (Luke 1:1-26, 26 - 38 Cf. 2:1-7; Jeremiah 39:1-18, 40:1-12, 13-16, 41:1-2). So summer occurred about from 2nd and 7th Months is true. NASA data is not authorized by Yahweh it didn't depend on Yahweh's Formula.

(2). The Impalement (Crucifixion) of the Creator, Yahweh (Spirit = Father = God = John 4:24) as the Jewish Messiah (Son = 1 Tim. 3:16) is Prophesied about in 4135 BCE (Genesis 3:15, read Isaiah 43:10). It is fulfilled on 13th May, CE 33 at 3 PM. For the details, please study at 52,766th CCM (Scriptural Lunar Month) in our website under z20 or 1b Case - 5i (Dan. 9:24-27). Hebrew Date = 14 – 7 – SM 4267 = 14 – 1 – MH 1572. Note: Winter occurred in May in those days according to Yahweh's Formula (John 18:18). Don't believe in NASA or IAU because they are not authorized by Yahweh.

(3). Jewish Messiah as the Prophet is Prophesied between about between 1579 BCE and 1539 BCE (Deuteronomy 18:15-19) it is fulfilled between CE 29 and CE 33 (Acts 3:21-26).

(4). The birth of the Messiah is prophesied by Angel, Gabriel on 4th Feb., 1 BCE (Luke 1:26-38) it is fulfilled on 10th November, 1 BCE (Luke 2:1-20; 3:1-2).

(5). The Holocaust and return of Jews are Prophesied by the Jewish Messiah in CE 33 (Luke 21:22-24) it is fulfilled between CE 1941 and 1948. Please watch Jewish Holocaust videos.

(6). Restoration of Physical Jews from all corners of the Earth is Prophesied about between 770 BCE and 615 BCE (Isaiah 11:11-12; Ezekiel 37:1-28) it fulfilled in CE 1948.

(7). 4 mighty Kingdoms are Prophesied about in 625 BCE (Daniel 1:1-21, 2:1-49). They are Iraq, Iran, Greece, and Italy (Luke 2:1-2) these are fulfilled between 626 BCE and CE 1798.

(8a). THE FALSE PROPHET is Prophesized appr. in CE 98 (Rev. 13:11-18). It is going to be fulfilled about between CE 2132 CE 2136. **Gog/Magog War appr. in CE 3136** (Eze. 38:1-23; 39:1-24 = Rev.20:7-9).

(8b). **Armageddon War may happen before CE 2136. Note: I guess that Armageddon War is different from Gog/Magog War. Please compare** Ezekiel 38:1-23; 39:1-24 with Rev.16:12-16; 20:7-10.

(9). The Roman Empire (Daniel 2:1-49) will rule again which is prophecised approx. in CE 98 (Rev. 13:1-18). It will be fulfilled about between CE 2132 CE 2136 as One World Government.

(10). Yahweh elected some Jews and gentiles to His Kingdom about in or before 4234 BCE (Num. 14:19-38; Eph. 1:1-14; Rom. 11:1-22; Gen. 7:1; Ex. 32:33; 1 Ki. 19:18; 1 Peter 4:16-19; Rev. 5:9-10). (11). The name of the Persian Empire is Prophecised as Cores in between 733 BCE and 719 BCE it is fulfilled in 538 BCE (2 Chr. 36:21-23; Ezra 1:1-5; 6:1-12).

(12). 70 Years of punishment is prophesied between 853 BCE and 719 BCE (Amos 1:1; 5:24-27). It is fulfilled from 608 BCE to 538 BCE.

(13). The Jewish Messiah will rule the World is Prophesied about between 733 BCE and 719 BCE (Isaiah 66:22-23), and in 98 BCE (Rev. 20:4-6). It will be fulfilled about in CE 2136 (Matt. 24:35).

Note: I guess that **Satan** = Ancient Serpent = The Spirit of the Anti Messiah (2 Thess. 2:1-12 = The False Prophet = Rev. 13:11-18). **Dragon** = Friends of Satan which will be lived in the 7 Heads, and 10 Horns = Revelations 20:1-10; 12:9 Cf.1 Samuel 28:11-20;

Rev. 16:13; 9:11; Luke 8:30-31; Matt. 25:41; 2 Peter 2:1-5.

(14). The formula of Yahweh's Luni Solar Calendar is written between 1579 BCE and 1539 BCE by Mose, the greatest Prophet (Leviticus 25:8-9; Deut. 31:24--26). But is determined on strictly after the end of 72 hours or 3 days ie. at 18 hours on 23rd February, 4234 BCE, at 35°E (Genesis 1:13-19). Yahweh, the Creator determined the length of night (Per 180° is 12 hours or 43,200 seconds), the length of daytime (Per 180° is 12 hours or 43,200 seconds), the length of Lunar Month (New Moon to New Moon is 29.53135314 days = 29 days, 12 hours, 45 minutes, and 8.91088992 seconds), the length of Tropical Year (For seasons is 365.2244898 days = 365 days, 5 hours, 23 minutes, and 15.9183744 seconds), and Luni Solar Difference per Month (LSDPM = Tropical Month - Lunar Month = 0.904021014 days which gives Extra Months to get accurate Seasons in Yahweh's Luni Solar Calendar) in the beginning (Jeremiah 33:19-26; 31:35-37). There is no need to modify Yahweh's formula and principles by anyone at any time (Jeremiah 32:26-27). This Luni Solar Calendar formula and Tropical Calendar formula only give nights, days, Lunar Months, Seasons, Years, Extra Months, Sabbatical Years, Jubilee Years, and Years of Tithe forever without any variation (Genesis 1:13-19; Job 38:17-33; Leviticus 25:8-9). So Yahweh's Book that is written from 1579 BCE to CE 99 is proved Scientifically and Historically to this very day (Isaiah 34:16; 48:13; Job 26:7). All other Luni Solar Calendars and Tropical Calendar are disproved by me.

JEWISH HISTORY FROM 4234 BCE TO CE 2136 (WITH HISTORICAL AND SCIENTIFIC PROOFS - GENESIS 1:13-19; DAN. 2:1-49;7:1-28; EPH. 1:1-19)

From Adam	Methuselah	Lemek	Noah	Shem	Arphaxad	Selah	Eber	Peleg	Reu	Serug	Nahor	Terah and Clues	Abraham Galatians 2:14,3:7-29; Rom. 9:6-9,11:17	Issac	Yacob	Yoseph and Clues	Years from Canaan (MH)	Kings of Judah		Missing Years/Clue	Kings of Israel		Total Years (SM)	BC = BCE and AD = CE	Subject, Emperor's name/Ottoman King/PM of Israel	49 - YC	References, and Name of Pope (Daniel 7:1-25; Rev.13:1-9)
																		Years	Name		Name	Years					

SOME HISTORICAL EVENTS AND NAMES OF GENTILE KINGS ARE WRITTEN IN THE BOOK OF YAHWEH - ISAIAH 34:16; LEVITICUS 26:17-44; DEUT. 28:15-68

EVENTS (Isaiah 44:6-11; Acts 4:27-28; 17:26-31; Ephesians 1:1-14)

- (1). Yahweh Created Adam, and the Universe in 7 - Day Weekly Cycle in **4234 BCE** - Genesis 1:24-31; 2:1-3.
- (2). Yahweh, the Creator Created Eve the mother of all about in **4230 BCE** - Gen. 2:17-21 Cf. 1 Cor. 15:45-48.
- (3). Adam and Eve (Very First couple) expelled from Yahweh's garden about in **4136 BCE** - Genesis 3:1-24.
- (4). Yahweh killed all Wicked in the flood and saved Noah's family in **2578 BCE** - Gen. 7:1-24; 1 Pet. 3:19-22.
- (5). Yahweh separated the Earth as Continents and created languages in **2477 BCE** - Gen. 11:1-9; 10:24-25.
- (6). Yahweh called Abram first from Ur about in **2256 BCE** at the age of 30 - Genesis 11:27-32; Jos. 24:1-14.
- (7). Yahweh called Abram 2nd time from Haran in **2211 BCE** at the age of 75 - Genesis 11:27-32 Cf. 12:1-5.
- (8). The war of Siddim (Abram Vs. gentile kings) between about **2204 BCE and 2201 BCE** - Genesis 14:1-24.
- (9). Israelis entered into Canaan in **1539 BCE** after 40 Years journey - Joshua 3:1-17; 4:1-24; 5:1-15; 6:1-27.
- (10). List of kings that are defeated by Israel between **1539 BCE and 1509 BCE** - Joshua 6th to 22nd Chapter.
- (11). Shishak came up against Jerusalem in the 5th year of Rehoboam in **1059 BCE** - 2 Chronicles 12:1-12.
- (12). Josiah name is Prophesied between **about 1049 BCE and 1042 BCE** - 1 Kings 13:1-10 Cf. 2 Ki. 23:1-20.
- (13). Cyrus name is Prophesied between **795 BCE and 733 BCE** - Isa. 45:1-14; 2 Chr. 36:21-23; Ezra 1:1-6.
- (14). Sennacherib king of Assyria came up against Judah in **733 BCE** - Isaiah 36:1-22; 37:1-38 Cf. 2 Ki. 18:13.
- (15). Judah went to Babylonian Captivity in **608 BCE** according to 2 Kings 25:1-8-22; 2 Chr. 36:13-20.
- (16). Judah returned from Iraq (Babylon) and Iran (Persia) and so on in **538 BCE** - 2 Chr. 36:21-23; Ezra 1:1-5.
- (17). Ahasuerus reigned India to Ethiopia about between **485 BCE and 465 BCE/424 BCE** - Esther 1:1; 8:9.
- (18). Messiah born on the Full Moon day on **10th Nov., 1 BCE** in the reign of **Augustus Caesar** - Luke 2:1-9.
- (19). John the Baptist preached the gospel in **Tiberius Caesar's reign** from **CE 15 to CE 29** - Luke 3:1-20.
- (20). Messiah preached the gospel on Wednesday **16th Nov., CE 29** in **Tiberius** Caesar's reign - Luke 4:17-21.
- (21). Messiah impaled on **Wednesday** morning **13th May CE 33** in **Tiberius** Caesar's reign - Luke 23:1-56.
- (22). Messiah resurrected on **Saturday at 5 PM** on **16th May CE 33** in **Tiberius** Caesar's reign - Matt. 28:1-7.
- (23). The sepulchre of David king is the witness from **1104 BCE to CE 33** - Acts 2:29-35 Cf. 1 Kings 2:10-11.
- (24). **Claudius** had commanded all Jews to depart from Rome about between **CE 41 and CE 54** - Acts 18:1-4.
- (25). Matyrdom of Antipas about between **54 and CE 68** during the reign of **Nero** - Revelations 2:12-17.
- (26). Roman Empire (**4th Beast**) ruled the World from **CE 538 to CE 1798** = 1260 Years - Daniel 7:24-25.
- (27). Two witnesses will be preached in the 7th Church Age between **CE 2129 and CE 2132** - Rev. 11:1-12.
- (28). **4th Beast (Roman Empire)** will rule the World from **CE 2132 to CE 2136** - Rev. 13:1-18; 17:1-18.

All the Scriptrural history is recorded in the Book of Yahweh according to the Universal Calendar Formula (Yahweh's Calendar Formula = Leviticus 25:8-9). Yahweh didn't use Gentile Julian Year (365.25 days) or Gregorian Year (365.2425 days) or IAU/NASA Year (365.24219 days) in His Book. The Book of Yahweh is written from 1579 BCE and appr. CE 99. So search the Book of Yahweh (Matt. 6:31-34; 1 Thess. 5:21; Rev. 1:1-3; Php. :15-16)!

JEWISH HISTORY FROM 4234 BCE TO CE 2136 (WITH HISTORICAL AND SCIENTIFIC PROOFS - GENESIS 1:13-19; DAN. 2:1-49;7:1-28; EPH. 1:1-19)																																			
From Adam	Methuselah	Lemek	Noah	Shem	Arphaxad	Selah	Eber	Peleg	Reu	Serug	Nahor	Terah and Clues	Abraham Galatians 2:14, 3:7-29; Rom. 9:6-9,11:17	Issac	Yacob	Yoseph and Clues	Years from Canaan (MH)	Kings of Judah		Missing Years/Clue	Kings of Israel		Total Years (SM)	BC = BCE and AD = CE	Subject, Emperor's name/Ottoman King/PM of Israel	49 - YC	References, and Name of Pope (Daniel 7:1-25; Rev.13:1-9)								
																		Years	Name		Name	Years													
UGADI IS CALCULATED ACCORDING TO HINDU 60 - YEAR LUNI SOLAR CYCLE, AND NASA 60 - YEAR LUNI SOLAR CYCLE AND IT IS COMPARED WITH YAHWEH'S CALENDAR																																			
Conditions: (1). Hindu or Telugu or Chinese Lunar Month = 29.5309973 days. (2). NASA/IAU Lunar Month = 29.53058885 days (Average). (3). The Scriptural (Yahweh's) Lunar Month = 29.53135314 days (Lev. 25:8-9; Ps. 104:19)																																			
A = Ending time of 60 - Year Luni Solar Cycle [Phalguna ends in Flowering in Winter (At 82.5°E)]												B = Ending time of NASA'S 60 - Year Cycle [Phalguna ends in Flowering in Winter (At 0°/UT)]								C = Ending time of Scriptural Lunar Month corresponding to "A" and "B" (Israel Standard Time at 35°E)															
Year	M	D	H	M	S	DW	CC	R 742	Ugadi	TLM	Month	Year	M	D	H	M	R742 or S	Ugadi	NASA New Moon	Year	M	D	H	M	S	CCM	Jewish Month								
4253 BCE	Jan.	23	06	00	00	Wed.	-	-	23 Jan.	0	Phalguna	4253 BCE	Feb.	23	01	13	15.168	23 Feb.	-	There was no Earth, Sun, Moon, and stars etc. beyond 4234 BCE.															
-	Calculated according to 29.5309973 days.										-	Calculated according to 29.53058885 days.										-	Calculated according to 29.53135314 days.												
-	Note: Hindu Lunar Month is Constant between 4253 BCE and CE 4000 in this method.										-	Note: NASA/IAU Lunar Month (29.53058885 days) is Constant between 4253 BCE and CE 4000 in this method. Astronomers didn't discover accurate length of Day, Lunar Month, and Tropical Year. So they are telling that the length of day (23h, 56m, and 4.09s), Lunar Month (29.53058885 days), and Tropical Year (365.24219 days) are varying always (This is useful to cover their mistakes). We can't get accurate Phases of the Moon, and Seasons if the length of day is more or less than 86,400 seconds per 360° per 1 night and 1 day-time. Proof: 79e0 to 79e5, 79e000a, 79e000b, 79e0000 and so on.										-	Note: Yahweh's Lunar Month (29.53135314 days), Tropical Year (365.2244898 days), and day (86,400 seconds) are Constant from the beginning (From 18 hours, on 23rd Feb., 4234 BCE, 35°E Jerusalem) to CE 3136.												
-	Note: You can calculate Ugadi or end of each Hindu 60 - Year Luni Solar Cycle from 6 AM on 20th January 4193 BCE or from 6 AM on 30th March CE 1987 (IST) backwardly or forwardly. You can count Ugadi from 6 AM on 23rd January 4253 BCE also. You can easily calculate with the help of NASA Calendar converter.										-											-	The Jewish Messiah may come again and destroy the Roman Empire about in CE 2136 (Acts 4:27-28 = Rev. 13:1-18 = 4th Beast = European Union). The Messiah will rule the World from CE 2136 to CE 3136, and judge the people in CE 3136.

4243 BCE	Jan.	02	13	30	14.556	Tue.	-	-	3 Jan.	123	Phalguna	4243 BCE	Feb.	02	07	31	8.9947	3 Feb.	-	There was no Earth, Sun, Moon, and stars etc. beyond 4234 BCE.															
-	Note: "A" is not proved when compared to "C".										-	Note: "B" is not proved when compared to "C".										-	Note: "C" is proved Scientifically/Historically.												
-	Hindu Tropical Year = 365.2 days (Fake).										-	NASA Tropical Year = 21911.69693 days ÷ 60 Years = 365.1949488 days (Fake).										-	Yahweh's Tropical Year = 365.2244898 days												
NOTE: Hindu religious leaders are misleading Hindus that the Universe is created by Brahma some millions/billions of years before. Brahmins determined the 60 - Year Cycle is true. Hindu 60 - Year Cycle, and NASA Phases of the Moon are not giving accurate Phases of the Moon, and Seasons because the length of Lunar Month (29.5309973 days or 29.53058885 days), and Tropical Year (365.2 days or 365.1949488 days) are not accurate. For the proof, please observe Ugadi from CE 1447 to CE 2407. That's why NASA/IAU, and Religious leaders are misleading under the veil of science and the Creator.												NOTE: Astronomers/Scientists are misleading the World that men, beasts, birds, fishes, the Sun, Moon, and stars etcetera are created by bigbang some millions/billions of years before. NASA/IAU Lunar Month (29.53058885 days) gives Tropical Year as 365.1949488 days. So Tropical Year (365.1949488 days), Lunar Month (29.53058885 days) are not giving accurate Phases of the Moon, and Seasons. So day = 23h, 56m, 4.09s = Fake = Requires Constant. Please note that Gregorian Tropical Year is 365.2425 days in 400 - Year Cycle.												NOTE: There is no man beyond 4234 BCE because Yahweh created this Universe in the very first 7 - Day Weekly Cycle in 4234 BCE (Genesis 1:1-31; 2:1-3; Isaiah 45:1-12). Yahweh's Luni Solar Calendar Formula only gives accurate Nights, Days, Phases of the Moon, Seasons, Years (Sabbatical Years, Jubilee Years, and Years of Tithe), and Extra Month because His Formula is Constant forever (Lev. 25:8-9; Jer. 33:19-26; John 11:9; Matt. 24:35; Job 38:20-33). So 49 Years proved that the Creator is Yahweh.											
Research: The Continental Drift took place in 2477 BCE strictly according to the Book of Yahweh (Isaiah 34:16; Gen. 10:25-32; 11:1-17).												Research: The Continental Drift took place in 2477 BCE strictly according to the Book of Yahweh (Isaiah 34:16; Genesis 10:25-32; 11:1-17).												The flood occurred in 2578 BCE (Gen. 7:1-24; 8:1-22). The present World will be buned in the fire after CE 3136 (2 Pet. 3:8-13).											
Research: Hindu and NASA 60 - Year Luni Solar Cycle is giving a little bit of accurate Phases of the Moon, and Seasons for 900 years only. Ugadi occurred between March and April from CE 1447 to CE 2407 on

-	Note: "A" is not proved when compared to "C".												Note: "B" is not proved when compared to "C".							Note: "C" is proved scientifically, and Historically.																		
-									-		-	Note: The difference between Ugadi and 1st Ethanim is 6 months.							4234 BC	Feb.	20	18	00	00	Genesis 1:1-2													
-	Research: Hindu Calendar is proved for few years only.								-	-		Research: NASA/IAU Calendar is proved for few years only whereas Yahweh's calendar is proved forever (Jeremiah 33:19-26).							4234 BC	Feb.	21	18	00	00	Genesis 1:1-5													
-	Ugadi = 23rd Jan., 4234 BCE (In flowering).												Ugadi = 23rd Feb., 4234 BCE (In flowering).							1st Ethanim = 23 - 24th Feb., 4234 BCE (Summer in Israel).																		
4234 BCE	Jan.	23	00	49	29.273	Sat.	-	-	23 Jan.	235	Phalguna	4234 BCE	Feb.	22	17	44	31.1784	23 Feb.	-	4234 BC	Feb.	23	18	00	00	Genesis 1:9-13												
-	Hindu Luni Solar or Tropical Calendar:								Research: Infact there is only one Season on the Earth between 4234 BCE and CE 2477 BCE because Continental Drift occurred in 2477 BCE only (Genesis 10:21-25). Yahweh changed the languages in 2477 BCE (Genesis 11:1-9).				Formula of NASA Luni Solar or Tropical Calendar:							4234 BC	Feb.	24	18	00	00	Genesis 1:14-19												
-	60 Years = 60 Hindu Luni Solar Years = 60 Hindu Tropical Years = 60 - Year Luni Solar Cycle = 60 - Year Tropical Cycle = 742 Hindu Lunar Months = 60 Hindu Tropical Years = 21,912 days strictly. This is determined by Brahmins only. Study under z20 or 1b Case - 5 on www.yhwcalendar.com												60 Years = 60 NASA Luni Solar Years = 60 NASA Tropical Years = 60 - Year Luni Solar Cycle = 60 - Year Tropical Cycle = 742 NASA Lunar Months = 60 NASA Tropical Years = 21,911.69693 days.							4234 BC	Feb.	25	18	00	00	Genesis 1:20-23												
-													Formula of the Creator, Yahweh's Luni Solar or Tropical							Yahweh created sun, moon, and stars strictly at 18 HOURS on 23rd February 4234 BCE (Genesis 1:13-19; Jeremiah 33:19-26).																		
-													49 Years = 49 Luni Solar Years = 49 Tropical Years = 49 - Year Luni Solar Cycle = 49 - Year Tropical Cycle = 606 Lunar Months = 49 Tropical Years = 17,896 days = Constant forever - Jeremiah 33:19-26.							Yahweh determined 49 - Year Luni Solar Cycle - Psalms 104:19.																		
-													Note: Hindu 60 - Year Luni Solar Cycle and NASA 60 - Year Luni Solar Cycle are NOT giving accurate Phases of the Moon, and Seasons. So these are not PROVED scientifically, and Historically.							Note: Ethanim begins as soon as Elul (6th Jewish Religious Month = 12th Jewish Civil Month) ends, and it occurs in Summer always in Israel.																		
-													Note: The difference between Ugadi and 1st Ethanim is 6 months.																									
-																																						
-																																						
-																																						
4223 BCE	Jan.	21	06	00	00	Thu.	-	-	21 Jan.	371	Phalguna	4223 BCE	Feb.	20	21	35	2.40576	21 Feb.	-	4223 BCE	Feb.	22	00	20	1.880	136	Elul											
-	Ugadi = 21st Jan., 4223 BCE (In flowering).												Ugadi = 21st Feb., 4223 BCE (In flowering).							1st Ethanim = 22nd Feb., 4223 BCE (Summer in Israel).																		
-									-		-	Note: NASA/IAU Tropical Year (365.1949488 days) is not giving accurate Seasons while NASA/IAU Lunar Month (29.53058885 days) is not giving accurate Phases of the Moon, and Seasons. Chaitram begins as soon as Phalguna ends. And Chaitram indicates Flowering whereas Elul indicates Summer in Israel but raining in India.							Note: Yahweh's Tropical Year (365.2244898 days) is giving accurate Seasons while Yahweh's Lunar Month (29.53135314 days) gives accurate Phases of the Moon, and Seasons (Psalms 104:19; Genesis 1:13-19). Yahweh the Creator determined these formula and principles in the beginning at 18 hours on 23rd Feb., 4234 BCE, at 35°E (Job 38:21-33; Lev. 25:8-9; Ps. 104:19) .																			
-	Note: Hindu Tropical Year (365.2 days) is not giving accurate Seasons while Hindu Lunar Month (29.5309973 days) is not giving accurate Phases of the Moon, and Seasons. Chaitram begins as soon as Phalguna ends. And Chaitram indicates Flowering whereas Elul indicates Summer in Israel but raining in India.												Research: Length of day is derived from 12 steps per day-time only.				Length of Tropical year = Days per Cycle ÷ Years per Cycle.				Length of Lunar Month = Days per Cycle ÷ Months per Cycle.				Length of Day = Night + Day = 2 X 12 steps per Day = 24 Steps = 24 hours (86,400 seconds per 360° = John 11:9; 2 Ki. 20:9-11; Matt. 20:1-13; Jer. 33:19-26).							Length of day = 24 X 60 X 60 = 86,400 Seconds forever (Jeremiah 33:19-26).

Research: NASA gave the Phases of the Moon from 2000 BCE to CE 4000 only even if the Book of Yahweh gives human History from 4234 BCE to CE 2136. I gave Phases of the Moon, Luni Solar New Years (1st Ethanin which occurs in Summer in Israel and 1st Abib which occurs in Flowing in Winter), Sabbatical Years, Extra Months, and so on. NASA/IAU/Hindu data is not proved.

JEWISH HISTORY FROM 4234 BCE TO CE 2136 (WITH HISTORICAL AND SCIENTIFIC PROOFS - GENESIS 1:13-19; DAN. 2:1-49;7:1-28; EPH. 1:1-19)

From Adam	Methuselah	Lemek	Noah	Shem	Arphaxad	Selah	Eber	Peleg	Reu	Serug	Nahor	Terah and Clues	Abraham Galatians 2:14,3:7-29; Rom. 9:6-9,11:17	Issac	Yacob	Yoseph and Clues	Years from Canaan (MH)	Kings of Judah		Missing Years/Clue	Kings of Israel		Total Years (SM)	BC = BCE and AD = CE	Subject, Emperor's name/Ottoman King/PM of Israel	49 - YC	References, and Name of Pope (Daniel 7:1-25; Rev.13:1-9)					
A = Ending time of 60 - Year Luni Solar Cycle [Phalguna ends in Flowering in Winter (At 82.5°E)]													B = Ending time of NASA'S 60 - Year Cycle [Phalguna ends in Flowering in Winter (At 0°/UT)]								C = Ending time of Scriptural Lunar Month corresponding to "A" and "B" (Israel Standard Time at 35°E)

46 BCE	Jun.	28	19	38	58.272	Sun.	-	-	29th Jun.	51297	EM	46 BCE	Jul.	08	08	44	-	9th Jul.	Jul.,08d,3h,12m		46 BCE	Jun.	19	21	43	21.504	51802	Zif				
46 BCE	Jul.	28	08	23	36.672	Tue.	-	-	-	51298	Chaitram	46 BCE	Aug.	06	21	28	-	-	Aug.,06h,12h,30m		46 BCE	Jul.	19	10	28	31.008	51803	Sivan				
Extra Month (EM) ended as above. So Phadyami ends at 19h, 16m, 27s on 29th June, 46 BCE if 1 Tithi is added (23h, 37m, 29s). So Ugadi = 29th June, 46 BCE = Fake. So Ugadi is not occurring in the flowering time according to Hindu 60 - Year Luni Solar Cycle. April stands for budding (To open), and May stands for the Italic goddess of Spring in Julian Calendar. Please see the link (Right side).													Phalguna ended before Extra Month. And Extra month ends at 51,297th Month. So Phadyami ends at 13h, 51m, 41 on 9th July, 46 BCE, IST if 1 Tithi added. 1 Tithi = 23h, 37m, 28s. So Ugadi = 9th July, 46 BCE = Fake. Flowering occurred between April and May during Julius Caesar's reign. https://www.crowl.org/Lawrence/time/months.html										Jewish New Year (1st Abib) occurs always in Flowering time in Winter according to Yahweh's 49 - Year Luni Solar Cycle. So Abib begins when 51800 CCM ends in 46 BCE. So Jewish New Year = 6 PM on 21st Apr., to 6 PM on 22nd April, 46 BCE = Proved. "April" stands for flowering time during the days of Julius Caesar.

-	-	-	Hindu and NASA 60 - Year Luni Solar Cycle is giving a few accurate Phases of the Moon, and Seasons up to 900 years only. Ugadi occurred between March and April from CE 1447 to CE 2407 only. So observe Ugadi (Which begins in flowering as soon as Phalguna ends) from 4253 BCE to CE 4000. Use the NASA Calendar converter to do all these calculations.																				-	-	-

TLM stands for how many Telugu or Hindu Lunar Months completed if counted from 20th Jan., 4193 BCE, 82.5°E; M = Roman Month; D = Day; H = Hours; M = Minutes; S = Seconds; DW = Day of Week; **Note: 1st Jan. is not New Year.**
CC stands for how many Telugu or Hindu 60 - Year Luni Solar Cycles Completed; IAU = International Astronomical Union; <https://www.azbible.com/prophets-in-the-bible.html> List of Prophets in the Book of Yahweh.
R742 = 742 Months completed in Hindu 60 - Year Luni Solar Cycle; CCM = Civil Months Completed from birth of Sun, Moon, and stars (18 hrs., on 23rd Feb., 4234 BCE, at 35°E); UT = Universal Time.
Hindu and NASA 60 - Year Luni Solar Cycle is not giving accurate Phases of the Moon, Seasons, and Ugadi in flowering time whereas the Universal Calendar Formula only (Leviticus 25:8-9) gives accurate Phases of the Moon, Seasons, and New Years from the birth of the Sun, Moon, and stars to CE 4000. Ugadi didn't occur in flowering time in 46 BCE when Julian calendar proposed. Please study under z51a/z51b/z52a to z52c on www.yhwhcalendar.com

JEWISH HISTORY FROM 4234 BCE TO CE 2136 (WITH HISTORICAL AND SCIENTIFIC PROOFS - GENESIS 1:13-19; DAN. 2:1-49;7:1-28; EPH. 1:1-19)

THE FORMULA AND PRINCIPLES OF HINDU LUNI SOLAR CALENDAR AND HINDU TROPICAL CALENDAR

Hindu Formula - a: 1 Cycle = 60 Years = 60 Luni Solar Years = 60 Tropical Years = 742 Hindu Lunar Months = 21,912 days = 720 Hindu Tropical Months. **Note:** 1 Day = 86,400 seconds per 360°.

Hindu Formula: 1 Divine Year = 360 Years = 6 Cycles = 4452 Months = 1,31,472 days. **Note:** All Hindu Formulas are disproved from 4193 BCE to CE 4000. So the Phases of the Moon from Satya Yuga to Kali Yuga are not accurate!

Principle: Hindu Lunar Month = 21,912 days ÷ 742 Lunar Months = 29.5309973 days (29 days, 12 hours, 44 min., and 38.1671159 sec.) = Constant forever as it is determined by Brahma according to Hindu Mythology.

Principle: Hindu Tropical Month = 21,912 days ÷ 60 Tropical Years = 365.2 days (365 days, 04 hours, and 48 minutes) = Constant forever as it is determined by Brahma according to Hindu Mythology.

Another Hindu Formula - b: 1 Cycle = 30 Years = 30 Luni Solar Years = 30 Tropical Years = 371 Hindu Lunar Months = 10,956 days = 360 Hindu Tropical Months. **Note: Yahweh's Book only proved 7 - Day Weekly Cycle.**

Research: Hindu Lunar Month (29.5309973 days), and Hindu Tropical year (365.2 days) are not giving accurate Phases of the Moon, and Seasons. For the details, please see the above data from 4193 BCE to CE 4000.

Research: Hindu Formula - a is equal to Another Hindu Formula - b. <http://astropixels.com/ephemeris/phasescat/phasescat.html> NASA/IAU is misleading the World with this link (Gives inaccurate data).

Hindu/Telugu Months: (1) Chaitram which occurs in Spring in the Winter just as Jewish first month Abib occurs in the Spring always. (2) Vyshakhamu, (3) Jyestamu, (4) Ashadamu, (5) Sravanamu, (6) Bhadrapadamu, (7) Ashveyujamu (8) Kartikamu, (9) Margashiramu, (10) Pushyamu, (11) Maghamu and (12) Phalgunamu. Extra Month occurs according to Luni Solar Difference Per Month only. Please note tht Jewish Adar month (12th Month) similar to Hindu Phalgun month (12th Month) but it is entirely different because Jewish months occurs according to 49 - Year Luni Solar Cycle only (Leviticus 25:8-9). Note: Jewish Ethanim always falls in Summer in Israel.

Jewish Months: (1) Abib, (2) Zif, (3) Sivan, (4) Tammuz, (5) Ab, (6) Elul, (7) Ethanim (8) Bul, (9) Kislev, (10) Tebeth, (11) Sebat and (12) Adar. Note: Extra Month occurs according to Luni Solar Difference Per Month only.

R742 = Religious 742 Months are completed in 1 Hindu 60 - Year Luni Solar Cycle. Where H = Hours; M = Minutes; **12,000** **72,000** **43,20,000** **5,34,24,000** **1,577,664,000** Where S = Seconds.

Note: 30 - Year Luni Solar Cycle = 60 - Year Luni Solar Cycle. So the history in 4 Yugas is the fiction only. The true Creator can't detemine 60 - Year Luni Solar Cycle. Please study under PANCHANGAM PAMPHLET in our website.

103rd Hindu 60 - Year Luni Solar Cycle is completed at (b) if counted from (a).													Hindu 4 Yugas are FABLE only because 60 - Year Luni Solar Cycle is NOT determined by the Creator. The true Calendar only proves the true Creator.	Please observe Ugadi from 4193 BCE to CE 4000 carefully, and especially from 54 BCE to CE 67 via 46 BCE carefully. "April stands for budding during the days of Julius Caesar who introduced Julian Calendar in 46 BCE". Ugadi didn't occur in the right Season (In budding) during the days of Julius Caesar according to Hindu 60 - Year Cycle and NASA 60 - Year Cycle but Abib occurred in the right Season. Please observe the occurrences of Ugadi from 4193 BCE to CE 4000. Religious people are misleading by religious leaders, NASA and IAU under the veil of god, gods, and science. For the details, please visit our www.yhwcalendar.com

																		Years	Name		Name	Years					

THE JEWISH MESSIAH WAS NOT RESURRECTED ON SUNDAY BUT ON SATURDAY EVENING

Mystery: Yahweh used some stumblingblocks just like the tree of knowledge of good and evil (Genesis 2:17 = Jeremiah 6:21; Ezekiel 3:20). So the day of Resurrection was on Sunday is the main stumblingblock. This stumblingblock is killing millions of Christians. 15th Abib as Pesach is killing millions of Christians. This stumblingblock is killing millions of Christians. 15th Abib as Pesach is killing millions of Christians. Note: Visible Crescent and Full Moon are not authorized but counting the age of the Moon is authorized by Yahweh - Lev. 25:8-9.	6 PM	6 PM		6 PM		6 PM		6 PM				
	14th Abib (As a festival - Ex. 12:14)		15th Abib (Festival Sabbath - Matt. 26:1-5)		16th Abib (Thursday eveing to Saturday evening)		17th Abib (Weekly Sabbath occurred)					
	↓		↓		↓		↓		↓			
	Night		Day		Night		Day		Night	Day		
	Messiah kept Pesach Luke 22:1-20		Night - 1 is completed		Day - 1 is completed		Night - 2 is completed		Day - 2 is completed		Night - 3 is completed	Day - 3 is completed
	6 AM		6 AM		6 AM		6 AM		6 AM			
	The day before Sabbath (15th Abib) is not Friday but 14th Abib (Preparation day).		FullMoon day = High Sabbath (1st day of Feast of Unleavened Bread)		Ladies purchased spices between the two Sabbath is proved plainly because there are 12 Sabbaths.		Jews kept the Weekly Sabbath (Luke 23:56). Ladies went to Tomb after the Sabbath.					
	6 PM on 13th Abib to 6 PM on 14th Abib		6 PM on 14th Abib to 6 PM on 15th Abib		6 PM on 15th Abib to 6 PM on 16th Abib		6 PM on 16th Abib to 6 PM on 17th Abib					
	14 Days = 14 days X 24 hours = 336 Hours		15 Days = 15 days X 24 Hours = 360 Hours		16 Days = 16 days X 24 Hours = 384 Hours		17 Days = 17 days X 24 Hours = 408 Hours					
	The Messiah was in the tomb at the end of 14th Abib. Full Moon should be calculated to celebrate the Full Moon festival (Chag HaMatzoth).		Wednesday Evening to Thursday Evening		Thursday Evening to Friday Evening		Friday Evening to Saturday Evening					
			Jews went to Pilate - Matt. 27:62		Ladies purchased spices - Mark 16:1; Luke 23:56		Messiah was resurrected - Matt. 28:1-17; 26:32					
		The Jewish Messiah was in the Tomb till the end of 72 hours or 3 nights and 3 days according to Matthews 12:38-40 Cf. Jonah 1:17.										
14th Abib occurred from 6 PM on 12th May CE 33 to 6 PM on 13th May, CE 33 according to Leviticus 25:8-9; Genesis 1:13-19; Psalms 104:19; Jer. 33:19-26.		15th Abib occurred from 6 PM on 13th May CE 33 to 6 PM on 14th May, CE 33 according to Leviticus 25:8-9; Gen. 1:13-19; Ps. 104:19. Note: The blind is teaching false to the blind.		16th Abib occurred from 6 PM on 14th May CE 33 to 6 PM on 15th May, CE 33 according to Leviticus 25:8-9; Gen. 1:13-19; Ps. 104:19. Note: There are 12 Sabbaths.		17th Abib occurred from 6 PM on 15th May CE 33 to 6 PM on 16th May, CE 33 according to Leviticus 25:8-9; Gen. 1:13-19; Ps. 104:19. Note: False doctrine is of Satan only (1 Tim. 4:1-2).						
The Messiah was in the tomb before 6 PM on Wednesday 13th May CE 33 (John 19:42; Mark 15:42-47; Matt. 27:57-61).		The Stumblingblocks (Gen. 3:11): (1). The Messiah appeared to ladies on Sunday morning (Mark 16:9). (2). Dawn is taken as Sunrise (Matt. 28:1; Mark 16:1-2). (3). The day before the Sabbath is Friday (Mark 15:42) etcetera. These are spritually killing the serpent seed (1 Peter 2:8).				The Messiah resurrected on Sabbath day (Before 6 PM) and appeared to Apostles only (Matt. 28:16-17; 26:32; Acts 10:40-41; Luke 24:13-27).						
The Messiah was born on the 1st day of Feast of Tabernacles, died on the day of Pesach, Poured His Spirit on the Feast of First Fruits (50th												

The Jewish Messiah (Yahweh= 1 Tim. 3:16) is coming soon on the day of Feast of Trumpets about in CE 2136.

Research: 15th Abib (1st day Feast of Unleavened Bread) is called as Pesach (Deuteronomy 16:1-7). And 14th Abib is called as 1st of Feast of Unleavened Bread (Matthews 26:17 ; Luke 22:1-2; Mark 14:1).

The Scriptural Day begins at 6 PM (Dawn) whereas Roman Day begins at 12 PM, and Hindu Day begins at 6 AM. Yahweh commanded that don't follow any traditions related to gentiles - Leviticus 18:1-5; Deut. 4:2; 12:32; 13:1-5.

So those who believe that the Jewish Messiah resurrected on Sunday are the seed of Serpent only (John 8:38-47;10:26-27; Matt. 13:39; 12:23-26). Please study under 78a/78b/17a/0b7a in Jewish Astronomy/website.

the Scriptural Astronomical proof (The Book of Yahweh is based on His Calendar formula): Please study under 52766 CCM in z20 or 1b Case - 5 on www.yhwhcalendar.com and www.yahwehcalendar49.cc

The Jewish Messiah (Yahweh= 1 Tim. 3:16) is coming soon on the day of Feast of Trumpets about in CE 2136.

Research: 15th Abib (1st day Feast of Unleavened Bread) is called as Pesach (Deuteronomy 16:1-7). And 14th Abib is called as 1st of Feast of Unleavened Bread (Matthews 26:17; Luke 22:1-2; Mark 14:1).

JEWISH HISTORY FROM 4234 BCE TO CE 2136 (WITH HISTORICAL AND SCIENTIFIC PROOFS - GENESIS 1:13-19; DAN. 2:1-49;7:1-28; EPH. 1:1-19)

SEARCH THE SCRIPTURES ALWAYS - JOHN 5:39; ACTS 17:10-12

Israelis didn't keep 70 LAND SABBATHS (70 X 7 Years) during 490 years (2 Chronicles 36:21 Cf. Jer. 25:10-12; Lev. 26:33-35, 43). Please note this point!

490 LUNI SOLAR YEARS = 5th year of King, Solomon to the end of 10th year of King, Zedekiah = 35 + 392 + 63. So kings of Judah should be 455 years only. Please realize this!

490 YEARS = 1099 BCE to 609 BCE. And 392 or 393 years are not accurate (Acts 4:27-28; Dan. 9:14). Yahweh is speaking through me about 70 Weeks, History, Chronology, and Scriptural Astronomy..

Rehoboam to Zedekiah = 392.5 YEARS = Stumblingblock.

70 WEEKS PROPHECY reveals that the day of Resurrection of the Messiah is Sabbath (Saturday), and the Jubilee Year occurred in CE 29 only. 70 Weeks should NOT be interpreted in terms of Solar Years.

70 WEEKS PROPHECY proves that there are 490 YEARS (490 Luni Solar Years = 178,960 Days = 10 Cycles) in 70 Weeks Prophecy. This proves that Yahweh used His Formula 10 times.

70 WEEKS PROPHECY proves that the Messiah born on 10th Nov., 1 BCE or 1 BC, in Summer but not in Winter (John 18:18 Cf. Ex. 23:16)!

SOME OF THE PROOFS OF JEWISH HISTORY FROM THE BEGINNING

Year	Month	Day	Hrs.	Min.	Sec.	DL	Say
4234 BCE	Feb.	23	18	00	00	35°E	(1)

-	-	-	-	-	Let's count or calculate the beginning of the Scriptural Lunar Month in October, and March in CE 2021 as below.																	-	-	-			

NB: 12th Extra Month occurred from 6 PM on 12th May CE 2021 to 6 PM on 10th June, CE 2021 (Isaiah 34:16).

JEWISH HISTORY FROM 4234 BCE TO CE 2136 (WITH HISTORICAL AND SCIENTIFIC PROOFS - GENESIS 1:13-19; DAN. 2:1-49;7:1-28; EPH. 1:1-19)

From Adam	Methuselah	Lemek	Noah	Shem	Arphaxad	Selah	Eber	Peleg	Reu	Serug	Nahor	Terah and Clues	Abraham Galatians 2:14, 3:7-29; Rom. 9:6-9, 11:17	Issac	Yacob	Yoseph and Clues	Years from Canaan (MH)	Kings of Judah		Missing Years/Clue	Kings of Israel		Total Years (SM)	BC = BCE and AD = CE	Subject, Emperor's name/Ottoman King/PM of Israel	49 - YC	References, and Name of Pope (Daniel 7:1-25; Rev.13:1-9)
																		Years	Name		Name	Years					

COMPLETE RESTORATION OF YAHWEH'S LUNI SOLAR CALENDAR FROM THE BEGINNING (23RD FEB., 4234 BCE). Tropical Year = 365.2244898 days, LM = 29.53135314 days

Let's calculate the beginning of Ethanim in October in CE 2021 according to the formula of Yahweh's Luni Solar Calendar (49 - Year Luni Solar Cycle = Leviticus 25:8-9) from the beginning as below.

77,358 Scriptural Lunar Months = 77358 Lunar Months X 29.53135314 days = 2,284,486.416 days.

2,284,486.416 days = 2,284,486 days, 9 hours, 58 minutes, and 48.576 seconds.

2,284,486 days are completed between (a2), and (b2).

Year	M	D	H	M	S	DW	DL	DLM	Say	CCM
4234 BCE	Feb.	23	18	00	00	Tue	35°E	0°	(a2)	0
CE 2021	Oct.	06	18	00	00	Wed.	35°E	0°	(b2)	-

Let's add 9 hours, 58 minutes, and 48.576 seconds to (b2) to get end of 77,358th Lunar Month.

Year	M	D	H	M	S	DW	DL	DLM	Say	CCM
CE 2021	Oct.	06	18	00	00	Wed.	35°E	0°	(b2)	
			09	58	48.576					
			27	58	48.576					
CE 2021	Oct.	07	03	58	48.576	Thu.	35°E	0°	(c)	77,358

77,358th Month/Elul/6255th Year ends while 77,359th/Ethanim/6256th Year begins at (c).

1st Ethanim or 6256th New Year in Summer = From 6 PM on 6th Oct., 2021 to 6 PM on 7th Oct., CE 2021.

For the complete picture: z20 or 1b Case - 5 on www.yhwhcalendar.com/www.yahwehcalendar49.com

Research: 6255 Civil Years are completed between (a2), and (c). So history is proved scientifically. So the nights, days, Phases of the Moon, Seasons, New Years, Sabbatical Years, Years of Tithe, Jubilee Years and Extra Months are proved astronomially.

Let's calculate the beginning of Abib in March in CE 2021 according to the formula of Yahweh's Luni Solar Calendar (49 - Year Luni Solar Cycle = Leviticus 25:8-9) from Canaan as

44,015 Scriptural Lunar Months = 44,015 Lunar Months X 29.53135314 days = 1,299,822.508 days.

1,299,822.508 days = 1,299,822 days, 12 hours, 11 minutes, and 52.8 seconds.

1,299,822 days are completed between (a3), and (b3).

Year	Month	D	H	M	S	DW	DLM	DL	Say	RCM
1539 BCE	Jun.	11	22	30	53.3952	Sun.	0°	35°	(a3)	0
CE 2021	Mar.	13	22	30	53.3952	Sat.	0°	35°	(b3)	-

Let's add 12 hours, 42 minutes, and 46.368 seconds to (b3) to get end of 44,015th Lunar Month.

Year	Month	D	H	M	S	DW	DLM	DL	Say	RCM
CE 2021	Mar.	13	22	30	53.3952	Sat.	0°	35°	(b3)	
			12	11	52.8					
			34	42	46.368					
CE 2021	Mar.	14	10	42	46.1952	Sun.	0°	35°	(d)	44,015

44,015th Month/Adar/3559th Year ends while 44,016th/Abib/3560th Year begins at (d).

1st Abib or 3560th New Year in flowering = From 6 PM on 14th Mar., 2021 to 6 PM on 15th Mar., 2021.

For the complete picture: z20 or 1b Case - 5 on www.yhwhcalendar.com/www.yahwehcalendar49.com

Research: '3560 Religious Years are completed between (a3), and (d) if counted from Canaan (Leviticus 25:1-7). Abib begins at (d) according to Yahweh's 49 - Year Luni Solar Cycle. So Scriptural Astronomy is proved whereas NASA/IAU data is not proved.

Yahweh is speaking (Through the Prophets + Apostles + Wisemen + Scribes = Matt. 23:34 = Eph. 4:13) to this very day (1 Cor. 3:6; 1:18-31; Matt. 6:31-34; Acts 17:10-12; 26:23; 24:14-15; Romans 11:13-23; 2:26-29; Gal. 2:14; 5:15-16; Php. 3:1-3; 1 Tim. 1:8-11; Jeremiah 31:31-33; Zech. 8:23; 1 Cor. 2:10-15; 13:10; 14:26-38; Php. 3:12-16; 4:8-9; 1 Thess. 5:21 KJV; Tim. 2:15; 2 Rev. 2:1-2 etc.).

http://astropixels.com/ephemeris/calendarconverter.html
Use this to get days/Day of Week.

JEWISH HISTORY FROM 4234 BCE TO CE 2136 (WITH HISTORICAL AND SCIENTIFIC PROOFS - GENESIS 1:13-19; DAN. 2:1-49;7:1-28; EPH. 1:1-19)

From Adam	Methuselah	Lemek	Noah	Shem	Arphaxad	Selah	Eber	Peleg	Reu	Serug	Nahor	Terah and Clues	Abraham Galatians 2:14,3:7-29; Rom. 9:6-9,11:17	Issac	Yacob	Yoseph and Clues	Years from Canaan (MH)	Kings of Judah		Missing Years/Clue	Kings of Israel		Total Years (SM)	BC = BCE and AD = CE	Subject, Emperor's name/Ottoman King/PM of Israel	49 - YC	References, and Name of Pope (Daniel 7:1-25; Rev.13:1-9)
																		Years	Name		Name	Years					

COMPLETE RESTORATION OF YAHWEH'S LUNI SOLAR CALENDAR FROM THE BEGINNING (23RD FEB., 4234 BCE). Tropical Year = 365.2244898 days, LM = 29.53135314 days

Where (1). C 606 stands for Number of Civil months completed out of 606 Lunar Months in each Civil 49 - Year Lunisolar Cycle, (2). R 606 stands for Number of Religious Months completed out of 606 Lunar months in Religious 49 - Year Luni Solar Cycle, (3). CCM stands for Number of Civil months completed from date of the Creation of the sun, moon and stars. (4). Year = Year. (5). M = Month. (6). D = Day. (7). H = Hours; (8). M = Minutes. (9). S = Seconds. (10). DW = Day of Week. (11). Length of Lunar month according to 49 - Year Lunisolar Cycle as written in Leviticus 25:8,9; Genesis 18:14, 1:14-19; 8:22; Numbers 23:19; Jeremiah 31:35-37, 33:19-26; Job 26:7, 38:31-36; Psalms 104:5, 19-27, 19:1-4; John 11:9; Deuteronomy 11:12; Exodus 34:22; Ezk. 5:5, 38:12; Matthews 24:35).

(11). D/M = Days/Month, (12) 1st day of the Scriptural Lunar Month or New Year is confirmed as below

(1). Celebrate the beginning of Month or Luni Solar New Year from 6 PM (18 hours) of Previous Roman date to 6 PM of next Roman date if Lunar Month or Luni Solar New Year begins between 0 hours and 9 hours.

(2). Celebrate the beginning of Month or Luni Solar New Year from 6 PM of Roman date to next 6 PM of next Roman date if Month or Luni Solar Year begins between 9 hours (9 AM) and 24 hours (12 PM). of Israel Local Standard Time at 35°E (Deut. 11:12-14; Neh. 8:3-12; Acts 2:14 - 16; Num. 28:11-14, 1-8).

(13). 15th day of Month (Ps. 81:1-5) = Full Moon day according to Nehemiah 8:3-12; Acts 2:14-16; Numbers 28:11-14, 1-8). (14). RCM = Number of Religious Months completed from the plains of Moab (Numbers 33:48-56).(15). CY = SM = Civil Years completed from the birth of Sun, Moon, and stars (Genesis 1:13-19). (16). YC = Years completed out of 49 Civil Years (1 to 49).

(17). D/YC = Days per YC.

(18). RY = MH = Religious Years counted from the land of Canaan (Leviticus 25:1-7).

(19). YR = Religious Years completed out of 49 Religious Years (1 to 49).

(20). D/YR = Days per YR.

(21). CCC = Number of Civil 49 - Year Luni Solar Cycles Completed form the date of the Creation of Sun, Moon, and stars (From 18 hours, on 23rd February, 4234 BCE, at 35°E, Jerusalem (Genesis 1:13-19).

DP = Years counted from the Departure after Pesach (Numbers 33:1-3).

R606 = C606 - 6; RM40 = CCM - 32,841 where 6 and 32,841 lunar months are Constant.

* Many countries banned Slavery, racism, and so on but didn't ban inaccurate Calendar.

Beware of all Jeroboamic calendars (1 Kings 12:25-33). Present false teachers are teaching different satanic calendars (Gal. 2:1-5). All false teaching is coming out of the demons (1 Timothy 4:1-2, 1 John 4:1-

(22). RCC = Number of Religious 49 - Year Luni Solar Cycles completed from Canaan (Leviticus 25:1-7)

(23). d = 10th day of 1st Civil Month of 1 to 50th Civil Year.

(24). D = 10th day of Ethanim of any Religious Year.

(25). A = 14th day of Abib.

(26). D49 (49th Yom Kippur) = d1 or d50 (10th day of 1st Civil Month of 1st or 50th Civil Year) = Jubilee Year = 24 hours = Year of Release that occurs always in 49th Religious Year. Note this.

DLM = Degrees of Longitudes determined by Yahweh with respect to Jerusalem wrt 35°E (Genesis 1:13-19).

DL = Degrees of Longitudes (UK is NOT the center of the World before the Continental Drift). Please note this.

Number of Religious Years completed = CY - 2695.5 at precision only.

Number of SM or Civil Years completed = MH + 2695.5 at precision only.

35°E Degrees of Longitudes = Zero Degrees of Scriptural Longitudes.

* RY/3 = Number of Years of Tithe completed (If the remainder is ZERO)

** RY/7 = Number of Sabbatical Years completed (If the remainder is ZERO)

*** RY/49 = Number of Jubilee Years completed (If the remainder is ZERO)

Special Note: ZERO residue is remained at the end of each 49 - Year Lunisolar Cycle.

**** CCC = CY/49 = Number Civil Cycles complod (If the remainder is ZERO). RCM = CCM - 33,336 where 33,336 lunar months are constant.

***** RCC = RY/49 = Number Religious Cycles complod (If the remainder is ZERO).

C49 = CCM and R49 = RCM(What a wonderful theory and formula of YHWH!)

1/1 indicates 1st month of 1st year completed out of 49 Years. In this way you can understand.

12/1 indicates 12th month of 1st year completed out of 49. In this way you can understand the remaining.

12/2 indicates 12th month of 2nd year completed out of 49. In this way you can understand the remaining.

12/12 indicates 12th month of 12th year completed out of 49. In this way you can understand the remaining.

12/50 indicates 12th month of 50th Civil year completed out of 50 Civil Years.

RM40 = Number of Religious Months completed during 40 years of journey.

DP = MH + 40 or MH = DP - 40. Please read 1 Cor. 11:16, 13:10; 2 Cor. 12:18.

* China banned 60 - Year Cycle in CE 1930 because there is no precision in it (365.2 days/Tropical Year).

Please compare the beginning time of each 49 - Year Luni Solar Cycle (1st Ethanim that occurs always in Summer in Israel, and 1st Abib that occurs always in Flowering in Northern Hemisphere) with the beginning time of Hindu and NASA 60 - Year Luni Solar Cycle (About from 4253 BCE to CE 4000). And please study each New Moon report in CE 2022.

BEGINNING AND ENDING TIME OF EACH CIVIL AND RELIGIOUS 49 - YEAR LUNI SOLAR CYCLE AND NASA 49 - YEAR LUNI SOLAR CYCLE FROM THE BEGINNING																																							
Conditions: (1). "A" and "B" is calculated according to Yahweh's Lunar Month = 29.53135314 days. (2). "C" is calculated according to NASA/IAU Lunar Month = 29.53058885 days (Average)																																							
CCM	A = Ending time of each 49 - Year Luni Solar Cycle (Religious) and ending time of Jewish Lunar Month at 35°E												C = Ending time of NASA'S 49 - Year Luni Solar Cycle and ending time of Jewish Lunar Month at UT												B = Ending time of each 49 - Year Luni Solar Cycle (Civil) and ending time of Jewish Lunar Month at 35°E

-	Research: Chinese and Hindus Luni Solar Calendar Formula = 60 - Year Luni Solar Cycle = 742 Lunar Months = 21,912 days = 720 Tropical Months. This formula is cheating all Chinese and Hindus to this very day under the veil of god. This formula is not giving accurate Seasons, and Phases of the Moon. So this formula is not determined by the Creator. Religious leaders and scientists are misleading the World with inaccurate discoveries such as length of IAU or NASA day = 86,164 seconds, NASA Lunar Month = 29.53058885 days and it varies from 29.26 days to 29.8 days, Chinese Lunar Month = Hindu Lunar Month = 29.5309973 days, Grecian Lunar Month = 29.52765957 days. In this way the World is being cheating by false concepts (2 Corinthians 4:3; 1 Corinthians 13:10; Numbers 23:23)!												21816	Jewish or NASA 49 - Year Luni Solar Cycle or Gregorian 400 - Year Cycle is the false concept (Leviticus 18:1-5; Deuteronomy 17:2-14)! -	-	-	-	-	-	-	-	-	-	-	-	-	24846	RESEARCH: NASA or IAU used the length of day as 86,400 seconds (24 hours strictly but not as 23h,56m,4s) from 2000 BCE to CE 4000 but didn't use the length of Lunar Month as 29.53058885 days through out their calculations. Length of Lunar Month (Synodic) is Constant if the length of Day is Constant. Please note this!								Elul	-		606	24846	2225 BCE	Jan.	03	18	00	00	Fri.	Elul	41	2009														
-	Satan is cheating the whole Jewish nation through the Rabbis in the case of "The Appointed times of Yahweh, Chronology from 4234 BCE to CE 2136, 70 Weeks Prophecy and so on" since CE 136. Jews expelled from their homeland in CE 135 during the reign of Hadrian, the Roman Emperor. Jews returned from all countries according to the Prophecies. Jews are keeping their Religious Festivals according to Grecian 19 - Year Luni Solar Cycle and inaccurate 50 - Year Luni Solar Cycle since CE 1948 officially. Yahweh, the Creator used His servant, Mose to write His Luni Solar Calendar formula, 49 - Year Luni Solar Cycle in His Book in 1579 BCE in Leviticus 25:8-9. Jews forgot this formula after CE 136. This is the time to restore Yahweh's Luni Solar Calendar Formula because the Spirit of Yahweh inspired me to produce all this data. So search the Scriptures (1 Thess. 5:21)!												-												Elul	-		606	25452	2176 BCE	Jan.	01	18	00	00	Tue.	Elul	42	2058

51808	292	18472	46 BCE	Dec.	14	2	14	15.072	Mon.	Bul	-	-	51808	45 BCE	Jan.	01	13	08	30.048	Fri.	Bul	-	-	-	-	-	-	-	-	-	-	-	-	-	-						
Note: Jewish New Year (1st Abib) begins always in Flowering time in Winter. So it begins as soon as 51800 CCM ends in 46 BCE. So Jewish New Year = 6 PM on 21st Apr., to 6 PM on 22nd April, 46 BCE = Proved historically/scientifically. "Abib month" is proved in Julian Calendar.												Note: 1st Abib = From 6 PM on 10th May to 6 PM on 11th May, 46 BCE according to NASA 49 - Year Luni Solar Cycle. So NASA Lunar Month (29.53058885 days) is disproved at the time of Julian Calendar because Abib didn't occur in the right time!												Note: Yahweh's Formula only (49 - Year Luni Solar Cycle) is giving accurate Nights, daytimes, Seasons, Phases of the Moon, Sabbatical and Jubilee Years. forever without any change in the length of Day (86,400 seconds), Lunar Month (29.53135314 days), and Tropical Year (365.2244898 days).																	
Research: Jewish New Year (1st Abib in budding time forever) occurred in April in 46 BCE in the right time according to Yahweh's formula (49 - Year Luni Solar Cycle) whereas 1st Abib didn't occur in the right time according to NASA 49 - Year Luni Solar Cycle. "April" indicates "Budding or Flowering time" in Julian Calendar at the time of Julius Caesar who introduced Julian Calendar in 46 BCE. Therefore the Creator, Yahweh's Formula (49 - Year Luni Solar Cycle = 49 - Year Tropical Cycle = 49 Years = 606 Lunar Months = 17,896 days forever) concerning His Luni Solar Calendar is proved practically, Historically, and Scientifically from the date of the Creation of Sun, Moon, and stars (6 PM on 23rd Feb., 4234 BCE, at 35°E, Jerusalem). NASA data according to 49 - Year Cycle (Phases of the Moon, and Seasons produced by NASA) is NOT giving accurate Seasons and Phases of the Moon from the beginning but hardly is giving some approximate data only between CE 1807 and CE 2167 only. So Yahweh, the Creator Created Sun, Moon, and stars at the end of 3rd day of the Week is proved as written in His Book, The Book of Yahweh (Isaiah 34:16; Leviticus 25:8-9). So NASA data is not proved practically. So Yahweh is proved as the Creator by the help of His Universal Luni Solar Clock, the Sun, and Moon (Genesis 1:13-19; Lev. 25:8-9; Deuteronomy 11:11-14; Psalms 148:1-6,104:19, 81:1-5; Jeremiah 33:19-26, 31:35-37; John 11:9; Job 26:7, 38:1-34; Isaiah 48:13; Num. 23:19).

Note: Jewish New Year = 6 PM on 21st Apr., to 6 PM on 22nd April, 46 BCE = Proved in this method. Jewish New Year (1st Abib) begins always in Flowering time in Winter, so Abib begins in this method as soon as 51800 CCM ends in 46 BCE. "April" stands for flowering in Julian Calendar. So Yahweh's 7 - Day Weekly Cycle, and 49 - Year Luni Solar Cycle only gives accurate Nights, days, Seasons, Phases of Moons etc.											NOTE: 1916th Shavuot = 16th - 17th May, CE 1948!	Note: Jewish New Year = 6 PM on 10th May, to 6 PM on 11th May, 46 BCE = Disproved. Jewish New Year (1st Abib) didn't begin in April when 51800 NLM ends in 46 BCE. "April" stands for flowering in Julian Calendar. So NASA discoveries such as (1). Day = 86,164 seconds, (2). Lunar Month = 29.53058885 days, and (3). Tropical Year = 365.24219 days is disproved!											Note: Jewish New Year = 6 PM on 10th May, to 6 PM on 11th May, 46 BCE = Disproved in this method because Jewish New Year (1st Abib) didn't begin in April in Winter as soon as 51800 NLM ends in 46 BCE. "April" stands for flowering in Julian Calendar. So NASA discoveries such as (1). Day = 23 hours, 56 minutes, 4.09 seconds or 86,164 seconds, (2). Lunar Month = 29.53058885 days, and (3). Tropical Year = 365.24219 days is disproved!									

CCM = Civil Months Completed from the date the Creation of Sun, Moon, and stars i.e from 18 hours on 23rd Feb., 4234 BCE, at 35°E; R 606 = Religious Months completed out of 606 (Leviticus 25:1-9; Deuteronomy 6:1-4);

RCM = Religious months Completed from Canaan; M = Roman Month; D = Day; H = Hours; M = Minutes; S = Seconds; DW = Day of Week; Month = Jewish Months i.e Abib, the first month, Zif, Sivan, Tammuz, Ab,

Elul, Ethanim, Bul, Kislev, Tebeth, Sebat, and Adar the 12th Religious Month; RCC = Number of Religious 49 - Year Luni Solar Cycles Completed; RY = Religious Years completed from Canaan (Lev. 25:8-9; Deut. 11:8-12);

NCM = NASA Lunar Months completed according to NASA 49 - Year Luni Solar Cycle, and is counted backwardly from 76,931 NCM (12 hrs., 45 min., on 29th March, CE 1987, UT, Website); and forwardly from 0 NCM.

C606 = Civil months completed out of 606; CCC = Number of Civil 49 - Year Cycles Completed; CY = Civil Years completed from the beginning;

IAU = International Astronomical Union; <http://astropixels.com/ephemeris/calendarconverter.html> This link gives day of Week and days completed between any two dates;

<http://astropixels.com/ephemeris/phasescat/phasescat.html> This link gives Phases of the Moon from 2000 BCE to CE 4000, but the Phases of the Moon produced by NASA are not accurate.

Research: The Creator, Yahweh's Luni Solar Calendar Formula (49 - Year Luni Solar Cycle = 49 - Year Tropical Cycle = 49 Years = 606 Lunar Months = 17,896 days forever) concerning Seasons and Phases of the Moon from the beginning is proved in every historical event such as 7 - Day Weekly Cycle (Genesis 1:1-31, 2:1-3), Israel's departure from Egypt after the end of 400 years of slavery (Exodus 12:40-41 Cf. Genesis 15:13-16), departure from Egypt (Numbers 33:1-5 Cf. Galatians 3:17), 4 mighty kingdoms around the World (Daniel 2:28-49), and so on. *So Yahweh, the Creator Created Sun, Moon, and stars at the end of 3rd day of the Week is proved as written in His Book, the Book of Yahweh* (Isaiah 34:16; Leviticus 25:8-9). NASA data or Hindus or Chinese 60 - Year Luni Solar Cycle is not proved practically. That's why Yahweh is proved as the Creator by the help of His Universal Luni Solar Clock, the Sun (Brighter light), and Moon which gives nights, daytimes, Months, Seasons, and Phases of the Moon forever (Genesis 1:13-19; Psalms 148:6, 104:19, 81:1-5; Jeremiah 33:19-26, 31:35-37; John 11:9; Job 26:7, 38:1-34).

BEGINNING AND ENDING TIME OF EACH CIVIL AND RELIGIOUS 49 - YEAR LUNI SOLAR CYCLE AND NASA 49 - YEAR LUNI SOLAR CYCLE FROM THE BEGINNING																																	
Conditions: (1). "A" and "B" is calculated according to Yahweh's Lunar Month = 29.53135314 days. (2). "C" is calculated according to NASA/IAU Lunar Month = 29.53058885 days (Average)

CE 2132 to CE 2136		CE 2132 to CE 2136										3.5	6370	Rev. 13:1-18																			
Total		4234 BCE to CE 2136										6,370	-	Acts 4:27-28; Eph. 1:1-14																			
Whre AO = Years completed in Ascending Order. Note: BC = BCE; AD = CE; Research: The above Chronology is proved theoretically, practically, historically and astronomically. 2,326,480 days are there from 18 hours (6 PM) on 23rd Feb., 4234 BCE (Tue.), at 35°E, Jerusalem to 6 PM on 27th Sep., CE 2136 (Thu.) at 35°E, Jerusalem. So the Jewish Messiah (Yahweh, the Creator) is coming soon about in CE 2136 to rule His people according to His prophecies. Yahweh is going to punish all the wicked (Jeremiah 25:29). For complete picture of Days, Months, Years, Extra Months, Sabbatical Years etcetea pl., visit www.yhwhcalendar.com and yahwehcalendar49.com																																	
SEARCH THE SCRIPTURES CAREFULLY WITH THE HELP OF THE HOLY SPIRIT (JOHN 5:39, 16:1-14; 1 THESS. 5:21; ROMANS 8:9; 1 CORINTHIANS 13:10)																																	
Note: (1) Abijam reigned 40 years by the grace of YHWH because he married 14 wives and bore 22 sons and 16 daughters (2 Chronicles 13:20-22, 14:1 compare with 1 Kings 15:2). Special note: 3 years are not suitable to get fulfilment of 70 Weeks Prophecy and so on.																																	
(2) Asa reigned 56 years by the grace of YHWH (2 Chronicles 15:15-17 Cp. 1 Kings 15:10). Special note: For details, please study under 8aa and New Moon reports.																																	
(3) Amaziah reigned 40 years by the grace of YHWH (2 Kings 14:2 Cp. 2 Kings 15:1). Special note: Accurate History only gives accurate New Moons.																																	
(4) The years must be 455 between Rehoboam and Zedekiah to get Wednesday for date of creation of sun, moon and stars. Religious Cycle begins from Canaan.																																	
(5) All Jewish Calendars such as Torah Calendar, Karate calendar, Hebrew Calendar etcetera are 100% false because they used inaccurate history such as 392 years etcetera. They are true in the past as there was no accurate Chronology (1 Corinthians 13:10). Religious Cycle begins 2695.5 Years only.																																	
(6) Therefore 455 years are 100% accurate which gave the way to discover International Scriptural Date Line, International Scriptural Lunar Month Line and International Lunisolar Year Line AND to produce Phases of Moon, Civil and Religious NEW YEARS, Sabbatical Years, Jubilee Years and Years of Tithe from the Creation of sun, moon and stars to CE 2136.																																	
(7) Israelis entered into Canaan after 2695.5 years is proved by Yahweh's Lun Solar Calendar only. NASA discoveries (Length of Day, Lunar Month, and Tropical Year) are not giving accurate Phases of the Moon, and Seasons. So NASA data is disproved.																																	
Many false Prophets and their follwers are still keeping the beginning of Scriptural Lunar Month (Num. 10:10) by watching the VISIBLE CRESCENT. Many are postponing the beginning of Scriptural Month if the Moon is not visible. So many times the thin silver Crescent may not appear in the Western Sky because of humidity in the sky, clouds, Longitudes and Latitudes. So postponement of Yahweh's Appointed times is the sin because men has no such authority. Is not this proving their foolishness? (2 Peter 2:1-21; Titus 1:10-16; Judah 3-19). Many people and scientists are solving their problems and scientific puzzles since many years. So let us restore accurate History and YAHWEH'S LUNI SOLAR CALENDAR FORMULA in our time (Job 34:1-4; 1 Thess. 5:21; Acts 17:10-11; Php. 2:1-5, 4:8-9; Matt. 24:35).																																	

77,362ND NEW MOON OR TEBETH REPORT IN JANUARY, CE 2022 - ESTHER 2:16; GENESIS 1:13-19; NUM. 10:10, 23:19; DEUT. 11:11-12; JER. 33:19-26, 31:35-37, 32:26-27 ETC.**77,361 Scriptural Lunar Months are completed from 18 hours on 23rd Feb., 4234 BCE to 18h, 14 m, and 15.36s on 3rd Jan., CE 2022 according to 49 - Year Luni Solar Cycle (Leviticus 25:8-9; Gen. 1:13-19; John 11:9).****Yahweh's Lunar Month = 29.53135314 days (17,896 days + 606 Lunar Months); Yahweh's Tropical Year = 365.2244898 days (17,896 days + 49 Years). Yahweh's Formula = 49 Years = 17,896 days = 606 Lunar Months = 588 Tropical Months.**

Let's calculate the end of 77,361st Lunar Month from the date of the Creation of Sun, Moon and stars (From 6 PM of 23rd February, 4234 BCE, at 35E) according to Yahweh's Formula.

77,361 Lunar Months = 77,361 Lunar Months X 29.53135314 days = 2,284,575.01 days = 2284,575 days + Residue. The Residue = 0 hours, 14 minutes and 15.36 seconds (Num. 10:10; Deut. 11:11-12)

2,284,575 days are there between (a) and (b). You can check these days with the below link.

Year	Month	Day	Hours	Min.	Sec.	DW	DL	DLM	Country	Case
4234 BCE	Feb.	23	06	00	00	Tue.	145°W	-180°	Alaska, USA	(a1)
4234 BCE	Feb.	23	18	00	00	Tue.	35°E	0°	Israel	(a)
This link gives 2,284,575 days http://astropixels.com/ephemeris/calendarconverter.html										
CE 2022	Jan.	03	18	00	00	Mon.	35°E	0°	Israel	(b)

Therefore 77,361st month (Kislev) ends while 77,362nd MONTH (1st Tebeth) begins at (1).

1st day of Tebeth or 77,362nd New Moon Day = 6 PM on 3rd Jan., to 6 PM on 4th Jan., CE 2022.

At (a, a1) = Genesis 1:13-19, 18:14; Num. 11:23, 23:19; Jeremiah 32:26-27, 31:35-37, 33:19-26; 2 Tim. 2:13.

Very first Sun rays appears as Sunrise at (a1) according to the principles determined by Yahweh (Job 38:1-33).

Let's add the Residue to (b) to get the end of 77,361st Lunar Month.

So Tebeth (77,362nd Month) begins at (1).

Year	Month	Day	Hours	Min.	Sec.	DOW	Country	DL	DLM	CY	Case
CE 2022	Jan.	03	18	00	00	Mon.	Israel	35°E	0°		(b)
http://whenisthenewmoon.com/											
CE 2022	Jan.	03	18	14	15.36	Mon.	Israel	35°E	0°	-	(1)

But NASA calculated the beginning time of New Moon as 18 hrs., 34m., on 2nd Jan., CE 2022 = FAKE forever!

For New Moon report: <https://truthofyahweh.org/moon.htm><https://paleotimes.org/blog/>**77,362nd Scriptural Lunar Month or Tebeth begins strictly at (1) and as below according to the Book of Yahweh (Isaiah 34:16; Numbers 28:1-15; Nehemiah 8:1-13; Acts 2:15; 2 Timothy 2:13; Numbers 10:10; Deut. 11:11-14).**

Time According to Head (DLM)	DLM	Total Age of Sun, Moon, and stars (Genesis 1:13-19; Jeremiah 32:26-27)	77,362nd Scriptural Lunar Month (Yahweh's Lunar Month or Tebeth) strictly begins as below (Say BT)											1st Day of Tebeth or 77,362nd Month (Deut. 11:11-12, 17:8-13; Num.10:10)	Age at RT = RT - BT	Required Time of the Phase of Moon (Say RT)

Yahweh's Universal Luni Solar Clock is Working from (1) to (14) only. The very First Sun rays appeared as Sunset at (a) whereas the same Sunrays appeared as Sunrise at (a1) only on the Globe in the beginning. Where DL = Degrees of Longitudes; DLM = Degrees of Longitudes determined by Yahweh (Amos 3:7; 1 Cor. 2:10-15, 12:4-31; John 16:1-14; John 18:37-38; Isa. 45:12; Jer. 31:35-37, 33:19-26, 32:26-27; Isaiah 45:12; Job 38:1-33, 26:1-7; Jos. 10:1-14; Num. 23:19; Eze. 12:28 etc.); DWE = Degrees completed behind Israel while rotating from West to East; Mo. = Month; Hrs. = Hours; Min. = Minutes; Sec. = Seconds; d = days; DW or DOW = Day of Week; BT = Beginning Time of Lunar Month; RT = Required Time of Phase of the Moon.

CONDITIONS: (1). Celebrate the beginning of Scriptural Lunar Month (Numbers 10:10) from previous evening (6 PM) to next evening (6 PM) if the Scriptural month begins between 0 hours and 9 hours of any date with respect to Israel (Num. 28:4, 11-15; Neh. 8:1-3, 13; Mark 15:25; Acts 2:14-16). (2). Celebrate the beginning of Scriptural Month from evening (6 PM) to next evening (6 PM) if the Scriptural month begins between 9 hours and 24 hours of any date with respect to Israel. (3). Yahweh's Formula is Constant forever (Jeremiah 33:19-26, 32:26-27; Matt. 24:35). So 1 day = 86,400 seconds per 360°; 1 Lunar Month = 29.53135314 days per 360°; and 1 Tropical Year = 365.2244898 days per 360°.

NB: The time of the burnt offering of each "Beginning of Month" is 9 hours (9 AM) - Mark 15:25 Cf. Matt. 5:17-18; Num. 10:10, 28:11-15, 29:1-6. That's why Israelites celebrated the 1st day of the 7th month from 8 AM to 12 AM strictly (Neh. 8:1-12; Lev. 23:23-25). Crescent - 1 is Age of the Scriptural Lunar Month whereas Crescent - 2 is the Age of the previous month. The length of Scriptural Tropical Year (365.2244898 days) is Constant because of the volume of the Moon from the beginning to end of each Lunar Month (29.53135314 days) is Constant in 49 - Year Luni Solar Cycle. Yahweh determined that to which month takes 29 days and to which month takes 30 days (Gen. 1:13-19; Psalms 104:19; Job 38:1-33). So you can't confine or modify the length of Day, Lunar Month and Tropical Year. So count each month by using Yahweh's Formula (Lev. 25:8-9) which is 606 months = 49 Years = 17,896 days.

Research: The beginning and end of each Month (Duet. 11:11-12) is important. "UT ± H M S" is a scientific concept if the Earth is stopped and UK is center of the Globe. NUT (New Universal Time) = "II.LST - H M S" is "The Scientific Concept" because Jerusalem is the center of the Globe (Genesis 1:1-19). And Time, and Phases of the Moon begins from Jerusalem only (Genesis 1:13-19). There is no Scientific proof that time, and Phases of the Moon begins from UK or any country. "UT - H M S" is scientific if the Earth is rotating from West to East and UK is center of the Globe. So UT is disproved once again. Yahweh proves that time, and Phases of the Moon begins from Jerusalem (ISRAEL) only in His Book in Genesis 1:1-31, 2:1-3; Lev. 25:8-9; Ezk. 5:5, 38:12; Psalms 104:19; John 11:9; Job 26:7, 38:1-33; Jer. 33:19-26, 31:35-37!

WHICH UNIVERSAL LUNI SOLAR CLOCK IS SCIENTIFIC AND WHERE IT IS WRITTEN?

VOLUME OF MOON IS CONSTANT SO THE SCRIPTURAL LUNAR MONTH AND TROPICAL YEAR IS CONSTANT!

P = THE UNIVERSAL LUNI SOLAR CLOCK OF YAHWEH (The Creator)												Q = THE UNIVERSAL LUNI SOLAR CLOCK OF ASTRONOMERS													
Tebeth begins as below according Yahweh as Jerusalem is center of the Globe and Head of Time												Tebeth begins as below according to NASA or IAU if Jerusalem is center of the Globe and Head of Time

Yahweh's Universal Luni Solar Clock is working from (1) to (12). "P" is satisfying the date of the Creation of Sun, Moon and stars, the 7 - Day Weekly Cycle and so on. Please see the below poofs of "P" (Genesis 1:1-31, 2:1-3).												Astronomers' Clock is working from (1) to (6) and (1) to (r) via (p) which is true if the earth is stopped. So "Q" is not proved as it didn't prove any 7 - Day Weekly Cycle of any date by giving nights and daytimes.													

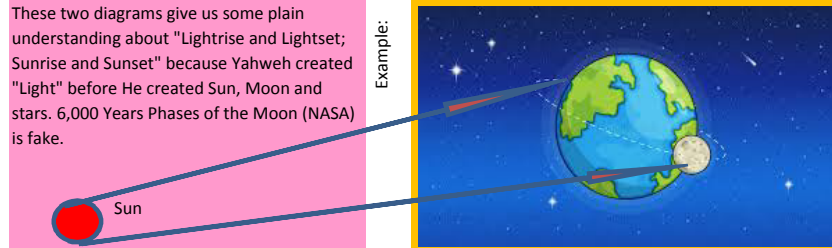

Yahweh's Universal Luni Solar Clock is working from (1) to (12). "P" is satisfying the date of the Creation of Sun, Moon and stars, the 7 - Day Weekly Cycle and so on. Please see the below poofs of "P" (Genesis 1:1-31, 2:1-3).

Astronomers' Clock is working from (1) to (6) and (1) to (r) via (p) which is true if the earth is stopped.

So "Q" is not proved as it didn't prove any 7 - Day Weekly Cycle of any date by giving nights and daytimes.

So Yahweh's Universal Luni Solar Clock is Scientific and it's formula is written in Leviticus 25:8-9. Formula = 7 Times 7 years = 49 Years = 606 Lunar Months = 17,896 days = 588 Tropical Months (Lev. 25:8-9; Jeremiah 33:19-26).

NB: II.LST = Israel Local Standard Time at 35 °E Jerusalem; D = d = days; H = Hrs., = h = hours; M = Min. = m = minutes; S = Sec. = s = seconds; DWE = Degrees completed behind Israel while the Earth is rotating on its axis from West to East strictly from 6 PM on 20th Feb., 4234 BCE, at 35 °E, Jerusalem (Genesis 1:1-19); DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me; DL = Degrees of Longitudes; DLA = Degrees of Longitudes decided by Astronomers.

Research: Universal 7 - Day Weekly Cycle is counted from 18 hours (6 PM) on 20th Feb., 4234 BCE, at 35°E Jerusalem only. The very first Sunrays indicated as Sunrise at (a1) whereas indicated as Sunset at (a) on the **Globe**. NASA/IAU failed to prove that Yahweh is the Creator with the help of 49 - Year Luni Solar Cycle and 49 - Year Tropical Cycle which is the formula of "The Universal Luni Solar Clock, the Sun, and Moon". The formula of Yahweh's Clock is written in the Book of Yahweh as 49 YEARS in Lev. 25:8-9 Cf. Lev. 23:4-44; Isa. 34:16. This formula only gives accurate Seasons, Phases of the Moon etcetera.

Yahweh, the Creator created Sun, Moon, and stars as below in the beginning (Genesis 1:13-19)

Year	Month	D	H	M	S	Country	Yahweh's Clock	DLM	Very first	DL
4234 BCE	Feb.	23	06	00	00	Alaska	II.LST - 12 hours	-180°	Sunrise (a1)	145°W

V or VW = Crescent is Visible if Sun, Weather, Longitudes, and Latitudes are suitable. Month = 29.53135314 days (29d, 12h, 45m, 8.91088992s)																		ES = The Eastern Sky; WS = The Western Sky (Psalms 104:19, 19:1-4; Job 26:7).			

"Yahweh's Universal Luni Solar Clock" is working from (1) to (14) only. BT = Beginning Time of Lunar Month or Beginning of the Scriptural Lunar Month (Numbers 10:10; Deut. 11:11-12); RT = Required Time of Phase of the Moon.

Extra Month is occurring according to the formula of Yahweh's Luni Solar Calendar only but not according to the RIPENED BARLY CORNS. Please remember that crops are cursed in many years because Israelis and gentiles are rejecting Commamnts of Yahweh (Deut. 11:11-17 etc.). Even Priests didn't go to the barley fields to observe whether the barley ears are ripened properly or not. Proof: 0b00, z20 or 1b Case - 5i in www.yahwehcalendar49.com

Where d1,																																

* * Yahweh commanded His people to count for 49 YEARS in terms of 7 times 7 years (Lev. 25:8-9). Are not 17,896 days = 606 Lunar Months = 7 times 7 years? Please get the length of Lunar month and Tropical Year with this.

Are not there 18,250 days and 618 Lunar Months in 50 years? Are not there 6939 days and 235 Lunar Months in 19 years? Are not there 14,097 days, and Lunar Months 4947.310761 in 400 Gregorian Tropical Years?

So many Rabbis/Prophets calculated wrongly the Appointed times of Yahweh each year with the help of Gentile Grecian 19 - Year Luni Solar Cycle. This tradition came into existence since CE 135 (Matt. 23:1-39).

RESEARCH: Did you realize that the time between any two consecutive JUBILEE YEARS are 17,896? So you don't have any authority (Ezk. 46:14) to prepone or postpone Yahweh's Appointed times. **SEARCH:**

(A) C 606 = Number of civil months completed out of 606 civil months in Civil 49 - Year Lunisolar Cycle. (B) CCM = Number of Civil months completed from the Creation of sun, moon and stars (Jer. 31:35-37). (C) Year = Roman Year (Daniel 7:7-8, 23-25). (D) M = Month. (E) D = Day. (F) H = Hours (G) M = Minutes. (H) S = Seconds. (I) DW = Day of Week; DC = Days Completed; (J) D/M = Days per Month according to Leviticus 25:8, 9; Nehemiah 8:1-3, 12 - 13; Acts 2:1 - 16; Genesis 18:14, 1:14-19; 8:22; Numbers 23:19; Jeremiah 31:35-37, 33:19-26; Job 26:7, 38:31-36; Psalms 104:5, 19-27, 19:1-4; John 11:9; Deuteronomy 11:12; Exodus 34:22; Ezk. 5:5, 38:12; Matthews 24:35).	A = Lunar Month; EM = Extra Month;	(X) CCM X A = CCM X 29.53135314 days; (Y) C 606 X A = C 49 X 29.53135314 Days. Where A = 29.53135314 days (Z) R 606 X A = R 49 X 29.53135314 Days. (AA) RCM X A = RCM X 29.53135314 Days. Note: Very first 7 - Day Weekly Cycle begins from 6 PM on 20th February, 4234 BCE (Genesis 1:1-31, 2:1-3; Matt. 24:35). CCC = Number of Civil Cycles Completed or Number of Civil 49 - Year Luni Solar Cycles completed from the Creation of Sun, Moon and stars; RCC = Number of Religious Cycles Completed or Number of Religious 49 - Year Lunisolar Cycles completed from Canaan. DL = Degrees of Longitudes discovered by Scientists (UK is the center of the Globe in this case).
(K) New Moon Day according to Israel Local Standard Time (ILST) which is confined according to (1a). Celebrate the New Moon Day (or 1st Day of Launar Month) from previous evening (6 PM) to next evening if the New Moon begins between 0 hours and 9 hours. (1b) Celebrate the New Moon Day from evening (6 PM) to next evening (6 PM) if the New Moon begins between 9 hours, and 24 hours of any date (Nehemiah 8:3-12; Acts 2:14-16; Num. 28:11-14, 1-8). Jews came next day again (Neh. 8:13).		DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me (Jerusalem is center - Eze.5:5, 38:12). 35°E = Jerusalem situated = The Scriptural Zero Degrees of Longitudes determined by Yahweh (Jer. 33:19 - 26). * RY/3 = Number of Years of Tithe completed (If the remainder is ZERO)[Deuteronomy 14:28-29; 26:12-16] ** RY/7 = Number of Sabbatical Years completed (If the remainder is ZERO)[Leviticus 25:1-7]. *** RY/49 = Number of Jubilee Years completed (If the remainder is ZERO)[Leviticus 25:8 - 55].
So this proves that Priests knew the formula. (L) Full Moon day = 15th day of each Lunar Month. (M) = Name of Religious Month completed while next month begins; (N) RM = Religious Month completed as 1/1, 2/1, 3/1 ... 12/49 of R49; (O) CM = Civil Month completed as 1/1, 2/1, 3/1 ... 12/49 of C49; (P) = R 606 = Number of Religious Months completed out of 606 months of in Religious 49 - Year Cycle; (Q). RCM = Number of Religious Months Completed from the plains of Moab or from the land of Canaan (Numbers 33:48-56; Lev. 25:1-9).		Special Note: ZERO residue is remained at the end of each 49 - Year Lunisolar Cycle; CCC = CY/49 = Number of Civil Cycles Completed (If the Remainder is ZERO); RCC = RY/49 = Number Religious Cycles compled (If the remainder is ZERO). ** The Phases of Moon produced by NASA are entirely different form Yahweh's Formula (Lev. 25:8-9)! R606 = C606 - 6 where 6 lunar months are constant.
Where RCM = CCM - 33,336 (Note: Religious New Years and Sabbatical etcetera began according to Lev. 25:1-9).		Special Note: Don't follow Phases of Moon produced by NASA because they are inaccurate!
(R) RY = MH = Number of Religious Years completed from the Land of Milk and Honey (Leviticus 25:1-9);		* Note: All Scriptural Religious New Years should be counted from end of 33,336 CCM only.
CY = SM = Number of Civil Years completed from the date of the Creation of Sun, Moon and stars (Genesis 1:1-19).		RCE = CCM - 32,841 where 32,841 lunar months are Constant.
(S) YR = Number of Religious Years completed out of 49 Religious Years according to R 606;		Example: RCE = CCM - 32,841 = 33,336 - 32,841 = 495 Religious months (40 years of journey ONLY).
YC = Number of Civil Years completed out of 49 Civil Years according to C 606.		RCE = Number of Religious Months completed from 1st Religious New Moon in Egypt .
(T) D/YR = Days per YR. D/YC = Days per YC.; ND20 = Number of Days completed from 6 PM on 20th Feb., 4234 BCE.		For more details about the Creator, please study in www.yahwehcalendar49.com
(U) NS 20 = Number of Sabbaths completed from 6 PM on 20th February, 4234 BCE, at 35 °E (Genesis 1:1-31, 2:1-3).		SPECIAL NOTE: Please remember that Israelis didn't follow gentile astronommer between
Special Note: Every Scriptural day takes 86,400 seconds (= 24 Hours) is true according to John 11:9.		1579 BCE and CE 135 because Mose, the Prophet wrote Yahweh's Formula in Leviticus 25:8-9.
NASA discovered that day takes 86,164 seconds strictly which is disproved by the Creator, Yahweh.		The below web link is extremely useful to verify all my Calculations.
Note: Nearly 1 day lags at the end of 365 days if we follow this theory. Please note this point!!!!(1 Cor. 1:19-25)		http://www.astropixels.com/ephemeris/phasescat/phasescat.html
So don't trust in NASA (Phases of Moon) which is leading into the bottomless pit (Rev. 13:8, 20:12-15).		The above link gives Phases of Moon from 2000 BCE to CE 4000.

The above New Moon Report, length of Day (86,400 seconds per Day), Lunar Month (29.53135314 days), Tropical Year (365.2244898 days), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle (Leviticus 25:8-9; Jeremiah 33:19-26) is satisfying the below History, and Chrnology. So the above proofs are scientific, Historical, and practical. Yahweh didn't tell that go and observe the Visibile Crescent, and barley ears. Beware of false Prophets, and astronomers!!!

Please remember that Yahweh commanded to count for 49 years like 7 times 7 years to keep Jubilee Years, Yom Kippur and so on but not COMMANDED that go and observe the VISIBLE CRESCENT to keep the beginning of each month, and BARLEY EARS to keep 1st Abib. Yahweh fixed His Plan of Salvation and some events before the foundations of the Earth (Exodus 32:31-33; Acts 4:27-28; Jeremiah 1:4-6; Psalms 139:16; Galatians 1:15; Ephesians 1:4-12; Revelations 13:8-10, 20:15, etc.). The elected people are counted before the foundations of the Earth (Revelations 7:1-8). Yahweh knows the thoughts of all people (Deuteronomy 31:16-21). So Yahweh knows the dates of all His Appointed times according to His Luni Solar Calendar formula (Lev. 25:8-12, 13-55). So His Calendar is calculated before He created Sun, Moon, and stars (Hebrews 4:3). So the length of Day (86,400 seconds per 360° per 1 day), Lunar Month (29.53135314 days per 360°), Tropical Year (365.2244898 days per 360° per year), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle are Constant forever. So you should observe both the phenomena of New Moon Cresnet and Full Moon for the sake of confirmation of your calculations only (1 Thes. 5:21) but you don't have any such authority to prepone or postpone Yahweh's Appointed Times. Every New Moon Crescent may visible or may not visible around the Globe at the beginning time of each Lunar Month. We know that the Age of the Moon is Constant around the Globe whereas the time varies according to the Longitudes. We can simply calculate the time and Age of every Crescent. So we can keep each New Moon Festival (Beginning of Month) even if the Crescent has not appeared in Israel but it may appear in any country. Earth, Sun, Moon, and stars are not created for Jews only but all (Matthews 5:45). Every New Moon Crescent may appear in any one country at least according to the Formula. All true calculations are not fiction but science (Job 38:1-33; Jer. 33:19-26).

SCIENTIFIC TIMELINE FROM THE DATE OF THE CREATION OF SUN, MOON, AND STARS TO CE 2136						MISSING 63 YEARS, 70 WEEKS PROPHECY, AND DETECTOR - 2								
NAME		ROMAN YEARS	ORIGIN	AO	References	to * 509th Land Sabbath = From 6 PM on 9th April, CE 2024 to 6 PM on 29th March, CE 2025. ** 73rd Jubilee Year = 6 PM on 8th Oct., to 6 PM on 9th Oct., CE 2022 to 6 PM on 22nd March, CE 2023. * 59th Land Sabbath = From 6 PM on 9th April, CE 2024 to 6 PM on 29th March, CE 2025. ** 73rd Jubilee Year = 6 PM on 8th Oct., to 6 PM on 9th Oct., CE 2022 to 6 PM on 22nd March, CE 2023. AO = Ascending Order	Israelis didn't keep 70 LAND SABBATHS (70 X 7 Years) during 490 years (2 Chronicles 36:21 Cf. Jer. 25:10-12; Lev. 26:33-35, 43).							
Adam		4234 BCE to 4104 BCE = Constant	130	130	Genesis 5:3		Please study about 392.5 years under 7 and 8 in our website							
Seth		4104 BCE to 3999 BCE	105	235	Genesis 5:6		490 LUNI SOLAR YEARS = 5th year of King, Solomon to the end of 10th year of King, Zedekiah = 35 + 392 + 63. So kings of Judah should be 455 years only.The Messiah impaled on 13th May, CE 33 (Wed.) in Winter.							
Enos		3999 BCE to 3909 BCE	90	325	Genesis 5:9		Our Website gives accurate History from Adam to CE 2136!							
Cainan		3909 BCE to 3839 BCE	70	395	Genesis 5:12		490 YEARS = 1099 BCE to 609 BCE. And 392 or 393 years are not accurate (Acts 4:27-28; Dan. 9:14). Yahweh is speaking through me about 70 Weeks, History, Chronolgy, and Scriptural Astronomy..							
Mahalaleel		3839 BCE to 3774 BCE	65	460	Genesis 5:15		Rehoboam to Zedekiah = 392.5 YEARS = Stumblingblock.							
Jared		3774 BCE to 3612 BCE	162	622	Genesis 5:18		70 WEEKS PROPHECY reveals that the day of Resurrection of the Messiah is Sabbath (Saturday), and the Jubilee Year occurred in CE 29 only. 70 Weeks should NOT be interpreted in terms of Solar Years.							
Enok		3612 BCE to 3547 BCE	65	687	Genesis 5:21		Please ask the proof of every doctrine at your Rabbis!							
Methuselah		3547 BCE to 3360 BCE	187	874	Genesis 5:25		70 WEEKS PROPHECY proves that there are 490 YEARS (490 Luni Solar Years = 178,960 Days = 10 Cycles) in 70 Weeks Prophecy. This proves that Yahweh used His Formula 10 times.							
Lemek		3360 BCE to 3178 BCE	182	1056	Genesis 5:28		It is the time to know accurate History, Chronology, and Astronomy.							
Noah		3178 BCE to 2676 BCE	502	1558	Genesis 5:32		70 WEEKS PROPHECY proves that the Messiah born on 10th Nov., 1 BCE or 1 BC, in Summer but not in Winter (John 18:18 Cf. Ex. 23:16)!							
Shem		2676 BCE to 2576 BCE (After the Flood - Gen. 7:6)	100	1658	Genesis 11:10		70 WEEKS PROPHECY proves that the Messiah born, and impaled during the reign of Roman KINGDOM (Luke 2:1-2; 3:1-2, 23:1-53)!							
Arphaxad		2576 BCE to 2541 BCE	35	1693	Genesis 11:12									
Selah		2541 BCE to 2511 BCE	30	1723	Genesis 11:14									
Eber		2511 BCE to 2477 BCE (Continental Drift/Languages)	34	1757	Genesis 11:16; 10:25									
Peleg		2477 BCE to 2447 BCE	30	1787	Genesis 11:18									
Reu		2447 BCE to 2415 BCE	32	1819	Genesis 11:20									
Serug		2415 BCE to 2385 BCE	30	1849	Genesis 11:22									
Nahor		2385 BCE to 2356BCE	29	1878	Genesis 11:24									
Terah		2356 BCE to 2286 BCE	70	1948	Genesis 11:26									
Abraham		2286 BCE to 2186 BCE	100	2048	Genesis 21:5									
Issac		2186 BCE to 2126 BCE	60	2108	Genesis 25:26									
117th Year of Jacob		2126 BCE to 2009 BCE	117	2225	Genesis 47:28									
130th Year of Jacob		2009 BCE to 1996 BCE	13	2238	Genesis 41:46									
147th Year of Jacob		1996 BCE to 1979 BCE	17	2255	Genesis 47:28									
400 Years of Prophecy		1979 BCE to 1579 BCE	400	2655	Genesis 15:13-16									
40 Years		1579 BCE to 1539 BCE	40	2695	Joshua 5:6.									
4th Year of Solomon		1539 BCE to 1099 BCE = Constant	440	3135	1 Kings 6:1 - 2									
5th Year of Solomon		1099 BCE to 1098 BCE	1	3136	1 Kings 6:1-2									
King, Solomon		1098 BCE to 1063 BCE	35	3171	1 Kings 11:42									
Kings of Judah		1063 BCE to 609 BCE = Constant	455	3626	History/Mystery (1Cor. 13:10)									
70 Years Punished		609 BCE to 538 BCE	70	3696	2 Chonicles 36:21-23									
84 Years gap		538 BCE to 455 BCE = Constant	84	3780	Detected by Detector 1/2									
1 to 69 Weeks		455 BCE to CE 29	483	4263	Daniel 9:24-25									
70th Week		CE 29 to CE 36	7	4270	Daniel 9:24-25									
CE 36 to CE 1989		CE 36 to CE 1989	1953	6223	According to Formula									
CE1989 to CE 2018		CE 1989 to CE 2018	29	6252	According to Formula									
CE 2018 to CE 2129		CE 2018 to CE 2129	111	6363	According to Formula									
CE 2129 to CE 2132		CE 2129 to CE 2132	3.5	6366.5	Revealations 11:1-14									
CE 2132 to CE 2136		CE 2132 to CE 2136	3.5	6370	Revealations 13:1-18									
Total		4234 BCE to CE 2136	6,370	-	Acts 4:27-28									
NOTE: The above New Moon Report, and Chronology are proved simultaneously. For complete picture of Days, Months, Years, Extra Months, Sabbatical Years, Years of Tithe, Jubilee Years etc., please study in z20 or 1b. Case - 5i in www.yahwehcalendar49.com. Please ask for the proofs at false Prophets.														
Observe the Month of Abib means count 7 times 7 years as 606 Lunar Months only (Deut. 16:1 Cf. Matt. 4:5-7). That's why the New Moon report, the Formula, and Principles of the Creator, Yahweh are proved scientifically and historically.														

77,363RD NEW MOON OR SEBAT REPORT IN FEBRUARY, CE 2022 - ZECH.1:7; GENESIS 1:13-19; NUM. 10:10, 23:19; DEUT. 11:11-12; JER. 33:19-26, 31:35-37, 32:26-27 ETC.**77,362 Scriptural Lunar Months are completed from 18 hours on 23rd Feb., 4234 BCE to 06h, 59 m, and 24s on 2nd Feb., CE 2022 according to 49 - Year Luni Solar Cycle (Leviticus 25:8-9; Gen. 1:13-19; John 11:9).****Yahweh's Lunar Month = 29.53135314 days (17,896 days ÷ 606 Lunar Months); Yahweh's Tropical Year = 365.2244898 days (17,896 days ÷ 49 Years). Formula = 49 Years = 17,896 days = 606 Lunar Months = 588 Tropical Months.**

Let's calculate the end of 77,362nd Lunar Month from the date of the Creation of Sun, Moon and stars (From 6 PM of 23rd February, 4234 BCE, at 35E) according to Yahweh's Formula.

77,362 Lunar Months = 77,362 Lunar Months X 29.53135314 days = 2,284,604.541 days = 2284,604 days + Residue. The Residue = 12 hours, 59 minutes and 24 seconds (Num. 10:10; Deut. 11:11-12)

2,284,604 days are there between (a) and (b). You can check these days with the below link.

Year	Month	Day	Hours	Min.	Sec.	DW	DL	DLM	Country	Case
4234 BCE	Feb.	23	06	00	00	Tue.	145°W	-180°	Alaska, USA	(a1)
4234 BCE	Feb.	23	18	00	00	Tue.	35°E	0°	Israel	(a)
http://astropixels.com/ephemeris/calendarconverter.html This link gives 2,284,604 days										
CE 2022	Feb.	01	18	00	00	Tue.	35°E	0°	Israel	(b)

Therefore 77,362nd month (Tebath) ends while 77,363rd MONTH (1st Sebat) begins at (1).

1st day of Sebat or 77,363rd New Moon Day = 6 PM on 1st Feb., to 6 PM on 2nd Feb., CE 2022.

At (a, a1) = Genesis 1:13-19, 18:14; Num. 11:23, 23:19; Jeremiah 32:26-27, 31:35-37, 33:19-26; 2 Tim. 2:13.

Very first Sun rays appears as Sunrise at (a1) according to the principles determined by Yahweh (Job 38:1-33). Let's add the Residue to (b) to get the end of 77,362nd Lunar Month. **So Sebat (77,363rd Month) begins at (1).**

Year	Month	Day	Hours	Min.	Sec.	DOW	Country	DL	DLM	CY	Case
CE 2022	Feb.	01	18	00	00	Tue.	Israel	35°E	0°		(b)
			+ 12	+59	24						
CE 2022	Feb.	02	06	59	24	Wed.	Israel	'35°E	0°	-	(1)

But NASA calculated the beginning time of New Moon as 05 hrs., 46m., on 1st Feb., CE 2022 = FAKE forever!

For New Moon report: <https://truthofyahweh.org/moon.htm> <https://paleotimes.org/blog/>**77,363rd Scriptural Lunar Month or Sebat begins strictly at (1) and as below according to the Book of Yahweh (Isaiah 34:16; Numbers 28:1-15; Nehemiah 8:1-13; Acts 2:15; 2 Timothy 2:13; Numbers 10:10; Deut. 11:11-14).**

Time According to Head (DLM)	DLM	Total Age of Sun, Moon, and stars (Genesis 1:13-19; Jeremiah 32:26-27)	77,3623rd Scriptural Lunar Month (Yahweh's Lunar Month or Sebat) strictly begins as below (Say BT)										1st Day of Sebat or 77,363rd Month (Deut. 11:11-12, 17:8-13; Num.10:10)	Age at RT = RT - BT	Required Time of the Phase of Moon (Say RT)

Yahweh's Universal Luni Solar Clock is Working from (1) to (14) only. The very first Sun rays appeared as Sunset at (a) whereas the same Sunrays appeared as Sunrise at (a1) only on the Globe in the beginning. Where DL = Degrees of Longitudes; DLM = Degrees of Longitudes determined by Yahweh (Amos 3:7; 1 Cor. 2:10-15, 12:4-31; John 16:1-14; John 18:37-38; Isa. 45:12; Jer. 31:35-37, 33:19-26, 32:26-27; Isaiah 45:12; Job 38:1-33, 26:1-7; Jos. 10:1-14; Num. 23:19; Eze. 12:28 etc.); DWE = Degrees completed behind Israel while rotating from West to East; Mo. = Month; Hrs. = Hours; Min. = Minutes; Sec. = Seconds; d = days; DOW = Day of Week; BT = Beginning Time of Lunar Month; RT = Required Time of Phase of the Moon.

CONDITIONS: (1). Celebrate the beginning of Scriptural Lunar Month (Numbers 10:10) from previous evening (6 PM) to next evening (6 PM) if the Scriptural month begins between 0 hours and 9 hours of any date with respect to Israel (Num. 28:4, 11-15; Neh. 8:1-3, 13; Mark 15:25; Acts 2:14-16). (2). Celebrate the beginning of Scriptural Month from evening (6 PM) to next evening (6 PM) if the Scriptural month begins between 9 hours and 24 hours of any date with respect to Israel. (3). Yahweh's Formula is Constant forever (Jeremiah 33:19-26, 32:26-27; Matt. 24:35). So 1 day = 86,400 seconds per 360 °; 1 Lunar Month = 29.53135314 days per 360°; and 1 Tropical Year = 365.2244898 days per 360°.

NB: The time of the burnt offering of each "Beginning of Month" is 9 hours (9 AM) - Mark 15:25 Cf. Matt. 5:17-18; Num. 10:10, 28:11-15, 29:1-6. That's why Israelites celebrated the 1st day of the 7th month from 8 AM to 12 AM strictly (Neh. 8:1-12; Lev. 23:23-25). Crescent - 1 is Age of the Scriptural Lunar Month whereas Crescent - 2 is the Age of the previous month. The length of Scriptural Tropical Year (365.2244898 days) is Constant because of the volume of the Moon from the beginning to end of each Lunar Month (29.53135314 days) is Constant in 49 - Year Luni Solar Cycle. Yahweh determined that to which month takes 29 days and to which month takes 30 days (Gen. 1:13-19; Psalms 104:19; Job 38:1-33). So you can't confine or modify the length of Day, Lunar Month and Tropical Year. So count each month by using Yahweh's Formula (Lev. 25:8-9) which is 606 months = 49 Years = 17,896 days.

Research: The beginning and end of each Month (Deut. 11:11-12) is important. "UT ± H M S" is a scientific concept if the Earth is stopped and UK is center of the Globe. NUT (New Universal Time) = "II.LST - H M S" is "The Scientific Concept" because Jerusalem is the center of the Globe (Genesis 1:1-19). And Time, and Phases of the Moon begins from Jerusalem only (Genesis 1:13-19). There is no Scientific proof that time, and Phases of the Moon begins from UK or any country. "UT - H M S" is scientific if the Earth is rotating from West to East and UK is center of the Globe. So UT is disproved once again. Yahweh proves that time, and Phases of the Moon begins from Jerusalem (ISRAEL) only in His Book in Genesis 1:1-31, 2:1-3; Lev. 25:8-9; Ezk. 5:5, 38:12; Psalms 104:19; John 11:9; Job 26:7, 38:1-33; Jer. 33:19-26, 31:35-37!

WHICH UNIVERSAL LUNI SOLAR CLOCK IS SCIENTIFIC AND WHERE IT IS WRITTEN?

VOLUME OF MOON IS CONSTANT SO THE SCRIPTURAL LUNAR MONTH AND TROPICAL YEAR IS CONSTANT!

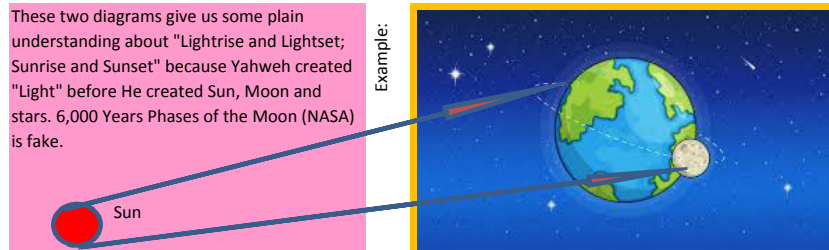

P = THE UNIVERSAL LUNI SOLAR CLOCK OF YAHWEH (The Creator)												Q = THE UNIVERSAL LUNI SOLAR CLOCK OF ASTRONOMERS													
Sebat begins as below according Yahweh as Jerusalem is center of the Globe and Head of Time												Sebat begins as below according to NASA or IAU if Jerusalem is center of the Globe and Head of Time

Yahweh's Universal Luni Solar Clock is working from (1) to (12). "P" is satisfying the date of the Creation of Sun, Moon and stars, the 7 - Day Weekly Cycle and so on. Please see the below poofs of "P" (Genesis 1:1-31, 2:1-3).												Astronomers' Clock is working from (1) to (6) and (1) to (r) via (p) which is true if the earth is stopped. So "Q" is not proved as it didn't prove any 7 - Day Weekly Cycle of any date by giving nights and daytimes.													

Yahweh's Universal Luni Solar Clock is working from (1) to (12). "P" is satisfying the date of the Creation of Sun, Moon and stars, the 7 - Day Weekly Cycle and so on. Please see the below poofs of "P" (Genesis 1:1-31, 2:1-3).

Astronomers' Clock is working from (1) to (6) and (1) to (r) via (p) which is true if the earth is stopped.
So "Q" is not proved as it didn't prove any 7 - Day Weekly Cycle of any date by giving nights and daytimes.

So Yahweh's Universal Luni Solar Clock is Scientific and it's formula is written in Leviticus 25:8-9. Formula = 7 Times 7 years = 49 Years = 606 Lunar Months = 17,896 days = 588 Tropcial Months (Lev. 25:8-9; Jeremiah 33:19-26).

NB: II.LST = Israel Local Standard Time at 35°E Jerusalem; D = d = days; H = Hrs., = h = hours; M = Min. = m = minutes; S = Sec. = s = seconds; DWE = Degrees completed behind Israel while the Earth is rotating on its axis from West to East strictly from 6 PM on 20th Feb., 4234 BCE, at 35°E, Jerusalem (Genesis 1:1-19); DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me; DL = Degrees of Longitudes decided by Astronomers.

Yahweh is proved as the Creator with the help of His Formula (Lev. 25:8-12), History, Chronology, Prophecies and so on (Luke 21:20-24; Matt. 24:15-28).

Diagrams are taken from NASA. God bless NASA ever!

Research: Universal 7 - Day Weekly Cycle is counted from 18 hours (6 PM) on 20th Feb., 4234 BCE, at 35°E Jerusalem only. The very first Sunrises indicated as Sunrise at (a1) whereas indicated as Sunset at (a). NASA/IAU failed to prove that Yahweh is the Creator with the help of 49 - Year Luni Solar Cycle and 49 - Year Tropical Cycle which is the formula of "The Universal Luni Solar Clock, the Sun, and Moon". The formula of Yahweh's Clock is written in the Book of Yahweh as 49 YEARS in Lev. 25:8-9. This formula only gives accurate Seasons, Phases of the Moon etcetera.

Yahweh, the Creator created Sun, Moon, and stars as below in the beginning (Genesis 1:13-19)

Year	Month	D	H	M	S	Country	Yahweh's Clock	DLM	Very first	DL
4234 BCE	Feb.	23	06	00	00	Alaska	II.LST - 12 hours	- 180°	Sunrise (a1)	145°W

V or VW = Crescent is Visible if Sun, Weather, Longitudes, and Latitudes are suitable. Month = 29.53135314 days (29d, 12h, 45m, 8.91088992s)																	ES = The Eastern Sky; WS = The Western Sky (Psalms 104:19, 19:1-4; Job 26:7).				

V or VW = Crescent is Visible if Sun, Weather, Longitudes, and Latitudes are suitable. Month = 29.53135314 days (29d, 12h, 45m, 8.91088992s)

ES = The Eastern Sky; WS = The Western Sky (Psalms 104:19, 19:1-4; Job 26:7).

"Yahweh's Universal Luni Solar Clock" is working from (1) to (14) only. BT = Beginning Time of Lunar Month or Beginning of the Scriptural Lunar Month (Numbers 10:10; Deut. 11:11-12); RT = Required Time of Phase of the Moon.

Extra Month is occurring according to the formula of Yahweh's Luni Solar Calendar only but not according to the RIPENED BARLY CORNS. Please remember that crops are cursed in many years because Israelis and gentiles are rejecting Commanments of Yahweh (Deut. 11:11-17 etc.). Even Priests didn't go to the barley fields to observe whether the barley ears are ripened properly or not. Proof: 0b00, z20 or 1b Case - 5i in www.yahwehcalendar49.com

	2022	Feb.	27	Below Horizon			Sun.	26		03 19 44 32.91088596											2284633	Israelis forgot to count 7 times 7 years as 606 Lunar Months = 17,896 days from CE 135 to CE 2021.								
	2022	Feb.	28	Below Horizon			Mon.	27		IILST CE 2022 Mar. 03 19 44 32.91088596											2284634									
	2022	Mar.	01	Below Horizon			Tue.	28		CE 2022 Mar. 02 17 35 UT NASA New Moon											2284635	How long will you keep the Appointed times of Yahweh in the wrong dates? I disproved NASA data, present Jewish Calendar, Enoch Calendar and so on.								
	2022	Mar.	02	Below Horizon			Wed.	29		So the Phases of the Moon produced by NASA or IAU or any astronomer is not accurate!											2284636									
	2022	Mar.	03	18	00	00	Thu.	29		Research: NASA, IAU, and all religious leaders are misleading the World.											30									2284637
401	77363	2022	Mar.	03	21	57	37.4256	Thu.	0		1 Feb., - 3 Mar., CE 2022	Sebat	11/32	5/33	395	44027	-	-	-	-	-	-	11842.07261	2284634.073	-	-	-	-	-	
Where d1, d2, d3, d4, d5 d50 are The Day of Atonement with respect to Civil 50 - Year Lunisolar Cycle. D1, D2, D3, D4, D5 D49 are the Day of Atonement with respect to Religious 49 - Year Luni Solar Cycle. So d1 =																							1st day of Adar = From 6 PM on 3rd Mar., CE 2022 to 6 PM on 4th Mar., CE 2022.							
D49 = d50. A1, A2, A3, A4, A5, A6 A49 are 1st Abib with respect to Religious 49 - Year Lunisolar Cycle.																														

Please prove me your Gift of Holy Spirit if YHWH elected you to prove His Calendar Formula in terms of 7 times 7 Years = 606 Lunar Months = 17,896 days (1 Thess. 5:21; Job 34:1-4; Jer. 33:19-26, 23:13-29; 1 Cor. 9:1-3; 11:19; 5:6-8).

* * Yahweh commanded His people to count for 49 YEARS in terms of 7 times 7 years (Lev. 25:8-9). Are not 17,896 days = 606 Lunar Months = 7 times 7 years? Please get the length of Lunar month and Tropical Year with this.

So many Rabbis/Prophets calculated wrongly the Appointed times of Yahweh each year with the help of Gentile Grecian 19 - Year Luni Solar Cycle. This tradition came into existence since CE 135 (Matt. 23:1-39).

RESEARCH: Did you realize that the time between any two consecutive JUBILEE YEARS are 17,896? So you don't have any authority (Ezk. 46:14) to prepone or postpone Yahweh's Appointed times.	SEARCH:

(A) C 606 = Number of civil months completed out of 606 civil months in Civil 49 - Year Lunisolar Cycle. (B) CCM = Number of Civil months completed from the Creation of sun, moon and stars (Jer. 31:35-37). (C) Year = Roman Year (Daniel 7:7-8, 23-25). (D) M = Month. (E) D = Day. (F) H = Hours (G) M = Minutes. (H) S = Seconds. (I) DW = Day of Week; DC = Days Completed; (J) D/M = Days per Month according to Leviticus 25:8, 9; Nehemiah 8:1-3, 12 - 13; Acts 2:1 - 16; Genesis 18:14, 1:14-19; 8:22; Numbers 23:19; Jeremiah 31:35-37, 33:19-26; Job 26:7, 38:31-36; Psalms 104:5, 19-27, 19:1-4; John 11:9; Deuteronomy 11:12; Exodus 34:22; Ezk. 5:5, 38:12; Matthews 24:35).	A = Lunar Month; EM = Extra Month;	(X) CCM X A = CCM X 29.53135314 days; (Y) C 606 X A = C 49 X 29.53135314 Days. Where A = 29.53135314 days (Z) R 606 X A = R 49 X 29.53135314 Days. Note: Very first 7 - Day Weekly Cycle begins from 6 PM on 20th February, 4234 BCE (Genesis 1:1-31, 2:1-3; Matt. 24:35). (AA) RCM X A = RCM X 29.53135314 Days.
		CCC = Number of Civil Cycles Completed or Number of Civil 49 - Year Luni Solar Cycles completed from the Creation of Sun, Moon and stars; RCC = Number of Religious Cycles Completed or Number of Religious 49 - Year Lunisolar Cycles completed from Canaan. DL = Degrees of Longitudes discovered by Scientists (UK is the center of the Globe in this case).
(K) New Moon Day according to Israel Local Standard Time (II.LST) which is confined according to (1a). Celebrate the New Moon Day (or 1st Day of Launar Month) from previous evening (6 PM) to next evening if the New Moon begins between 0 hours and 9 hours. (1b) Celebrate the New Moon Day from evening (6 PM) to next evening (6 PM) if the New Moon begins between 9 hours, and 24 hours of any date (Nehemiah 8:3-12; Acts 2:14-16; Num. 28:11-14, 1-8). Jews came next day again (Neh. 8:13).		DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me (Jerusalem is center - Eze.5:5, 38:12). 35°E = Jerusalem situated = The Scriptural Zero Degrees of Longitudes determined by Yahweh (Jer. 33:19 - 26). * RY/3 = Number of Years of Tithe completed (If the remainder is ZERO)[Deuteronomy 14:28-29; 26:12-16] ** RY/7 = Number of Sabbatical Years completed (If the remainder is ZERO)[Leviticus 25:1-7]. *** RY/49 = Number of Jubilee Years completed (If the remainder is ZERO)[Leviticus 25:8 - 55].
So this proves that Priests knew the formula. (L) Full Moon day = 15th day of each Lunar Month. (M) = Name of Religious Month completed while next month begins; (N) RM = Religious Month completed as 1/1, 2/1, 3/1 ... 12/49 of R49; (O) CM = Civil Month completed as 1/1, 2/1, 3/1 ... 12/49 of C49; (P) = R 606 = Number of Religious Months completed out of 606 months of in Religious 49 - Year Cycle; (Q). RCM = Number of Religious Months Completed from the plains of Moab or from the land of Canaan (Numbers 33:48-56; Lev. 25:1-9).		Special Note: ZERO residue is remained at the end of each 49 - Year Lunisolar Cycle; CCC = CY/49 = Number of Civil Cycles Completed (If the Remainder is Zero); RCC = RY/49 = Number Religious Cycles compled (If the remainder is ZERO). ** The Phases of Moon produced by NASA are entirely different form Yahweh's Formula. R606 = C606 - 6 where 6 lunar months are constant.
Where RCM = CCM - 33,336 (Note: Religious New Years and Sabbatical etcetera began according to Lev. 25:1-9).		Special Note: Don't follow Phases of Moon produced by NASA because they are inaccurate!
(R) RY = MH = Number of Religious Years completed from the Land of Milk and Honey (Leviticus 25:1-9);		* Note: All Scriptural Religious New Years should be counted from end of 33,336 CCM only.
CY = SM = Number of Civil Years completed from the date of the Creation of Sun, Moon and stars (Genesis 1:1-19).		RCE = CCM - 32,841 where 32,841 lunar months are Constant.
(S) YR = Number of Religious Years completed out of 49 Religious Years according to R 606;		Example: RCE = CCM - 32,841 = 33,336 - 32,841 = 495 Religious months (40 years of journey ONLY).
YC = Number of Civil Years completed out of 49 Civil Years according to C 606.		RCE = Number of Religious Months completed from 1st Religious New Moon in Egypt .
(T) D/YR = Days per YR. D/YC = Days per YC.; ND20 = Number of Days completed from 6 PM on 20th Feb., 4234 BCE.		For more details about the Creator, please study in www.yahwehcalendar49.com
(U) NS 20 = Number of Sabbaths completed from 6 PM on 20th February, 4234 BCE, at 35 °E (Genesis 1:1-31, 2:1-3).		SPECIAL NOTE: Please remember that Israelis didn't follow gentile astronommer between
Special Note: Every Scriptural day takes 86,400 seconds (= 24 Hours) is true according to John 11:9.		1579 BCE and CE 135 because Mose, the Prophet wrote Yahweh's Formula in Leviticus 25:8-9.
NASA discovered that day takes 86,164 seconds strictly which is disproved by the Creator, Yahweh.		The below web link is extremely useful to verify all my Calculations.
Note: Nearly 1 day lags at the end of 365 days if we follow this theory. Please note this point!!!!(1 Cor. 1:19-25)		http://www.astropixels.com/ephemeris/phasescat/phasescat.html
So don't trust in NASA (Phases of Moon) which is leading into the bottomless pit (Rev. 13:8, 20:12-15).		The above link gives Phases of Moon from 2000 BCE to CE 4000.

The above New Moon Report, length of Day (86,400 seconds per Day), Lunar Month (29.53135314 days), Tropical Year (365.2244898 days), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle (Leviticus 25:8-9; Jeremiah 33:19-26) is satisfying the below History, and Chrnology. So the above proofs are scientific, Historical, and practical. Yahweh didn't tell that go and observe the Visisble Crescent, and barley ears. Beware of false Prophets, and astronomers!!!

Please remember that Yahweh commanded to count for 49 years like 7 times 7 years to keep Jubilee Years, Yom Kippur and so on but not COMMANDED that go and observe the VISIBLE CRESCENT to keep the beginning of each month, and BARLEY EARS to keep 1st Abib. Yahweh fixed His Plan of Salvation and some events before the foundations of the Earth (Exodus 32:31-33; Acts 4:27-28; Jeremiah 1:4-6; Psalms 139:16; Galatians 1:15; Ephesians 1:4-12; Revelations 13:8-10, 20:15, etc.). The elected people are counted before the foundations of the Earth (Revelations 7:1-8). Yahweh knows the thoughts of all people (Deuteronomy 31:16-21). So Yahweh knows the dates of all His Appointed times according to His Luni Solar Calendar formula (Lev. 25:8-12, 13-55). So His Calendar is calculated before He created Sun, Moon, and stars (Hebrews 4:3). So the length of Day (86,400 seconds per 360° per 1 day), Lunar Month (29.53135314 days per 360°), Tropical Year (365.2244898 days per 360° per year), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle are Constant forever. So you should observe both the phenomena of New Moon Cresent and Full Moon for the sake of confirmation of your calculations only (1 Thes. 5:21) but you don't have any such authority to prepone or postpone Yahweh's Appointed Times. Every New Moon Crescent may visible or may not visible around the Globe at the beginning time of each Lunar Month. We know that the Age of the Moon is Constant around the Globe whereas the time varies according to the Longitudes. We can simply calculate the time and Age of every Crescent. So we can keep each New Moon Festival (Beginning of Month) even if the Crescent has not appeared in Israel but it may appear in any country. Earth, Sun, Moon, and stars are not created for Jews only but all (Matthews 5:45). Every New Moon Crescent may appear in any one country at least according to the Formula. All true calculations are not fiction but science (Job 38:1-33; Jer. 33:19-26).

77,364TH NEW MOON OR ADAR REPORT IN MARCH, CE 2022 - ESTHER 3:7; GENESIS 1:13-19; NUM. 10:10, 23:19; DEUT. 11:11-12; JER. 33:19-26, 31:35-37, 32:26-27 ETC.**77,363 Scriptural Lunar Months are completed from 18 hours on 23rd Feb., 4234 BCE to 19h, 44 m, and 33.504s on 3rd Mar., CE 2022 according to 49 - Year Luni Solar Cycle (Leviticus 25:8-9; Gen. 1:13-19; John 11:9).****Yahweh's Lunar Month = 29.53135314 days (17,896 days ÷ 606 Lunar Months); Yahweh's Tropical Year = 365.2244898 days (17,896 days ÷ 49 Years). Yahweh's Formula = 49 Years = 17,896 days = 606 Lunar Months = 588 Tropical Months.**

Let's calculate the end of 77,363rd Lunar Month from the date of the Creation of Sun, Moon and stars (From 6 PM of 23rd February, 4234 BCE, at 35E) according to Yahweh's Formula.

77,363 Lunar Months = 77,363 Lunar Months X 29.53135314 days = 2,284,634.073 days = 2284,634 days + Residue. The Residue = 01 hours, 44 minutes and 33.504 seconds (Num. 10:10; Deut. 11:11-12)

2,284,634 days are there between (a) and (b). You can check these days with the below link.

Year	Month	Day	Hours	Min.	Sec.	DW	DL	DLM	Country	Case
4234 BCE	Feb.	23	06	00	00	Tue.	145°W	-180°	Alaska, USA	(a1)
4234 BCE	Feb.	23	18	00	00	Tue.	35°E	0°	Israel	(a)
http://astropixels.com/ephemeris/calendarconverter.html This link gives 2,284,634 days										
CE 2022	Mar.	03	18	00	00	Thu.	35°E	0°	Israel	(b)

Therefore 77,363rd Month (Sebat) ends while 77,364th Month (1st Adar) begins at (1).**1st day of Adar or 77,364th New Moon Day = 6 PM on 3rd Mar., to 6 PM on 4th Mar., CE 2022.****At (a, a1) = Genesis 1:13-19, 18:14; Num. 11:23, 23:19; Jeremiah 32:26-27, 31:35-37, 33:19-26; 2 Tim. 2:13.**

Very first Sun rays appears as Sunrise at (a1) according to the principles determined by Yahweh (Job 38:1-33).

Let's add the Residue to (b) to get the end of 77,363rd Lunar Month.

So Adar (77,364th Month) begins at (1).

Year	Month	Day	Hours	Min.	Sec.	DOW	Country	DL	DLM	CY	Case
CE 2022	March	03	18	00	00	Thu.	Israel	35°E	0°		(b)
+ 01 +44 33.504 http://whenisthenewmoon.com/											
CE 2022	March	03	19	44	33.504	Thu.	Israel	35°E	0°	-	(1)

But NASA calculated the beginning time of New Moon as 17 hrs., 35 m., on 2nd March, CE 2022 = FAKE forever!

For New Moon report: <https://truthofyahweh.org/moon.htm><https://paleotimes.org/blog/>**77,364th Scriptural Lunar Month or Adar begins strictly at (1) and as below according to the Book of Yahweh (Isaiah 34:16; Numbers 28:1-15; Nehemiah 8:1-13; Acts 2:15; 2 Timothy 2:13; Numbers 10:10; Deut. 11:11-**

Time According to Head (DLM)	DLM	Total Age of Sun, Moon, and stars (Genesis 1:13-19; Jeremiah 32:26-27)	77,364th Scriptural Lunar Month (Yahweh's Lunar Month or Adar) strictly begins as below (Say BT)										1st Day of Adar or 77,364th Month (Deut. 11:11-12, 17:8-13; Num.10:10)	Age at RT = RT - BT	Required Time of the Phase of Moon (Say RT)

Yahweh's Universal Luni Solar Clock is Working from (1) to (14) only. The very First Sun rays appeared as Sunset at (a) whereas the same Sunrays appeared as Sunrise at (a1) only on the Globe in the beginning. Where DL = Degrees of Longitudes; DLM = Degrees of Longitudes determined by Yahweh (Amos 3:7; 1 Cor. 2:10-15, 12:4-31; John 16:1-14; John 18:37; Isa. 45:12; Jer. 31:35-37, 33:19-26, 32:26-27; Isaiah 45:12; Job 38:1-33, 26:1-7; Jos. 10:1-14; Num. 23:19; Eze. 12:28 etc.); DWE = Degrees completed behind Israel while rotating from West to East; Mo. = Month; Hrs. = Hours; Min. = Minutes; Sec. = Seconds; d = days; DOW = Day of Week; BT = Beginning Time of Lunar Month; RT = Required Time of Phase of the Moon.

CONDITIONS: (1). Celebrate the beginning of Scriptural Lunar Month (Numbers 10:10) from previous evening (6 PM) to next evening (6 PM) if the Scriptural month begins between **0 hours and 9 hours** of any date with respect to Israel (Num. 28:4, 11-15; Neh. 8:1-3, 13; Mark 15:25; Acts 2:14-16). (2). Celebrate the beginning of Scriptural Month from evening (6 PM) to next evening (6 PM) if the Scriptural month begins between **9 hours and 24 hours** of any date with respect to Israel. (3). Yahweh's Formula is Constant forever (Jeremiah 33:19-26, 32:26-27; Matt. 24:35). So 1 day = 86,400 seconds per 360 °; 1 Lunar Month = 29.53135314 days per 360°; and 1 Tropical Year = 365.2244898 days per 360°.

The time of the burnt offering of each "Beginning of Month" is 9 hours (9 AM) - Mark 15:25 Cf. Matt. 5:17-18; Num. 10:10, 28:11-15, 29:1-6. That's why Israelites celebrated the 1st day of the 7th month from 8 AM to 12 AM strictly (Neh. 8:1-12; Lev. 23:23-25). Crescent - 1 is Age of the Scriptural Lunar Month whereas Crescent - 2 is the Age of the previous month. The length of Scriptural Tropical Year (365.2244898 days) is Constant because of the volume of the Moon from the beginning to end of each Lunar Month (29.53135314 days) is Constant in 49 - Year Luni Solar Cycle. Yahweh determined that to which month takes 29 days and to which month takes 30 days (Gen. 1:13-19; Psalms 104:19; Job 38:1-33). So you can't confine or modify the length of Day, Lunar Month and Tropical Year. So count each month by using Yahweh's Formula (Lev. 25:8-9) which is 606 months = 49 Years = 17,896 days.

Research: The beginning and end of each Month (Deut. 11:11-12) is important. "UT ± H M S" is a scientific concept if the Earth is stopped and UK is center of the Globe. NUT (New Universal Time) = "II.LST - H M S" is "The Scientific Concept" because Jerusalem is the center of the Globe (Genesis 1:1-19). And Time, and Phases of the Moon begins from Jerusalem only (Genesis 1:13-19). There is no Scientific proof that time, and Phases of the Moon begins from UK or any country. "UT - H M S" is scientific if the Earth is rotating from West to East and UK is center of the Globe. So UT is disproved once again. Yahweh proves that time, and Phases of the Moon begins from Jerusalem (ISRAEL) only in His Book in Genesis 1:1-31, 2:1-3; Lev. 25:8-9; Ezk. 5:5, 38:12; Psalms 104:19; John 11:9; Job 26:7, 38:1-33; Jer. 33:19-26, 31:35-37)!

WHICH UNIVERSAL LUNI SOLAR CLOCK IS SCIENTIFIC AND WHERE IT IS WRITTEN?

VOLUME OF MOON IS CONSTANT SO THE SCRIPTURAL LUNAR MONTH AND TROPICAL YEAR IS CONSTANT!

P = THE UNIVERSAL LUNI SOLAR CLOCK OF YAHWEH (The Creator)												Q = THE UNIVERSAL LUNI SOLAR CLOCK OF ASTRONOMERS													
Adar begins as below according Yahweh as Jerusalem is center of the Globe and Head of Time												Adar begins as below according to NASA or IAU if Jerusalem is center of the Globe and Head of Time

Yahweh's Universal Luni Solar Clock is working from (1) to (12). "P" is satisfying the date of the Creation of Sun, Moon and stars, the 7 - Day Weekly Cycle and so on. Please see the below poofs of "P" (Genesis 1:1-31, 2:1-3).												Astronomers' Clock is working from (1) to (6) and (1) to (r) via (p) which is true if the earth is stopped. So "Q" is not proved as it didn't prove any 7 - Day Weekly Cycle.													

Yahweh's Universal Luni Solar Clock is working from (1) to (12). "P" is satisfying the date of the Creation of Sun, Moon and stars, the 7 - Day Weekly Cycle and so on. Please see the below poofs of "P" (Genesis 1:1-31, 2:1-3).

Astronomers' Clock is working from (1) to (6) and (1) to (r) via (p) which is true if the earth is stopped.

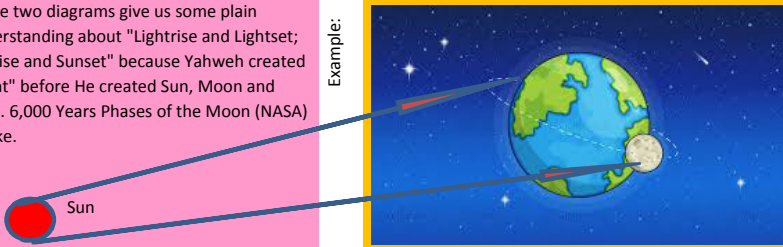

So "Q" is not proved as it didn't prove any 7 - Day Weekly Cycle.

So Yahweh's Universal Luni Solar Clock is Scientific and it's formula is written in Leviticus 25:8-9. Formula = 7 Times 7 years = 49 Years = 606 Lunar Months = 17,896 days = 588 Tropical Months (Lev. 25:8-9; Jeremiah 33:19-26).

NB: II.LST = Israel Local Standard Time at 35 °E Jerusalem; D = d = days; H = Hrs. = h = hours; M = Min. = m = minutes; S = Sec. = s = seconds; DWE = Degrees completed behind Israel while the Earth is rotating on its axis from West to East strictly from 6 PM on 20th Feb., 4234 BCE, at 35°E, Jerusalem (Genesis 1:1-19); DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me; DL = Degrees of Longitudes; DLA = Degrees of Longitudes decided by Astronomers.

These two diagrams give us some plain understanding about "Lightrise and Lightset; Sunrise and Sunset" because Yahweh created "Light" before He created Sun, Moon and stars. 6,000 Years Phases of the Moon (NASA) is fake.

Example:

Yahweh is proved as the Creator with the help of His Formula (Lev. 25:8-12), History, Chronology, Prophecies and so on (Luke 21:20-24; Matt. 24:15-28).

Diagrams are taken from NASA. God bless NASA ever!

Research: Universal 7 - Day Weekly Cycle is counted from 18 hours (6 PM) on 20th Feb., 4234 BCE, at 35°E Jerusalem only. The very first Sunrises indicated as Sunrise at (a1) whereas indicated as Sunset at (a) on the **Globe**. NASA/IAU failed to prove that Yahweh is the Creator with the help of 49 - Year Luni Solar Cycle and 49 - Year Tropical Cycle which is the formula of "The Universal Luni Solar Clock, the Sun, and Moon". The formula of Yahweh's Clock is written in the Book of Yahweh as 49 YEARS in Lev. 25:8-9. This formula only gives accurate Seasons, Phases of the Moon etcetera.

Yahweh, the Creator created Sun, Moon, and stars as below in the beginning (Genesis 1:13-19)											
Year	Month	D	H	M	S	Country	Yahweh's Clock	DLM	Very first	DL	
4234 BCE	Feb.	23	06	00	00	Alaska	II.LST - 12 hours	- 180°	Sunrise (a1)	145°W

V or VW = Crescent is Visible if Sun, Weather, Longitudes, and Latitudes are suitable. Month = 29.53135314 days (29d, 12h, 45m, 8.91088992s)																		ES = The Eastern Sky; WS = The Western Sky (Psalms 104:19, 19:1-4; Job 26:7).			

"Yahweh's Universal Luni Solar Clock" is working from (1) to (14) only. BT = Beginning Time of Lunar Month or Beginning of the Scriptural Lunar Month (Numbers 10:10; Deut. 11:11-12); RT = Required Time of Phase of the Moon.

Extra Month is occurring according to the formula of Yahweh's Luni Solar Calendar only but not according to the RIPENED BARLY CORNS. Please remember that crops are cursed in many years because Israelis and gentiles are rejecting Commanments of Yahweh (Deut. 11:11-17 etc.). Even Priests didn't go to the barley fields to observe whether the barley ears are ripened properly or not. Proof: 0b00, z20 or 1b Case - 5i in www.yahwehcalendar49.com

402	77364	CE 2022	Apr.	02	08	29	42.178 6	Sat.	0	326381	3 Mar., to 1 Apr.,	Adar	12/32	6/33	396	44028	-	-	-	29	2284667	11871.603 96	2284663.604	3560	32	383	-	-		
Where d1, d2, d3, d4, d5 d50 are The Day of Atonement with respect to Civil 50 - Year Lunisolar Cycle. D1, D2, D3, D4, D5 D49 are the Day of Atonement with respect to Religious 49 - Year Luni Solar Cycle. So d1 =																							1st day of Abib = From 6 PM on 1st Apr., to 6 PM on 2nd Apr., CE 2022.							
D49 = d50. A1, A2, A3, A4, A5, A6 A49 are 1st Abib with respect to Religious 49 - Year Lunisolar Cycle.																														

Where d1, d2, d3, d4, d5 d50 are The Day of Atonement with respect to Civil 50 - Year Lunisolar Cycle. D1, D2, D3, D4, D5 D49 are the Day of Atonement with respect to Religious 49 - Year Luni Solar Cycle. So d1 = D49 = d50. A1, A2, A3, A4, A5, A6 A49 are 1st Abib with respect to Religious 49 - Year Lunisolar Cycle.

Research: This is the time to realize that NASA, IAU, and all religious leaders are misleading the World under the veil of Science, and Religion.

Please prove me your Gift of Holy Spirit if YHWH elected you to prove His Calendar Formula in terms of 7 times 7 Years = 606 Lunar Months = 17,896 days (1 Thess. 5:21; Job 34:1-4; Jer. 33:19-26, 23:13-29; 1 Cor. 9:1-3; 11:19; 5:6-8).

* * Yahweh commanded His people to count for 49 YEARS in terms of 7 times 7 years (Lev. 25:8-9). Are not 17,896 days = 606 Lunar Months = 7 times 7 years? Please get the length of Lunar month and Tropical Year with this.

So many Rabbis/Prophets calculated wrongly the Appointed times of Yahweh each year with the help of Gentile Grecian 19 - Year Luni Solar Cycle. This tradition came into existence since CE 135 (Matt. 23:1-39).

RESEARCH: Did you realize that the time between any two consecutive JUBILEE YEARS are 17,896? So you don't have any authority (Ezk. 46:14) to prepone or postpone Yahweh's Appointed times.

SEARCH:

(A) C 606 = Number of civil months completed out of 606 civil months in Civil 49 - Year Lunisolar Cycle. (B) CCM = Number of Civil months completed from the Creation of sun, moon and stars (Jer. 31:35-37). (C) Year = Roman Year (Daniel 7:7-8, 23-25). (D) M = Month. (E) D = Day. (F) H = Hours (G) M = Minutes. (H) S = Seconds. (I) DW = Day of Week; DC = Days Completed; (J) D/M = Days per Month according to Leviticus 25:8, 9; Nehemiah 8:1-3, 12 - 13; Acts 2:1 - 16; Genesis 18:14, 1:14-19; 8:22; Numbers 23:19; Jeremiah 31:35-37, 33:19-26; Job 26:7, 38:31-36; Psalms 104:5, 19-27, 19:1-4; John 11:9; Deuteronomy 11:12; Exodus 34:22; Ezk. 5:5, 38:12; Matthews 24:35).	(X) CCM X A = CCM X 29.53135314 days; (Y) C 606 X A = C 49 X 29.53135314 Days. Where A = 29.53135314 days (Z) R 606 X A = R 49 X 29.53135314 Days. Note: Very first 7 - Day Weekly Cycle begins from 6 PM on 20th February, 4234 BCE (Genesis 1:1-31, 2:1-3; Matt. 24:35). (AA) RCM X A = RCM X 29.53135314 Days. CCC = Number of Civil Cycles Completed or Number of Civil 49 - Year Luni Solar Cycles completed from the Creation of Sun, Moon and stars; RCC = Number of Religious Cycles Completed or Number of Religious 49 - Year Lunisolar Cycles completed from Canaan. DL = Degrees of Longitudes discovered by Scientists (UK is the center of the Globe in this case).
(K) New Moon Day according to Israel Local Standard Time (IL.LST) which is confined according to (1a). Celebrate the New Moon Day (or 1st Day of Lunar Month) from previous evening (6 PM) to next evening if the New Moon begins between 0 hours and 9 hours. (1b) Celebrate the New Moon Day from evening (6 PM) to next evening (6 PM) if the New Moon begins between 9 hours, and 24 hours of any date (Nehemiah 8:3-12; Acts 2:14-16; Num. 28:11-14, 1-8). Jews came next day again (Neh. 8:13).	DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me (Jerusalem is center - Eze.5:5, 38:12). 35°E = Jerusalem situated = The Scriptural Zero Degrees of Longitudes determined by Yahweh (Jer. 33:19 - 26). * RY/3 = Number of Years of Tithe completed (If the remainder is ZERO)[Deuteronomy 14:28-29; 26:12-16] ** RY/7 = Number of Sabbatical Years completed (If the remainder is ZERO)[Leviticus 25:1-7]. *** RY/49 = Number of Jubilee Years completed (If the remainder is ZERO)[Leviticus 25:8 - 55].
So this proves that Priests knew the formula. (L) Full Moon day = 15th day of each Lunar Month. (M) = Name of Religious Month completed while next month begins; (N) RM = Religious Month completed as 1/1, 2/1, 3/1 ... 12/49 of R49; (O) CM = Civil Month completed as 1/1, 2/1, 3/1 ... 12/49 of C49; (P) = R 606 = Number of Religious Months completed out of 606 months of in Religious 49 - Year Cycle; (Q). RCM = Number of Religious Months Completed from the plains of Moab or from the land of Canaan (Numbers 33:48-56; Lev. 25:1-9).	Special Note: ZERO residue is remained at the end of each 49 - Year Lunisolar Cycle; CCC = CY/49 = Number of Civil Cycles Completed (If the Remainder is Zero); RCC = RY/49 = Number Religious Cycles compled (If the remainder is ZERO). ** The Phases of Moon produced by NASA are entirely different form Yahweh's Formula. R606 = C606 - 6 where 6 lunar months are constant.
Where RCM = CCM - 33,336 (Note: Religious New Years and Sabbatical etcetera began according to Lev. 25:1-9).	Special Note: Don't follow Phases of Moon produced by NASA because they are inaccurate!
(R) RY = MH = Number of Religious Years completed from the Land of Milk and Honey (Leviticus 25:1-9);	* Note: All Scriptural Religious New Years should be counted from end of 33,336 CCM only.
CY = SM = Number of Civil Years completed from the date of the Creation of Sun, Moon and stars (Genesis 1:1-19).	RCE = CCM - 32,841 where 32,841 lunar months are Constant.
(S) YR = Number of Religious Years completed out of 49 Religious Years according to R 606;	Example: RCE = CCM - 32,841 = 33,336 - 32,841 = 495 Religious months (40 years of journey ONLY).
YC = Number of Civil Years completed out of 49 Civil Years according to C 606.	RCE = Number of Religious Months completed from 1st Religious New Moon in Egypt .
(T) D/YR = Days per YR. D/YC = Days per YC.; ND20 = Number of Days completed from 6 PM on 20th Feb., 4234 BCE.	For more details about the Creator, please study in www.yahwehcalendar49.com
(U) NS 20 = Number of Sabbaths completed from 6 PM on 20th February, 4234 BCE, at 35 °E (Genesis 1:1-31, 2:1-3).	SPECIAL NOTE: Please remember that Israelis didn't follow gentile astronommer between
Special Note: Every Scriptural day takes 86,400 seconds (= 24 Hours) is true according to John 11:9.	1579 BCE and CE 135 because Mose, the Prophet wrote Yahweh's Formula in Leviticus 25:8-9.
NASA discovered that day takes 86,164 seconds strictly which is disproved by the Creator, Yahweh.	The below web link is extremely useful to verify all my Calculations.
Note: Nearly 1 day lags at the end of 365 days if we follow this theory. Please note this point!!!!(1 Cor. 1:19-25)	http://www.astropixels.com/ephemeris/phasescat/phasescat.html
So don't trust in NASA (Phases of Moon) which is leading into the bottomless pit (Rev. 13:8, 20:12-15).	The above link gives Phases of Moon from 2000 BCE to CE 4000.

The above New Moon Report, length of Day (86,400 seconds per Day), Lunar Month (29.53135314 days), Tropical Year (365.2244898 days), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle (Leviticus 25:8-9; Jeremiah 33:19-26) is satisfying the below History, and Chronology. So the above proofs are scientific, Historical, and practical. Yahweh didn't tell that go and observe the Visible Crescent, and barley ears. Beware of false Prophets, and astronomers!!!

Please remember that Yahweh commanded to count for 49 years like 7 times 7 years to keep Jubilee Years, Yom Kippur and so on but not COMMANDED that go and observe the VISIBLE CRESCENT to keep the beginning of each month, and BARLEY EARS to keep 1st Abib. Yahweh fixed His Plan of Salvation and some events before the foundations of the Earth (Exodus 32:31-33; Acts 4:27-28; Jeremiah 1:4-6; Psalms 139:16; Galatians 1:15; Ephesians 1:4-12; Revelations 13:8-10, 20:15, etc.). The elected people are counted before the foundations of the Earth (Revelations 7:1-8). Yahweh knows the thoughts of all people (Deuteronomy 31:16-21). So Yahweh knows the dates of all His Appointed times according to His Luni Solar Calendar formula (Lev. 25:8-12, 13-55). So His Calendar is calculated before He created Sun, Moon, and stars (Hebrews 4:3). So the length of Day (86,400 seconds per 360° per 1 day), Lunar Month (29.53135314 days per 360°), Tropical Year (365.2244898 days per 360° per year), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle are Constant forever. So you should observe both the phenomena of New Moon Crescent and Full Moon for the sake of confirmation of your calculations only (1 Thes. 5:21) but you don't have any such authority to prepone or postpone Yahweh's Appointed Times. Every New Moon Crescent may visible or may not visible around the Globe at the beginning time of each Lunar Month. We know that the Age of the Moon is Constant around the Globe whereas the time varies according to the Longitudes. We can simply calculate the time and Age of every Crescent. So we can keep each New Moon Festival (Beginning of Month) even if the Crescent has not appeared in Israel but it may appear in any country. Earth, Sun, Moon, and stars are not created for Jews only but all (Matthews 5:45). Every New Moon Crescent may appear in any one country at least according to the Formula. All true calculations are not fiction but science (Job 38:1-33; Jer. 33:19-26).

77,365TH NEW MOON OR ABIB REPORT IN APRIL, CE 2022 - EXODUS 12:1-2; GENESIS 1:13-19; NUM. 10:10, 23:19; DEUT. 11:11-12; JER. 33:19-26, 31:35-37, 32:26-27 ETC.

77,364 Scriptural Lunar Months are completed from 18 hours (6pm) on 23rd Feb., 4234 BCE to 08 hrs., 29 m, and 42.144 se., on 2nd April, CE 2022 according to 49 - Year Luni Solar Cycle (Lev. 25:8-9; Gen. 1:13-19; John 11:9).

Yahweh's Lunar Month = 29.53135314 days (17,896 days ÷ 606 Lunar Months); Yahweh's Tropical Year = 365.2244898 days (17,896 days ÷ 49 Years). Yahweh's Formula = 49 Years = 17,896 days = 606 Lunar Months = 588 Tropical Months.

Let's calculate the end of 77,364th Lunar Month from the date of the Creation of Sun, Moon and stars (From 6 PM of 23rd February, 4234 BCE, at 35 °E) according to Yahweh's Formula.

77,364 Lunar Months = 77,364 Lunar Months X 29.53135314 days = 2,284,663.604 days = 2,284,663 days + Residue. The Residue = 14 hours, 29 minutes and 42.144 seconds (Num. 10:10; Deut. 11:11-12).

2,284,663 days are there between (a) and (b). You can check these days with the below link.

Year	Month	Day	Hours	Min.	Sec.	DW	DL	DLM	Country	Case
4234 BCE	Feb.	23	06	00	00	Tue.	145°W	-180°	Alaska, USA	(a1)
4234 BCE	Feb.	23	18	00	00	Tue.	35°E	0°	Israel	(a)
http://astropixels.com/ephemeris/calendarconverter.html This link gives 2,284,663 days										
CE 2022	Apr.	01	18	00	00	Fri.	35°E	0°	Israel	(b)

Therefore 77,364th Month (Adar) ends while 77,365th Month (1st Abib) begins at (1).

1st day of Abib or 77,365th New Moon Day = 6 PM on 1st Apr., to 6 PM on 2nd Apr., CE 2022.

At (a, a1) = Genesis 1:13-19, 18:14; Num. 11:23, 23:19; Jeremiah 32:26-27, 31:35-37, 33:19-26; 2 Tim. 2:13.

Very first Sun rays appears as Sunrise at (a1) according to the principles determined by Yahweh (Job 38:1-33). Let's add the Residue to (b) to get the end of 77,364th Lunar Month. **So Abib (77,365th Month) begins at (1).**

Year	Month	Day	Hours	Min.	Sec.	DOW	Country	DL	DLM	CY	Case
CE 2022	April	01	18	00	00	Fri.	Israel	35°E	0°		(b)
			+ 14	+29	42.144		http://whenisthenewmoon.com/				
CE 2022	April	02	08	29	42.144	Sat.	Israel	35°E	0°	-	(1)

But NASA calculated the beginning time of New Moon as 06 hrs., 24 m., on 1st Apr., CE 2022 = FAKE forever!

For New Moon report: <https://truthofyahweh.org/moon.htm> <https://paleotimes.org/blog/>

77,365th Scriptural Lunar Month or Abib begins strictly at (1) and as below according to the Book of Yahweh (Isaiah 34:16; Numbers 28:1-15; Nehemiah 8:1-13; Acts 2:15; 2 Timothy 2:13; Numbers 10:10; Deut. 11:11-14).

Time According to Head (DLM)	DLM	Total Age of Sun, Moon, and stars (Genesis 1:13-19; Jeremiah 32:26-27)	77,365th Scriptural Lunar Month (Yahweh's Lunar Month or Abib) strictly begins as below (Say BT)										1st Day of Abib or 77,365th Month (Deut. 11:11-12, 17:8-13; Num.10:10)	Age at RT = RT - BT	Required Time of the Phase of Moon (Say RT)

Yahweh's Universal Luni Solar Clock is Working from (1) to (14) only. The very First Sun rays appeared as Sunset at (a) whereas the same Sunrays appeared as Sunrise at (a1) only on the Globe in the beginning. Where DL = Degrees of Longitudes; DLM = Degrees of Longitudes determined by Yahweh (Amos 3:7; 1 Cor. 2:10-15, 12:4-31; John 16:1-14; John 18:37-38; Isa. 45:12; Jer. 31:35-37, 33:19-26, 32:26-27; Isaiah 45:12; Job 38:1-33, 26:1-7; Jos. 10:1-14; Num. 23:19; Eze. 12:28 etc.); DWE = Degrees completed behind Israel while rotating from West to East; Mo. = Month; Hrs. = Hours; Min. = Minutes; Sec. = Seconds; d = days; DOW = Day of Week; BT = Beginning Time of Lunar Month; RT = Required Time of Phase of the Moon.

CONDITIONS: (1). Celebrate the beginning of Scriptural Lunar Month (Numbers 10:10) from previous evening (6 PM) to next evening (6 PM) if the Scriptural month begins between 0 hours and 9 hours of any date with respect to Israel (Num. 28:4, 11-15; Neh. 8:1-3, 13; Mark 15:25; Acts 2:14-16). (2). Celebrate the beginning of Scriptural Month from evening (6 PM) to next evening (6 PM) if the Scriptural month begins between 9 hours and 24 hours of any date with respect to Israel. (3). Yahweh's Formula is Constant forever (Jeremiah 33:19-26, 32:26-27; Matt. 24:35). So 1 day = 86,400 seconds per 360 °; 1 Lunar Month = 29.53135314 days per 360°; and 1 Tropical Year = 365.2244898 days per 360°.

NB: The time of the burnt offering of each "Beginning of Month" is 9 hours (9 AM) - Mark 15:25 Cf. Matt. 5:17-18; Num. 10:10, 28:11-15, 29:1-6. That's why Israelites celebrated the 1st day of the 7th month from 8 AM to 12 AM strictly (Neh. 8:1-12; Lev. 23:23-25). Crescent - 1 is Age of the Scriptural Lunar Month whereas Crescent - 2 is the Age of the previous month. The length of Scriptural Tropical Year (365.2244898 days) is Constant because of the volume of the Moon from the beginning to end of each Lunar Month (29.53135314 days) is Constant in 49 - Year Luni Solar Cycle. Yahweh determined that to which month takes 29 days and to which month takes 30 days (Gen. 1:13-19; Psalms 104:19; Job 38:1-33). So you can't confine or modify the length of Day, Lunar Month and Tropical Year. So count each month by using Yahweh's Formula (Lev. 25:8-9) which is 606 months = 49 Years = 17,896 days.

Research: The beginning and end of each Month (Deut. 11:11-12) is important. "UT ± H M S" is a scientific concept if the Earth is stopped and UK is center of the Globe. NUT (New Universal Time) = "II.LST - H M S" is "The Scientific Concept" because Jerusalem is the center of the Globe (Genesis 1:1-19). And Time, and Phases of the Moon begins from Jerusalem only (Genesis 1:13-19). There is no Scientific proof that time, and Phases of the Moon begins from UK or any country. "UT - H M S" is scientific if the Earth is rotating from West to East and UK is center of the Globe. So UT is disproved once again. Yahweh proves that time, and Phases of the Moon begins from Jerusalem (ISRAEL) only in His Book in Genesis 1:1-31, 2:1-3; Lev. 25:8-9; Ezk. 5:5, 38:12; Psalms 104:19; John 11:9; Job 26:7, 38:1-33; Jer. 33:19-26, 31:35-37!

WHICH UNIVERSAL LUNI SOLAR CLOCK IS SCIENTIFIC AND WHERE IT IS WRITTEN?

VOLUME OF MOON IS CONSTANT SO THE SCRIPTURAL LUNAR MONTH AND TROPICAL YEAR IS CONSTANT!

P = THE UNIVERSAL LUNI SOLAR CLOCK OF YAHWEH (The Creator)												Q = THE UNIVERSAL LUNI SOLAR CLOCK OF ASTRONOMERS													
Abib begins as below according Yahweh as Jerusalem is center of the Globe and Head of Time												Abib begins as below according to NASA or IAU if Jerusalem is center of the Globe and Head of Time

Yahweh's Universal Luni Solar Clock is working from (1) to (12). "P" is satisfying the date of the Creation of Sun, Moon and stars, the 7 - Day Weekly Cycle and so on. Please see the below poofs of "P" (Genesis 1:1-31, 2:1-3).												Astronomers' Clock is working from (1) to (6) and (1) to (r) via (p) which is true if the earth is stopped. So "Q" is not proved as it didn't prove any 7 - Day Weekly Cycle.													

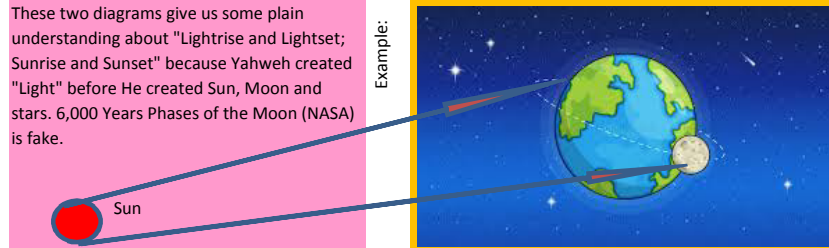

Yahweh's Universal Luni Solar Clock is working from (1) to (12). "P" is satisfying the date of the Creation of Sun, Moon and stars, the 7 - Day Weekly Cycle and so on. Please see the below poofs of "P" (Genesis 1:1-31, 2:1-3).

Astronomers' Clock is working from (1) to (6) and (1) to (r) via (p) which is true if the earth is stopped.

So "Q" is not proved as it didn't prove any 7 - Day Weekly Cycle.

So Yahweh's Universal Luni Solar Clock is Scientific and it's formula is written in Leviticus 25:8-9. Formula = 7 Times 7 years = 49 Years = 606 Lunar Months = 17,896 days = 588 Tropcial Months (Lev. 25:8-9; Jeremiah 33:19-26).

NB: II.LST = Israel Local Standard Time at 35 °E Jerusalem; D = d = days; H = Hrs., = h = hours; M = Min. = m = minutes; S = Sec. = s = seconds; DWE = Degrees completed behind Israel while the Earth is rotating on its axis from West to East strictly from 6 PM on 20th Feb., 4234 BCE, at 35 °E, Jerusalem (Genesis 1:1-19); DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me; DL = Degrees of Longitudes; DLA = Degrees of Longitudes decided by Astronomers.

These two diagrams give us some plain understanding about "Lightrise and Lightset; Sunrise and Sunset" because Yahweh created "Light" before He created Sun, Moon and stars. 6,000 Years Phases of the Moon (NASA) is fake.

Yahweh is proved as the Creator with the help of His Formula (Lev. 25:8-12), History, Chronology, Prophecies and so on (Luke 21:20-24; Matt. 24:15-28).

Diagrams are taken from NASA. God bless NASA ever!

Research: Universal 7 - Day Weekly Cycle is counted from 18 hours (6 PM) on 20th Feb., 4234 BCE, at 35°E Jerusalem only. The very first Sunrises indicated as Sunrise at (a1) whereas indicated as Sunset at (a) on the **Globe**. NASA/IAU failed to prove that Yahweh is the Creator with the help of 49 - Year Luni Solar Cycle and 49 - Year Tropical Cycle which is the formula of "The Universal Luni Solar Clock, the Sun, and Moon". The formula of Yahweh's Clock is written in the Book of Yahweh as 49 YEARS in Lev. 25:8-9. This formula only gives accurate Seasons, Phases of the Moon etcetera.

Yahweh, the Creator created Sun, Moon, and stars as below in the beginning (Genesis 1:13-19)										
Year	Month	D	H	M	S	Country	Yahweh's Clock	DLM	Very first	DL

Where d1, d2, d3, d4, d5 d50 are The Day of Atonement with respect to Civil 50 - Year Lunisolar Cycle. D1, D2, D3, D4, D5 D49 are the Day of Atonement with respect to Religious 49 Year Luni Solar Cycle. So d1 = D49 = d50. A1, A2, A3, A4, A5, A6 A49 are 1st Abib with respect to Religious 49 - Year Lunisolar Cycle.																							1st day of Zif = From 6 PM on 1st May to 6 PM on 2nd May, CE 2022.																	

Research: This is the time to realize that NASA, IAU, and all religious leaders are misleading the World under the veil of Science, and Religion.

Please prove me your Gift of Holy Spirit if YHWH elected you to prove His Calendar Formula in terms of 7 times 7 Years = 606 Lunar Months = 17,896 days (1 Thess. 5:21; Job 34:1-4; Jer. 33:19-26, 23:13-29; 1 Cor. 9:1-3; 11:19; 5:6-8).

** Yahweh commanded His people to count for 49 YEARS in terms of 7 times 7 years (Lev. 25:8-9). Are not 17,896 days = 606 Lunar Months = 7 times 7 years?

So many Rabbis/Prophets calculated wrongly the Appointed times of Yahweh each year with the help of Gentile Grecian 19 - Year Luni Solar Cycle. This tradition came into existence since CE 135 (Matt. 23:1-39).

RESEARCH: Did you realize that the time between any two consecutive JUBILEE YEARS are 17,896? So you don't have any authority (Ezk. 46:14) to prepone or postpone Yahweh's Appointed times.	SEARCH:

(A) C 606 = Number of civil months completed out of 606 civil months in Civil 49 - Year Lunisolar Cycle. (B) CCM = Number of Civil months completed from the Creation of sun, moon and stars (Jer. 31:35-37). (C) Year = Roman Year (Daniel 7:7-8, 23-25). (D) M = Month. (E) D = Day. (F) H = Hours (G) M = Minutes. (H) S = Seconds. (I) DW = Day of Week; DC = Days Completed; (J) D/M = Days per Month according to Leviticus 25:8, 9; Nehemiah 8:1-3, 12 - 13; Acts 2:1 - 16; Genesis 18:14, 1:14-19; 8:22; Numbers 23:19; Jeremiah 31:35-37, 33:19-26; Job 26:7, 38:31-36; Psalms 104:5, 19-27, 19:1-4; John 11:9; Deuteronomy 11:12; Exodus 34:22; Ezk. 5:5, 38:12; Matthews 24:35).	(X) CCM X A = CCM X 29.53135314 days; (Y) C 606 X A = C 49 X 29.53135314 Days. Where A = 29.53135314 days (Z) R 606 X A = R 49 X 29.53135314 Days. (AA) RCM X A = RCM X 29.53135314 Days. Note: Very first 7 - Day Weekly Cycle begins from 6 PM on 20th February, 4234 BCE (Genesis 1:1-31, 2:1-3; Matt. 24:35). CCC = Number of Civil Cycles Completed or Number of Civil 49 - Year Luni Solar Cycles completed from the Creation of Sun, Moon and stars; RCC = Number of Religious Cycles Completed or Number of Religious 49 - Year Lunisolar Cycles completed from Canaan. DL = Degrees of Longitudes discovered by Scientists (UK is the center of the Globe in this case).
(K) New Moon Day according to Israel Local Standard Time (ILST) which is confined according to (1a). Celebrate the New Moon Day (or 1st Day of Lunar Month) from previous evening (6 PM) to next evening if the New Moon begins between 0 hours and 9 hours. (1b) Celebrate the New Moon Day from evening (6 PM) to next evening (6 PM) if the New Moon begins between 9 hours, and 24 hours of any date (Nehemiah 8:3-12; Acts 2:14-16; Num. 28:11-14, 1-8). Jews came next day again (Neh. 8:13).	DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me (Jerusalem is center - Eze.5:5, 38:12). 35°E = Jerusalem situated = The Scriptural Zero Degrees of Longitudes determined by Yahweh (Jer. 33:19 - 26). * RY/3 = Number of Years of Tithe completed (If the remainder is ZERO)[Deuteronomy 14:28-29; 26:12-16] ** RY/7 = Number of Sabbatical Years completed (If the remainder is ZERO)[Leviticus 25:1-7]. *** RY/49 = Number of Jubilee Years completed (If the remainder is ZERO)[Leviticus 25:8 - 55].
So this proves that Priests knew the formula. (L) Full Moon day = 15th day of each Lunar Month.	Special Note: ZERO residue is remained at the end of each 49 - Year Lunisolar Cycle; CCC = CY/49 = Number of Civil Cycles Completed (If the Remainder is Zero);
(M) = Name of Religious Month completed while next month begins; (N) RM = Religious Month completed as 1/1, 2/1, 3/1 ... 12/49 of R49; (O) CM = Civil Month completed as 1/1, 2/1, 3/1 ... 12/49 of C49; (P) = R 606 = Number of Religious Months completed out of 606 months of in Religious 49 - Year Cycle; (Q). RCM = Number of Religious Months Completed from the plains of Moab or from the land of Canaan (Numbers 33:48-56; Lev. 25:1-9).	RCC = RY/49 = Number Religious Cycles compled (If the remainder is ZERO). ** The Phases of Moon produced by NASA are entirely different form Yahweh's Formula. R606 = C606 - 6 where 6 lunar months are constant.
Where RCM = CCM - 33,336 (Note: Religious New Years and Sabbatical etcetera began according to Lev. 25:1-9).	Special Note: Don't follow Phases of Moon produced by NASA because they are inaccurate!
(R) RY = MH = Number of Religious Years completed from the Land of Milk and Honey (Leviticus 25:1-9); CY = SM = Number of Civil Years completed from the date of the Creation of Sun, Moon and stars (Genesis 1:1-19).	* Note: All Scriptural Religious New Years should be counted from end of 33,336 CCM only. RCE = CCM - 32,841 where 32,841 lunar months are Constant.
(S) YR = Number of Religious Years completed out of 49 Religious Years according to R 606; YC = Number of Civil Years completed out of 49 Civil Years according to C 606.	Example: RCE = CCM - 32,841 = 33,336 - 32,841 = 495 Religious months (40 years of journey ONLY). RCE = Number of Religious Months completed from 1st Religious New Moon in Egypt .
(T) D/YR = Days per YR. D/YC = Days per YC.; ND20 = Number of Days completed from 6 PM on 20th Feb., 4234 BCE.	For more details about the Creator, please study in www.yahwehcalendar49.com
(U) NS 20 = Number of Sabbaths completed from 6 PM on 20th February, 4234 BCE, at 35 °E (Genesis 1:1-31, 2:1-3).	SPECIAL NOTE: Please remember that Israelis didn't follow gentile astronomer between
Special Note: Every Scriptural day takes 86,400 seconds (= 24 Hours) is true according to John 11:9. NASA discovered that day takes 86,164 seconds strictly which is disproved by the Creator, Yahweh. Note: Nearly 1 day lags at the end of 365 days if we follow this theory. Please note this point!!!!(1 Cor. 1:19-25) So don't trust in NASA (Phases of Moon) which is leading into the bottomless pit (Rev. 13:8, 20:12-15).	1579 BCE and CE 135 because Mose, the Prophet wrote Yahweh's Formula in Leviticus 25:8-9. The below web link is extremely useful to verify all my Calculations. http://www.astropixels.com/ephemeris/phasescat/phasescat.html The above link gives Phases of Moon from 2000 BCE to CE 4000.

The above New Moon Report, length of Day (86,400 seconds per Day), Lunar Month (29.53135314 days), Tropical Year (365.2244898 days), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle (Leviticus 25:8-9; Jeremiah 33:19-26) is satisfying the below History, and Chronology. So the above proofs are scientific, Historical, and practical. Yahweh didn't tell that go and observe the Visible Crescent, and barley ears. Beware of false Prophets, and astronomers!!!

Please remember that Yahweh commanded to count for 49 years like 7 times 7 years to keep Jubilee Years, Yom Kippur and so on but not COMMANDED that go and observe the VISIBLE CRESCENT to keep the beginning of each month, and BARLEY EARS to keep 1st Abib. Yahweh fixed His Plan of Salvation and some events before the foundations of the Earth (Exodus 32:31-33; Acts 4:27-28; Jeremiah 1:4-6; Psalms 139:16; Galatians 1:15; Ephesians 1:4-12; Revelations 13:8-10, 20:15, etc.). The elected people are counted before the foundations of the Earth (Revelations 7:1-8). Yahweh knows the thoughts of all people (Deuteronomy 31:16-21). So Yahweh knows the dates of all His Appointed times according to His Luni Solar Calendar formula (Lev. 25:8-12, 13-55). So His Calendar is calculated before He created Sun, Moon, and stars (Hebrews 4:3). So the length of Day (86,400 seconds per 360° per 1 day), Lunar Month (29.53135314 days per 360°), Tropical Year (365.2244898 days per 360° per year), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle are Constant forever. So you should observe both the phenomena of New Moon Crescent and Full Moon for the sake of confirmation of your calculations only (1 Thes. 5:21) but you don't have any such authority to prepone or postpone Yahweh's Appointed Times. Every New Moon Crescent may visible or may not visible around the Globe at the beginning time of each Lunar Month. We know that the Age of the Moon is Constant around the Globe whereas the time varies according to the Longitudes. We can simply calculate the time and Age of every Crescent. So we can keep each New Moon Festival (Beginning of Month) even if the Crescent has not appeared in Israel but it may appear in any country. Earth, Sun, Moon, and stars are not created for Jews only but all (Matthews 5:45). Every New Moon Crescent may appear in any one country at least according to the Formula. All these calculations are not fiction but science (Job 38:1-33; Jer. 33:19-26).

77,366TH NEW MOON OR ZIF REPORT IN MAY, CE 2022 - 1 KINGS 6:1-2; GENESIS 1:13-19; NUM. 10:10, 23:19; DEUT. 11:11-12; JER. 33:19-26, 31:35-37, 32:26-27 ETC.

77,365 Scriptural Lunar Months are completed from 18 hours (6pm) on 23rd Feb., 4234 BCE to 21 hrs., 14 m, and 50.784 s., on 1st May, CE 2022 according to 49 - Year Luni Solar Cycle (Lev. 25:8-9; Gen. 1:13-19; John 11:9).

Yahweh's Lunar Month = 29.53135314 days (17,896 days ÷ 606 Months); Yahweh's Tropical Year = 365.2244898 days (17,896 days ÷ 49 Years). Yahweh's Formula = 49 Years = 17,896 days = 606 Lunar Months = 588 Tropical Months.

Let's calculate the end of 77,365th Lunar Month from the date of the Creation of Sun, Moon and stars (From 6 PM of 23rd February, 4234 BCE, at 35E) according to Yahweh's Formula.

77,365 Lunar Months = 77,365 Lunar Months X 29.53135314 days = 2,284,693.135 days = 2,284,693 days + Residue. The Residue = 03 hours, 14 minutes and 50.784 seconds (Num. 10:10; Deut. 11:11-12)

2,284,693 days are there between (a) and (b). You can check these days with the below link.											At (a, a1) = Genesis 1:13-19, 18:14; Num. 11:23, 23:19; Jeremiah 32:26-27, 31:35-37, 33:19-26; 2 Tim. 2:13.	Very first Sun rays appears as Sunrise at (a1) according to the principles determined by Yahweh (Job 38:1-33). Let's add the Residue to (b) to get the end of 77,365th Lunar Month. <i>So Abib (77,366th Month) begins at (1).</i>												
Year	Month	Day	Hours	Min.	Sec.	DW	DL	DLM	Country	Case		Year	Month	Day	Hours	Min.	Sec.	DOW	Country	DL	DLM	CY	Case	
4234 BCE	Feb.	23	06	00	00	Tue.	145°W	-180°	Alaska, USA	(a1)		CE 2022	May	01	18	00	00	Sun.	Israel	35°E	0°		(b)	
4234 BCE	Feb.	23	18	00	00	Tue.	35°E	0°	Israel	(a)		http://whenisthenewmoon.com/											(1)	
http://astropixels.com/ephemeris/calendarconverter.html This link gives 2,284,693 days												CE 2022	May	01	21	14	50.784	Sun.	Israel	'35°E	0°	-		
CE 2022	May	01	18	00	00	Sun.	35°E	0°	Israel	(b)		But NASA calculated the beginning time of New Moon as 20 hrs., 28 m (P) on 30th Apr., CE 2022 = FAKE forever!												
Therefore 77,365th Month ends while 77,366th Month (1st Zif) begins at (1).											For New Moon report: https://truthofyahweh.org/moon.htm https://paleotimes.org/blog/													
1st day of Zif or 77,366th New Moon Day = 6 PM on 1st May, to 6 PM on 2nd May, CE 2022.																								

77,366th Scriptural Lunar Month or Zif begins strictly at (1) and as below according to the Book of Yahweh (Isaiah 34:16; Numbers 28:1-15; Nehemiah 8:1-13; Acts 2:15; 2 Timothy 2:13; Numbers 10:10; Deut. 11:11-14).

Time According to Head (DLM)	DLM	Total Age of Sun, Moon, and stars (Genesis 1:13-19; Jeremiah 32:26-27)	77,366th Scriptural Lunar Month (Yahweh's Lunar Month or Zif) strictly begins as below (Say BT)										1st Day of Zif or 77,366th Month (Deut. 11:11-12, 17:8-13; Num.10:10)	Age at RT = RT - BT	Required Time of the Phase of Moon (Say RT)

Yahweh's Universal Luni Solar Clock is Working from (1) to (14) only. The very first Sun rays appeared as Sunset at (a) whereas the same Sunrays appeared as Sunrise at (a1) only on the Globe in the beginning. Where DL = Degrees of Longitudes; DLM = Degrees of Longitudes determined by Yahweh (Amos 3:7; 1 Cor. 2:10-15, 12:4-31; John 16:1-14; John 18:37-38; Isa. 45:12; Jer. 31:35-37, 33:19-26, 32:26-27; Isaiah 45:12; Job 38:1-33, 26:1-7; Jos. 10:1-14; Num. 23:19; Eze. 12:28 etc.); DWE = Degrees completed behind Israel while rotating from West to East; Mo. = Month; Hrs. = Hours; Min. = Minutes; Sec. = Seconds; d = days; DOW = Day of Week; BT = Beginning Time of Lunar Month; RT = Required Time of Phase of the Moon.

CONDITIONS: (1). Celebrate the beginning of Scriptural Lunar Month (Numbers 10:10) from previous evening (6 PM) to next evening (6 PM) if the Scriptural month begins between **0 hours and 9 hours** of any date with respect to Israel (Num. 28:4, 11-15; Neh. 8:1-3, 13; Mark 15:25; Acts 2:14-16). (2). Celebrate the beginning of Scriptural Month from evening (6 PM) to next evening (6 PM) if the Scriptural month begins between **9 hours and 24 hours** of any date with respect to Israel. (3). Yahweh's Formula is Constant forever (Jeremiah 33:19-26, 32:26-27; Matt. 24:35). So 1 day = 86,400 seconds per 360 °; 1 Lunar Month = 29.53135314 days per 360°; and 1 Tropical Year = 365.2244898 days per 360°.

NB: The time of the burnt offering of each "Beginning of Month" is 9 hours (9 AM) - Mark 15:25 Cf. Matt. 5:17-18; Num. 10:10, 28:11-15, 29:1-6. That's why Israelites celebrated the 1st day of the 7th month from 8 AM to 12 AM strictly (Neh. 8:1-12; Lev. 23:23-25). Crescent - 1 is Age of the Scriptural Lunar Month whereas Crescent - 2 is the Age of the previous month. The length of Scriptural Tropical Year (365.2244898 days) is Constant because of the volume of the Moon from the beginning to end of each Lunar Month (29.53135314 days) is Constant in 49 - Year Luni Solar Cycle. Yahweh determined that to which month takes 29 days and to which month takes 30 days (Gen. 1:13-19; Psalms 104:19; Job 38:1-33). So you can't confine or modify the length of Day, Lunar Month and Tropical Year. So count each month by using Yahweh's Formula (Lev. 25:8-9) which is 606 months = 49 Years = 17,896 days.

Research: The beginning and end of each Month (Duet. 11:11-12) is important. "UT ± H M S" is a scientific concept if the Earth is stopped and UK is center of the Globe. NUT (New Universal Time) = "II.LST - H M S" is "The Scientific Concept" because Jerusalem is the center of the Globe (Genesis 1:1-19). And Time, and Phases of the Moon begins from Jerusalem only (Genesis 1:13-19). There is no Scientific proof that time, and Phases of the Moon begins from UK or any country. "UT - H M S" is scientific if the Earth is rotating from West to East and UK is center of the Globe. So UT is disproved once again. Yahweh proves that time, and Phases of the Moon begins from Jerusalem (ISRAEL) only in His Book in Genesis 1:1-31, 2:1-3; Lev. 25:8-9; Ezk. 5:5, 38:12; Psalms 104:19; John 11:9; Job 26:7, 38:1-33; Jer. 33:19-26, 31:35-37!

WHICH UNIVERSAL LUNI SOLAR CLOCK IS SCIENTIFIC AND WHERE IT IS WRITTEN?

VOLUME OF MOON IS CONSTANT SO THE SCRIPTURAL LUNAR MONTH AND TROPICAL YEAR IS CONSTANT!

P = THE UNIVERSAL LUNI SOLAR CLOCK OF YAHWEH (The Creator)												Q = THE UNIVERSAL LUNI SOLAR CLOCK OF ASTRONOMERS

Yahweh's Universal Luni Solar Clock is working from (1) to (12). "P" is satisfying the date of the Creation of Sun, Moon and stars, the 7 - Day Weekly Cycle and so on. Please see the below poofs of "P" (Genesis 1:1-31, 2:1-3).												Astronomers' Clock is working from (1) to (6) and (1) to (r) via (p) which is true if the earth is stopped. So "Q" is not proved as it didn't prove any 7 - Day Weekly Cycle.													

Yahweh's Universal Luni Solar Clock is working from (1) to (12). "P" is satisfying the date of the Creation of Sun, Moon and stars, the 7 - Day Weekly Cycle and so on. Please see the below poofs of "P" (Genesis 1:1-31, 2:1-3).

Astronomers' Clock is working from (1) to (6) and (1) to (r) via (p) which is true if the earth is stopped.

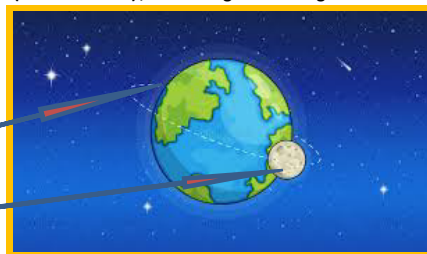

So "Q" is not proved as it didn't prove any 7 - Day Weekly Cycle.

So Yahweh's Universal Luni Solar Clock is Scientific and it's formula is written in Leviticus 25:8-9. Formula = 7 Times 7 years = 49 Years = 606 Lunar Months = 17,896 days = 588 Tropical Months (Lev. 25:8-9; Jeremiah 33:19-26).

II.ST = Israel Local Standard Time at 35°E Jerusalem; D = d = days; H = Hrs., = h = hours; M = Min. = m = minutes; S = Sec. = s = seconds; DWE = Degrees completed behind Israel while the Earth is rotating on its axis from West to East strictly from 6 PM on 20th Feb., 4234 BCE, at 35°E (Genesis 1:1-19); DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me; DL = Degrees of Longitudes; DLA = Degrees of Longitudes decided by Astronomers.

These two diagrams give us some plain understanding about "Lightrise and Lightset; Sunrise and Sunset" because Yahweh created "Light" before He created Sun, Moon and stars. 6,000 Years Phases of the Moon (NASA) is fake.

Example:

Yahweh is proved as the Creator with the help of His Formula (Lev. 25:8-12), History, Chronology, Prophecies and so on (Luke 21:20-24; Matt. 24:15-28).

Diagrams are taken from NASA. God bless NASA ever!

Research: Universal 7 - Day Weekly Cycle is counted from 18 hours (6 PM) on 20th Feb., 4234 BCE, at 35°E Jerusalem only. The very first Sunrays indicated as Sunrise at (a1) whereas indicated as Sunset at (a) on the **Globe**. NASA/IAU failed to prove that Yahweh is the Creator with the help of 49 - Year Luni Solar Cycle and 49 - Year Tropical Cycle which is the formula of "The Universal Luni Solar Clock, the Sun, and Moon". The formula of Yahweh's Clock is written in the Book of Yahweh as 49 YEARS in Lev. 25:8-9. This formula only gives accurate Seasons, Phases of the Moon etcetera.

Yahweh, the Creator created Sun, Moon, and stars as below in the beginning (Genesis 1:13-19)										
Year	Month	D	H	M	S	Country	Yahweh's Clock	DLM	Very first	DL

Where d1, d2, d3, d4, d5 d50 are The Day of Atonement with respect to Civil 50 - Year Lunisolar Cycle. D1, D2, D3, D4, D5 D49 are the Day of Atonement with respect to Religious 49 - Year Luni Solar Cycle. So d1 = D49 = d50. A1, A2, A3, A4, A5, A6 A49 are 1st Abib with respect to Religious 49 - Year Lunisolar Cycle.																						1st day of Sivan = From 6 PM on 31st May to 6 PM on 1st Jun., CE 2022.								

Research: This is the time to realize that NASA, IAU, and all religious leaders are misleading the World under the veil of Science, and Religion.

Please prove me your Gift of Holy Spirit if YHWH elected you to prove His Calendar Formula in terms of 7 times 7 Years = 606 Lunar Months = 17,896 days (1 Thess. 5:21; Job 34:1-4; Jer. 33:19-26, 23:13-29; 1 Cor. 9:1-3; 11:19; 5:6-8).

* * Yahweh commanded His people to count for 49 YEARS in terms of 7 times 7 years (Lev. 25:8-9). Are not 17,896 days = 606 Lunar Months = 7 times 7 years?

So many Rabbis/Prophets calculated wrongly the Appointed times of Yahweh each year with the help of Gentile Grecian 19 - Year Luni Solar Cycle. This tradition came into existence since CE 135 (Matt. 23:1-39).

RESEARCH: Did you realize that the time between any two consecutive JUBILEE YEARS are 17,896? So you don't have any authority (Ezk. 46:14) to prepone or postpone Yahweh's Appointed times.

SEARCH:

(A) C 606 = Number of civil months completed out of 606 civil months in Civil 49 - Year Lunisolar Cycle. (B) CCM = Number of Civil months completed from the Creation of sun, moon and stars (Jer. 31:35-37). (C) Year = Roman Year (Daniel 7:7-8, 23-25). (D) M = Month. (E) D = Day. (F) H = Hours (G) M = Minutes. (H) S = Seconds. (I) DW = Day of Week; DC = Days Completed; (J) D/M = Days per Month according to Leviticus 25:8, 9; Nehemiah 8:1-3, 12 - 13; Acts 2:1 - 16; Genesis 18:14, 1:14-19; 8:22; Numbers 23:19; Jeremiah 31:35-37, 33:19-26; Job 26:7, 38:31-36; Psalms 104:5, 19-27, 19:1-4; John 11:9; Deuteronomy 11:12; Exodus 34:22; Ezk. 5:5, 38:12; Matthews 24:35).	A = Lunar Month; EM = Extra Month;	(X) CCM X A = CCM X 29.53135314 days; (Y) C 606 X A = C 49 X 29.53135314 Days. Where A = 29.53135314 days (Z) R 606 X A = R 49 X 29.53135314 Days. (AA) RCM X A = RCM X 29.53135314 Days. CCC = Number of Civil Cycles Completed or Number of Civil 49 - Year Luni Solar Cycles completed from the Creation of Sun, Moon and stars; RCC = Number of Religious Cycles Completed or Number of Religious 49 - Year Lunisolar Cycles completed from Canaan. DL = Degrees of Longitudes discovered by Scientists (UK is the center of the Globe in this case).
(K) New Moon Day according to Israel Local Standard Time (ILST) which is confined according to (1a). Celebrate the New Moon Day (or 1st Day of Lunar Month) from previous evening (6 PM) to next evening if the New Moon begins between 0 hours and 9 hours. (1b) Celebrate the New Moon Day from evening (6 PM) to next evening (6 PM) if the New Moon begins between 9 hours, and 24 hours of any date (Nehemiah 8:3-12; Acts 2:14-16; Num. 28:11-14, 1-8). Jews came next day again (Neh. 8:13).		DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me (Jerusalem is center - Eze.5:5, 38:12). 35°E = Jerusalem situated = The Scriptural Zero Degrees of Longitudes determined by Yahweh (Jer. 33:19 - 26). * RY/3 = Number of Years of Tithe completed (If the remainder is ZERO)[Deuteronomy 14:28-29; 26:12-16] ** RY/7 = Number of Sabbatical Years completed (If the remainder is ZERO)[Leviticus 25:1-7]. *** RY/49 = Number of Jubilee Years completed (If the remainder is ZERO)[Leviticus 25:8 - 55].
So this proves that Priests knew the formula. (L) Full Moon day = 15th day of each Lunar Month. (M) = Name of Religious Month completed while next month begins; (N) RM = Religious Month completed as		Special Note: ZERO residue is remained at the end of each 49 - Year Lunisolar Cycle; CCC = CY/49 = Number of Civil Cycles Completed (If the Remainder is Zero);
1/1, 2/1, 3/1 ... 12/49 of R49; (O) CM = Civil Month completed as 1/1, 2/1, 3/1 ... 12/49 of C49; (P) = R 606 = Number of Religious Months completed out of 606 months of in Religious 49 - Year Cycle; (Q). RCM = Number of Religious Months Completed from the plains of Moab or from the land of Canaan (Numbers 33:48-56; Lev. 25:1-9).		RCC = RY/49 = Number Religious Cycles compled (If the remainder is ZERO). ** The Phases of Moon produced by NASA are entirely different form Yahweh's Formula. R606 = C606 - 6 where 6 lunar months are constant.
Where RCM = CCM - 33,336 (Note: Religious New Years and Sabbatical etcetera began according to Lev. 25:1-9).		Special Note: Don't follow Phases of Moon produced by NASA because they are inaccurate!
(R) RY = MH = Number of Religious Years completed from the Land of Milk and Honey (Leviticus 25:1-9); CY = SM = Number of Civil Years completed from the date of the Creation of Sun, Moon and stars (Genesis 1:1-19).		* Note: All Scriptural Religious New Years should be counted from end of 33,336 CCM only. RCE = CCM - 32,841 where 32,841 lunar months are Constant.
(S) YR = Number of Religious Years completed out of 49 Religious Years according to R 606; YC = Number of Civil Years completed out of 49 Civil Years according to C 606.		Example: RCE = CCM - 32,841 = 33,336 - 32,841 = 495 Religious months (40 years of journey ONLY). RCE = Number of Religious Months completed from 1st Religious New Moon in Egypt .
(T) D/YR = Days per YR. D/YC = Days per YC.; ND20 = Number of Days completed from 6 PM on 20th Feb., 4234 BCE.		For more details about the Creator, please study in www.yahwehcalendar49.com
(U) NS 20 = Number of Sabbaths completed from 6 PM on 20th February, 4234 BCE, at 35 °E (Genesis 1:1-31, 2:1-3).		SPECIAL NOTE: Please remember that Israelis didn't follow gentile astronommer between
Special Note: Every Scriptural day takes 86,400 seconds (= 24 Hours) is true according to John 11:9. NASA discovered that day takes 86,164 seconds strictly which is disproved by the Creator, Yahweh. Note: Nearly 1 day lags at the end of 365 days if we follow this theory. Please note this point!!!(1 Cor. 1:19-25) So don't trust in NASA (Phases of Moon) which is leading into the bottomless pit (Rev. 13:8, 20:12-15).		1579 BCE and CE 135 because Mose, the Prophet wrote Yahweh's Formula in Leviticus 25:8-9. The below web link is extremely useful to verify all my Calculations. http://www.astropixels.com/ephemeris/phasescat/phasescat.html The above link gives Phases of Moon from 2000 BCE to CE 4000.

The above New Moon Report, length of Day (86,400 seconds per Day), Lunar Month (29.53135314 days), Tropical Year (365.2244898 days), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle (Leviticus 25:8-9; Jeremiah 33:19-26) is satisfying the below History, and Chrnology. So the above proofs are scientific, Historical, and practical. Yahweh didn't tell that go and observe the Visible Crescent, and barley ears. Beware of false Prophets, and astronomers!!!

Please remember that Yahweh commanded to count for 49 years like 7 times 7 years to keep Jubilee Years, Yom Kippur and so on but not COMMANDED that go and observe the VISIBLE CRESCENT to keep the beginning of each month, and BARLEY EARS to keep 1st Abib. Yahweh fixed His Plan of Salvation and some events before the foundations of the Earth (Exodus 32:31-33; Acts 4:27-28; Jeremiah 1:4-6; Psalms 139:16; Galatians 1:15; Ephesians 1:4-12; Revelations 13:8-10, 20:15, etc.). The elected people are counted before the foundations of the Earth (Revelations 7:1-8). Yahweh knows the thoughts of all people (Deuteronomy 31:16-21). So Yahweh knows the dates of all His Appointed times according to His Luni Solar Calendar formula (Lev. 25:8-12, 13-55). So His Calendar is calculated before He created Sun, Moon, and stars (Hebrews 4:3). So the length of Day (86,400 seconds per 360° per 1 day), Lunar Month (29.53135314 days per 360°), Tropical Year (365.2244898 days per 360° per year), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle are Constant forever. So you should observe both the phenomena of New Moon Crescent and Full Moon for the sake of confirmation of your calculations only (1 Thes. 5:21) but you don't have any such authority to prepone or postpone Yahweh's Appointed Times. Every New Moon Crescent may visible or may not visible around the Globe at the beginning time of each Lunar Month. We know that the Age of the Moon is Constant around the Globe whereas the time varies according to the Longitudes. We can simply calculate the time and Age of every Crescent. So we can keep each New Moon Festival (Beginning of Month) even if the Crescent has not appeared in Israel but it may appear in any country. Earth, Sun, Moon, and stars are not created for Jews only but all (Matthews 5:45). Every New Moon Crescent may appear in any one country at least according to the Formula. All true calculations are not fiction but science (Job 38:1-33; Jer. 33:19-26).

77,367TH NEW MOON OR SIVAN REPORT IN MAY, CE 2022 - ESTHER 8:9; GENESIS 1:13-19; NUM. 10:10, 23:19; DEUT. 11:11-12; JER. 33:19-26, 31:35-37, 32:26-27 ETC.

77,366 Scriptural Lunar Months are completed from 18 hours (6pm) on 23rd Feb., 4234 BCE to 10 hrs., 0 m, and 0s., on 31st May, CE 2022 according to 49 - Year Luni Solar Cycle (Lev. 25:8-9; Gen. 1:13-19; John 11:9).

Yahweh's Lunar Month = 29.53135314 days (17,896 days ÷ 606 Months); Yahweh's Tropical Year = 365.2244898 days (17,896 days ÷ 49 Years). Yahweh's Formula = 49 Years = 17,896 days = 606 Lunar Months = 588 Tropical Months.

Let's calculate the end of 77,366th Lunar Month from the date of the Creation of Sun, Moon and stars (From 6 PM of 23rd February, 4234 BCE, at 35E) according to Yahweh's Formula.

77,366 Lunar Months = 77,366 Lunar Months X 29.53135314 days = 2,284,722.667 days = 2,284,722 days + Residue. The Residue = 16 hours, 0 minutes and 0.288 seconds (Num. 10:10; Deut. 11:11-12)

2,284,693 days are there between (a) and (b). You can check these days with the below link.

Year	Month	Day	Hours	Min.	Sec.	DW	DL	DLM	Country	Case
4234 BCE	Feb.	23	06	00	00	Tue.	145°W	-180°	Alaska, USA	(a1)
4234 BCE	Feb.	23	18	00	00	Tue.	35°E	0°	Israel	(a)
CE 2022	May	30	18	00	00	Mon.	35°E	0°	Israel	(b)

At (a, a1) = Genesis 1:13-19, 18:14; Num. 11:23, 23:19; Jeremiah 32:26-27, 31:35-37, 33:19-26; 2 Tim. 2:13.

Very first Sun rays appears as Sunrise at (a1) according to the principles determined by Yahweh (Job 38:1-33). Let's add the Residue to (b) to get the end of 77,366th Lunar Month. So Abib (77,367th Month) begins at (1).

Year	Month	Day	Hours	Min.	Sec.	DOW	Country	DL	DLM	CY	Case
CE 2022	May	30	18	00	00	Mon.	Israel	35°E	0°		(b)
			+ 16	+00	0.288		http://whenisthenewmoon.com/				
CE 2022	May	31	10	00	0.288	Tue.	Israel	35°E	0°	-	(1)

But NASA calculated the beginning time of New Moon as 11 hrs., 30 m., on 30th May, CE 2022 = FAKE forever!

For New Moon report: <https://truthofyahweh.org/moon.htm> <https://paleotimes.org/blog/>

77,367th Scriptural Lunar Month or Sivan begins strictly at (1) and as below according to the Book of Yahweh (Isaiah 34:16; Numbers 28:1-15; Nehemiah 8:1-13; Acts 2:15; 2 Timothy 2:13; Numbers 10:10; Deut. 11:11-14).

Time According to Head (DLM)	DLM	Total Age of Sun, Moon, and stars (Genesis 1:13-19; Jeremiah 32:26-27)	77,367th Scriptural Lunar Month (Yahweh's Lunar Month or Sivan) strictly begins as below (Say BT)											1st Day of Sivan or 77,367th Month (Deut. 11:11-12, 17:8-13; Num.10:10)	Age at RT = RT - BT	Required Time of the Phase of Moon (Say RT)

Yahweh's Universal Luni Solar Clock is Working from (1) to (14) only. The very First Sun rays appeared as Sunset at (a) whereas the same Sunrises appeared as Sunrise at (a1) only on the Globe in the beginning. Where DL = Degrees of Longitudes; DLM = Degrees of Longitudes determined by Yahweh (Amos 3:7; 1 Cor. 2:10-15, 12:4-31; John 16:1-14; John 18:37-38; Isa. 45:12; Jer. 31:35-37, 33:19-26, 32:26-27; Isaiah 45:12; Job 38:1-33, 26:1-7; Jos. 10:1-14; Num. 23:19; Eze. 12:28 etc.); DWE = Degrees completed behind Israel while rotating from West to East; Mo. = Month; Hrs. = Hours; Min. = Minutes; Sec. = Seconds; d = days; DOW = Day of Week; BT = Beginning Time of Lunar Month; RT = Required Time of Phase of the Moon.

CONDITIONS: (1). Celebrate the beginning of Scriptural Lunar Month (Numbers 10:10) from previous evening (6 PM) to next evening (6 PM) if the Scriptural month begins between 0 hours and 9 hours of any date with respect to Israel (Num. 28:4, 11-15; Neh. 8:1-3, 13; Mark 15:25; Acts 2:14-16). (2). Celebrate the beginning of Scriptural Month from evening (6 PM) to next evening (6 PM) if the Scriptural month begins between 9 hours and 24 hours of any date with respect to Israel. (3). Yahweh's Formula is Constant forever (Jeremiah 33:19-26, 32:26-27; Matt. 24:35). So 1 day = 86,400 seconds per 360 °; 1 Lunar Month = 29.53135314 days per 360°; and 1 Tropical Year = 365.2244898 days per 360°.

NB: The time of the burnt offering of each "Beginning of Month" is 9 hours (9 AM) - Mark 15:25 Cf. Matt. 5:17-18; Num. 10:10, 28:11-15, 29:1-6. That's why Israelites celebrated the 1st day of the 7th month from 8 AM to 12 AM strictly (Neh. 8:1-12; Lev. 23:23-25). Crescent - 1 is Age of the Scriptural Lunar Month whereas Crescent - 2 is the Age of the previous month. The length of Scriptural Tropical Year (365.2244898 days) is Constant because of the volume of the Moon from the beginning to end of each Lunar Month (29.53135314 days) is Constant in 49 - Year Luni Solar Cycle. Yahweh determined that to which month takes 29 days and to which month takes 30 days (Gen. 1:13-19; Psalms 104:19; Job 38:1-33). So you can't confine or modify the length of Day, Lunar Month and Tropical Year. So count each month by using Yahweh's Formula (Lev. 25:8-9) which is 606 months = 49 Years = 17,896 days.

Research: The beginning and end of each Month (Deut. 11:11-12) is important. "UT ± H M S" is a scientific concept if the Earth is stopped and UK is center of the Globe. NUT (New Universal Time) = "II.LST - H M S" is "The Scientific Concept" because Jerusalem is the center of the Globe (Genesis 1:1-19). And Time, and Phases of the Moon begins from Jerusalem only (Genesis 1:13-19). There is no Scientific proof that time, and Phases of the Moon begins from UK or any country. "UT - H M S" is scientific if the Earth is rotating from West to East and UK is center of the Globe. So UT is disproved once again. Yahweh proves that time, and Phases of the Moon begins from Jerusalem (ISRAEL) only in His Book in Genesis 1:1-31, 2:1-3; Lev. 25:8-9; Ezk. 5:5, 38:12; Psalms 104:19; John 11:9; Job 26:7, 38:1-33; Jer. 33:19-26, 31:35-37!

WHICH UNIVERSAL LUNI SOLAR CLOCK IS SCIENTIFIC AND WHERE IT IS WRITTEN?

VOLUME OF MOON IS CONSTANT SO THE SCRIPTURAL LUNAR MONTH AND TROPICAL YEAR IS CONSTANT!

P = THE UNIVERSAL LUNI SOLAR CLOCK OF YAHWEH (The Creator)												Q = THE UNIVERSAL LUNI SOLAR CLOCK OF ASTRONOMERS													
Sivan begins as below according Yahweh as Jerusalem is center of the Globe and Head of Time												Sivan begins as below according to NASA or IAU if Jerusalem is center of the Globe and Head of Time

Yahweh's Universal Luni Solar Clock is working from (1) to (12). "P" is satisfying the date of the Creation of Sun, Moon and stars, the 7 - Day Weekly Cycle and so on. Please see the below poofs of "P" (Genesis 1:1-31, 2:1-3).

Astronomers' Clock is working from (1) to (6) and (1) to (r) via (p) which is true if the earth is stopped.

So "Q" is not proved as it didn't prove any 7 - Day Weekly Cycle.

So Yahweh's Universal Luni Solar Clock is Scientific and it's formula is written in Leviticus 25:8-9. Formula = 7 Times 7 years = 49 Years = 606 Lunar Months = 17,896 days = 588 Tropical Months (Lev. 25:8-9; Jeremiah 33:19-26).

NB: II.LST = Israel Local Standard Time at 35°E Jerusalem; D = d = days; H = Hrs., = h = hours; M = Min. = m = minutes; S = Sec. = s = seconds; DWE = Degrees completed behind Israel while the Earth is rotating on its axis from West to East strictly from 6 PM on 20th Feb., 4234 BCE, at 35°E, Jerusalem (Genesis 1:1-19); DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me; DL = Degrees of Longitudes; DLA = Degrees of Longitudes decided by Astronomers.

These two diagrams give us some plain understanding about "Lightrise and Lightset; Sunrise and Sunset" because Yahweh created "Light" before He created Sun, Moon and stars. 6,000 Years Phases of the Moon (NASA) is fake.

Example:

Yahweh is proved as the Creator with the help of His Formula (Lev. 25:8-12), History, Chronology, Prophecies and so on (Luke 21:20-24; Matt. 24:15-28).

Diagrams are taken from NASA. God bless NASA ever!

Research: Universal 7 - Day Weekly Cycle is counted from 18 hours (6 PM) on 20th Feb., 4234 BCE, at 35°E Jerusalem only. The very first Sunrises indicated as Sunrise at (a1) whereas indicated as Sunset at (a) on the **Globe**. NASA/IAU failed to prove that Yahweh is the Creator with the help of 49 - Year Luni Solar Cycle and 49 - Year Tropical Cycle which is the formula of "The Universal Luni Solar Clock, the Sun, and Moon". The formula of Yahweh's Clock is written in the Book of Yahweh as 49 YEARS in Lev. 25:8-9. This formula only gives accurate Seasons, Phases of the Moon etcetera.

Yahweh, the Creator created Sun, Moon, and stars as below in the beginning (Genesis 1:13-19)										
Year	Month	D	H	M	S	Country	Yahweh's Clock	DLM	Very first	DL
4234 BCE	Feb.	23	06	00	00	Alaska	II.LST - 12 hours	- 180°	Sunrise (a1)	145°W

V or VW = Crescent is Visible if Sun, Weather, Longitudes, and Latitudes are suitable. Month = 29.53135314 days (29d, 12h, 45m, 8.91088992s)																		ES = The Eastern Sky; WS = The Western Sky (Psalms 104:19, 19:1-4; Job 26:7).			

"Yahweh's Universal Luni Solar Clock" is working from (1) to (14) only. BT = Beginning Time of Lunar Month or Beginning of the Scriptural Lunar Month (Numbers 10:10; Deut. 11:11-12); RT = Required Time of Phase of the Moon.

Extra Month is occurring according to the formula of Yahweh's Luni Solar Calendar only but not according to the RIPENED BARLY CORNS. Please remember that crops are cursed in many years because Israelis and gentiles are rejecting Commandments of Yahweh (Deut. 11:11-17 etc.). Even Priests didn't go to the barley fields to observe whether the barley ears are ripened properly or not. Proof: 0b00, z20 or 1b Case - 5i in www.yahwehcalendar49.com

TABLE THAT EXPLAINS THE OCCURRENCES OF BEGINNING OF EACH SCRIPTURAL LUNAR MONTH AND EXTRA MONTH ETCETERA

Where d1, d2, d3, d4, d5 d50 are The Day of Atonement with respect to Civil 50 - Year Lunisolar Cycle. D1, D2, D3, D4, D5 D49 are the Day of Atonement with respect to Religious 49 - Year Luni Solar Cycle. So d1 = D49 = d50. A1, A2, A3, A4, A5, A6 A49 are 1st Abib with respect to Religious 49 - Year Lunisolar Cycle.																						1st day of Tammuz = From 6 PM on 29th Jun., to 6 PM on 30th Jun., CE 2022.											
Research: This is the time to realize that NASA, IAU, and all religious leaders are misleading the World under the veil of Science, and Religion.																																	
Please prove me your Gift of Holy Spirit if YHWH elected you to prove His Calendar Formula in terms of 7 times 7 Years = 606 Lunar Months = 17,896 days (1 Thess. 5:21; Job 34:1-4; Jer. 33:19-26, 23:13-29; 1 Cor. 9:1-3; 11:19; 5:6-8).																																	
* * Yahweh commanded His people to count for 49 YEARS in terms of 7 times 7 years (Lev. 25:8-9). Are not 17,896 days = 606 Lunar Months = 7 times 7 years? Please get the length of Lunar month and Tropical Year with this.																																	
So many Rabbis/Prophets calculated wrongly the Appointed times of Yahweh each year with the help of Gentile Grecian 19 - Year Luni Solar Cycle. This tradition came into existance since CE 135 (Matt. 23:1-39).																																	
RESEARCH: Did you realize that the time between any two consecutive JUBILEE YEARS are 17,896? So you don't have any authority (Ezk. 46:14) to prepone or postpone Yahweh's Appointed times.																									SEARCH:								

(A) C 606 = Number of civil months completed out of 606 civil months in Civil 49 - Year Lunisolar Cycle. (B) CCM = Number of Civil months completed from the Creation of sun, moon and stars (Jer. 31:35-37). (C) Year = Roman Year (Daniel 7:7-8, 23-25). (D) M = Month. (E) D = Day. (F) H = Hours (G) M = Minutes. (H) S = Seconds. (I) DW = Day of Week; DC = Days Completed; (J) D/M = Days per Month according to Leviticus 25:8, 9; Nehemiah 8:1-3, 12 - 13; Acts 2:1 - 16; Genesis 18:14, 1:14-19; 8:22; Numbers 23:19; Jeremiah 31:35-37, 33:19-26; Job 26:7, 38:31-36; Psalms 104:5, 19-27, 19:1-4; John 11:9; Deuteronomy 11:12; Exodus 34:22; Ezk. 5:5, 38:12; Matthews 24:35).	(X) CCM X A = CCM X 29.53135314 days; (Y) C 606 X A = C 49 X 29.53135314 Days. Where A = 29.53135314 days (Z) R 606 X A = R 49 X 29.53135314 Days. (AA) RCM X A = RCM X 29.53135314 Days. CCC = Number of Civil Cycles Completed or Number of Civil 49 - Year Luni Solar Cycles completed from the Creation of Sun, Moon and stars; RCC = Number of Religious Cycles Completed or Number of Religious 49 - Year Lunisolar Cycles completed from Canaan. DL = Degrees of Longitudes discovered by Scientists (UK is the center of the Globe in this case).
(K) New Moon Day according to Israel Local Standard Time (II.LST) which is confined according to (1a). Celebrate the New Moon Day (or 1st Day of Lunar Month) from previous evening (6 PM) to next evening if the New Moon begins between 0 hours and 9 hours. (1b) Celebrate the New Moon Day from evening (6 PM) to next evening (6 PM) if the New Moon begins between 9 hours, and 24 hours of any date (Nehemiah 8:3-12; Acts 2:14-16; Num. 28:11-14, 1-8). Jews came next day again (Neh. 8:13).	DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me (Jerusalem is center - Eze.5:5, 38:12). 35°E = Jerusalem situated = The Scriptural Zero Degrees of Longitudes determined by Yahweh (Jer. 33:19 - 26). * RY/3 = Number of Years of Tithe completed (If the remainder is ZERO)[Deuteronomy 14:28-29; 26:12-16] ** RY/7 = Number of Sabbatical Years completed (If the remainder is ZERO)[Leviticus 25:1-7]. *** RY/49 = Number of Jubilee Years completed (If the remainder is ZERO)[Leviticus 25:8 - 55].
So this proves that Priests knew the formula. (L) Full Moon day = 15th day of each Lunar Month. (M) = Name of Religious Month completed while next month begins; (N) RM = Religious Month completed as 1/1, 2/1, 3/1 ... 12/49 of R49; (O) CM = Civil Month completed as 1/1, 2/1, 3/1 ... 12/49 of C49; (P) = R 606 = Number of Religious Months completed out of 606 months of in Religious 49 - Year Cycle; (Q). RCM = Number of Religious Months Completed from the plains of Moab or from the land of Canaan (Numbers 33:48-56; Lev. 25:1-9).	Special Note: ZERO residue is remained at the end of each 49 - Year Lunisolar Cycle; CCC = CY/49 = Number of Civil Cycles Completed (If the Remainder is Zero); RCC = RY/49 = Number Religious Cycles compled (If the remainder is ZERO). ** The Phases of Moon produced by NASA are entirely different form Yahweh's Formula. R606 = C606 - 6 where 6 lunar months are constant.
Where RCM = CCM - 33,336 (Note: Religious New Years and Sabbatical etcetera began according to Lev. 25:1-9).	Special Note: Don't follow Phases of Moon produced by NASA because they are inaccurate!
(R) RY = MH = Number of Religious Years completed from the Land of Milk and Honey (Leviticus 25:1-9); CY = SM = Number of Civil Years completed from the date of the Creation of Sun, Moon and stars (Genesis 1:1-19).	* Note: All Scriptural Religious New Years should be counted from end of 33,336 CCM only. RCE = CCM - 32,841 where 32,841 lunar months are Constant.
(S) YR = Number of Religious Years completed out of 49 Religious Years according to R 606; YC = Number of Civil Years completed out of 49 Civil Years according to C 606.	Example: RCE = CCM - 32,841 = 33,336 - 32,841 = 495 Religious months (40 years of journey ONLY). RCE = Number of Religious Months completed from 1st Religious New Moon in Egypt .
(T) D/YR = Days per YR. D/YC = Days per YC.; ND20 = Number of Days completed from 6 PM on 20th Feb., 4234 BCE.	For more details about the Creator, please study in www.yahwehcalendar49.com
(U) NS 20 = Number of Sabbaths completed from 6 PM on 20th February, 4234 BCE, at 35 °E (Genesis 1:1-31, 2:1-3).	SPECIAL NOTE: Please remember that Israelis didn't follow gentile astronomer between
Special Note: Every Scriptural day takes 86,400 seconds (= 24 Hours) is true according to John 11:9. NASA discovered that day takes 86,164 seconds strictly which is disproved by the Creator, Yahweh. Note: Nearly 1 day lags at the end of 365 days if we follow this theory. Please note this point!!!!(1 Cor. 1:19-25) So don't trust in NASA (Phases of Moon) which is leading into the bottomless pit (Rev. 13:8, 20:12-15).	1579 BCE and CE 135 because Mose, the Prophet wrote Yahweh's Formula in Leviticus 25:8-9. The below web link is extremely useful to verify all my Calculations. http://www.astropixels.com/ephemeris/phasescat/phasescat.html The above link gives Phases of Moon from 2000 BCE to CE 4000.

The above New Moon Report, length of Day (86,400 seconds per Day), Lunar Month (29.53135314 days), Tropical Year (365.2244898 days), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle (Leviticus 25:8-9; Jeremiah 33:19-26) is satisfying the below History, and Chrnology. So the above proofs are scientific, Historical, and practical. Yahweh didn't tell that go and observe the Visible Crescent, and barley ears. Beware of false Prophets, and astronomers!!!

Note: Please remember that Yahweh commanded to count for 49 years like 7 times 7 years to keep Jubilee Years, Yom Kippur and so on but not COMMANDED that go and observe the VISIBLE CRESCENT to keep the beginning of each month, and BARLEY EARS to keep 1st Abib. Yahweh fixed His Plan of Salvation and some events before the foundations of the Earth (Exodus 32:31-33; Acts 4:27-28; Jeremiah 1:4-6; Psalms 139:16; Galatians 1:15; Ephesians 1:4-12; Revelations 13:8-10, 20:15, etc.). The elected people are counted before the foundations of the Earth (Revelations 7:1-8). Yahweh knows the thoughts of all people (Deuteronomy 31:16-21). So Yahweh knows the dates of all His Appointed times according to His Luni Solar Calendar formula (Lev. 25:8-12, 13-55). So His Calendar is calculated before He created Sun, Moon, and stars (Hebrews 4:3). So the length of Day (86,400 seconds per 360° per 1 day), Lunar Month (29.53135314 days per 360°), Tropical Year (365.2244898 days per 360° per year), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle are Constant forever. So you should observe both the phenomena of New Moon Crescent and Full Moon for the sake of confirmation of your calculations only (1 Thes. 5:21) but you don't have any such authority to prepone or postpone Yahweh's Appointed Times. Every New Moon Crescent may visible or may not visible around the Globe at the beginning time of each Lunar Month. We know that the Age of the Moon is Constant around the Globe whereas the time varies according to the Longitudes. We can simply calculate the time and Age of every Crescent. So we can keep each New Moon Festival (Beginning of Month) even if the Crescent has not appeared in Israel but it may appear in any country. Earth, Sun, Moon, and stars are not created for Jews only but all (Matthews 5:45). Every New Moon Crescent may appear in any one country at least according to the Formula. All true calculations are not fiction but science (Job 38:1-33; Jer. 33:19-26).

77,368TH NEW MOON OR TAMMUZ REPORT IN JUNE, CE 2022 - 2 KINGS 25:1-7; GENESIS 1:13-19; NUM. 10:10, 23:19; DEUT. 11:11-12; JER. 33:19-26, 31:35-37, 32:26-27 ETC.

77,367 Scriptural Lunar Months are completed from 18 hours (6pm) on 23rd Feb., 4234 BCE to 22 hrs., 45 m, and 8.928s., on 29th Jun., CE 2022 according to 49 - Year Luni Solar Cycle (Lev. 25:8-9; Gen. 1:13-19; John 11:9).

Yahweh's Lunar Month = 29.53135314 days (17,896 days ÷ 606 Months); Yahweh's Tropical Year = 365.2244898 days (17,896 days ÷ 49 Years). Yahweh's Formula = 49 Years = 17,896 days = 606 Lunar Months = 588 Tropical Months.

Let's calculate the end of 77,367th Lunar Month from the date of the Creation of Sun, Moon and stars (From 6 PM of 23rd February, 4234 BCE, at 35E) according to Yahweh's Formula.

77,367 Lunar Months = 77,367 Lunar Months X 29.53135314 days = 2,284,752.198 days = 2,284,752 days + Residue. The Residue = 04 hours, 45 minutes and 8.928 seconds (Num. 10:10; Deut. 11:11-12)

2,284,752 days are there between (a) and (b). You can check these days with the below link.

Year	Month	Day	Hours	Min.	Sec.	DW	DL	DLM	Country	Case
4234 BCE	Feb.	23	18	00	00	Tue.	145°W	-180°	Alaska, USA	(a1)
4234 BCE	Feb.	23	18	00	00	Tue.	35°E	0°	Israel	(a)
CE 2022	Jun.	29	18	00	00	Wed.	35°E	0°	Israel	(b)

At (a, a1) = Genesis 1:13-19, 18:14; Num. 11:23, 23:19; Jeremiah 32:26-27, 31:35-37, 33:19-26; 2 Tim. 2:13.

Very first Sun rays appears as Sunrise at (a1) according to the principles determined by Yahweh (Job 38:1-33). Let's add the Residue to (b) to get the end of 77,367th Lunar Month. **So Tammuz (77,368th Month) begins at (1).**

Year	Month	Day	Hours	Min.	Sec.	DOW	Country	DL	DLM	CY	Case
CE 2022	June	29	18	00	00	Wed.	Israel	35°E	0°		(b)
			+ 04	+ 45	8.928						
CE 2022	June	29	22	45	8.928	Wed.	Israel	35°E	0°	-	(1)

But NASA calculated the beginning time of New Moon as 02 hrs., 52 m., on 29th Jun., CE 2022 = FAKE forever!

For New Moon report: <https://truthofyahweh.org/moon.htm> <https://paleotimes.org/blog/>

77,368th Scriptural Lunar Month or Tammuz begins strictly at (1) and as below according to the Book of Yahweh (Isaiah 34:16; Numbers 28:1-15; Nehemiah 8:1-13; Acts 2:15; 2 Timothy 2:13; Numbers 10:10; Deut. 11:11-14).

Time According to Head (DLM)	DLM	Total Age of Sun, Moon, and stars (Genesis 1:13-19; Jeremiah 32:26-27)	77,368th Scriptural Lunar Month (Yahweh's Lunar Month or Tammuz) strictly begins as below (Say BT)											1st Day of Tammuz or 77,368th Month (Deut. 11:11-12, 17:8-13; Num.10:10)	Age at RT = RT - BT	Required Time of the Phase of Moon (Say RT)

Yahweh's Universal Luni Solar Clock is Working from (1) to (14) only. The very First Sun rays appeared as Sunset at (a) whereas the same Sunrays appeared as Sunrise at (a1) only on the Globe in the beginning. Where DL = Degrees of Longitudes; DLM = Degrees of Longitudes determined by Yahweh (Amos 3:7; 1 Cor. 2:10-15, 12:4-31; John 16:1-14; John 18:37-38; Isa. 45:12; Jer. 31:35-37, 33:19-26, 32:26-27; Isaiah 45:12; Job 38:1-33, 26:1-7; Jos. 10:1-14; Num. 23:19; Eze. 12:28 etc.); DWE = Degrees completed behind Israel while rotating from West to East; Mo. = Month; Hrs. = Hours; Min. = Minutes; Sec. = Seconds; d = days; DOW = Day of Week; BT = Beginning Time of Lunar Month; RT = Required Time of Phase of the Moon.

CONDITIONS: (1). Celebrate the beginning of Scriptural Lunar Month (Numbers 10:10) from previous evening (6 PM) to next evening (6 PM) if the Scriptural month begins between 0 hours and 9 hours of any date with respect to Israel (Num. 28:4, 11-15; Neh. 8:1-3, 13; Mark 15:25; Acts 2:14-16). (2). Celebrate the beginning of Scriptural Month from evening (6 PM) to next evening (6 PM) if the Scriptural month begins between 9 hours and 24 hours of any date with respect to Israel. (3). Yahweh's Formula is Constant forever (Jeremiah 33:19-26, 32:26-27; Matt. 24:35). So 1 day = 86,400 seconds per 360 °; 1 Lunar Month = 29.53135314 days per 360°; and 1 Tropical Year = 365.2244898 days per 360°.

NB: The time of the burnt offering of each "Beginning of Month" is 9 hours (9 AM) - Mark 15:25 Cf. Matt. 5:17-18; Num. 10:10, 28:11-15, 29:1-6. That's why Israelites celebrated the 1st day of the 7th month from 8 AM to 12 AM strictly (Neh. 8:1-12; Lev. 23:23-25). Crescent - 1 is Age of the Scriptural Lunar Month whereas Crescent - 2 is the Age of the previous month. The length of Scriptural Tropical Year (365.2244898 days) is Constant because of the volume of the Moon from the beginning to end of each Lunar Month (29.53135314 days) is Constant in 49 - Year Luni Solar Cycle. Yahweh determined that to which month takes 29 days and to which month takes 30 days (Gen. 1:13-19; Psalms 104:19; Job 38:1-33). So you can't confine or modify the length of Day, Lunar Month and Tropical Year. So count each month by using Yahweh's Formula (Lev. 25:8-9) which is 606 months = 49 Years = 17,896 days.

Research: The beginning and end of each Month (Duet. 11:11-12) is important. "UT ± H M S" is a scientific concept if the Earth is stopped and UK is center of the Globe. NUT (New Universal Time) = "II.LST - H M S" is "The Scientific Concept" because Jerusalem is the center of the Globe (Genesis 1:1-19). And Time, and Phases of the Moon begins from Jerusalem only (Genesis 1:13-19). There is no Scientific proof that time, and Phases of the Moon begins from UK or any country. "UT - H M S" is scientific if the Earth is rotating from West to East and UK is center of the Globe. So UT is disproved once again. Yahweh proves that time, and Phases of the Moon begins from Jerusalem (ISRAEL) only in His Book in Genesis 1:1-31, 2:1-3; Lev. 25:8-9; Ezk. 5:5, 38:12; Psalms 104:19; John 11:9; Job 26:7, 38:1-33; Jer. 33:19-26, 31:35-37!

WHICH UNIVERSAL LUNI SOLAR CLOCK IS SCIENTIFIC AND WHERE IT IS WRITTEN?

VOLUME OF MOON IS CONSTANT SO THE SCRIPTURAL LUNAR MONTH AND TROPICAL YEAR IS CONSTANT!

P = THE UNIVERSAL LUNI SOLAR CLOCK OF YAHWEH (The Creator)												Q = THE UNIVERSAL LUNI SOLAR CLOCK OF ASTRONOMERS													
Tammuz begins as below according Yahweh as Jerusalem is center of the Globe and Head of Time												Tammuz begins as below according to NASA or IAU if Jerusalem is center of the Globe and Head of Time

Yahweh's Universal Luni Solar Clock is working from (1) to (12). "P" is satisfying the date of the Creation of Sun, Moon and stars, the 7 - Day Weekly Cycle and so on. Please see the below poofs of "P" (Genesis 1:1-31, 2:1-3).

Astronomers' Clock is working from (1) to (6) and (1) to (r) via (p) which is true if the earth is stopped.

So "Q" is not proved as it didn't prove any 7 - Day Weekly Cycle.

So Yahweh's Universal Luni Solar Clock is Scientific and it's formula is written in Leviticus 25:8-9. Formula = 7 Times 7 years = 49 Years = 606 Lunar Months = 17,896 days = 588 Tropical Months (Lev. 25:8-9; Jeremiah 33:19-26).

NB: II.LST = Israel Local Standard Time at 35°E Jerusalem; D = d = days; H = Hrs., = h = hours; M = Min. = m = minutes; S = Sec. = s = seconds; DWE = Degrees completed behind Israel while the Earth is rotating on its axis from West to East strictly from 6 PM on 20th Feb., 4234 BCE, at 35°E, Jerusalem (Genesis 1:1-19); DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me; DL = Degrees of Longitudes; DLA = Degrees of Longitudes decided by Astronomers.

These two diagrams give us some plain understanding about "Lightrise and Lightset; Sunrise and Sunset" because Yahweh created "Light" before He created Sun, Moon and stars. 6,000 Years Phases of the Moon (NASA) is fake.

Example:

Yahweh is proved as the Creator with the help of His Formula (Lev. 25:8-12), History, Chronology, Prophecies and so on (Luke 21:20-24; Matt. 24:15-28).

Diagrams are taken from NASA. God bless NASA ever!

Research: Universal 7 - Day Weekly Cycle is counted from 18 hours (6 PM) on 20th Feb., 4234 BCE, at 35°E Jerusalem only. The very first Sunrays indicated as Sunrise at (a1) whereas indicated as Sunset at (a) on the **Globe**. NASA/IAU failed to prove that Yahweh is the Creator with the help of 49 - Year Luni Solar Cycle and 49 - Year Tropical Cycle which is the formula of "The Universal Luni Solar Clock, the Sun, and Moon". The formula of Yahweh's Clock is written in the Book of Yahweh as 49 YEARS in Lev. 25:8-9. This formula only gives accurate Seasons, Phases of the Moon etcetera.

Yahweh, the Creator created Sun, Moon, and stars as below in the beginning (Genesis 1:13-19)										
Year	Month	D	H	M	S	Country	Yahweh's Clock	DLM	Very first	DL

V or VW = Crescent is Visible if Sun, Weather, Longitudes, and Latitudes are suitable. Month = 29.53135314 days (29d, 12h, 45m, 8.91088992s)																		ES = The Eastern Sky; WS = The Western Sky (Psalms 104:19, 19:1-4; Job 26:7).			

"Yahweh's Universal Luni Solar Clock" is working from (1) to (14) only. BT = Beginning Time of Lunar Month or Beginning of the Scriptural Lunar Month (Numbers 10:10; Deut. 11:11-12); RT = Required Time of Phase of the Moon.

Extra Month is occurring according to the formula of Yahweh's Luni Solar Calendar only but not according to the RIPENED BARLY CORNS. Please remember that crops are cursed in many years because Israelis and gentiles are rejecting Commandments of Yahweh (Deut. 11:11-17 etc.). Even Priests didn't go to the barley fields to observe whether the barley ears are ripened properly or not. Proof: 0b00, z20 or 1b Case - 5i in www.yahwehcalendar49.com

Where d1, d2, d3, d4, d5 d50 are The Day of Atonement with respect to Civil 50 - Year Lunisolar Cycle. D1, D2, D3, D4, D5 D49 are the Day of Atonement with respect to Religious 49 - Year Luni Solar Cycle. So d1 = D49 = d50. A1, A2, A3, A4, A5, A6 A49 are 1st Abib with respect to Religious 49 - Year Lunisolar Cycle.																						1st day of Ab = From 6 PM on 29th Jul., to 6 PM on 30th Jul. CE 2022.										

Research: This is the time to realize that NASA, IAU, and all religious leaders are misleading the World under the veil of Science, and Religion.

Please prove me your Gift of Holy Spirit if YHWH elected you to prove His Calendar Formula in terms of 7 times 7 Years = 606 Lunar Months = 17,896 days (1 Thess. 5:21; Job 34:1-4; Jer. 33:19-26, 23:13-29; 1 Cor. 9:1-3; 11:19; 5:6-8).

* * Yahweh commanded His people to count for 49 YEARS in terms of 7 times 7 years (Lev. 25:8-9). Are not 17,896 days = 606 Lunar Months = 7 times 7 years? Please get the length of Lunar month and Tropical Year with this.

So many Rabbis/Prophets calculated wrongly the Appointed times of Yahweh each year with the help of Gentile Grecian 19 - Year Luni Solar Cycle. This tradition came into existence since CE 135 (Matt. 23:1-39).

RESEARCH: Did you realize that the time between any two consecutive JUBILEE YEARS are 17,896? So you don't have any authority (Ezk. 46:14) to prepone or postpone Yahweh's Appointed times. **SEARCH:**

(A) C 606 = Number of civil months completed out of 606 civil months in Civil 49 - Year Lunisolar Cycle. (B) CCM = Number of Civil months completed from the Creation of sun, moon and stars (Jer. 31:35-37). (C) Year = Roman Year (Daniel 7:7-8, 23-25). (D) M = Month. (E) D = Day. (F) H = Hours (G) M = Minutes. (H) S = Seconds. (I) DW = Day of Week; DC = Days Completed; (J) D/M = Days per Month according to Leviticus 25:8, 9; Nehemiah 8:1-3, 12 - 13; Acts 2:1 - 16; Genesis 18:14, 1:14-19; 8:22; Numbers 23:19; Jeremiah 31:35-37, 33:19-26; Job 26:7, 38:31-36; Psalms 104:5, 19-27, 19:1-4; John 11:9; Deuteronomy 11:12; Exodus 34:22; Ezk. 5:5, 38:12; Matthews 24:35).	A = Lunar Month; EM = Extra Month;	(X) CCM X A = CCM X 29.53135314 days; (Y) C 606 X A = C 49 X 29.53135314 Days. Where A = 29.53135314 days (Z) R 606 X A = R 49 X 29.53135314 Days. (AA) RCM X A = RCM X 29.53135314 Days. CCC = Number of Civil Cycles Completed or Number of Civil 49 - Year Luni Solar Cycles completed from the Creation of Sun, Moon and stars; RCC = Number of Religious Cycles Completed or Number of Religious 49 - Year Lunisolar Cycles completed from Canaan. DL = Degrees of Longitudes discovered by Scientists (UK is the center of the Globe in this case).
(K) New Moon Day according to Israel Local Standard Time (II.LST) which is confined according to (1a). Celebrate the New Moon Day (or 1st Day of Lunar Month) from previous evening (6 PM) to next evening if the New Moon begins between 0 hours and 9 hours. (1b) Celebrate the New Moon Day from evening (6 PM) to next evening (6 PM) if the New Moon begins between 9 hours, and 24 hours of any date (Nehemiah 8:3-12; Acts 2:14-16; Num. 28:11-14, 1-8). Jews came next day again (Neh. 8:13).		DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me (Jerusalem is center - Eze.5:5, 38:12). 35°E = Jerusalem situated = The Scriptural Zero Degrees of Longitudes determined by Yahweh (Jer. 33:19 - 26). * RY/3 = Number of Years of Tithe completed (If the remainder is ZERO)[Deuteronomy 14:28-29; 26:12-16] ** RY/7 = Number of Sabbatical Years completed (If the remainder is ZERO)[Leviticus 25:1-7]. *** RY/49 = Number of Jubilee Years completed (If the remainder is ZERO)[Leviticus 25:8 - 55].
So this proves that Priests knew the formula. (L) Full Moon day = 15th day of each Lunar Month. (M) = Name of Religious Month completed while next month begins; (N) RM = Religious Month completed as 1/1, 2/1, 3/1 ... 12/49 of R49; (O) CM = Civil Month completed as 1/1, 2/1, 3/1 ... 12/49 of C49; (P) = R 606 = Number of Religious Months completed out of 606 months of in Religious 49 - Year Cycle; (Q). RCM = Number of Religious Months Completed from the plains of Moab or from the land of Canaan (Numbers 33:48-56; Lev. 25:1-9).		Special Note: ZERO residue is remained at the end of each 49 - Year Lunisolar Cycle; CCC = CY/49 = Number of Civil Cycles Completed (If the Remainder is Zero); RCC = RY/49 = Number Religious Cycles compeld (If the remainder is ZERO). ** The Phases of Moon produced by NASA are entirely different form Yahweh's Formula. R606 = C606 - 6 where 6 lunar months are constant.
Where RCM = CCM - 33,336 (Note: Religious New Years and Sabbatical etcetera began according to Lev. 25:1-9).		Special Note: Don't follow Phases of Moon produced by NASA because they are inaccurate!
(R) RY = MH = Number of Religious Years completed from the Land of Milk and Honey (Leviticus 25:1-9); CY = SM = Number of Civil Years completed from the date of the Creation of Sun, Moon and stars (Genesis 1:1-19).		* Note: All Scriptural Religious New Years should be counted from end of 33,336 CCM only. RCE = CCM - 32,841 where 32,841 lunar months are Constant.
(S) YR = Number of Religious Years completed out of 49 Religious Years according to R 606; YC = Number of Civil Years completed out of 49 Civil Years according to C 606.		Example: RCE = CCM - 32,841 = 33,336 - 32,841 = 495 Religious months (40 years of journey ONLY). RCE = Number of Religious Months completed from 1st Religious New Moon in Egypt .
(T) D/YR = Days per YR. D/YC = Days per YC.; ND20 = Number of Days completed from 6 PM on 20th Feb., 4234 BCE.		For more details about the Creator, please study in www.yahwehcalendar49.com
(U) NS 20 = Number of Sabbaths completed from 6 PM on 20th February, 4234 BCE, at 35 °E (Genesis 1:1-31, 2:1-3).		SPECIAL NOTE: Please remember that Israelis didn't follow gentile astronommer between
Special Note: Every Scriptural day takes 86,400 seconds (= 24 Hours) is true according to John 11:9. NASA discovered that day takes 86,164 seconds strictly which is disproved by the Creator, Yahweh. Note: Nearly 1 day lags at the end of 365 days if we follow this theory. Please note this point!!!!(1 Cor. 1:19-25) So don't trust in NASA (Phases of Moon) which is leading into the bottomless pit (Rev. 13:8, 20:12-15).		1579 BCE and CE 135 because Mose, the Prophet wrote Yahweh's Formula in Leviticus 25:8-9. The below web link is extremely useful to verify all my Calculations. http://www.astropixels.com/ephemeris/phasescat/phasescat.html The above link gives Phases of Moon from 2000 BCE to CE 4000.

The above New Moon Report, length of Day (86,400 seconds per Day), Lunar Month (29.53135314 days), Tropical Year (365.2244898 days), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle (Leviticus 25:8-9; Jeremiah 33:19-26) is satisfying the below History, and Chrnology. So the above proofs are scientific, Historical, and practical. Yahweh didn't tell that go and observe the Visible Crescent, and barley ears. Beware of false Prophets, and astronomers!!!

Please remember that Yahweh commanded to count for 49 years like 7 times 7 years to keep Jubilee Years, Yom Kippur and so on but not COMMANDED that go and observe the VISIBLE CRESCENT to keep the beginning of each month, and BARLEY EARS to keep 1st Abib. Yahweh fixed His Plan of Salvation and some events before the foundations of the Earth (Exodus 32:31-33; Acts 4:27-28; Jeremiah 1:4-6; Psalms 139:16; Galatians 1:15; Ephesians 1:4-12; Revelations 13:8-10, 20:15, etc.). The elected people are counted before the foundations of the Earth (Revelations 7:1-8). Yahweh knows the thoughts of all people (Deuteronomy 31:16-21). So Yahweh knows the dates of all His Appointed times according to His Luni Solar Calendar formula (Lev. 25:8-12, 13-55). So His Calendar is calculated before He created Sun, Moon, and stars (Hebrews 4:3). So the length of Day (86,400 seconds per 360° per 1 day), Lunar Month (29.53135314 days per 360°), Tropical Year (365.2244898 days per 360° per year), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle are Constant forever. So you should observe both the phenomena of New Moon Cresent and Full Moon for the sake of confirmation of your calculations only (1 Thes. 5:21) but you don't have any such authority to prepone or postpone Yahweh's Appointed Times. Every New Moon Crescent may visible or may not visible around the Globe at the beginning time of each Lunar Month. We know that the Age of the Moon is Constant around the Globe whereas the time varies according to the Longitudes. We can simply calculate the time and Age of every Crescent. So we can keep each New Moon Festival (Beginning of Month) even if the Crescent has not appeared in Israel but it may appear in any country. Earth, Sun, Moon, and stars are not created for Jews only but all (Matthews 5:45). Every New Moon Crescent may appear in any one country at least according to the Formula. All true calculations are not fiction but science (Job 38:1-33; Jer. 33:19-26).

77,369TH NEW MOON OR AB REPORT IN JULY CE 2022 - 2 KINGS 25:8-13; GENESIS 1:13-19; NUM. 10:10, 23:19; DEUT. 11:11-12; JER. 33:19-26, 31:35-37, 32:26-27 ETC.

77,368 Scriptural Lunar Months are completed from 18 hours (6pm) on 23rd Feb., 4234 BCE to 11 hrs., 30 m, and 17.568 s., on 29th Jul., CE 2022 according to 49 - Year Luni Solar Cycle (Lev. 25:8-9; Gen. 1:13-19; John 11:9).

Yahweh's Lunar Month = 29.53135314 days (17,896 days ÷ 606 Lunar Months); Yahweh's Tropical Year = 365.2244898 days (17,896 days ÷ 49 Years). Yahweh's Formula = 49 Years = 17,896 days = 606 Lunar Months = 588 Tropical Months.

Let's calculate the end of 77,368th Lunar Month from the date of the Creation of Sun, Moon and stars (From 6 PM of 23rd February, 4234 BCE, at 35E) according to Yahweh's Formula.

77,368 Lunar Months = 77,368 Lunar Months X 29.53135314 days = 2,284,781.729 days = 2,284,781 days + Residue. The Residue = 17 hours, 30 minutes and 17.568 seconds (Num. 10:10; Deut. 11:11-12)

2,284,781 days are there between (a) and (b). You can check these days with the below link.

Year	Month	Day	Hours	Min.	Sec.	DW	DL	DLM	Country	Case
4234 BCE	Feb.	23	06	00	00	Tue.	145°W	-180°	Alaska, USA	(a1)
4234 BCE	Feb.	23	18	00	00	Tue.	35°E	0°	Israel	(a)
http://astropixels.com/ephemeris/calendarconverter.html This link gives 2,284,781 days										
CE 2022	Jul.	28	18	00	00	Thu.	35°E	0°	Israel	(b)

Therefore 77,368th Month ends while 77,369th Month (1st Ab) begins at (1).

1st day of Ab or 77,369th New Moon Day = 6 PM on 29th July to 6 PM on 30th July CE 2022.

At (a, a1) = Genesis 1:13-19, 18:14; Num. 11:23, 23:19; Jeremiah 32:26-27, 31:35-37, 33:19-26; 2 Tim. 2:13.

Very first Sun rays appears as Sunrise at (a1) according to the principles determined by Yahweh (Job 38:1-33). Let's add the Residue to (b) to get the end of 77,368th Lunar Month.

So Ab (77,369th Month) begins at (1).

Year	Month	Day	Hours	Min.	Sec.	DOW	Country	DL	DLM	CY	Case
CE 2022	July	28	18	00	00	Thu.	Israel	35°E	0°		(b)
			+ 17	+30	17.568						
CE 2022	July	29	11	30	17.568	Fri.	Israel	35°E	0°	-	(1)

But NASA calculated the beginning time of New Moon as 17 hrs., 55 m., on 28th Jul., CE 2022 = FAKE forever!

For New Moon report: <https://truthofyahweh.org/moon.htm> <https://paleotimes.org/blog/>

77,369th Scriptural Lunar Month or Ab begins strictly at (1) and as below according to the Book of Yahweh (Isaiah 34:16; Numbers 28:1-15; Nehemiah 8:1-13; Acts 2:15; 2 Timothy 2:13; Numbers 10:10; Deut. 11:11-14).

Time According to Head (DLM)	DLM	Total Age of Sun, Moon, and stars (Genesis 1:13-19; Jeremiah 32:26-27)	77,369th Scriptural Lunar Month (Yahweh's Lunar Month or Ab) strictly begins as below (Say BT)											1st Day of Ab or 77,369th Month (Deut. 11:11-12, 17:8-13; Num.10:10)	Age at RT = RT - BT	Required Time of the Phase of Moon (Say RT)

Yahweh's Universal Luni Solar Clock is Working from (1) to (14) only. The very First Sun rays appeared as Sunset at (a) whereas the same Sunrays appeared as Sunrise at (a1) only on the Globe in the beginning. Where DL = Degrees of Longitudes; DLM = Degrees of Longitudes determined by Yahweh (Amos 3:7; 1 Cor. 2:10-15, 12:4-31; John 16:1-14; John 18:37-38; Isa. 45:12; Jer. 31:35-37, 33:19-26, 32:26-27; Isaiah 45:12; Job 38:1-33, 26:1-7; Jos. 10:1-14; Num. 23:19; Eze. 12:28 etc.); DWE = Degrees completed behind Israel while rotating from West to East; Mo. = Month; Hrs. = Hours; Min. = Minutes; Sec. = Seconds; d = days; DOW = Day of Week; BT = Beginning Time of Lunar Month; RT = Required Time of Phase of the Moon.

CONDITIONS: (1). Celebrate the beginning of Scriptural Lunar Month (Numbers 10:10) from previous evening (6 PM) to next evening (6 PM) if the Scriptural month begins between 0 hours and 9 hours of any date with respect to Israel (Num. 28:4, 11-15; Neh. 8:1-3, 13; Mark 15:25; Acts 2:14-16). (2). Celebrate the beginning of Scriptural Month from evening (6 PM) to next evening (6 PM) if the Scriptural month begins between 9 hours and 24 hours of any date with respect to Israel. (3). Yahweh's Formula is Constant forever (Jeremiah 33:19-26, 32:26-27; Matt. 24:35). So 1 day = 86,400 seconds per 360 °; 1 Lunar Month = 29.53135314 days per 360°; and 1 Tropical Year = 365.2244898 days per 360°.

NB: The time of the burnt offering of each "Beginning of Month" is 9 hours (9 AM) - Mark 15:25 Cf. Matt. 5:17-18; Num. 10:10, 28:11-15, 29:1-6. That's why Israelites celebrated the 1st day of the 7th month from 8 AM to 12 AM strictly (Neh. 8:1-12; Lev. 23:23-25). Crescent - 1 is Age of the Scriptural Lunar Month whereas Crescent - 2 is the Age of the previous month. The length of Scriptural Tropical Year (365.2244898 days) is Constant because of the volume of the Moon from the beginning to end of each Lunar Month (29.53135314 days) is Constant in 49 - Year Luni Solar Cycle. Yahweh determined that to which month takes 29 days and to which month takes 30 days (Gen. 1:13-19; Psalms 104:19; Job 38:1-33). So you can't confine or modify the length of Day, Lunar Month and Tropical Year. So count each month by using Yahweh's Formula (Lev. 25:8-9) which is 606 months = 49 Years = 17,896 days.

Research: The beginning and end of each Month (Duet. 11:11-12) is important. "UT ± H M S" is a scientific concept if the Earth is stopped and UK is center of the Globe. NUT (New Universal Time) = "II.LST - H M S" is "The Scientific Concept" because Jerusalem is the center of the Globe (Genesis 1:1-19). And Time, and Phases of the Moon begins from Jerusalem only (Genesis 1:13-19). There is no Scientific proof that time, and Phases of the Moon begins from UK or any country. "UT - H M S" is scientific if the Earth is rotating from West to East and UK is center of the Globe. So UT is disproved once again. Yahweh proves that time, and Phases of the Moon begins from Jerusalem (ISRAEL) only in His Book in Genesis 1:1-31, 2:1-3; Lev. 25:8-9; Ezk. 5:5, 38:12; Psalms 104:19; John 11:9; Job 26:7, 38:1-33; Jer. 33:19-26, 31:35-37!

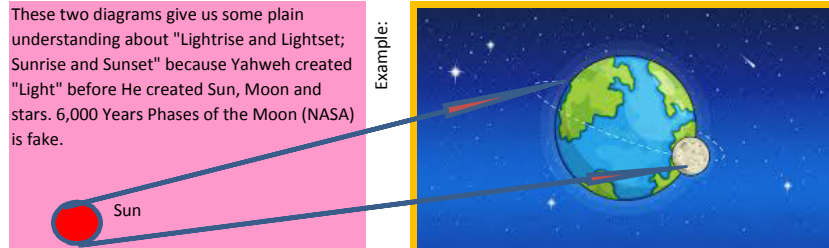

WHICH UNIVERSAL LUNI SOLAR CLOCK IS SCIENTIFIC AND WHERE IT IS WRITTEN?

VOLUME OF MOON IS CONSTANT SO THE SCRIPTURAL LUNAR MONTH AND TROPICAL YEAR IS CONSTANT!

P = THE UNIVERSAL LUNI SOLAR CLOCK OF YAHWEH (The Creator)												Q = THE UNIVERSAL LUNI SOLAR CLOCK OF ASTRONOMERS													
Ab begins as below according Yahweh as Jerusalem is center of the Globe and Head of Time												Ab begins as below according to NASA or IAU if Jerusalem is center of the Globe and Head of Time

Yahweh's Universal Luni Solar Clock is working from (1) to (12). "P" is satisfying the date of the Creation of Sun, Moon and stars, the 7 - Day Weekly Cycle and so on. Please see the below poofs of "P" (Genesis 1:1-31, 2:1-3).												Astronomers' Clock is working from (1) to (6) and (1) to (r) via (p) which is true if the earth is stopped. So "Q" is not proved as it didn't prove any 7 - Day Weekly Cycle.													

So Yahweh's Universal Luni Solar Clock is Scientific and it's formula is written in Leviticus 25:8-9. Formula = 7 Times 7 years = 49 Years = 606 Lunar Months = 17,896 days = 588 Tropcial Months (Lev. 25:8-9; Jeremiah 33:19-26).

NB: II.LST = Israel Local Standard Time at 35 °E Jerusalem; D = d = days; H = Hrs., = h = hours; M = Min. = m = minutes; S = Sec. = s = seconds; DWE = Degrees completed behind Israel while the Earth is rotating on its axis from West to East strictly from 6 PM on 20th Feb., 4234 BCE, at 35 °E, Jerusalem (Genesis 1:1-19); DLM = Degrees of Longitudes determined by Yahweh and is revalued to Me; DL = Degrees of Longitudes; DLA = Degrees of Longitudes decided by Astronomers.

Yahweh, the Creator created Sun, Moon, and stars as below in the beginning (Genesis 1:13-19)										
Year	Month	D	H	M	S	Country	Yahweh's Clock	DLM	Very first	DL
4234 BCE	Feb.	23	06	00	00	Alaska	II.LST - 12 hours	- 180°	Sunrise (a1)	145°W

Yahweh is proved as the Creator with the help of His Formula (Lev. 25:8-12), History, Chronology, Prophecies and so on (Luke 21:20-24; Matt. 24:15-28).

Diagrams are taken from NASA. God bless NASA ever!

Research: Universal 7 - Day Weekly Cycle is counted from 18 hours (6 PM) on 20th Feb., 4234 BCE, at 35°E Jerusalem only. The very first Sunrises indicated as Sunrise at (a1) whereas indicated as Sunset at (a) on the **Globe**. NASA/IAU failed to prove that Yahweh is the Creator with the help of 49 - Year Luni Solar Cycle and 49 - Year Tropical Cycle which is the formula of "The Universal Luni Solar Clock, the Sun, and Moon". The formula of Yahweh's Clock is written in the Book of Yahweh as 49 YEARS in Lev. 25:8-9. This formula only gives accurate Seasons, Phases of the Moon.

Universal 7 - Day Weekly Cycle is determined by Yahweh, the Creator in the beginning as below (Gen. 1:1-31, 2:1-3)													
7 - Day Cycle	Year	Month	Day	Hrs.	Min.	Sec.	Day of Week	DL	DLM	Country	Say		
0	4234 BCE	Feb.	20	18	00	00	Saturday	35°E	0	Israel	(aa)

SEARCH THE SCRIPTURES - John 5:39-40; 1 Thess. 5:21													
(1). Yahweh is speaking about His 7 - Day Weekly Cycle (Genesis 2:1-3; Matt. 28:1; Mark 2:26-27; Luke 23:56).													
(2). Yahweh is speaking about formula of His Universal Clock (Gen. 1:13-19; Lev. 25:8-9; Jer. 33:10-26, 31:35-37).													
(3). Yahweh is speaking about History, Prophecies etc. (Matt. 24:15-26; Dan. 9:24-27; Luke 2:1-7, 3:1-38 etc.).													
(4). Yahweh is speaking to establish His Kingdom about in CE 2136 (Acts 4:27-28; Luke 22:28-30; Zec. 14:17-21).													

THE AGE OF AB IN DIFFERENT COUNTRIES WITH RESPECT TO ISRAEL, AT 35°E JERUSALEM

The Phase of the Moon (Say RT)									77,369th Lunar Month (Yahweh's Lunar Month = Ab) strictly begins as below (Say BT)										The Age (RT - BT) of 77,369th Scriptural Lunar Month (Ab) Crescent at "RT" in WS		Highlight
Year	Month	Day	Hrs.	Min.	Sec.	DW	DL	Country	Say	Year	Month	Day	Hours	Min.	Sec.	DOW	DL	DLM			
CE 2022	Jul.	29	18	45	1.7568	Fri.	100°W	USA	(6)	CE2022	Jul.	29	02	30	1.7568	Fri.	100°W	- 135°	USA	16 hrs., 15 min. (Visible)	* Light that appeared in the Moon as the Visible Crescent INDICATES time. It is hours, days and the full length of Lunar Month (29.53135314 days). So calculate or count the age of each Crescent first to celebrate each Beginning of Month (Num. 10:10; Jer. 31:35-37, 33:19-26).

V or VW = Crescent is Visible if Sun, Weather, Longitudes, and Latitudes are suitable. Month = 29.53135314 days (29d, 12h, 45m, 8.91088992s)																	ES = The Eastern Sky; WS = The Western Sky (Psalms 104:19, 19:1-4; Job 26:7).				

V or VW = Crescent is Visible if Sun, Weather, Longitudes, and Latitudes are suitable. Month = 29.53135314 days (29d, 12h, 45m, 8.91088992s)

ES = The Eastern Sky; WS = The Western Sky (Psalms 104:19, 19:1-4; Job 26:7).

"Yahweh's Universal Luni Solar Clock" is working from (1) to (14) only. BT = Beginning Time of Lunar Month or Beginning of the Scriptural Lunar Month (Numbers 10:10; Deut. 11:11-12); RT = Required Time of Phase of the Moon.

Extra Month is occurring according to the formula of Yahweh's Luni Solar Calendar only but not according to the RIPENED BARLY CORNS. Please remember that crops are cursed in many years because Israelis and gentiles are rejecting Commansments of Yahweh (Deut. 11:11-17 etc.). Even Priests didn't go to the barley fields to observe whether the barley ears are ripened properly or not. Proof: 0b00, z20 or 1b Case - 5i in www.yahwehcalendar49.com

Where d1, d2, d3, d4, d5 d50 are The Day of Atonement with respect to Civil 50 - Year Lunisolar Cycle. D1, D2, D3, D4, D5 D49 are the Day of Atonement with respect to Religious 49 - Year Luni Solar Cycle. So d1 = D49 = d50. A1, A2, A3, A4, A5, A6 A49 are 1st Abib with respect to Religious 49 - Year Lunisolar Cycle.																									1st day of Elul = From 6 PM on 27th Aug., to 6 PM on 28th Aug., CE 2022.			

Research: This is the time to realize that NASA, IAU, and all religious leaders are misleading the World under the veil of Science, and Religion.

Please prove me your Gift of Holy Spirit if YHWH elected you to prove His Calendar Formula in terms of 7 times 7 Years = 606 Lunar Months = 17,896 days (1 Thess. 5:21; Job 34:1-4; Jer. 33:19-26, 23:13-29; 1 Cor. 9:1-3; 11:19; 5:6-8).

* * Yahweh commanded His people to count for 49 YEARS in terms of 7 times 7 years (Lev. 25:8-9). Are not 17,896 days = 606 Lunar Months = 7 times 7 years? Please get the length of Lunar month and Tropical Year with this.

So many Rabbis/Prophets calculated wrongly the Appointed times of Yahweh each year with the help of Gentile Grecian 19 - Year Luni Solar Cycle. This tradition came into existance since CE 135 (Matt. 23:1-39).

RESEARCH: Did you realize that the time between any two consecutive JUBILEE YEARS are 17,896? So you don't have any authority (Ezk. 46:14) to prepone or postpone Yahweh's Appointed times.

SEARCH:

(A) C 606 = Number of civil months completed out of 606 civil months in Civil 49 - Year Lunisolar Cycle. (B) CCM = Number of Civil months completed from the Creation of sun, moon and stars (Jer. 31:35-37). (C) Year = Roman Year (Daniel 7:7-8, 23-25). (D) M = Month. (E) D = Day. (F) H = Hours (G) M = Minutes. (H) S = Seconds. (I) DW = Day of Week; DC = Days Completed; (J) D/M = Days per Month according to Leviticus 25:8, 9; Nehemiah 8:1-3, 12 - 13; Acts 2:1 - 16; Genesis 18:14, 1:14-19; 8:22; Numbers 23:19; Jeremiah 31:35-37, 33:19-26; Job 26:7, 38:31-36; Psalms 104:5, 19-27, 19:1-4; John 11:9; Deuteronomy 11:12; Exodus 34:22; Ezk. 5:5, 38:12; Matthews 24:35).	A = Lunar Month; EM = Extra Month; (X) CCM X A = CCM X 29.53135314 days; (Y) C 606 X A = C 49 X 29.53135314 Days. Where A = 29.53135314 days (Z) R 606 X A = R 49 X 29.53135314 Days. (AA) RCM X A = RCM X 29.53135314 Days. Note: Very first 7 - Day Weekly Cycle begins from 6 PM on 20th February, 4234 BCE (Genesis 1:1-31, 2:1-3; Matt. 24:35).
(K) New Moon Day according to Israel Local Standard Time (II.LST) which is confined according to (1a). Celebrate the New Moon Day (or 1st Day of Launar Month) from previous evening (6 PM) to next evening if the New Moon begins between 0 hours and 9 hours. (1b) Celebrate the New Moon Day from evening (6 PM) to next evening (6 PM) if the New Moon begins between 9 hours, and 24 hours of any date (Nehemiah 8:3-12; Acts 2:14-16; Num. 28:11-14, 1-8). Jews came next day again (Neh. 8:13).	CCC = Number of Civil Cycles Completed or Number of Civil 49 - Year Luni Solar Cycles completed from the Creation of Sun, Moon and stars; RCC = Number of Religious Cycles Completed or Number of Religious 49 - Year Lunisolar Cycles completed from Canaan. DL = Degrees of Longitudes discovered by Scientists (UK is the center of the Globe in this case).
So this proves that Priests knew the formula. (L) Full Moon day = 15th day of each Lunar Month. (M) = Name of Religious Month completed while next month begins; (N) RM = Religious Month completed as 1/1, 2/1, 3/1 ... 12/49 of R49; (O) CM = Civil Month completed as 1/1, 2/1, 3/1 ... 12/49 of C49; (P) = R 606 = Number of Religious Months completed out of 606 months of in Religious 49 - Year Cycle; (Q). RCM = Number of Religious Months Completed from the plains of Moab or from the land of Canaan (Numbers 33:48-56; Lev. 25:1-9).	DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me (Jerusalem is center - Eze.5:5, 38:12). 35°E = Jerusalem situated = The Scriptural Zero Degrees of Longitudes determined by Yahweh (Jer. 33:19 - 26). * RY/3 = Number of Years of Tithe completed (If the remainder is ZERO)[Deuteronomy 14:28-29; 26:12-16] ** RY/7 = Number of Sabbatical Years completed (If the remainder is ZERO)[Leviticus 25:1-7]. *** RY/49 = Number of Jubilee Years completed (If the remainder is ZERO)[Leviticus 25:8 - 55].
Where RCM = CCM - 33,336 (Note: Religious New Years and Sabbatical etcetera began according to Lev. 25:1-9).	Special Note: ZERO residue is remained at the end of each 49 - Year Lunisolar Cycle; CCC = CY/49 = Number of Civil Cycles Completed (If the Remainder is Zero);
(R) RY = MH = Number of Religious Years completed from the Land of Milk and Honey (Leviticus 25:1-9); CY = SM = Number of Civil Years completed from the date of the Creation of Sun, Moon and stars (Genesis 1:1-19).	RCC = RY/49 = Number Religious Cycles compeld (If the remainder is ZERO). ** The Phases of Moon produced by NASA are entirely different form Yahweh's Formula. R606 = C606 - 6 where 6 lunar months are constant.
(S) YR = Number of Religious Years completed out of 49 Religious Years according to R 606; YC = Number of Civil Years completed out of 49 Civil Years according to C 606.	Special Note: Don't follow Phases of Moon produced by NASA because they are inaccurate!
(T) D/YR = Days per YR. D/YC = Days per YC.; ND20 = Number of Days completed from 6 PM on 20th Feb., 4234 BCE.	* Note: All Scriptural Religious New Years should be counted from end of 33,336 CCM only. RCE = CCM - 32,841 where 32,841 lunar months are Constant.
(U) NS 20 = Number of Sabbaths completed from 6 PM on 20th February, 4234 BCE, at 35 °E (Genesis 1:1-31, 2:1-3).	Example: RCE = CCM - 32,841 = 33,336 - 32,841 = 495 Religious months (40 years of journey ONLY). RCE = Number of Religious Months completed from 1st Religious New Moon in Egypt .
Special Note: Every Scriptural day takes 86,400 seconds (= 24 Hours) is true according to John 11:9. NASA discovered that day takes 86,164 seconds strictly which is disproved by the Creator, Yahweh. Note: Nearly 1 day lags at the end of 365 days if we follow this theory. Please note this point!!!!(1 Cor. 1:19-25) So don't trust in NASA (Phases of Moon) which is leading into the bottomless pit (Rev. 13:8, 20:12-15).	For more details about the Creator, please study in www.yahwehcalendar49.com SPECIAL NOTE: Please remember that Israelis didn't follow gentile astronommer between 1579 BCE and CE 135 because Mose, the Prophet wrote Yahweh's Formula in Leviticus 25:8-9. The below web link is extremely useful to verify all my Calculations. http://www.astropixels.com/ephemeris/phasescat/phasescat.html The above link gives Phases of Moon from 2000 BCE to CE 4000.

The above New Moon Report, length of Day (86,400 seconds per Day), Lunar Month (29.53135314 days), Tropical Year (365.2244898 days), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle (Leviticus 25:8-9; Jeremiah 33:19-26) is satisfying the below History, and Chrnology. So the above proofs are scientific, Historical, and practical. Yahweh didn't tell that go and observe the Visible Crescent, and barley ears. Beware of false Prophets, and astronomers!!!

Note: Please remember that Yahweh commanded to count for 49 years like 7 times 7 years to keep Jubilee Years, Yom Kippur and so on but not COMMANDED that go and observe the VISIBLE CRESCENT to keep the beginning of each month, and BARLEY EARS to keep 1st Abib. Yahweh fixed His Plan of Salvation and some events before the foundations of the Earth (Exodus 32:31-33; Acts 4:27-28; Jeremiah 1:4-6; Psalms 139:16; Galatians 1:15; Ephesians 1:4-12; Revelations 13:8-10, 20:15, etc.). The elected people are counted before the foundations of the Earth (Revelations 7:1-8). Yahweh knows the thoughts of all people (Deuteronomy 31:16-21). So Yahweh knows the dates of all His Appointed times according to His Luni Solar Calendar formula (Lev. 25:8-12, 13-55). So His Calendar is calculated before He created Sun, Moon, and stars (Hebrews 4:3). So the length of Day (86,400 seconds per 360° per 1 day), Lunar Month (29.53135314 days per 360°), Tropical Year (365.2244898 days per 360° per year), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle are Constant forever. So you should observe both the phenomena of New Moon Cresnet and Full Moon for the sake of confirmation of your calculations only (1 Thes. 5:21) but you don't have any such authority to prepone or postpone Yahweh's Appointed Times. Every New Moon Crescent may visible or may not visible around the Globe at the beginning time of each Lunar Month. We know that the Age of the Moon is Constant around the Globe whereas the time varies according to the Longitudes. We can simply calculate the time and Age of every Crescent. So we can keep each New Moon Festival (Beginning of Month) even if the Crescent has not appeared in Israel but it may appear in any country. Earth, Sun, Moon, and stars are not created for Jews only but all (Matthews 5:45). Every New Moon Crescent may appear in any one country at least according to the Formula. All true calculations are not fiction but science (Job 38:1-33; Jer. 33:19-26).

77,370TH NEW MOON OR ELUL REPORT IN AUGUST CE 2022 - ZECH.1:7; GENESIS 1:13-19; NUM. 10:10, 23:19; DEUT. 11:11-12; JER. 33:19-26, 31:35-37, 32:26-27 ETC.

77,369 Scriptural Lunar Months are completed from 18 hours (6pm) on 23rd Feb., 4234 BCE to 00 hrs., 15 m, and 27.072 s., on 28th Aug., CE 2022 according to 49 - Year Luni Solar Cycle (Lev. 25:8-9; Gen. 1:13-19; John 11:9).

Yahweh's Lunar Month = 29.53135314 days (17,896 days ÷ 606 Months); Yahweh's Tropical Year = 365.2244898 days (17,896 days ÷ 49 Years). Yahweh's Formula = 49 Years = 17,896 days = 606 Lunar Months = 588 Tropical Months.

Let's calculate the end of 77,369th Lunar Month from the date of the Creation of Sun, Moon and stars (From 6 PM of 23rd February, 4234 BCE, at 35E) according to Yahweh's Formula.

77,369 Lunar Months = 77,369 Lunar Months X 29.53135314 days = 2,284,811.261 days = 2,284,811 days + Residue. The Residue = 06 hours, 15 minutes and 27.072 seconds (Num. 10:10; Deut. 11:11-12).

2,284,811 days are there between (a) and (b). You can check these days with the below link.

Year	Month	Day	Hours	Min.	Sec.	DW	DL	DLM	Country	Case
4234 BCE	Feb.	23	06	00	00	Tue.	145°W	-180°	Alaska, USA	(a1)
4234 BCE	Feb.	23	18	00	00	Tue.	35°E	0°	Israel	(a)
http://astropixels.com/ephemeris/calendarconverter.html This link gives 2,284,811 days										
CE 2022	Aug.	27	18	00	00	Sat.	35°E	0°	Israel	(b)

Therefore 77,369th Month ends while 77,370th Month (1st Elul) begins at (1).

1st day of Elul or 77,370th New Moon Day = 6 PM on 27th Aug., to 6 PM on 28th Aug., CE 2022.

At (a, a1) = Genesis 1:13-19, 18:14; Num. 11:23, 23:19; Jeremiah 32:26-27, 31:35-37, 33:19-26; 2 Tim. 2:13.

Very first Sun rays appears as Sunrise at (a1) according to the principles determined by Yahweh (Job 38:1-33). Let's add the Residue to (b) to get the end of 77,369th Lunar Month. **So Elul (77,370th Month) begins at (1).**

Year	Month	Day	Hours	Min.	Sec.	DOW	Country	DL	DLM	CY	Case
CE 2022	Aug.	27	18	00	00	Sat.	Israel	35°E	0°		(b)
			+ 06	+ 15	27.072						
CE 2022	Aug.	28	00	15	27.072	Sun.	Israel	'35°E	0°	-	(1)

But NASA calculated the beginning time of New Moon as 08 hrs., 17 m., on 27th Aug., CE 2022 = FAKE forever!

For New Moon report: <https://truthofyahweh.org/moon.htm> <https://paleotimes.org/blog/>

77,370th Scriptural Lunar Month or Elul begins strictly at (1) and as below according to the Book of Yahweh (Isaiah 34:16; Numbers 28:1-15; Nehemiah 8:1-13; Acts 2:15; 2 Timothy 2:13; Numbers 10:10; Deut. 11:11-14).

Time According to Head (DLM)	DLM	Total Age of Sun, Moon, and stars (Genesis 1:13-19; Jeremiah 32:26-27)	77,370th Scriptural Lunar Month (Yahweh's Lunar Month or Elul) strictly begins as below (Say BT)										1st Day of Elul or 77,370th Month (Deut. 11:11-12, 17:8-13; Num.10:10)	Age at RT = RT - BT	Required Time of the Phase of Moon (Say RT)

Yahweh's Universal Luni Solar Clock is Working from (1) to (14) only. The very First Sun rays appeared as Sunset at (a) whereas the same Sunrays appeared as Sunrise at (a1) only on the Globe in the beginning. Where DL = Degrees of Longitudes; DLM = Degrees of Longitudes determined by Yahweh (Amos 3:7; 1 Cor. 2:10-15, 12:4-31; John 16:1-14; John 18:37-38; Isa. 45:12; Jer. 31:35-37, 33:19-26, 32:26-27; Isaiah 45:12; Job 38:1-33, 26:1-7; Jos. 10:1-14; Num. 23:19; Eze. 12:28 etc.); DWE = Degrees completed behind Israel while rotating from West to East; Mo. = Month; Hrs. = Hours; Min. = Minutes; Sec. = Seconds; d = days; DOW = Day of Week; BT = Beginning Time of Lunar Month; RT = Required Time of Phase of the Moon.

CONDITIONS: (1). Celebrate the beginning of Scriptural Lunar Month (Numbers 10:10) from previous evening (6 PM) to next evening (6 PM) if the Scriptural month begins between **0 hours and 9 hours** of any date with respect to Israel (Num. 28:4, 11-15; Neh. 8:1-3, 13; Mark 15:25; Acts 2:14-16). (2). Celebrate the beginning of Scriptural Month from evening (6 PM) to next evening (6 PM) if the Scriptural month begins between **9 hours and 24 hours** of any date with respect to Israel. (3). Yahweh's Formula is Constant forever (Jeremiah 33:19-26, 32:26-27; Matt. 24:35). So 1 day = 86,400 seconds per 360 °; 1 Lunar Month = 29.53135314 days per 360°; and 1 Tropical Year = 365.2244898 days per 360°.

NB: The time of the burnt offering of each "Beginning of Month" is 9 hours (9 AM) - Mark 15:25 Cf. Matt. 5:17-18; Num. 10:10, 28:11-15, 29:1-6. That's why Israelites celebrated the 1st day of the 7th month from 8 AM to 12 AM strictly (Neh. 8:1-12; Lev. 23:23-25). Crescent - 1 is Age of the Scriptural Lunar Month whereas Crescent - 2 is the Age of the previous month. The length of Scriptural Tropical Year (365.2244898 days) is Constant because of the volume of the Moon from the beginning to end of each Lunar Month (29.53135314 days) is Constant in 49 - Year Luni Solar Cycle. Yahweh determined that to which month takes 29 days and to which month takes 30 days (Gen. 1:13-19; Psalms 104:19; Job 38:1-33). So you can't confine or modify the length of Day, Lunar Month and Tropical Year. So count each month by using Yahweh's Formula (Lev. 25:8-9) which is 606 months = 49 Years = 17,896 days.

Research: The beginning and end of each Month (Deut. 11:11-12) is important. "UT ± H M S" is a scientific concept if the Earth is stopped and UK is center of the Globe. NUT (New Universal Time) = "II.LST - H M S" is "The Scientific Concept" because Jerusalem is the center of the Globe (Genesis 1:1-19). And Time, and Phases of the Moon begins from Jerusalem only (Genesis 1:13-19). There is no Scientific proof that time, and Phases of the Moon begins from UK or any country. "UT - H M S" is scientific if the Earth is rotating from West to East and UK is center of the Globe. So UT is disproved once again. Yahweh proves that time, and Phases of the Moon begins from Jerusalem (ISRAEL) only in His Book in Genesis 1:1-31, 2:1-3; Lev. 25:8-9; Ezk. 5:5, 38:12; Psalms 104:19; John 11:9; Job 26:7, 38:1-33; Jer. 33:19-26, 31:35-37!

WHICH UNIVERSAL LUNI SOLAR CLOCK IS SCIENTIFIC AND WHERE IT IS WRITTEN?

VOLUME OF MOON IS CONSTANT SO THE SCRIPTURAL LUNAR MONTH AND TROPICAL YEAR IS CONSTANT!

P = THE UNIVERSAL LUNI SOLAR CLOCK OF YAHWEH (The Creator)												Q = THE UNIVERSAL LUNI SOLAR CLOCK OF ASTRONOMERS													
Elul begins as below according Yahweh as Jerusalem is center of the Globe and Head of Time												Elul begins as below according to NASA or IAU if Jerusalem is center of the Globe and Head of Time

Yahweh's Universal Luni Solar Clock is working from (1) to (12). "P" is satisfying the date of the Creation of Sun, Moon and stars, the 7 - Day Weekly Cycle and so on. Please see the below poofs of "P" (Genesis 1:1-31, 2:1-3).

Astronomers' Clock is working from (1) to (6) and (1) to (r) via (p) which is true if the earth is stopped.

So "Q" is not proved as it didn't prove any 7 - Day Weekly Cycle.

So Yahweh's Universal Luni Solar Clock is Scientific and it's formula is written in Leviticus 25:8-9. Formula = 7 Times 7 years = 49 Years = 606 Lunar Months = 17,896 days = 588 Tropcial Months (Lev. 25:8-9; Jeremiah 33:19-26).

NB: II.LST = Israel Local Standard Time at 35° E Jerusalem; D = d = days; H = Hrs., = h = hours; M = Min. = m = minutes; S = Sec. = s = seconds; DWE = Degrees completed behind Israel while the Earth is rotating on its axis from West to East strictly from 6 PM on 20th Feb., 4234 BCE, at 35° E, Jerusalem (Genesis 1:1-19); DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me; DL = Degrees of Longitudes; DLA = Degrees of Longitudes decided by Astronomers.

These two diagrams give us some plain understanding about "Lightrise and Lightset; Sunrise and Sunset" because Yahweh created "Light" before He created Sun, Moon and stars. 6,000 Years Phases of the Moon (NASA) is fake.

Example:

Yahweh is proved as the Creator with the help of His Formula (Lev. 25:8-12), History, Chronology, Prophecies and so on (Luke 21:20-24; Matt. 24:15-28).

Diagrams are taken from NASA. God bless NASA ever!

Research: Universal 7 - Day Weekly Cycle is counted from 18 hours (6 PM) on 20th Feb., 4234 BCE, at 35°E Jerusalem only. The very first Sunrays indicated as Sunrise at (a1) whereas indicated as Sunset at (a) on the **Globe**. NASA/IAU failed to prove that Yahweh is the Creator with the help of 49 - Year Luni Solar Cycle and 49 - Year Tropical Cycle which is the formula of "The Universal Luni Solar Clock, the Sun, and Moon". The formula of Yahweh's Clock is written in the Book of Yahweh as 49 YEARS in Lev. 25:8-9. This formula only gives accurate Seasons, Phases of the Moon etcetera.

Yahweh, the Creator created Sun, Moon, and stars as below in the beginning (Genesis 1:13-19)										
Year	Month	D	H	M	S	Country	Yahweh's Clock	DLM	Very first	DL
4234 BCE	Feb.	23	06	00	00	Alaska	II.LST - 12 hours	- 180°	Sunrise (a1)	145°W

4234 BCE	Feb.	23	03	40	00	IDL (Say)	II.LST - 14h, 20m.	- 215°		180°E

Universal 7 - Day Weekly Cycle is determined by Yahweh, the Creator in the beginning as below (Gen. 1:1-31, 2:1-3)											
7 - Day Cycle	Year	Month	Day	Hrs.	Min.	Sec.	Day of Week	DL	DLM	Country	Say
0	4234 BCE	Feb.	20	18	00	00	Saturday	35°E	0	Israel	(aa)
1st day	4234 BCE	Feb.	21	18	00	00	Sunday	35°E	0	Israel	(ab)
2nd day	4234 BCE	Feb.	22	18	00	00	Monday	35°E	0	Israel	(ac)
3rd day	4234 BCE	Feb.	23	18	00	00	Tuesday	35 °E	0	Israel	(a)
4th day	4234 BCE	Feb.	24	18	00	00	Wednesday	35°E	0	Israel	(ad)
5th day	4234 BCE	Feb.	25	18	00	00	Thursday	35°E	0	Israel	(ae)
6th day	4234 BCE	Feb.	26	18	00	00	Friday	35°E	0	Israel	(af)
7th day	4234 BCE	Feb.	27	18	00	00	Saturday	35°E	0	Israel	(ag)
SEARCH THE SCRIPTURES - John 5:39-40; 1 Thess. 5:21	(1). Yahweh is speaking about His 7 - Day Weekly Cycle (Genesis 2:1-3; Matt. 28:1; Mark 2:26-27; Luke 23:56).										
	(2). Yahweh is speaking about formula of His Universal Clock (Gen. 1:13-19; Lev. 25:8-9; Jer. 33:10-26, 31:35-37).										
	(3). Yahweh is speaking about History, Prophecies etc. (Matt. 24:15-26; Dan. 9:24-27; Luke 2:1-7, 3:1-38 etc.).										
	(4). Yahweh is speaking to establish His Kingdom about in CE 2136 (Acts 4:27-28; Luke 22:28-30; Zec. 14:17-21).										

THE AGE OF ELUL IN DIFFERENT COUNTRIES WITH RESPECT TO ISRAEL, AT 35°E JERUSALEM

The Phase of the Moon (Say RT)									77,370th Lunar Month (Yahweh's Lunar Month = Elul) strictly begins as below (Say BT)										The Age (RT - BT) of 77,370th Scriptural Lunar Month (Elul) Crescent at "RT" in WS		Highlight
Year	Month	Day	Hrs.	Min.	Sec.	DW	DL	Country	Say	Year	Month	Day	Hours	Min.	Sec.	DOW	DL	DLM			
CE 2022	Aug.	28	18	45	27.072		100°W	USA	(6)	CE2022	Aug.	27	15	15	27.072	Sat.	100°W	- 135°	USA	1d, 03 hrs., 30 min. (Visible)	* Light that appeared in the Moon as the Visible Crescent INDICATES time. It is hours, days and the full length of Lunar Month (29.53135314 days). So calculate or count the age of each Crescent first to celebrate each Beginning of Month (Num. 10:10; Jer. 31:35-37, 33:19-26).

V or VW = Crescent is Visible if Sun, Weather, Longitudes, and Latitudes are suitable. Month = 29.53135314 days (29d, 12h, 45m, 8.91088992s)																		ES = The Eastern Sky; WS = The Western Sky (Psalms 104:19, 19:1-4; Job 26:7).			

"Yahweh's Universal Luni Solar Clock" is working from (1) to (14) only. BT = Beginning Time of Lunar Month or Beginning of the Scriptural Lunar Month (Numbers 10:10; Deut. 11:11-12); RT = Required Time of Phase of the Moon.

Extra Month is occurring according to the formula of Yahweh's Luni Solar Calendar only but not according to the RIPENED BARLY CORNS. Please remember that crops are cursed in many years because Israelis and gentiles are rejecting Commansments of Yahweh (Deut. 11:11-17 etc.). Priests didn't go to the barley fields to observe whether the barley ears are ripened properly or not. Proof: 0b00, z20 or 1b Case - 5i in www.yahwehcalendar49.com

Where d1, d2, d3, d4, d5 d50 are The Day of Atonement with respect to Civil 50 - Year Lunisolar Cycle. D1, D2, D3, D4, D5 D49 are the Day of Atonement with respect to Religious 49 - Year Luni Solar Cycle. So d1 = D49 = d50. A1, A2, A3, A4, A5, A6 A49 are 1st Abib with respect to Religious 49 - Year Lunisolar Cycle.																													1st day of Ethanim = From 6 PM on 26th Sep., to 6 PM on 27th Sep., ce 2022.							

Research: This is the time to realize that NASA, IAU, and all religious leaders are misleading the World under the veil of Science, and Religion.

Please prove me your Gift of Holy Spirit if YHWH elected you to prove His Calendar Formula in terms of 7 times 7 Years = 606 Lunar Months = 17,896 days (1 Thess. 5:21; Job 34:1-4; Jer. 33:19-26, 23:13-29; 1 Cor. 9:1-3; 11:19; 5:6-8).

* * Yahweh commanded His people to count for 49 YEARS in terms of 7 times 7 years (Lev. 25:8-9). Are not 17,896 days = 606 Lunar Months = 7 times 7 years? Please get the length of Lunar month and Tropical Year with this.

So many Rabbis/Prophets calculated wrongly the Appointed times of Yahweh each year with the help of Gentile Grecian 19 - Year Luni Solar Cycle. This tradition came into existance since CE 135 (Matt. 23:1-39).

RESEARCH: Did you realize that the time between any two consecutive JUBILEE YEARS are 17,896? So you don't have any authority (Ezk. 46:14) to prepone or postpone Yahweh's Appointed times. **SEARCH:**

(A) C 606 = Number of civil months completed out of 606 civil months in Civil 49 - Year Lunisolar Cycle. (B) CCM = Number of Civil months completed from the Creation of sun, moon and stars (Jer. 31:35-37). (C) Year = Roman Year (Daniel 7:7-8, 23-25). (D) M = Month. (E) D = Day. (F) H = Hours (G) M = Minutes. (H) S = Seconds. (I) DW = Day of Week; DC = Days Completed; (J) D/M = Days per Month according to Leviticus 25:8, 9; Nehemiah 8:1-3, 12 - 13; Acts 2:1 - 16; Genesis 18:14, 1:14-19; 8:22; Numbers 23:19; Jeremiah 31:35-37, 33:19-26; Job 26:7, 38:31-36; Psalms 104:5, 19-27, 19:1-4; John 11:9; Deuteronomy 11:12; Exodus 34:22; Ezk. 5:5, 38:12; Matthews 24:35).	A = Lunar Month; EM = Extra Month;	(X) CCM X A = CCM X 29.53135314 days; (Y) C 606 X A = C 49 X 29.53135314 Days. Where A = 29.53135314 days (Z) R 606 X A = R 49 X 29.53135314 Days. (AA) RCM X A = RCM X 29.53135314 Days. Note: Very first 7 - Day Weekly Cycle begins from 6 PM on 20th February, 4234 BCE (Genesis 1:1-31, 2:1-3; Matt. 24:35). CCC = Number of Civil Cycles Completed or Number of Civil 49 - Year Luni Solar Cycles completed from the Creation of Sun, Moon and stars; RCC = Number of Religious Cycles Completed or Number of Religious 49 - Year Lunisolar Cycles completed from Canaan. DL = Degrees of Longitudes discovered by Scientists (UK is the center of the Globe in this case).
(K) New Moon Day according to Israel Local Standard Time (ILST) which is confined according to (1a). Celebrate the New Moon Day (or 1st Day of Launar Month) from previous evening (6 PM) to next evening if the New Moon begins between 0 hours and 9 hours. (1b) Celebrate the New Moon Day from evening (6 PM) to next evening (6 PM) if the New Moon begins between 9 hours, and 24 hours of any date (Nehemiah 8:3-12; Acts 2:14-16; Num. 28:11-14, 1-8). Jews came next day again (Neh. 8:13).		DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me (Jerusalem is center - Eze.5:5, 38:12). 35°E = Jerusalem situated = The Scriptural Zero Degrees of Longitudes determined by Yahweh (Jer. 33:19 - 26). * RY/3 = Number of Years of Tithe completed (If the remainder is ZERO)[Deuteronomy 14:28-29; 26:12-16] ** RY/7 = Number of Sabbatical Years completed (If the remainder is ZERO)[Leviticus 25:1-7]. *** RY/49 = Number of Jubilee Years completed (If the remainder is ZERO)[Leviticus 25:8 - 55].
So this proves that Priests knew the formula. (L) Full Moon day = 15th day of each Lunar Month.		Special Note: ZERO residue is remained at the end of each 49 - Year Lunisolar Cycle; CCC = CY/49 = Number of Civil Cycles Completed (If the Remainder is Zero);
(M) = Name of Religious Month completed while next month begins; (N) RM = Religious Month completed as 1/1, 2/1, 3/1 ... 12/49 of R49; (O) CM = Civil Month completed as 1/1, 2/1, 3/1 ... 12/49 of C49; (P) = R 606 = Number of Religious Months completed out of 606 months of in Religious 49 - Year Cycle; (Q). RCM = Number of Religious Months Completed from the plains of Moab or from the land of Canaan (Numbers 33:48-56; Lev. 25:1-9).		RCC = RY/49 = Number Religious Cycles compled (If the remainder is ZERO). ** The Phases of Moon produced by NASA are entirely different form Yahweh's Formula. R606 = C606 - 6 where 6 lunar months are constant.
Where RCM = CCM - 33,336 (Note: Religious New Years and Sabbatical etcetera began according to Lev. 25:1-9).		Special Note: Don't follow Phases of Moon produced by NASA because they are inaccurate!
(R) RY = MH = Number of Religious Years completed from the Land of Milk and Honey (Leviticus 25:1-9); CY = SM = Number of Civil Years completed from the date of the Creation of Sun, Moon and stars (Genesis 1:1-19).		* Note: All Scriptural Religious New Years should be counted from end of 33,336 CCM only. RCE = CCM - 32,841 where 32,841 lunar months are Constant.
(S) YR = Number of Religious Years completed out of 49 Religious Years according to R 606; YC = Number of Civil Years completed out of 49 Civil Years according to C 606.		Example: RCE = CCM - 32,841 = 33,336 - 32,841 = 495 Religious months (40 years of journey ONLY). RCE = Number of Religious Months completed from 1st Religious New Moon in Egypt .
(T) D/YR = Days per YR. D/YC = Days per YC.; ND20 = Number of Days completed from 6 PM on 20th Feb., 4234 BCE.		For more details about the Creator, please study in www.yahwehcalendar49.com
(U) NS 20 = Number of Sabbaths completed from 6 PM on 20th February, 4234 BCE, at 35 °E (Genesis 1:1-31, 2:1-3). Special Note: Every Scriptural day takes 86,400 seconds (= 24 Hours) is true according to John 11:9. NASA discovered that day takes 86,164 seconds strictly which is disproved by the Creator, Yahweh. Note: Nearly 1 day lags at the end of 365 days if we follow this theory. Please note this point!!!(1 Cor. 1:19-25) So don't trust in NASA (Phases of Moon) which is leading into the bottomless pit (Rev. 13:8, 20:12-15).		SPECIAL NOTE: Please remember that Israelis didn't follow gentile astronomer between 1579 BCE and CE 135 because Mose, the Prophet wrote Yahweh's Formula in Leviticus 25:8-9. The below web link is extremely useful to verify all my Calculations. http://www.astropixels.com/ephemeris/phasescat/phasescat.html The above link gives Phases of Moon from 2000 BCE to CE 4000.

The above New Moon Report, length of Day (86,400 seconds per Day), Lunar Month (29.53135314 days), Tropical Year (365.2244898 days), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle (Leviticus 25:8-9; Jeremiah 33:19-26) is satisfying the below History, and Chrnology. So the above proofs are scientific, Historical, and practical. Yahweh didn't tell that go and observe the Visible Crescent, and barley ears. Beware of false Prophets, and astronomers!!!

Note: Please remember that Yahweh commanded to count for 49 years like 7 times 7 years to keep Jubilee Years, Yom Kippur and so on but not COMMANDED that go and observe the VISIBLE CRESCENT to keep the beginning of each month, and BARLEY EARS to keep 1st Abib. Yahweh fixed His Plan of Salvation and some events before the foundations of the Earth (Exodus 32:31-33; Acts 4:27-28; Jeremiah 1:4-6; Psalms 139:16; Galatians 1:15; Ephesians 1:4-12; Revelations 13:8-10, 20:15, etc.). The elected people are counted before the foundations of the Earth (Revelations 7:1-8). Yahweh knows the thoughts of all people (Deuteronomy 31:16-21). So Yahweh knows the dates of all His Appointed times according to His Luni Solar Calendar formula (Lev. 25:8-12, 13-55). So His Calendar is calculated before He created Sun, Moon, and stars (Hebrews 4:3). So the length of Day (86,400 seconds per 360° per 1 day), Lunar Month (29.53135314 days per 360°), Tropical Year (365.2244898 days per 360° per year), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle are Constant forever. So you should observe both the phenomena of New Moon Cresent and Full Moon for the sake of confirmation of your calculations only (1 Thes. 5:21) but you don't have any such authority to prepone or postpone Yahweh's Appointed Times. Every New Moon Crescent may visible or may not visible around the Globe at the beginning time of each Lunar Month. We know that the Age of the Moon is Constant around the Globe whereas the time varies according to the Longitudes. We can simply calculate the time and Age of every Crescent. So we can keep each New Moon Festival (Beginning of Month) even if the Crescent has not appeared in Israel but it may appear in any country. Earth, Sun, Moon, and stars are not created for Jews only but all (Matthews 5:45). Every New Moon Crescent may appear in any one country at least according to the Formula. All true calculations are not fiction but science (Job 38:1-33; Jer. 33:19-26).

77,371ST NEW MOON OR ETHANIM REPORT IN SEPTEMBER CE 2022 - 1 KINGS 8:1-2; GENESIS 1:13-19; NUM. 10:10; DEUT. 11:11-12; JER. 33:19-26, 32:26-27 ETC.

77,370 Scriptural Lunar Months are completed from 18 hours (6pm) on 23rd Feb., 4234 BCE to 13 hrs., 00 m, and 35.712 s., on 26th Sep., CE 2022 according to 49 - Year Luni Solar Cycle (Lev. 25:8-9; Gen. 1:13-19; John 11:9).

Yahweh's Lunar Month = 29.53135314 days (17,896 days ÷ 606 Months); Yahweh's Tropical Year = 365.2244898 days (17,896 days ÷ 49 Years). Yahweh's Formula = 49 Years = 17,896 days = 606 Lunar Months = 588 Tropical Months.

Let's calculate the end of 77,370th Lunar Month from the date of the Creation of Sun, Moon and stars (From 6 PM of 23rd February, 4234 BCE, at 35E) according to Yahweh's Formula.

77,370 Lunar Months = 77,370 Lunar Months X 29.53135314 days = 2,284,840.792 days = 2,284,840 days + Residue. The Residue = 19 hours, 00 minutes and 35.712 seconds (Num. 10:10; Deut. 11:11-12)

2,284,840 days are there between (a) and (b). You can check these days with the below link.

Year	Month	Day	Hours	Min.	Sec.	DW	DL	DLM	Country	Case
4234 BCE	Feb.	23	06	00	00	Tue.	145°W	-180°	Alaska, USA	(a1)
4234 BCE	Feb.	23	18	00	00	Tue.	35°E	0°	Israel	(a)
http://astropixels.com/ephemeris/calendarconverter.html This link gives 2,284,840 days										
CE 2022	Sep.	25	18	00	00	Sun.	35°E	0°	Israel	(b)

Therefore 77,370th Month ends while 77,371st Month (1st Ethanin) begins at (1).

1st day of Ethanin or 77,371st New Moon Day = 6 PM on 26th Sep., to 6 PM on 27th Sep., CE 2022.

At (a, a1) = Genesis 1:13-19, 18:14; Num. 11:23, 23:19; Jeremiah 32:26-27, 31:35-37, 33:19-26; 2 Tim. 2:13.

Very first Sun rays appears as Sunrise at (a1) according to the principles determined by Yahweh (Job 38:1-33). Let's add the Residue to (b) to get the end of 77,370th Lunar Month.

So Ethanin (77,371st Month) begins at (1).

Year	Month	Day	Hours	Min.	Sec.	DOW	Country	DL	DLM	CY	Case
CE 2022	Sep.	25	18	00	00	Sun.	Israel	35°E	0°		(b)
			+ 19	+00	35.712						
CE 2022	Sep.	26	13	00	35.712	Mon.	Israel	35°E	0°	-	(1)

But NASA calculated the beginning time of New Moon as 11 hrs., 54 m., on 25th Sep., CE 2022 = FAKE forever!

For New Moon report: <https://truthofyahweh.org/moon.htm> <https://paleotimes.org/blog/>

77,371st Scriptural Lunar Month or Ethanin begins strictly at (1) and as below according to the Book of Yahweh (Isaiah 34:16; Numbers 28:1-15; Nehemiah 8:1-13; Acts 2:15; 2 Timothy 2:13; Numbers 10:10; Deut. 11:11-14).

Time According to Head (DLM)	DLM	Total Age of Sun, Moon, and stars (Genesis 1:13-19; Jeremiah 32:26-27)	77,371st Scriptural Lunar Month (Yahweh's Lunar Month or Ethanim) strictly begins as below (Say BT)											1st Day of Ethanim or 77,371st Month (Deut. 11:11-12, 17:8-13; Num.10:10)	Age at RT = RT - BT	Required Time of the Phase of Moon (Say RT)

Yahweh's Universal Luni Solar Clock is Working from (1) to (14) only. The very First Sun rays appeared as Sunset at (a) whereas the same Sunrays appeared as Sunrise at (a1) only on the Globe in the beginning. Where DL = Degrees of Longitudes; DLM = Degrees of Longitudes determined by Yahweh (Amos 3:7; 1 Cor. 2:10-15, 12:4-31; John 16:1-14; John 18:37-38; Job 38:1-33, 26:1-7; Jos. 10:1-14; Num. 23:19; Eze. 12:28 etc.); DWE = Degrees completed behind Israel while rotating from West to East;

Mo. = Month; Hrs. = Hours; Min. = Minutes; Sec. = Seconds; d = days; DOW = Day of Week; BT = Beginning Time of Lunar Month; RT = Required Time of Phase of the Moon.

(1). Celebrate the beginning of Scriptural Lunar Month (Numbers 10:10) from previous evening (6 PM) to next evening (6 PM) if the Scriptural month begins between **0 hours and 9 hours** of any date with respect to Israel (Num. 28:4, 11-15; Neh. 8:1-3, 13; Mark 15:25; Acts 2:14-16). (2). Celebrate the beginning of Scriptural Month from evening (6 PM) to next evening (6 PM) if the Scriptural month begins between **9 hours and 24 hours** of any date. (3). Yahweh's Formula is Constant forever (Jeremiah 33:19-26, 32:26-27; Matt. 24:35). So 1 day = 86,400 seconds per 360°; 1 Lunar Month = 29.53135314 days per 360°; and 1 Tropical Year = 365.2244898 days per 360°.

The time of the burnt offering of each "Beginning of Month" is 9 hours (9 AM) - Mark 15:25 Cf. Matt. 5:17-18; Num. 10:10, 28:11-15, 29:1-6. That's why Israelites celebrated the 1st day of the 7th month from 8 AM to 12 AM strictly (Neh. 8:1-12; Lev. 23:23-25). Crescent - 1 is Age of the Scriptural Lunar Month whereas Crescent - 2 is the Age of the previous month. The length of Scriptural Tropical Year (365.2244898 days) is Constant because of the volume of the Moon from the beginning to end of each Lunar Month (29.53135314 days) is Constant in 49 - Year Luni Solar Cycle. Yahweh determined that to which month takes 29 days and to which month takes 30 days (Gen. 1:13-19; Psalms 104:19; Job 38:1-33). So you can't confine or modify the length of Day, Lunar Month and Tropical Year. So count each month by using Yahweh's Formula (Lev. 25:8-9).

The beginning and end of each Month (Deut. 11:11-12) is important. "UT ± H M S" is a scientific concept if the Earth is stopped and UK is center of the Globe. NUT (New Universal Time) = "II.LST - H M S" is "The Scientific Concept" because Jerusalem is the center of the Globe (Genesis 1:1-19). And Time, and Phases of the Moon begins from Jerusalem only (Genesis 1:13-19). There is no Scientific proof that time, and Phases of the Moon begins from UK or any country. "UT - H M S" is scientific if the Earth is rotating from West to East and UK is center of the Globe. So UT is disproved once again. Yahweh proves that time, and Phases of the Moon begins from Jerusalem (ISRAEL) only in His Book in Genesis 1:1-31, 2:1-3; Lev. 25:8-9; Ezk. 5:5, 38:12; Psalms 104:19; John 11:9; Job 26:7, 38:1-33; Jer. 33:19-26, 31:35-37!

WHICH UNIVERSAL LUNI SOLAR CLOCK IS SCIENTIFIC AND WHERE IT IS WRITTEN?

VOLUME OF MOON IS CONSTANT SO THE SCRIPTURAL LUNAR MONTH AND TROPICAL YEAR IS CONSTANT!

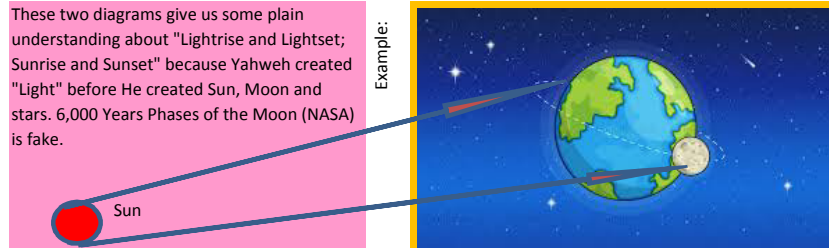

P = THE UNIVERSAL LUNI SOLAR CLOCK OF YAHWEH (The Creator)												Q = THE UNIVERSAL LUNI SOLAR CLOCK OF ASTRONOMERS													
Ethanin begins as below according Yahweh as Jerusalem is center of the Globe and Head of Time												Ethanin begins as below according to NASA or IAU if Jerusalem is center of the Globe and Head of Time

Yahweh's Universal Luni Solar Clock is working from (1) to (12). "P" is satisfying the date of the Creation of Sun, Moon and stars, the 7 - Day Weekly Cycle and so on. Please see the below poofs of "P" (Genesis 1:1-31, 2:1-3).												Astronomers' Clock is working from (1) to (6) and (1) to (r) via (p) which is true if the earth is stopped. So "Q" is not proved as it didn't prove any 7 - Day Weekly Cycle of any date by giving nights and daytimes.													

Yahweh's Universal Luni Solar Clock is working from (1) to (12). "P" is satisfying the date of the Creation of Sun, Moon and stars, the 7 - Day Weekly Cycle and so on. Please see the below poofs of "P" (Genesis 1:1-31, 2:1-3).

Astronomers' Clock is working from (1) to (6) and (1) to (r) via (p) which is true if the earth is stopped. So "Q" is not proved as it didn't prove any 7 - Day Weekly Cycle of any date by giving nights and daytimes.

So Yahweh's Universal Luni Solar Clock is Scientific and it's formula is written in Leviticus 25:8-9. Formula = 7 Times 7 years = 49 Years = 606 Lunar Months = 17,896 days = 588 Tropcial Months (Lev. 25:8-9; Jeremiah 33:19-26).

NB: II.LST = Israel Local Standard Time at 35°E Jerusalem; D = d = days; H = Hrs., = h = hours; M = Min. = m = minutes; S = Sec. = s = seconds; DWE = Degrees completed behind Israel while the Earth is rotating on its axis from West to East strictly from 6 PM on 20th Feb., 4234 BCE, at 35°E, Jerusalem (Genesis 1:1-19); DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me; DL = Degrees of Longitudes; DLA = Degrees of Longitudes decided by Astronomers.

Diagrams are taken from NASA. God bless NASA ever!

Research: Universal 7 - Day Weekly Cycle is counted from 18 hours (6 PM) on 20th Feb., 4234 BCE, at 35°E Jerusalem only. The very first Sunrises indicated as Sunrise at (a1) whereas indicated as Sunset at (a) on the **Globe**. NASA/IAU failed to prove that Yahweh is the Creator with the help of 49 - Year Luni Solar Cycle and 49 - Year Tropical Cycle which is the formula of "The Universal Luni Solar Clock, the Sun, and Moon". The formula of Yahweh's Clock is written in the Book of Yahweh as 49 YEARS in Lev. 25:8-9. This formula only gives accurate Seasons, Phases of the Moon etcetera.

Yahweh, the Creator created Sun, Moon, and stars as below in the beginning (Genesis 1:13-19)										
Year	Month	D	H	M	S	Country	Yahweh's Clock	DLM	Very first	DL
4234 BCE	Feb.	23	06	00	00	Alaska	II.LST - 12 hours	- 180°	Sunrise (a1)	145°W
4234 BCE	Feb.	23	09	00	00		II.LST - 9 hours	- 135°		100°W
4234 BCE	Feb.	23	12	00	00	Brazil	II.LST - 6 hours	- 90°	Noon	55°W
4234 BCE	Feb.	23	15	00	00	Mauritania	II.LST - 3 hours	- 45°		10°W
4234 BCE	Feb.	23	15	40	00	UK	II.LST - (2h, 20m)	- 35°		0°
4234 BCE	Feb.	23	17	56	00	Egypt	II.LST - 4 minutes	- 1°		34°E
4234 BCE	Feb.	23	18	00	00	Israel	II.LST (Head)	0°	Sunset (a)	35°E
4234 BCE	Feb.	22	18	04	00	Jordan (Tial)	II.LST - (23h, 56m)	- 359°		36°E
4234 BCE	Feb.	22	21	00	00	India	II.LST - 21 hours	- 315°		80°E
4234 BCE	Feb.	23	00	00	00	Philippines	II.LST - 18 hours	- 270°		125°E
4234 BCE	Feb.	23	03	00	00	NewZealand	II.LST - 15 hours	- 225°		170°E
4234 BCE	Feb.	23	03	40	00	IDL (Say)	II.LST - 14h, 20m.	- 215°		180°E

Yahweh is proved as the Creator with the help of His Formula (Lev. 25:8-12), History, Chronology, Prophecies and so on (Luke 21:20-24; Matt. 24:15-28).

Universal 7 - Day Weekly Cycle is determined by Yahweh, the Creator in the beginning as below (Gen. 1:1-31, 2:1-3)													
7 - Day Cycle	Year	Month	Day	Hrs.	Min.	Sec.	Day of Week	DL	DLM	Country	Say		
0	4234 BCE	Feb.	20	18	00	00	Saturday	35°E	0	Israel	(aa)		
1st day	4234 BCE	Feb.	21	18	00	00	Sunday	35°E	0	Israel	(ab)		
2nd day	4234 BCE	Feb.	22	18	00	00	Monday	35°E	0	Israel	(ac)		
3rd day	4234 BCE	Feb.	23	18	00	00	Tuesday	35°E	0	Israel	(a)		
4th day	4234 BCE	Feb.	24	18	00	00	Wednesday	35°E	0	Israel	(ad)		
5th day	4234 BCE	Feb.	25	18	00	00	Thursday	35°E	0	Israel	(ae)		
6th day	4234 BCE	Feb.	26	18	00	00	Friday	35°E	0	Israel	(af)		
7th day	4234 BCE	Feb.	27	18	00	00	Saturday	35°E	0	Israel	(ag)		

SEARCH THE SCRIPTURES - John 5:39-40; 1 Thess. 5:21

- Yahweh is speaking about His 7 - Day Weekly Cycle (Genesis 2:1-3; Matt. 28:1; Mark 2:26-27; Luke 23:56).
- Yahweh is speaking about formula of His Universal Clock (Gen. 1:13-19; Lev. 25:8-9; Jer. 33:10-26, 31:35-37).
- Yahweh is speaking about History, Prophecies etc. (Matt. 24:15-26; Dan. 9:24-27; Luke 2:1-7, 3:1-38 etc.).
- Yahweh is speaking to establish His Kingdom about in CE 2136 (Acts 4:27-28; Luke 22:28-30; Zec. 14:17-21).

THE AGE OF ETHANIM IN DIFFERENT COUNTRIES WITH RESPECT TO ISRAEL, AT 35°E JERUSALEM

The Phase of the Moon (Say RT)									77,371st Lunar Month (Yahweh's Lunar Month = Ethanim) strictly begins as below (Say BT)										The Age (RT - BT) of 77,371st Scriptural Lunar Month (Ethanim) Crescent at "RT" in		Highlight

V or VW = Crescent is Visible if Sun, Weather, Longitudes, and Latitudes are suitable. Month = 29.53135314 days (29d, 12h, 45m, 8.91088992s)																		ES = The Eastern Sky; WS = The Western Sky (Psalms 104:19, 19:1-4; Job 26:7).			

V or VW = Crescent is Visible if Sun, Weather, Longitudes, and Latitudes are suitable. Month = 29.53135314 days (29d, 12h, 45m, 8.91088992s)

ES = The Eastern Sky; WS = The Western Sky (Psalms 104:19, 19:1-4; Job 26:7).

"Yahweh's Universal Luni Solar Clock" is working from (1) to (14) only. BT = Beginning Time of Lunar Month or Beginning of the Scriptural Lunar Month (Numbers 10:10; Deut. 11:11-12); RT = Required Time of Phase of the Moon.

Extra Month is occurring according to the formula of Yahweh's Luni Solar Calendar only but not according to the RIPENED BARLY CORNS. Please remember that crops are cursed in many years because Israelis and gentiles are rejecting Commanments of Yahweh (Deut. 11:11-17 etc.). Even Priests didn't go to the barley fields to observe whether the barley ears are ripened properly or not. Proof: 0b00, z20 or 1b Case - 5i in www.yahwehcalendar49.com

Where d1, d2, d3, d4, d5 d50 are The Day of Atonement with respect to Civil 50 - Year Lunisolar Cycle. D1, D2, D3, D4, D5 D49 are the Day of Atonement with respect to Religious 49 - Year Luni Solar Cycle. So d1 = D49 = d50. A1, A2, A3, A4, A5, A6 A49 are 1st Abib with respect to Religious 49 - Year Lunisolar Cycle.																						1st day of Bul = From 6 PM on 25th Oct., to 6 PM on 26th Oct., ce 2022.									

Research: This is the time to realize that NASA, IAU, and all religious leaders are misleading the World under the veil of Science, and Religion.

Please prove me your Gift of Holy Spirit if YHWH elected you to prove His Calendar Formula in terms of 7 times 7 Years = 606 Lunar Months = 17,896 days (1 Thess. 5:21; Job 34:1-4; Jer. 33:19-26, 23:13-29; 1 Cor. 9:1-3; 11:19; 5:6-8).

* * Yahweh commanded His people to count for 49 YEARS in terms of 7 times 7 years (Lev. 25:8-9). Are not 17,896 days = 606 Lunar Months = 7 times 7 years? Please get the length of Lunar month and Tropical Year with this.

So many Rabbis/Prophets calculated wrongly the Appointed times of Yahweh each year with the help of Gentile Grecian 19 - Year Luni Solar Cycle. This tradition came into existance since CE 135 (Matt. 23:1-39).

RESEARCH: Did you realize that the time between any two consecutive JUBILEE YEARS are 17,896? So you don't have any authority (Ezk. 46:14) to prepone or postpone Yahweh's Appointed times.

SEARCH:

(A) C 606 = Number of civil months completed out of 606 civil months in Civil 49 - Year Lunisolar Cycle. (B) CCM = Number of Civil months completed from the Creation of sun, moon and stars (Jer. 31:35-37). (C) Year = Roman Year (Daniel 7:7-8, 23-25). (D) M = Month. (E) D = Day. (F) H = Hours	A = Lunar Month; EM = Extra Month;	(X) CCM X A = CCM X 29.53135314 days; (Y) C 606 X A = C 49 X 29.53135314 Days. Where A = 29.53135314 days (Z) R 606 X A = R 49 X 29.53135314 Days. (AA) RCM X A = RCM X 29.53135314 Days.
(G) M = Minutes. (H) S = Seconds. (I) DW = Day of Week; DC = Days Completed; (J) D/M = Days per Month according to Leviticus 25:8, 9; Nehemiah 8:1-3, 12 - 13; Acts 2:1 - 16; Genesis 18:14, 1:14-19; 8:22; Numbers 23:19; Jeremiah 31:35-37, 33:19-26; Job 26:7, 38:31-36; Psalms 104:5, 19-27, 19:1-4; John 11:9; Deuteronomy 11:12; Exodus 34:22; Ezk. 5:5, 38:12; Matthews 24:35).		Note: Very first 7 - Day Weekly Cycle begins from 6 PM on 20th February, 4234 BCE (Genesis 1:1-31, 2:1-3; Matt. 24:35). CCC = Number of Civil Cycles Completed or Number of Civil 49 - Year Luni Solar Cycles completed from the Creation of Sun, Moon and stars; RCC = Number of Religious Cycles Completed or Number of Religious 49 - Year Lunisolar Cycles completed from Canaan. DL = Degrees of Longitudes discovered by Scientists (UK is the center of the Globe in this case).
(K) New Moon Day according to Israel Local Standard Time (II.LST) which is confined according to (1a). Celebrate the New Moon Day (or 1st Day of Launar Month) from previous evening (6 PM) to next evening if the New Moon begins between 0 hours and 9 hours. (1b) Celebrate the New Moon Day from evening (6 PM) to next evening (6 PM) if the New Moon begins between 9 hours, and 24 hours of any date (Nehemiah 8:3-12; Acts 2:14-16; Num. 28:11-14, 1-8). Jews came next day again (Neh. 8:13).		DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me (Jerusalem is center - Eze.5:5, 38:12). 35°E = Jerusalem situated = The Scriptural Zero Degrees of Longitudes determined by Yahweh (Jer. 33:19 - 26). * RY/3 = Number of Years of Tithe completed (If the remainder is ZERO)[Deuteronomy 14:28-29; 26:12-16] ** RY/7 = Number of Sabbatical Years completed (If the remainder is ZERO)[Leviticus 25:1-7]. *** RY/49 = Number of Jubilee Years completed (If the remainder is ZERO)[Leviticus 25:8 - 55].
So this proves that Priests knew the formula. (L) Full Moon day = 15th day of each Lunar Month. (M) = Name of Religious Month completed while next month begins; (N) RM = Religious Month completed as 1/1, 2/1, 3/1 ... 12/49 of R49; (O) CM = Civil Month completed as 1/1, 2/1, 3/1 ... 12/49 of C49; (P) = R 606 = Number of Religious Months completed out of 606 months of in Religious 49 - Year Cycle; (Q). RCM = Number of Religious Months Completed from the plains of Moab or from the land of Canaan (Numbers 33:48-56; Lev. 25:1-9).		Special Note: ZERO residue is remained at the end of each 49 - Year Lunisolar Cycle; CCC = CY/49 = Number of Civil Cycles Completed (If the Remainder is Zero); RCC = RY/49 = Number Religious Cycles compled (If the remainder is ZERO). ** The Phases of Moon produced by NASA are entirely different form Yahweh's Formula (Lev. 25:8-9)! R606 = C606 - 6 where 6 lunar months are constant.
Where RCM = CCM - 33,336 (Note: Religious New Years and Sabbatical etcetera began according to Lev. 25:1-9).		Special Note: Don't follow Phases of Moon produced by NASA because they are inaccurate!
(R) RY = MH = Number of Religious Years completed from the Land of Milk and Honey (Leviticus 25:1-9);		* Note: All Scriptural Religious New Years should be counted from end of 33,336 CCM only.
CY = SM = Number of Civil Years completed from the date of the Creation of Sun, Moon and stars (Genesis 1:1-19).		RCE = CCM - 32,841 where 32,841 lunar months are Constant.
(S) YR = Number of Religious Years completed out of 49 Religious Years according to R 606;		Example: RCE = CCM - 32,841 = 33,336 - 32,841 = 495 Religious months (40 years of journey ONLY).
YC = Number of Civil Years completed out of 49 Civil Years according to C 606.		RCE = Number of Religious Months completed from 1st Religious New Moon in Egypt .
(T) D/YR = Days per YR. D/YC = Days per YC.; ND20 = Number of Days completed from 6 PM on 20th Feb., 4234 BCE.		For more details about the Creator, please study in www.yahwehcalendar49.com
(U) NS 20 = Number of Sabbaths completed from 6 PM on 20th February, 4234 BCE, at 35 °E (Genesis 1:1-31, 2:1-3).		SPECIAL NOTE: Please remember that Israelis didn't follow gentile astronommer between
Special Note: Every Scriptural day takes 86,400 seconds (= 24 Hours) is true according to John 11:9. NASA discovered that day takes 86,164 seconds strictly which is disproved by the Creator, Yahweh. Note: Nearly 1 day lags at the end of 365 days if we follow this theory. Please note this point!!!!(1 Cor. 1:19-25) So don't trust in NASA (Phases of Moon) which is leading into the bottomless pit (Rev. 13:8, 20:12-15).		1579 BCE and CE 135 because Mose, the Prophet wrote Yahweh's Formula in Leviticus 25:8-9. The below web link is extremely useful to verify all my Calculations. http://www.astropixels.com/ephemeris/phasescat/phasescat.html The above link gives Phases of Moon from 2000 BCE to CE 4000.

The above New Moon Report, length of Day (86,400 seconds per Day), Lunar Month (29.53135314 days), Tropical Year (365.2244898 days), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle (Leviticus 25:8-9; Jeremiah 33:19-26) is satisfying the below History, and Chrnology. So the above proofs are scientific, Historical, and practical. Yahweh didn't tell that go and observe the Visisble Crescent, and barley ears. Beware of false Prophets, and astronomers!!!

Note: Please remember that Yahweh commanded to count for 49 years like 7 times 7 years to keep Jubilee Years, Yom Kippur and so on but not COMMANDED that go and observe the VISIBLE CRESCENT to keep the beginning of each month, and BARLEY EARS to keep 1st Abib. Yahweh fixed His Plan of Salvation and some events before the foundations of the Earth (Exodus 32:31-33; Acts 4:27-28; Jeremiah 1:4-6; Psalms 139:16; Galatians 1:15; Ephesians 1:4-12; Revelations 13:8-10, 20:15, etc.). The elected people are counted before the foundations of the Earth (Revelations 7:1-8). Yahweh knows the thoughts of all people (Deuteronomy 31:16-21). So Yahweh knows the dates of all His Appointed times according to His Luni Solar Calendar formula (Lev. 25:8-12, 13-55). So His Calendar is calculated before He created Sun, Moon, and stars (Hebrews 4:3). So the length of Day (86,400 seconds per 360° per 1 day), Lunar Month (29.53135314 days per 360°), Tropical Year (365.2244898 days per 360° per year), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle are Constant forever. So you should observe both the phenomena of New Moon Cresent and Full Moon for the sake of confirmation of your calculations only (1 Thes. 5:21) but you don't have any such authority to prepone or postpone Yahweh's Appointed Times. Every New Moon Crescent may visible or may not visible around the Globe at the beginning time of each Lunar Month. We know that the Age of the Moon is Constant around the Globe whereas the time varies according to the Longitudes. We can simply calculate the time and Age of every Crescent. So we can keep each New Moon Festival (Beginning of Month) even if the Crescent has not appeared in Israel but it may appear in any country. Earth, Sun, Moon, and stars are not created for Jews only but all (Matthews 5:45). Every New Moon Crescent may appear in any one country at least according to the Formula. All true calculations are not fiction but science (Job 38:1-33; Jer. 33:19-26).

77,372ND NEW MOON OR BUL REPORT IN OCTOBER CE 2022 - 1 KINGS 6:38; GENESIS 1:13-19; NUM. 10:10, 23:19; DEUT. 11:11-12; JER. 33:19-26, 31:35-37, 32:26-27 ETC.

77,371 Scriptural Lunar Months are completed from 18 hours (6pm) on 23rd Feb., 4234 BCE to 01 hrs., 45 m, and 44.352 s., on 26th Oct., CE 2022 according to 49 - Year Luni Solar Cycle (Lev. 25:8-9; Gen. 1:13-19; John 11:9).

Yahweh's Lunar Month = 29.53135314 days (17,896 days ÷ 606 Months); Yahweh's Tropical Year = 365.2244898 days (17,896 days ÷ 49 Years). Yahweh's Formula = 49 Years = 17,896 days = 606 Lunar Months = 588 Tropical Months.

Let's calculate the end of 77,371st Lunar Month from the date of the Creation of Sun, Moon and stars (From 6 PM of 23rd February, 4234 BCE, at 35E) according to Yahweh's Formula.

77,371 Lunar Months = 77,371 Lunar Months X 29.53135314 days = 2,284,870.323 days = 2,284,870 days + Residue. The Residue = 07 hours, 45 minutes and 44.352 seconds (Num. 10:10; Deut. 11:11-12).

2,284,870 days are there between (a) and (b). You can check these days with the below link.

Year	Month	Day	Hours	Min.	Sec.	DW	DL	DLM	Country	Case
4234 BCE	Feb.	23	06	00	00	Tue.	145°W	-180°	Alaska, USA	(a1)
4234 BCE	Feb.	23	18	00	00	Tue.	35°E	0°	Israel	(a)
http://astropixels.com/ephemeris/calendarconverter.html This link gives 2,284,870 days										
CE 2022	Oct.	25	18	00	00	Tue.	35°E	0°	Israel	(b)

Therefore 77,371st Month ends while 77,372nd Month (1st Bul) begins at (1).

1st day of Bul or 77,372nd New Moon Day = 6 PM on 25th Oct., to 6 PM on 26th Oct., CE 2022.

Very first Sun rays appears as Sunrise at (a1) according to the principles determined by Yahweh (Job 38:1-33). Let's add the Residue to (b) to get the end of 77,371st Lunar Month.

So Bul (77,372nd Month) begins at (1).

Year	Month	Day	Hours	Min.	Sec.	DOW	Country	DL	DLM	CY	Case
CE 2022	Oct.	25	18	00	00	Tue.	Israel	35°E	0°		(b)
			+ 07	+45	44.352		http://whenisthenewmoon.com/				
CE 2022	Oct.	26	01	45	44.352	Wed.	Israel	35°E	0°	-	(1)

But NASA calculated the beginning time of New Moon as 10 hrs., 49 m(P), on 25th Oct., CE 2022 = FAKE forever!

For New Moon report: <https://truthofyahweh.org/moon.htm> <https://paleotimes.org/blog/>

77,372nd Scriptural Lunar Month or Bul begins strictly at (1) and as below according to the Book of Yahweh (Isaiah 34:16; Numbers 28:1-15; Nehemiah 8:1-13; Acts 2:15; 2 Timothy 2:13; Numbers 10:10; Deut. 11:11-14).

Time According to Head (DLM)	DLM	Total Age of Sun, Moon, and stars (Genesis 1:13-19; Jeremiah 32:26-27)	77,372nd Scriptural Lunar Month (Yahweh's Lunar Month or Bul) strictly begins as below (Say BT)										1st Day of Bul or 77,372nd Month (Deut. 11:11-12, 17:8-13; Num.10:10)		Age at RT = RT - BT	Required Time of the Phase of Moon (Say RT)

Yahweh's Universal Luni Solar Clock is Working from (1) to (14) only. The very First Sun rays appeared as Sunset at (a) whereas the same Sunrays appeared as Sunrise at (a1) only on the Globe in the beginning. Where DL = Degrees of Longitudes; DLM = Degrees of Longitudes determined by Yahweh (Amos 3:7; 1 Cor. 2:10-15, 12:4-31; John 16:1-14; John 18:37-38; Isa. 45:12; Jer. 31:35-37, 33:19-26; Job 38:1-33, 26:1-7; Jos. 10:1-14; Num. 23:19; Eze. 12:28 etc.); DWE = Degrees completed behind Israel while rotating from West to East; Mo. = Month; Hrs. = Hours; Min. = Minutes; Sec. = Seconds; d = days; DOW = Day of Week; BT = Beginning Time of Lunar Month; RT = Required Time of Phase of the Moon.

(1). Celebrate the beginning of Scriptural Lunar Month (Numbers 10:10) from previous evening (6 PM) to next evening (6 PM) if the Scriptural month begins between 0 hours and 9 hours of any date with respect to Israel (Num. 28:4, 11-15; Neh. 8:1-3, 13; Mark 15:25; Acts 2:14-16). (2). Celebrate the beginning of Scriptural Month from evening (6 PM) to next evening (6 PM) if the Scriptural month begins between 9 hours and 24 hours of any date. (3). Yahweh's Formula is Constant forever (Jeremiah 33:19-26, 32:26-27; Matt. 24:35). So 1 day = 86,400 seconds per 360°; 1 Lunar Month = 29.53135314 days per 360°; and 1 Tropical Year = 365.2244898 days per 360°.

NB: The time of the burnt offering of each "Beginning of Month" is 9 hours (9 AM) - Mark 15:25; Num. 10:10. That's why Israelites celebrated the 1st day of the 7th month from 8 AM to 12 AM strictly (Neh. 8:1-12; Lev. 23:23-25). Crescent - 1 is Age of the Scriptural Lunar Month whereas Crescent - 2 is the Age of the previous month. The length of Scriptural Tropical Year (365.2244898 days) is Constant because of the volume of the Moon from the beginning to end of each Lunar Month (29.53135314 days) is Constant in 49 - Year Luni Solar Cycle. Yahweh determined that to which month takes 29 days and to which month takes 30 days (Gen. 1:13-19; Psalms 104:19; Job 38:1-33). So you can't confine or modify the length of Day, Lunar Month and Tropical Year. So count each month by using Yahweh's Formula (Lev. 25:8-9) which is 606 months = 49 Years = 17,896 days.

Research: The beginning and end of each Month (Deut. 11:11-12) is important. "UT ± H M S" is a scientific concept if the Earth is stopped and UK is center of the Globe. NUT (New Universal Time) = "II.LST - H M S" is "The Scientific Concept" because Jerusalem is the center of the Globe (Genesis 1:1-19). And Time, and Phases of the Moon begins from Jerusalem only (Genesis 1:13-19). There is no Scientific proof that time, and Phases of the Moon begins from UK or any country. "UT - H M S" is scientific if the Earth is rotating from West to East and UK is center of the Globe. So UT is disproved once again. Yahweh proves that time, and Phases of the Moon begins from Jerusalem (ISRAEL) only in His Book in Genesis 1:1-31, 2:1-3; Lev. 25:8-9; Ezk. 5:5, 38:12; Psalms 104:19; John 11:9!

WHICH UNIVERSAL LUNI SOLAR CLOCK IS SCIENTIFIC AND WHERE IT IS WRITTEN?

VOLUME OF MOON IS CONSTANT SO THE SCRIPTURAL LUNAR MONTH AND TROPICAL YEAR IS CONSTANT!

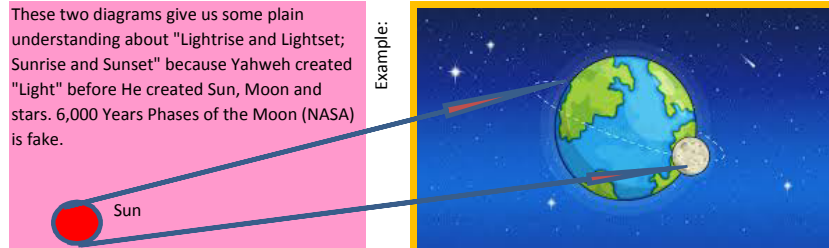

P = THE UNIVERSAL LUNI SOLAR CLOCK OF YAHWEH (The Creator)												Q = THE UNIVERSAL LUNI SOLAR CLOCK OF ASTRONOMERS													
Bul begins as below according Yahweh as Jerusalem is center of the Globe and Head of Time												Bul begins as below according to NASA or IAU if Jerusalem is center of the Globe and Head of Time

Yahweh's Universal Luni Solar Clock is working from (1) to (12). "P" is satisfying the date of the Creation of Sun, Moon and stars, the 7 - Day Weekly Cycle and so on. Please see the below poofs of "P" (Genesis 1:1-31, 2:1-3).

Astronomers' Clock is working from (1) to (6) and (1) to (r) via (p) which is true if the earth is stopped.
So "Q" is not proved as it didn't prove any 7 - Day Weekly Cycle of any date by giving nights and daytimes.

So Yahweh's Universal Luni Solar Clock is Scientific and it's formula is written in Leviticus 25:8-9. Formula = 7 Times 7 years = 49 Years = 606 Lunar Months = 17,896 days = 588 Tropical Months (Lev. 25:8-9; Jeremiah 33:19-26).

NB: II.LST = Israel Local Standard Time at 35 °E Jerusalem; D = d = days; H = Hrs., = h = hours; M = Min. = m = minutes; S = Sec. = s = seconds; DWE = Degrees completed behind Israel while the Earth is rotating on its axis from West to East strictly from 6 PM on 20th Feb., 4234 BCE, at 35 °E, Jerusalem (Genesis 1:1-19); DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me; DL = Degrees of Longitudes; DLA = Degrees of Longitudes decided by Astronomers.

Research: Universal 7 - Day Weekly Cycle is counted from 18 hours (6 PM) on 20th Feb., 4234 BCE, at 35°E Jerusalem only. The very first Sunrises indicated as Sunrise at (a1) whereas indicated as Sunset at (a) on the **Globe**. NASA/IAU failed to prove that Yahweh is the Creator with the help of 49 - Year Luni Solar Cycle and 49 - Year Tropical Cycle which is the formula of "The Universal Luni Solar Clock, the Sun, and Moon". The formula of Yahweh's Clock is written in the Book of Yahweh as 49 YEARS in Lev. 25:8-9. This formula only gives accurate Seasons, Phases of the Moon etcetera.

Yahweh, the Creator created Sun, Moon, and stars as below in the beginning (Genesis 1:13-19)										
Year	Month	D	H	M	S	Country	Yahweh's Clock	DLM	Very first	DL
4234 BCE	Feb.	23	06	00	00	Alaska	II.LST - 12 hours	- 180°	Sunrise (a1)	145°W

4234 BCE	Feb.	23	03	40	00	IDL (Say)	II.LST - 14h, 20m.	- 215°		180°E

Yahweh is proved as the Creator with the help of His Formula (Lev. 25:8-12), History, Chronology, Prophecies and so on (Luke 21:20-24; Matt. 24:15-28).

Universal 7 - Day Weekly Cycle is determined by Yahweh, the Creator in the beginning as below (Gen. 1:1-31, 2:1-3)											
7 - Day Cycle	Year	Month	Day	Hrs.	Min.	Sec.	Day of Week	DL	DLM	Country	Say
0	4234 BCE	Feb.	20	18	00	00	Saturday	35°E	0	Israel	(aa)
1st day	4234 BCE	Feb.	21	18	00	00	Sunday	35°E	0	Israel	(ab)
2nd day	4234 BCE	Feb.	22	18	00	00	Monday	35°E	0	Israel	(ac)
3rd day	4234 BCE	Feb.	23	18	00	00	Tuesday	35 °E	0	Israel	(a)
4th day	4234 BCE	Feb.	24	18	00	00	Wednesday	35°E	0	Israel	(ad)
5th day	4234 BCE	Feb.	25	18	00	00	Thursday	35°E	0	Israel	(ae)
6th day	4234 BCE	Feb.	26	18	00	00	Friday	35°E	0	Israel	(af)
7th day	4234 BCE	Feb.	27	18	00	00	Saturday	35°E	0	Israel	(ag)
SEARCH THE SCRIPTURES - John 5:39-40; 1 Thess. 5:21	(1). Yahweh is speaking about His 7 - Day Weekly Cycle (Genesis 2:1-3; Matt. 28:1; Mark 2:26-27; Luke 23:56).										
	(2). Yahweh is speaking about formula of His Universal Clock (Gen. 1:13-19; Lev. 25:8-9; Jer. 33:10-26, 31:35-37).										
	(3). Yahweh is speaking about History, Prophecies etc. (Matt. 24:15-26; Dan. 9:24-27; Luke 2:1-7, 3:1-38 etc.).										
	(4). Yahweh is speaking to establish His Kingdom about in CE 2136 (Acts 4:27-28; Luke 22:28-30; Zec. 14:17-21).

V or VW = Crescent is Visible if Sun, Weather, Longitudes, and Latitudes are suitable. Month = 29.53135314 days (29d, 12h, 45m, 8.91088992s)																		ES = The Eastern Sky; WS = The Western Sky (Psalms 104:19, 19:1-4; Job 26:7).				

"Yahweh's Universal Luni Solar Clock" is working from (1) to (14) only. BT = Beginning Time of Lunar Month or Beginning of the Scriptural Lunar Month (Numbers 10:10; Deut. 11:11-12); RT = Required Time of Phase of the Moon.

Extra Month is occurring according to the formula of Yahweh's Luni Solar Calendar only but not according to the RIPENED BARLY CORNS. Please remember that crops are cursed in many years because Israelis and gentiles are rejecting Commamnts of Yahweh (Deut. 11:11-17 etc.). Even Priests didn't go to the barley fields to observe whether the barley ears are ripened properly or not. Proof: 0b00, z20 or 1b Case - 5i in www.yahwehcalendar49.com

Where d1, d2, d3, d4, d5 d50 are The Day of Atonement with respect to Civil 50 - Year Lunisolar Cycle. D1, D2, D3, D4, D5 D49 are the Day of Atonement with respect to Religious 49 - Year Luni Solar Cycle. So d1 = D49 = d50. A1, A2, A3, A4, A5, A6 A49 are 1st Abib with respect to Religious 49 - Year Lunisolar Cycle.																						1st day of Kislev = From 6 PM on 24th Nov., to 6 PM on 25th Nov., CE 2022.																																															

Research: This is the time to realize that NASA, IAU, and all religious leaders are misleading the World under the veil of Science, and Religion.

Please prove me your Gift of Holy Spirit if YHWH elected you to prove His Calendar Formula in terms of 7 times 7 Years = 606 Lunar Months = 17,896 days (1 Thess. 5:21; Job 34:1-4; Jer. 33:19-26, 23:13-29; 1 Cor. 9:1-3; 11:19; 5:6-8).

* * Yahweh commanded His people to count for 49 YEARS in terms of 7 times 7 years (Lev. 25:8-9). Are not 17,896 days = 606 Lunar Months = 7 times 7 years? Please get the length of Lunar month and Tropical Year with this.

So many Rabbis/Prophets calculated wrongly the Appointed times of Yahweh each year with the help of Gentile Grecian 19 - Year Luni Solar Cycle. This tradition came into existence since CE 135 (Matt. 23:1-39).

RESEARCH: Did you realize that the time between any two consecutive JUBILEE YEARS are 17,896? So you don't have any authority (Ezk. 46:14) to prepone or postpone Yahweh's Appointed times.

SEARCH:

(A) C 606 = Number of civil months completed out of 606 civil months in Civil 49 - Year Lunisolar Cycle. (B) CCM = Number of Civil months completed from the Creation of sun, moon and stars (Jer. 31:35-37). (C) Year = Roman Year (Daniel 7:7-8, 23-25). (D) M = Month. (E) D = Day. (F) H = Hours (G) M = Minutes. (H) S = Seconds. (I) DW = Day of Week; DC = Days Completed; (J) D/M = Days per Month according to Leviticus 25:8, 9; Nehemiah 8:1-3, 12 - 13; Acts 2:1 - 16; Genesis 18:14, 1:14-19; 8:22; Numbers 23:19; Jeremiah 31:35-37, 33:19-26; Job 26:7, 38:31-36; Psalms 104:5, 19-27, 19:1-4; John 11:9; Deuteronomy 11:12; Exodus 34:22; Ezk. 5:5, 38:12; Matthews 24:35).	(X) CCM X A = CCM X 29.53135314 days; (Y) C 606 X A = C 49 X 29.53135314 Days. Where A = 29.53135314 days (Z) R 606 X A = R 49 X 29.53135314 Days. Note: Very first 7 - Day Weekly Cycle begins from 6 PM on 20th February, 4234 BCE (Genesis 1:1-31, 2:1-3; Matt. 24:35). (AA) RCM X A = RCM X 29.53135314 Days.
(K) New Moon Day according to Israel Local Standard Time (II.LST) which is confined according to (1a). Celebrate the New Moon Day (or 1st Day of Launar Month) from previous evening (6 PM) to next evening if the New Moon begins between 0 hours and 9 hours. (1b) Celebrate the New Moon Day from evening (6 PM) to next evening (6 PM) if the New Moon begins between 9 hours, and 24 hours of any date (Nehemiah 8:3-12; Acts 2:14-16; Num. 28:11-14, 1-8). Jews came next day again (Neh. 8:13).	CCC = Number of Civil Cycles Completed or Number of Civil 49 - Year Luni Solar Cycles completed from the Creation of Sun, Moon and stars; RCC = Number of Religious Cycles Completed or Number of Religious 49 - Year Lunisolar Cycles completed from Canaan. DL = Degrees of Longitudes discovered by Scientists (UK is the center of the Globe in this case).
So this proves that Priests knew the formula. (L) Full Moon day = 15th day of each Lunar Month. (M) = Name of Religious Month completed while next month begins; (N) RM = Religious Month completed as 1/1, 2/1, 3/1 ... 12/49 of R49; (O) CM = Civil Month completed as 1/1, 2/1, 3/1 ... 12/49 of C49; (P) = R 606 = Number of Religious Months completed out of 606 months of in Religious 49 - Year Cycle; (Q). RCM = Number of Religious Months Completed from the plains of Moab or from the land of Canaan (Numbers 33:48-56; Lev. 25:1-9).	DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me (Jerusalem is center - Eze.5:5, 38:12). 35°E = Jerusalem situated = The Scriptural Zero Degrees of Longitudes determined by Yahweh (Jer. 33:19 - 26). * RY/3 = Number of Years of Tithe completed (If the remainder is ZERO)[Deuteronomy 14:28-29; 26:12-16] ** RY/7 = Number of Sabbatical Years completed (If the remainder is ZERO)[Leviticus 25:1-7]. *** RY/49 = Number of Jubilee Years completed (If the remainder is ZERO)[Leviticus 25:8 - 55].
Where RCM = CCM - 33,336 (Note: Religious New Years and Sabbatical etcetera began according to Lev. 25:1-9). (R) RY = MH = Number of Religious Years completed from the Land of Milk and Honey (Leviticus 25:1-9); CY = SM = Number of Civil Years completed from the date of the Creation of Sun, Moon and stars (Genesis 1:1-19). (S) YR = Number of Religious Years completed out of 49 Religious Years according to R 606; YC = Number of Civil Years completed out of 49 Civil Years according to C 606.	Special Note: ZERO residue is remained at the end of each 49 - Year Lunisolar Cycle; CCC = CY/49 = Number of Civil Cycles Completed (If the Remainder is Zero); RCC = RY/49 = Number Religious Cycles compled (If the remainder is ZERO). ** The Phases of Moon produced by NASA are entirely different from Yahweh's Formula. R606 = C606 - 6 where 6 lunar months are constant.
(T) D/YR = Days per YR. D/YC = Days per YC.; ND20 = Number of Days completed from 6 PM on 20th Feb., 4234 BCE. (U) NS 20 = Number of Sabbaths completed from 6 PM on 20th February, 4234 BCE, at 35 °E (Genesis 1:1-31, 2:1-3).	Special Note: Don't follow Phases of Moon produced by NASA because they are inaccurate! * Note: All Scriptural Religious New Years should be counted from end of 33,336 CCM only. RCE = CCM - 32,841 where 32,841 lunar months are Constant. Example: RCE = CCM - 32,841 = 33,336 - 32,841 = 495 Religious months (40 years of journey ONLY). RCE = Number of Religious Months completed from 1st Religious New Moon in Egypt .
Special Note: Every Scriptural day takes 86,400 seconds (= 24 Hours) is true according to John 11:9. NASA discovered that day takes 86,164 seconds strictly which is disproved by the Creator, Yahweh. Note: Nearly 1 day lags at the end of 365 days if we follow this theory. Please note this point!!!!(1 Cor. 1:19-25) So don't trust in NASA (Phases of Moon) which is leading into the bottomless pit (Rev. 13:8, 20:12-15).	For more details about the Creator, please study in www.yahwehcalendar49.com SPECIAL NOTE: Please remember that Israelis didn't follow gentile astronommer between 1579 BCE and CE 135 because Mose, the Prophet wrote Yahweh's Formula in Leviticus 25:8-9. The below web link is extremely useful to verify all my Calculations. http://www.astropixels.com/ephemeris/phasescat/phasescat.html The above link gives Phases of Moon from 2000 BCE to CE 4000.

The above New Moon Report, length of Day (86,400 seconds per Day), Lunar Month (29.53135314 days), Tropical Year (365.2244898 days), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle (Leviticus 25:8-9; Jeremiah 33:19-26) is satisfying the below History, and Chrnology. So the above proofs are scientific, Historical, and practical. Yahweh didn't tell that go and observe the Visiblle Crescent, and barley ears. Beware of false Prophets, and astronomers!!!

Note: Please remember that Yahweh commanded to count for 49 years like 7 times 7 years to keep Jubilee Years, Yom Kippur and so on but not COMMANDED that go and observe the VISIBLE CRESCENT to keep the beginning of each month, and BARLEY EARS to keep 1st Abib. Yahweh fixed His Plan of Salvation and some events before the foundations of the Earth (Exodus 32:31-33; Acts 4:27-28; Jeremiah 1:4-6; Psalms 139:16; Galatians 1:15; Ephesians 1:4-12; Revelations 13:8-10, 20:15, etc.). The elected people are counted before the foundations of the Earth (Revelations 7:1-8). Yahweh knows the thoughts of all people (Deuteronomy 31:16-21). So Yahweh knows the dates of all His Appointed times according to His Luni Solar Calendar formula (Lev. 25:8-12, 13-55). So His Calendar is calculated before He created Sun, Moon, and stars (Hebrews 4:3). So the length of Day (86,400 seconds per 360° per 1 day), Lunar Month (29.53135314 days per 360°), Tropical Year (365.2244898 days per 360° per year), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle are Constant forever. So you should observe both the phenomena of New Moon Cresent and Full Moon for the sake of confirmation of your calculations only (1 Thes. 5:21) but you don't have any such authority to prepone or postpone Yahweh's Appointed Times. Every New Moon Crescent may visible or may not visible around the Globe at the beginning time of each Lunar Month. We know that the Age of the Moon is Constant around the Globe whereas the time varies according to the Longitudes. We can simply calculate the time and Age of every Crescent. So we can keep each New Moon Festival (Beginning of Month) even if the Crescent has not appeared in Israel but it may appear in any country. Earth, Sun, Moon, and stars are not created for Jews only but all (Matthews 5:45). Every New Moon Crescent may appear in any one country at least according to the Formula. All true calculations are not fiction but science (Job 38:1-33; Jer. 33:19-26).

77,373RD NEW MOON OR KISLEV REPORT IN NOVEMBER CE 2022 - ZECH.7:1; GENESIS 1:13-19; NUM. 10:10, 23:19; DEUT. 11:11-12; JER. 33:19-26, 31:35-37, 32:26-27 ETC.

77,372 Scriptural Lunar Months are completed from 18 hours (6pm) on 23rd Feb., 4234 BCE to 14 hrs., 30 m, and 52.992 s., on 24th Nov., CE 2022 according to 49 - Year Luni Solar Cycle (Lev. 25:8-9; Gen. 1:13-19; John 11:9).

Yahweh's Lunar Month = 29.53135314 days (17,896 days ÷ 606 Months); Yahweh's Tropical Year = 365.2244898 days (17,896 days ÷ 49 Years). Yahweh's Formula = 49 Years = 17,896 days = 606 Lunar Months = 588 Tropical Months.

Let's calculate the end of 77,372nd Lunar Month from the date of the Creation of Sun, Moon and stars (From 6 PM of 23rd February, 4234 BCE, at 35E) according to Yahweh's Formula.

77,372 Lunar Months = 77,372 Lunar Months X 29.53135314 days = 2,284,899.855 days = 2,284,899 days + Residue. The Residue = 20 hours, 30 minutes and 52.992 seconds (Num. 10:10; Deut. 11:11-12).

2,284,899 days are there between (a) and (b). You can check these days with the below link.

Year	Month	Day	Hours	Min.	Sec.	DW	DL	DLM	Country	Case
4234 BCE	Feb.	23	06	00	00	Tue.	145°W	-180°	Alaska, USA	(a1)
4234 BCE	Feb.	23	18	00	00	Tue.	35°E	0°	Israel	(a)
http://astropixels.com/ephemeris/calendarconverter.html This link gives 2,284,899 days										
CE 2022	Nov.	23	18	00	00	Wed.	35°E	0°	Israel	(b)

At (a, a1) = Genesis 1:13-19, 18:14; Num. 11:23, 23:19; Jeremiah 32:26-27, 31:35-37, 33:19-26; 2 Tim. 2:13.

Very first Sun rays appears as Sunrise at (a1) according to the principles determined by Yahweh (Job 38:1-33).

Let's add the Residue to (b) to get the end of 77,372nd Lunar Month.

So Kislev (77,373rd Month) begins at (1).

Year	Month	Day	Hours	Min.	Sec.	DOW	Country	DL	DLM	CY	Case
CE 2022	Nov.	23	18	00	00	Wed.	Israel	35°E	0°		(b)
			+ 20	+ 30	52.992		http://whenisthenewmoon.com/				
CE 2022	Nov.	24	14	30	52.992	Thu.	Israel	35°E	0°	-	(1)

But NASA calculated the beginning time of New Moon as 22 hrs., 57 m., on 23rd Nov., CE 2022 = FAKE forever!

For New Moon report:

<https://truthofyahweh.org/moon.htm>

<https://paleotimes.org/blog/>

Therefore 77,372nd Month ends while 77,373rd Month (1st Kislev) begins at (1).

1st day of Kislev or 77,373rd New Moon Day = 6 PM on 24th Nov., to 6 PM on 25th Nov., CE 2022.

77,373rd Scriptural Lunar Month or Kislev begins strictly at (1) and as below according to the Book of Yahweh (Isaiah 34:16; Numbers 28:1-15; Nehemiah 8:1-13; Acts 2:15; 2 Timothy 2:13; Numbers 10:10; Deut. 11:11-14).

Time According to Head (DLM)	DLM	Total Age of Sun, Moon, and stars (Genesis 1:13-19; Jeremiah 32:26-27)	77,373rd Scriptural Lunar Month (Yahweh's Lunar Month or Kislev) strictly begins as below (Say BT)										1st Day of Kislev or 77,373rd Month (Deut. 11:11-12, 17:8-13; Num.10:10)			Age at RT = RT - BT	Required Time of the Phase of Moon (Say RT)					
			DWE	DL	Year	Mo.	Day	Hours	Min.	Sec.	DOW	Genesis 1:13-19					Country	Say	Year	Mo.	Day	Hrs.

Yahweh's Universal Luni Solar Clock is Working from (1) to (14) only. The very First Sun rays appeared as Sunset at (a) whereas the same Sunrays appeared as Sunrise at (a1) only on the Globe in the beginning. Where DL = Degrees of Longitudes; DLM = Degrees of Longitudes determined by Yahweh (Amos 3:7; 1 Cor. 2:10-15, 12:4-31; John 16:1-14; John 18:37-38; Isa. 45:12; Jer. 31:35-37, 33:19-26, 32:26-27; Eze. 12:28 etc.); DWE = Degrees completed behind Israel while rotating from West to East; Mo. = Month; Hrs. = Hours; Min. = Minutes; Sec. = Seconds; d = days; DOW = Day of Week; BT = Beginning Time of Lunar Month; RT = Required Time of Phase of the Moon.

(1). Celebrate the beginning of Scriptural Lunar Month (Num. 10:10) from previous evening (6 PM) to next evening (6 PM) if the Scriptural month begins between **0 hours and 9 hours** of any date with respect to Israel (Num. 28:4, 11-15; Neh. 8:1-3, 13; Mark 15:25; Acts 2:14-16). (2). Celebrate the beginning of Scriptural Month from evening (6 PM) to next evening (6 PM) if the Scriptural month begins between **9 hours and 24 hours** of any date. (3). Yahweh's Formula is Constant forever (Jeremiah 33:19-26, 32:26-27; Matt. 24:35). So 1 day = 86,400 seconds per 360°; 1 Lunar Month = 29.53135314 days per 360°; and 1 Tropical Year = 365.2244898 days per 360°.

The time of the burnt offering of each "Beginning of Month" is 9 hours (9 AM) - Mark 15:25 Cf. Matt. 5:17-18; Num. 10:10. That's why Israelites celebrated the 1st day of the 7th month from 8 AM to 12 AM strictly (Neh. 8:1-12; Lev. 23:23-25). Crescent - 1 is Age of the Scriptural Lunar Month whereas Crescent - 2 is the Age of the previous month. The length of Scriptural Tropical Year (365.2244898 days) is Constant because of the volume of the Moon from the beginning to end of each Lunar Month (29.53135314 days) is

Constant in 49 - Year Luni Solar Cycle. Yahweh determined that to which month takes 29 days and to which month takes 30 days (Gen. 1:13-19; Psalms 104:19). So you can't confine or modify the length of Day, Lunar Month and Tropical Year. So count each month by using Yahweh's Formula (Lev. 25:8-9) which is 606 months = 49 Years = 17,896 days.

Research: The beginning and end of each Month (Deut. 11:11-12) is important. "UT ± H M S" is a scientific concept if the Earth is stopped and UK is center of the Globe. NUT (New Universal Time) = "II.LST - H M S" is "The Scientific Concept" because Jerusalem is the center of the Globe (Genesis 1:1-19). And Time, and Phases of the Moon begins from Jerusalem only (Genesis 1:13-19). There is no Scientific proof that time, and Phases of the Moon begins from UK or any country. "UT - H M S" is scientific if the Earth is rotating from West to East and UK is center of the Globe. So UT is disproved once again. Yahweh proves that time, and Phases of the Moon begins from Jerusalem (ISRAEL) only in His Book in Genesis 1:1-31, 2:1-3; Lev. 25:8-9; Ezk. 5:5, 38:12; Psalms 104:19; John 11:9; Job 26:7, 38:1-33; Jer. 33:19-26, 31:35-37!

WHICH UNIVERSAL LUNI SOLAR CLOCK IS SCIENTIFIC AND WHERE IT IS WRITTEN?

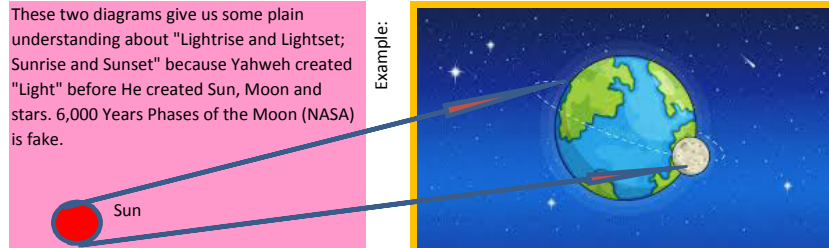

VOLUME OF MOON IS CONSTANT SO THE SCRIPTURAL LUNAR MONTH AND TROPICAL YEAR IS CONSTANT!

P = THE UNIVERSAL LUNI SOLAR CLOCK OF YAHWEH (The Creator)												Q = THE UNIVERSAL LUNI SOLAR CLOCK OF ASTRONOMERS													
Kislev begins as below according Yahweh as Jerusalem is center of the Globe and Head of Time												Kislev begins as below according to NASA or IAU if Jerusalem is center of the Globe and Head of Time

Yahweh's Universal Luni Solar Clock is working from (1) to (12). "P" is satisfying the date of the Creation of Sun, Moon and stars, the 7 - Day Weekly Cycle and so on. Please see the below poofs of "P" (Genesis 1:1-31, 2:1-3).

So Yahweh's Universal Luni Solar Clock is Scientific and it's formula is written in Leviticus 25:8-9. Formula = 7 Times 7 years = 49 Years = 606 Lunar Months = 17,896 days = 588 Tropical Months (Lev. 25:8-9; Jeremiah 33:19-26).

NB: II.LST = Israel Local Standard Time at 35 °E Jerusalem; D = d = days; H = Hrs., = h = hours; M = Min. = m = minutes; S = Sec. = s = seconds; DWE = Degrees completed behind Israel while the Earth is rotating on its axis from West to East strictly from 6 PM on 20th Feb., 4234 BCE, at 35 °E, Jerusalem (Genesis 1:1-19); DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me; DL = Degrees of Longitudes and is revealed to Me; DLA = Degrees of Longitudes decided by Astronomers.

Yahweh, the Creator created Sun, Moon, and stars as below in the beginning (Genesis 1:13-19)											
Year	Month	D	H	M	S	Country	Yahweh's Clock	DLM	Very first	DL	
4234 BCE	Feb.	23	06	00	00	Alaska	II.LST - 12 hours	- 180°	Sunrise (a1)	145°W

4234 BCE	Feb.	23	03	40	00	IDL (Say)	II.LST - 14h, 20m.	- 215°		180°E	

Yahweh is proved as the Creator with the help of His Formula (Lev. 25:8-12), History, Chronology, Prophecies and so on (Luke 21:20-24; Matt. 24:15-28).

Diagrams are taken from NASA. God bless NASA ever!

Research: Universal 7 - Day Weekly Cycle is counted from 18 hours (6 PM) on 20th Feb., 4234 BCE, at 35°E Jerusalem only. The very first Sunrises indicated as Sunrise at (a1) whereas indicated as Sunset at (a) on the **Globe**. NASA/IAU failed to prove that Yahweh is the Creator with the help of 49 - Year Luni Solar Cycle and 49 - Year Tropical Cycle which is the formula of "The Universal Luni Solar Clock, the Sun, and Moon". The formula of Yahweh's Clock is written in the Book of Yahweh as 49 YEARS in Lev. 25:8-9. This formula only gives accurate Seasons, Phases of the Moon etcetera.

Universal 7 - Day Weekly Cycle is determined by Yahweh, the Creator in the beginning as below (Gen. 1:1-31, 2:1-3)											
7 - Day Cycle	Year	Month	Day	Hrs.	Min.	Sec.	Day of Week	DL	DLM	Country	Say
0	4234 BCE	Feb.	20	18	00	00	Saturday	35°E	0	Israel	(aa)
1st day	4234 BCE	Feb.	21	18	00	00	Sunday	35°E	0	Israel	(ab)
2nd day	4234 BCE	Feb.	22	18	00	00	Monday	35°E	0	Israel	(ac)
3rd day	4234 BCE	Feb.	23	18	00	00	Tuesday	35°E	0	Israel	(a)
4th day	4234 BCE	Feb.	24	18	00	00	Wednesday	35°E	0	Israel	(ad)
5th day	4234 BCE	Feb.	25	18	00	00	Thursday	35°E	0	Israel	(ae)
6th day	4234 BCE	Feb.	26	18	00	00	Friday	35°E	0	Israel	(af)
7th day	4234 BCE	Feb.	27	18	00	00	Saturday	35°E	0	Israel	(ag)
SEARCH THE SCRIPTURES - John 5:39-40; 1 Thess. 5:21	(1). Yahweh is speaking about His 7 - Day Weekly Cycle (Genesis 2:1-3; Matt. 28:1; Mark 2:26-27; Luke 23:56).										
	(2). Yahweh is speaking about formula of His Universal Clock (Gen. 1:13-19; Lev. 25:8-9; Jer. 33:10-26, 31:35-37).										
	(3). Yahweh is speaking about History, Prophecies etc. (Matt. 24:15-26; Dan. 9:24-27; Luke 2:1-7, 3:1-38 etc.).										
	(4). Yahweh is speaking to establish His Kingdom about in CE 2136 (Acts 4:27-28; Luke 22:28-30; Zec. 14:17-21).

Where d1, d2, d3, d4, d5 d50 are The Day of Atonement with respect to Civil 50 - Year Lunisolar Cycle. D1, D2, D3, D4, D5 D49 are the Day of Atonement with respect to Religious 49 - Year Luni Solar Cycle. So d1 = D49 = d50. A1, A2, A3, A4, A5, A6 A49 are 1st Abib with respect to Religious 49 - Year Lunisolar Cycle.																							1st day of Tebeth = From 6 PM on 23rd Dec., to 6 PM on 24th Dec., CE 2022.											

Where d1, d2, d3, d4, d5 d50 are The Day of Atonement with respect to Civil 50 - Year Lunisolar Cycle. D1, D2, D3, D4, D5 D49 are the Day of Atonement with respect to Religious 49 - Year Luni Solar Cycle. So d1 = D49 = d50. A1, A2, A3, A4, A5, A6 A49 are 1st Abib with respect to Religious 49 - Year Lunisolar Cycle.

1st day of Tebeth = From 6 PM on 23rd Dec., to 6 PM on 24th Dec., CE 2022.

Research: This is the time to realize that NASA, IAU, and all religious leaders are misleading the World under the veil of Science, and Religion.

Please prove me your Gift of Holy Spirit if YHWH elected you to prove His Calendar Formula in terms of 7 times 7 Years = 606 Lunar Months = 17,896 days (1 Thess. 5:21; Job 34:1-4; Jer. 33:19-26, 23:13-29; 1 Cor. 9:1-3; 11:19; 5:6-8).

* * Yahweh commanded His people to count for 49 YEARS in terms of 7 times 7 years (Lev. 25:8-9). Are not 17,896 days = 606 Lunar Months = 7 times 7 years? Please get the length of Lunar month and Tropical Year with this.

So many Rabbis/Prophets calculated wrongly the Appointed times of Yahweh each year with the help of Gentile Grecian 19 - Year Luni Solar Cycle. This tradition came into existence since CE 135 (Matt. 23:1-39).

RESEARCH: Did you realize that the time between any two consecutive JUBILEE YEARS are 17,896? So you don't have any authority (Ezk. 46:14) to prepone or postpone Yahweh's Appointed times. **SEARCH:**

(A) C 606 = Number of civil months completed out of 606 civil months in Civil 49 - Year Lunisolar Cycle. (B) CCM = Number of Civil months completed from the Creation of sun, moon and stars (Jer. 31:35-37). (C) Year = Roman Year (Daniel 7:7-8, 23-25). (D) M = Month. (E) D = Day. (F) H = Hours	A = Lunar Month; EM = Extra Month;	(X) CCM X A = CCM X 29.53135314 days; (Y) C 606 X A = C 49 X 29.53135314 Days. Where A = 29.53135314 days (Z) R 606 X A = R 49 X 29.53135314 Days. Note: Very first 7 - Day Weekly Cycle begins from 6 PM on 20th February, 4234 BCE (Genesis 1:1-31, 2:1-3; Matt. 24:35). (AA) RCM X A = RCM X 29.53135314 Days.
(G) M = Minutes. (H) S = Seconds. (I) DW = Day of Week; DC = Days Completed; (J) D/M = Days per Month according to Leviticus 25:8, 9; Nehemiah 8:1-3, 12 - 13; Acts 2:1 - 16; Genesis 18:14, 1:14-19; 8:22; Numbers 23:19; Jeremiah 31:35-37, 33:19-26; Job 26:7, 38:31-36; Psalms 104:5, 19-27, 19:1-4; John 11:9; Deuteronomy 11:12; Exodus 34:22; Ezk. 5:5, 38:12; Matthews 24:35).		CCC = Number of Civil Cycles Completed or Number of Civil 49 - Year Luni Solar Cycles completed from the Creation of Sun, Moon and stars; RCC = Number of Religious Cycles Completed or Number of Religious 49 - Year Lunisolar Cycles completed from Canaan. DL = Degrees of Longitudes discovered by Scientists (UK is the center of the Globe in this case).
(K) New Moon Day according to Israel Local Standard Time (II.LST) which is confined according to (1a). Celebrate the New Moon Day (or 1st Day of Launar Month) from previous evening (6 PM) to next evening if the New Moon begins between 0 hours and 9 hours. (1b) Celebrate the New Moon Day from evening (6 PM) to next evening (6 PM) if the New Moon begins between 9 hours, and 24 hours of any date (Nehemiah 8:3-12; Acts 2:14-16; Num. 28:11-14, 1-8). Jews came next day again (Neh. 8:13).		DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me (Jerusalem is center - Eze.5:5, 38:12). 35°E = Jerusalem situated = The Scriptural Zero Degrees of Longitudes determined by Yahweh (Jer. 33:19 - 26). * RY/3 = Number of Years of Tithe completed (If the remainder is ZERO)[Deuteronomy 14:28-29; 26:12-16] ** RY/7 = Number of Sabbatical Years completed (If the remainder is ZERO)[Leviticus 25:1-7]. *** RY/49 = Number of Jubilee Years completed (If the remainder is ZERO)[Leviticus 25:8 - 55].
So this proves that Priests knew the formula. (L) Full Moon day = 15th day of each Lunar Month. (M) = Name of Religious Month completed while next month begins; (N) RM = Religious Month completed as 1/1, 2/1, 3/1 ... 12/49 of R49; (O) CM = Civil Month completed as 1/1, 2/1, 3/1 ... 12/49 of C49; (P) = R 606 = Number of Religious Months completed out of 606 months of in Religious 49 - Year Cycle; (Q). RCM = Number of Religious Months Completed from the plains of Moab or from the land of Canaan (Numbers 33:48-56; Lev. 25:1-9).		Special Note: ZERO residue is remained at the end of each 49 - Year Lunisolar Cycle; CCC = CY/49 = Number of Civil Cycles Completed (If the Remainder is Zero); RCC = RY/49 = Number Religious Cycles compld (If the remainder is ZERO). ** The Phases of Moon produced by NASA are entirely different from Yahweh's Formula. R606 = C606 - 6 where 6 lunar months are constant.
Where RCM = CCM - 33,336 (Note: Religious New Years and Sabbatical etcetera began according to Lev. 25:1-9).		Special Note: Don't follow Phases of Moon produced by NASA because they are inaccurate!
(R) RY = MH = Number of Religious Years completed from the Land of Milk and Honey (Leviticus 25:1-9);		* Note: All Scriptural Religious New Years should be counted from end of 33,336 CCM only.
CY = SM = Number of Civil Years completed from the date of the Creation of Sun, Moon and stars (Genesis 1:1-19).		RCE = CCM - 32,841 where 32,841 lunar months are Constant.
(S) YR = Number of Religious Years completed out of 49 Religious Years according to R 606;		Example: RCE = CCM - 32,841 = 33,336 - 32,841 = 495 Religious months (40 years of journey ONLY).
YC = Number of Civil Years completed out of 49 Civil Years according to C 606.		RCE = Number of Religious Months completed from 1st Religious New Moon in Egypt .
(T) D/YR = Days per YR. D/YC = Days per YC.; ND20 = Number of Days completed from 6 PM on 20th Feb., 4234 BCE.		For more details about the Creator, please study in www.yhwhcalendar.com
(U) NS 20 = Number of Sabbaths completed from 6 PM on 20th February, 4234 BCE, at 35 °E (Genesis 1:1-31, 2:1-3).		SPECIAL NOTE: Please remember that Israelis didn't follow gentile astronommer between
Special Note: Every Scriptural day takes 86,400 seconds (= 24 Hours) is true according to John 11:9. NASA discovered that day takes 86,164 seconds strictly which is disproved by the Creator, Yahweh. Note: Nearly 1 day lags at the end of 365 days if we follow this theory. Please note this point!!!!(1 Cor. 1:19-25) So don't trust in NASA (Phases of Moon) which is leading into the bottomless pit (Rev. 13:8, 20:12-15).		1579 BCE and CE 135 because Mose, the Prophet wrote Yahweh's Formula in Leviticus 25:8-9. The below web link is extremely useful to verify all my Calculations. http://www.astropixels.com/ephemeris/phasescat/phasescat.html The above link gives Phases of Moon from 2000 BCE to CE 4000.

The above New Moon Report, length of Day (86,400 seconds per Day), Lunar Month (29.53135314 days), Tropical Year (365.2244898 days), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle (Leviticus 25:8-9; Jeremiah 33:19-26) is satisfying the below History, and Chrnology. So the above proofs are scientific, Historical, and practical. Yahweh didn't tell that go and observe the Visiblle Crescent, and barley ears. Beware of false Prophets, and astronomers!!!

Note: Please remember that Yahweh commanded to count for 49 years like 7 times 7 years to keep Jubilee Years, Yom Kippur and so on but not COMMANDED that go and observe the VISIBLE CRESCENT to keep the beginning of each month, and BARLEY EARS to keep 1st Abib. Yahweh fixed His Plan of Salvation and some events before the foundations of the Earth (Exodus 32:31-33; Acts 4:27-28; Jeremiah 1:4-6; Psalms 139:16; Galatians 1:15; Ephesians 1:4-12; Revelations 13:8-10, 20:15, etc.). The elected people are counted before the foundations of the Earth (Revelations 7:1-8). Yahweh knows the thoughts of all people (Deuteronomy 31:16-21). So Yahweh knows the dates of all His Appointed times according to His Luni Solar Calendar formula (Lev. 25:8-12, 13-55). So His Calendar is calculated before He created Sun, Moon, and stars (Hebrews 4:3). So the length of Day (86,400 seconds per 360° per 1 day), Lunar Month (29.53135314 days per 360°), Tropical Year (365.2244898 days per 360° per year), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle are Constant forever. So you should observe both the phenomena of New Moon Cresent and Full Moon for the sake of confirmation of your calculations only (1 Thes. 5:21) but you don't have any such authority to prepone or postpone Yahweh's Appointed Times. Every New Moon Crescent may visible or may not visible around the Globe at the beginning time of each Lunar Month. We know that the Age of the Moon is Constant around the Globe whereas the time varies according to the Longitudes. We can simply calculate the time and Age of every Crescent. So we can keep each New Moon Festival (Beginning of Month) even if the Crescent has not appeared in Israel but it may appear in any country. Earth, Sun, Moon, and stars are not created for Jews only but all (Matthews 5:45). Every New Moon Crescent may appear in any one country at least according to the Formula. All true calculations are not fiction but science (Job 38:1-33; Jer. 33:19-26).

77,374TH NEW MOON OR TEBETH REPORT IN DECEMBER CE 2022 - ESTHER 2:16; GENESIS 1:13-19; NUM. 10:10, 23:19; DEUT. 11:11-12; JER. 33:19-26, 31:35-37, 32:26-27 ETC.

77,373 Scriptural Lunar Months are completed from 18 hours (6pm) on 23rd Feb., 4234 BCE to 03 hrs., 16 m, and 2.496 s., on 24th Dec., CE 2022 according to 49 - Year Luni Solar Cycle (Lev. 25:8-9; Gen. 1:13-19; John 11:9).

Yahweh's Lunar Month = 29.53135314 days (17,896 days ÷ 606 Months); Yahweh's Tropical Year = 365.2244898 days (17,896 days ÷ 49 Years). Yahweh's Formula = 49 Years = 17,896 days = 606 Lunar Months = 588 Tropical Months.

Let's calculate the end of 77,373rd Lunar Month from the date of the Creation of Sun, Moon and stars (From 6 PM of 23rd February, 4234 BCE, at 35E) according to Yahweh's Formula.

77,373 Lunar Months = 77,373 Lunar Months X 29.53135314 days = 2,284,929.386 days = 2,284,929 days + Residue. The Residue = 09 hours, 16 minutes and 2.496 seconds (Num. 10:10; Deut. 11:11-12).

2,284,929 days are there between (a) and (b). You can check these days with the below link.

Year	Month	Day	Hours	Min.	Sec.	DW	DL	DLM	Country	Case
4234 BCE	Feb.	23	06	00	00	Tue.	145°W	-180°	Alaska, USA	(a1)
4234 BCE	Feb.	23	18	00	00	Tue.	35°E	0°	Israel	(a)
http://astropixels.com/ephemeris/calendarconverter.html This link gives 2,284,929 days										
CE 2022	Dec.	23	18	00	00	Fri.	35°E	0°	Israel	(b)

At (a, a1) = Genesis 1:13-19, 18:14; Num. 11:23, 23:19; Jeremiah 32:26-27, 31:35-37, 33:19-26; 2 Tim. 2:13.

Very first Sun rays appears as Sunrise at (a1) according to the principles determined by Yahweh (Job 38:1-33). Let's add the Residue to (b) to get the end of 77,373rd Lunar Month. **So Tebeth (77,374th Month) begins at (1).**

Year	Month	Day	Hours	Min.	Sec.	DOW	Country	DL	DLM	CY	Case
CE 2022	Dec.	23	18	00	00	Fri.	Israel	35°E	0°		(b)
			+ 09	+16	2.496		http://whenisthenewmoon.com/				
CE 2022	Dec.	24	03	16	2.496	Sat.	Israel	35°E	0°	-	(1)

But NASA calculated the beginning time of New Moon as 10 hrs., 17 m., on 23rd Dec., CE 2022 = FAKE forever!

For New Moon report: <https://truthofyahweh.org/moon.htm> <https://paleotimes.org/blog/>

Therefore 77,373rd Month ends while 77,374th Month (1st Tebeth) begins at (1).

1st day of Tebeth or 77,374th New Moon Day = 6 PM on 23rd Dec., to 6 PM on 24th Dec., CE 2022.

77,374th Scriptural Lunar Month or Tebeth begins strictly at (1) and as below according to the Book of Yahweh (Isaiah 34:16; Numbers 28:1-15; Nehemiah 8:1-13; Acts 2:15; 2 Timothy 2:13; Numbers 10:10; Deut. 11:11-14).

Time According to Head (DLM)	DLM	Total Age of Sun, Moon, and stars (Genesis 1:13-19; Jeremiah 32:26-27)	77,374th Scriptural Lunar Month (Yahweh's Lunar Month or Tebeth) strictly begins as below (Say BT)											1st Day of Tebeth or 77,374th Month (Deut. 11:11-12, 17:8-13; Num.10:10)	Age at RT = RT - BT	Required Time of the Phase of Moon (Say RT)

Yahweh's Universal Luni Solar Clock is Working from (1) to (14) only. The very First Sun rays appeared as Sunset at (a) whereas the same Sunrays appeared as Sunrise at (a1) only on the Globe in the beginning. Where DL = Degrees of Longitudes; DLM = Degrees of Longitudes determined by Yahweh (Amos 3:7; 1 Cor. 2:10-15, 12:4-31; John 16:1-14; John 18:37-38; Isa. 45:12; Jer. 31:35-37, 33:19-26, 32:26-27; Num. 23:19; Eze. 12:28 etc.); DWE = Degrees completed behind Israel while rotating from West to East; Mo. = Month; Hrs. = Hours; Min. = Minutes; Sec. = Seconds; d = days; DOW = Day of Week; BT = Beginning Time of Lunar Month; RT = Required Time of Phase of the Moon.

(1). Celebrate the beginning of Scriptural Lunar Month (Numbers 10:10) from previous evening (6 PM) to next evening (6 PM) if the Scriptural month begins between **0 hours and 9 hours** of any date with respect to Israel (Num. 28:4, 11-15; Neh. 8:1-3, 13; Mark 15:25; Acts 2:14-16). (2). Celebrate the beginning of Scriptural Month from evening (6 PM) to next evening (6 PM) if the Scriptural month begins between **9 hours and 24 hours** of any date.. (3). Yahweh's Formula is Constant forever (Jeremiah 33:19-26, 32:26-27; Matt. 24:35). So 1 day = 86,400 seconds per 360 °; 1 Lunar Month = 29.53135314 days per 360°; and 1 Tropical Year = 365.2244898 days per 360°.

NB: The time of the burnt offering of each "Beginning of Month" is 9 hours (9 AM) - Mark 15:25 Cf. Matt. 5:17-18; Num. 10:10. That's why Israelites celebrated the 1st day of the 7th month from 8 AM to 12 AM strictly (Neh. 8:1-12). Crescent - 1 is Age of the Scriptural Lunar Month whereas Crescent - 2 is the Age of the previous month. The length of Scriptural Tropical Year (365.2244898 days) is Constant because of the volume of the Moon from the beginning to end of each Lunar Month (29.53135314 days) is Constant in 49 - Year Luni Solar Cycle. Yahweh determined that to which month takes 29 days and to which month takes 30 days (Gen. 1:13-19; Psalms 104:19; Job 38:1-33). So you can't confine or modify the length of Day, Lunar Month and Tropical Year. So count each month by using Yahweh's Formula (Lev. 25:8-9) which is 606 months = 49 Years = 17,896 days.

Research: The beginning and end of each Month (Duet. 11:11-12) is important. "UT ± H M S" is a scientific concept if the Earth is stopped and UK is center of the Globe. NUT (New Universal Time) = "II.LST - H M S" is "The Scientific Concept" because Jerusalem is the center of the Globe (Genesis 1:1-19). And Time, and Phases of the Moon begins from Jerusalem only (Genesis 1:13-19). There is no Scientific proof that time, and Phases of the Moon begins from UK or any country. "UT - H M S" is scientific if the Earth is rotating from Went to East and UK is center of the Globe. So UT is disproved once again. Yahweh proves that time, and Phases of the Moon begins from Jerusalem (ISRAEL) only in His Book in Genesis 1:1-31, 2:1-3; Lev. 25:8-9; Ezk. 5:5, 38:12; Psalms 104:19; John 11:9; Job 26:7, 38:1-33; Jer. 33:19-26, 31:35-37)!

WHICH UNIVERSAL LUNI SOLAR CLOCK IS SCIENTIFIC AND WHERE IT IS WRITTEN?

VOLUME OF MOON IS CONSTANT SO THE SCRIPTURAL LUNAR MONTH AND TROPICAL YEAR IS CONSTANT!

P = THE UNIVERSAL LUNI SOLAR CLOCK OF YAHWEH (The Creator)												Q = THE UNIVERSAL LUNI SOLAR CLOCK OF ASTRONOMERS													
Tebeth begins as below according Yahweh as Jerusalem is center of the Globe and Head of Time												Tebeth begins as below according to NASA or IAU if Jerusalem is center of the Globe and Head of Time

Yahweh's Universal Luni Solar Clock is working from (1) to (12). "P" is satisfying the date of the Creation of Sun, Moon and stars, the 7 - Day Weekly Cycle and so on. Please see the below poofs of "P" (Genesis 1:1-31, 2:1-3).

Astronomers' Clock is working from (1) to (6) and (1) to (r) via (p) which is true if the earth is stopped.

So "Q" is not proved as it didn't prove any 7 - Day Weekly Cycle of any date by giving nights and daytimes.

So Yahweh's Universal Luni Solar Clock is Scientific and it's formula is written in Leviticus 25:8-9. Formula = 7 Times 7 years = 49 Years = 606 Lunar Months = 17,896 days = 588 Tropical Months (Lev. 25:8-9; Jeremiah 33:19-26).

NB: II.LST = Israel Local Standard Time at 35 °E Jerusalem; D = d = days; H = Hrs., = h = hours; M = Min. = m = minutes; S = Sec. = s = seconds; DWE = Degrees completed behind Israel while the Earth is rotating on its axis from West to East strictly from 6 PM on 20th Feb., 4234 BCE, at 35 °E, Jerusalem (Genesis 1:1-19); DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me; DL = Degrees of Longitudes; DLA = Degrees of Longitudes decided by Astronomers.

These two diagrams give us some plain understanding about "Lightrise and Lightset; Sunrise and Sunset" because Yahweh created "Light" before He created Sun, Moon and stars. 6,000 Years Phases of the Moon (NASA) is fake.

Example:

Diagrams are taken from NASA. God bless NASA ever!

Research: Universal 7 - Day Weekly Cycle is counted from 18 hours (6 PM) on 20th Feb., 4234 BCE, at 35°E Jerusalem only. The very first Sunrises indicated as Sunrise at (a1) whereas indicated as Sunset at (a) on the **Globe**. NASA/IAU failed to prove that Yahweh is the Creator with the help of 49 - Year Luni Solar Cycle and 49 - Year Tropical Cycle which is the formula of "The Universal Luni Solar Clock, the Sun, and Moon". The formula of Yahweh's Clock is written in the Book of Yahweh as 49 YEARS in Lev. 25:8-9. This formula only gives accurate Seasons, Phases of the Moon etcetera.

Yahweh, the Creator created Sun, Moon, and stars as below in the beginning (Genesis 1:13-19)										
Year	Month	D	H	M	S	Country	Yahweh's Clock	DLM	Very first	DL
4234 BCE	Feb.	23	06	00	00	Alaska	II.LST - 12 hours	- 180°	Sunrise (a1)	145°W

V or VW = Crescent is Visible if Sun, Weather, Longitudes, and Latitudes are suitable. Month = 29.53135314 days (29d, 12h, 45m, 8.91088992s)																		ES = The Eastern Sky; WS = The Western Sky (Psalms 104:19, 19:1-4; Job 26:7).			

"Yahweh's Universal Luni Solar Clock" is working from (1) to (14) only. BT = Beginning Time of Lunar Month or Beginning of the Scriptural Lunar Month (Numbers 10:10; Deut. 11:11-12); RT = Required Time of Phase of the Moon.

Extra Month is occurring according to the formula of Yahweh's Luni Solar Calendar only but not according to the RIPENED BARLY CORNS. Please remember that crops are cursed in many years because Israelis and gentiles are rejecting Commanments of Yahweh (Deut. 11:11-17 etc.). Even Priests didn't go to the barley fields to observe whether the barley ears are ripened properly or not. Proof: 0b00, z20 or 1b Case - 5i in www.yahwehcalendar49.com

Where d1, d2, d3, d4, d5 d50 are The Day of Atonement with respect to Civil 50 - Year Lunisolar Cycle. D1, D2, D3, D4, D5 D49 are the Day of Atonement with respect to Religious 49 - Year Luni Solar Cycle. So d1 = D49 = d50. A1, A2, A3, A4, A5, A6 A49 are 1st Abib with respect to Religious 49 - Year Lunisolar Cycle.																						1st day of Sebat = From 6 PM on 22nd Jan., to 6 PM on 23rd Jan., CE 2023.										

Research: This is the time to realize that NASA, IAU, and all religious leaders are misleading the World under the veil of Science, and Religion.

Please prove me your Gift of Holy Spirit if YHWH elected you to prove His Calendar Formula in terms of 7 times 7 Years = 606 Lunar Months = 17,896 days (1 Thess. 5:21; Job 34:1-4; Jer. 33:19-26, 23:13-29; 1 Cor. 9:1-3; 11:19; 5:6-8).

* * Yahweh commanded His people to count for 49 YEARS in terms of 7 times 7 years (Lev. 25:8-9). Are not 17,896 days = 606 Lunar Months = 7 times 7 years?

So many Rabbis/Prophets calculated wrongly the Appointed times of Yahweh each year with the help of Gentile Grecian 19 - Year Luni Solar Cycle. This tradition came into existence since CE 135 (Matt. 23:1-39).

RESEARCH: Did you realize that the time between any two consecutive JUBILEE YEARS are 17,896? So you don't have any authority (Ezk. 46:14) to prepone or postpone Yahweh's Appointed times.

SEARCH:

(A) C 606 = Number of civil months completed out of 606 civil months in Civil 49 - Year Lunisolar Cycle. (B) CCM = Number of Civil months completed from the Creation of sun, moon and stars (Jer. 31:35-37). (C) Year = Roman Year (Daniel 7:7-8, 23-25). (D) M = Month. (E) D = Day. (F) H = Hours (G) M = Minutes. (H) S = Seconds. (I) DW = Day of Week; DC = Days Completed; (J) D/M = Days per Month according to Leviticus 25:8, 9; Nehemiah 8:1-3, 12 - 13; Acts 2:1 - 16; Genesis 18:14, 1:14-19; 8:22; Numbers 23:19; Jeremiah 31:35-37, 33:19-26; Job 26:7, 38:31-36; Psalms 104:5, 19-27, 19:1-4; John 11:9; Deuteronomy 11:12; Exodus 34:22; Ezk. 5:5, 38:12; Matthews 24:35).	A = Lunar Month; EM = Extra Month;	(X) CCM X A = CCM X 29.53135314 days; (Y) C 606 X A = C 49 X 29.53135314 Days. Where A = 29.53135314 days (Z) R 606 X A = R 49 X 29.53135314 Days. (AA) RCM X A = RCM X 29.53135314 Days.	Note: Very first 7 - Day Weekly Cycle begins from 6 PM on 20th February, 4234 BCE (Genesis 1:1-31, 2:1-3; Matt. 24:35).
(K) New Moon Day according to Israel Local Standard Time (II.LST) which is confined according to (1a). Celebrate the New Moon Day (or 1st Day of Launar Month) from previous evening (6 PM) to next evening if the New Moon begins between 0 hours and 9 hours. (1b) Celebrate the New Moon Day from evening (6 PM) to next evening (6 PM) if the New Moon begins between 9 hours, and 24 hours of any date (Nehemiah 8:3-12; Acts 2:14-16; Num. 28:11-14, 1-8). Jews came next day again (Neh. 8:13). So this proves that Priests knew the formula. (L) Full Moon day = 15th day of each Lunar Month. (M) = Name of Religious Month completed while next month begins; (N) RM = Religious Month completed as 1/1, 2/1, 3/1 ... 12/49 of R49; (O) CM = Civil Month completed as 1/1, 2/1, 3/1 ... 12/49 of C49; (P) = R 606 = Number of Religious Months completed out of 606 months of in Religious 49 - Year Cycle; (Q). RCM = Number of Religious Months Completed from the plains of Moab or from the land of Canaan (Numbers 33:48-56; Lev. 25:1-9). Where RCM = CCM - 33,336 (Note: Religious New Years and Sabbatical etcetera began according to Lev. 25:1-9).		CCC = Number of Civil Cycles Completed or Number of Civil 49 - Year Luni Solar Cycles completed from the Creation of Sun, Moon and stars; RCC = Number of Religious Cycles Completed or Number of Religious 49 - Year Lunisolar Cycles completed from Canaan. DL = Degrees of Longitudes discovered by Scientists (UK is the center of the Globe in this case). DLM = Degrees of Longitudes determined by Yahweh and is revealed to Me (Jerusalem is center - Eze.5:5, 38:12). 35°E = Jerusalem situated = The Scriptural Zero Degrees of Longitudes determined by Yahweh (Jer. 33:19 - 26). * RY/3 = Number of Years of Tithe completed (If the remainder is ZERO)[Deuteronomy 14:28-29; 26:12-16] ** RY/7 = Number of Sabbatical Years completed (If the remainder is ZERO)[Leviticus 25:1-7]. *** RY/49 = Number of Jubilee Years completed (If the remainder is ZERO)[Leviticus 25:8 - 55].	
(R) RY = MH = Number of Religious Years completed from the Land of Milk and Honey (Leviticus 25:1-9); CY = SM = Number of Civil Years completed from the date of the Creation of Sun, Moon and stars (Genesis 1:1-19).		Special Note: ZERO residue is remained at the end of each 49 - Year Lunisolar Cycle; CCC = CY/49 = Number of Civil Cycles Completed (If the Remainder is Zero); RCC = RY/49 = Number Religious Cycles compled (If the remainder is ZERO). ** The Phases of Moon produced by NASA are entirely different form Yahweh's Formula. R606 = C606 - 6 where 6 lunar months are constant.	
(S) YR = Number of Religious Years completed out of 49 Religious Years according to R 606; YC = Number of Civil Years completed out of 49 Civil Years according to C 606.		Special Note: Don't follow Phases of Moon produced by NASA because they are inaccurate! * Note: All Scriptural Religious New Years should be counted from end of 33,336 CCM only. RCE = CCM - 32,841 where 32,841 lunar months are Constant.	
(T) D/YR = Days per YR; D/YC = Days per YC; ND20 = Number of Days completed from 6 PM on 20th Feb., 4234 BCE.		Example: RCE = CCM - 32,841 = 33,336 - 32,841 = 495 Religious months (40 years of journey ONLY). RCE = Number of Religious Months completed from 1st Religious New Moon in Egypt .	
(U) NS 20 = Number of Sabbaths completed from 6 PM on 20th February, 4234 BCE, at 35 °E (Genesis 1:1-31, 2:1-3). Special Note: Every Scriptural day takes 86,400 seconds (= 24 Hours) is true according to John 11:9. NASA discovered that day takes 86,164 seconds strictly which is disproved by the Creator, Yahweh. Note: Nearly 1 day lags at the end of 365 days if we follow this theory. Please note this point!!!!(1 Cor. 1:19-25) So don't trust in NASA (Phases of Moon) which is leading into the bottomless pit (Rev. 13:8, 20:12-15).		For more details about the Creator, please study in www.yahwehcalendar49.com SPECIAL NOTE: Please remember that Israelis didn't follow gentile astronommer between 1579 BCE and CE 135 because Mose, the Prophet wrote Yahweh's Formula in Leviticus 25:8-9. The below web link is extremely useful to verify all my Calculations. http://www.astropixels.com/ephemeris/phasescat/phasescat.html The above link gives Phases of Moon from 2000 BCE to CE 4000.	

The above New Moon Report, length of Day (86,400 seconds per Day), Lunar Month (29.53135314 days), Tropical Year (365.2244898 days), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle (Leviticus 25:8-9; Jeremiah 33:19-26) is satisfying the below History, and Chrnology. So the above proofs are scientific, Historical, and practical. Yahweh didn't tell that go and observe the Visiblle Crescent, and barley ears. Beware of false Prophets, and astronomers!!!

Note: Please remember that Yahweh commanded to count for 49 years like 7 times 7 years to keep Jubilee Years, Yom Kippur and so on but not COMMANDED that go and observe the VISIBLE CRESCENT to keep the beginning of each month, and BARLEY EARS to keep 1st Abib. Yahweh fixed His Plan of Salvation and some events before the foundations of the Earth (Exodus 32:31-33; Acts 4:27-28; Jeremiah 1:4-6; Psalms 139:16; Galatians 1:15; Ephesians 1:4-12; Revelations 13:8-10, 20:15, etc.). The elected people are counted before the foundations of the Earth (Revelations 7:1-8). Yahweh knows the thoughts of all people (Deuteronomy 31:16-21). So Yahweh knows the dates of all His Appointed times according to His Luni Solar Calendar formula (Lev. 25:8-12, 13-55). So His Calendar is calculated before He created Sun, Moon, and stars (Hebrews 4:3). So the length of Day (86,400 seconds per 360° per 1 day), Lunar Month (29.53135314 days per 360°), Tropical Year (365.2244898 days per 360° per year), 49 - Year Luni Solar Cycle, and 49 - Year Tropical Cycle are Constant forever. So you should observe both the phenomena of New Moon Cresent and Full Moon for the sake of confirmation of your calculations only (1 Thes. 5:21) but you don't have any such authority to prepone or postpone Yahweh's Appointed Times. Every New Moon Crescent may visible or may not visible around the Globe at the beginning time of each Lunar Month. We know that the Age of the Moon is Constant around the Globe whereas the time varies according to the Longitudes. We can simply calculate the time and Age of every Crescent. So we can keep each New Moon Festival (Beginning of Month) even if the Crescent has not appeared in Israel but it may appear in any country. Earth, Sun, Moon, and stars are not created for Jews only but all (Matthews 5:45). Every New Moon Crescent may appear in any one country at least according to the Formula. All true calculations are not fiction but science (Job 38:1-33; Jer. 33:19-26).

Hebrew Bible (Protocanonical Old Testament)^[edit]

Tiglath-Pileser III: [stela](#) from the walls of his palace ([British Museum](#), [London](#)).

The [Hebrew Bible](#), known in [Judaism](#) by the acronym *Tanakh*, is the collection of ancient writings that are considered [sacred](#) by both Jews and [Christians](#). They tell the story of the [Jewish people](#) and their ancestors, starting from the [creation narrative](#) and concluding near the end of the 5th century BCE.

Although the first mention of the name '[Israel](#)' in [archaeology](#) dates to the 13th century BCE,^[1] contemporary information on the Israelite nation prior to the 9th century BCE is extremely sparse.^[2] In the following centuries a small number of local Hebrew documents, mostly seals and [bullae](#), mention biblical characters, but more extensive information is available in the royal inscriptions from neighbouring kingdoms, particularly [Babylon](#), [Assyria](#) and [Egypt](#).^[2]

Name	Title	Date (BCE) ^[n 2]	Attestation and Notes	Biblical references ^[n 3]
Adrammelech	Prince of Assyria	fl. 681	Identified as the murderer of his father Sennacherib in the Bible and in an Assyrian letter to Esarhaddon (ABL 1091), where he is called "Arda-	Is. 37:38 , 2

Name	Title	Date (BCE) ^[n 2]	Attestation and Notes	Biblical references ^[n 3]
			Mulissi". ^{[3][4]}	Kgs. 19:37 †
Ahab	King of Israel	c. 874 – c. 853	Identified in the contemporary Kurkh Monolith inscription of Shalmaneser III ^[5] which describes the Battle of Qarqar and mentions "2,000 chariots, 10,000 soldiers of Ahab the Israelite" defeated by Shalmaneser, though the actual number of chariots is disputed. ^[6]	1 Kgs. 17 , 2 Chr. 18
Ahaz	King of Judah	c. 732 – c. 716	Mentioned in a contemporary Summary Inscription of Tiglath-Pileser III which records that he received tribute from "Jehoahaz of Judah". ^[7] Also identified in royal bullae belonging to Ahaz himself ^[8] and his son Hezekiah. ^[9]	2 Kgs. 16 , Hos. 1:1 , Mi. 1:1 , Is. 1:1
Apries	Pharaoh of Egypt	589–570	Also known as Hophra; named in numerous contemporary inscriptions including those of the capitals of the columns of his palace. ^{[10][11]} Herodotus speaks of him in <i>Histories</i> II, 161–171. ^[12]	Jer. 44:30 †
Artaxerxes I	King of Persia	465–424	Widely identified with "Artaxerxes" in the book of Nehemiah . ^{[13][14]} He is also found in the writings of contemporary historian Thucydides . ^[15] Scholars are divided over whether the king in Ezra's time was the same, or Artaxerxes II .	Neh. 2:1 , Neh. 5:14
Ashurbanipal	King of Assyria	668 – c. 627	Generally identified with "the great and noble Osnappar", mentioned in the Book of Ezra . ^{[16][17]} His name survives in his own writings, which describe his military campaigns against Elam , Susa and other nations. ^{[18][19]}	Ezr. 4:10 †

Name	Title	Date (BCE) ^[n 2]	Attestation and Notes	Biblical references ^[n 3]
Belshazzar	Coregent of Babylon	c. 553–539	Mentioned by his father Nabonidus in the Nabonidus Cylinder . ^[20] According to another Babylonian tablet, Nabonidus "entrusted the kingship to him" when he embarked on a lengthy military campaign. ^[21]	Dn. 5 , Dn. 7:1 , Dn. 8:1
Ben-Hadad I	King of Aram Damascus	c. 885-865	Mentioned in the Melqart stele .	1 Kings 15:20
Ben-Hadad II (Hadadezer)	King of Aram Damascus	c. 865-842	Mentioned in the Kurkh Monoliths as one of the kings allegedly defeated by Shalmaneser III of Assyria.	1 Kings 201 Kings 22,2 Kings 12
Ben-Hadad III	King of Aram Damascus	early 8th century	Mentioned in the Zakkur Stele . ^[22] A son of Hazeal , he is variously called Ben-Hadad/Bar-Hadad II/III.	2 Kgs. 13:3 , 2 Kgs. 13:24
Cyrus II	King of Persia	559–530	Appears in many ancient inscriptions, most notably the Cyrus Cylinder . ^[23] He is also mentioned in Herodotus' Histories .	Is. 45:1 , Dn. 1:21
Darius I	King of Persia	522–486	Mentioned in the books of Haggai , Zechariah and Ezra . ^{[24][25]} He is the author of the Behistun Inscription . He is also mentioned in Herodotus' Histories .	Hg. 1:1 , Ezr. 5:6
Esarhaddon	King of Assyria	681–669	His name survives in his own writings, as well as in those of his son Ashurbanipal. ^{[26][27]}	Is. 37:38 , Ezr.

Name	Title	Date (BCE) ^[n 2]	Attestation and Notes	Biblical references ^[n 3]
				4:2
Evil Merodach	King of Babylon	c. 562–560	His name (Akkadian <i>Amēl-Marduk</i>) and title were found on a vase from his palace, ^[28] and on several cuneiform tablets. ^[29]	2 Kgs. 25:27 , Jer. 52:31 †
Hazael	King of Aram Damascus	c. 842 – c. 800	Shalmaneser III of Assyria records that he defeated Hazael in battle and captured many chariots and horses from him. ^[30] Most scholars think that Hazael was the author of the Tel Dan Stele . ^[31]	1 Kgs. 19:15 , 2 Kgs. 8:8 , Am. 1:4
Hezekiah	King of Judah	c. 715 – c. 686	An account is preserved by Sennacherib of how he besieged "Hezekiah, the Jew", who "did not submit to my yoke", in his capital city of Jerusalem. ^[32] A bulla was also found bearing Hezekia's name and title, reading "Belonging to Hezekiah [son of] Ahaz king of Judah". ^{[9][33]}	2 Kgs. 16:20 , Prv. 25:1 , Hos. 1:1 , Mi. 1:1 , Is. 1:1
Hoshea	King of Israel	c. 732 – c. 723	He was put into power by Tilgath-Pileser III, king of Assyria, as recorded in his <i>Annals</i> , found in Calah. ^[34]	2 Kgs. 15:30 , 2 Kgs. 18:1
Jehoash	King of Israel	c. 798 – c. 782	Mentioned in records of Adad-nirari III of Assyria as "Jehoash of Samaria". ^{[35][36]}	2 Kgs. 13:10 , 2 Chr. 25:17

Name	Title	Date (BCE) ^[n 2]	Attestation and Notes	Biblical references ^[n 3]
Jehoiachin	King of Judah	598–597	He was taken captive to Babylon after Nebuchadrezzar first captured Jerusalem. Texts from Nebuchadrezzar's Southern Palace record the rations given to "Jehoiachin king of the Judeans" (Akkadian: <i>Ya'ukin sar Yaudaya</i>). ^[37]	2 Kgs. 25:14 , Jer. 52:31
Jehu	King of Israel	c. 841 – c. 814	Mentioned on the Black Obelisk . ^[30]	1 Kgs. 19:16 , Hos. 1:4
Johanan	High Priest of Israel	c. 410 – c. 371	Mentioned in a letter from the Elephantine Papyri. ^[38]	Neh. 12:22–23
Jotham	King of Judah	c. 740 – c. 732	Identified as the father of King Ahaz on a contemporary clay bulla , reading "of Ahaz [son of] Jotham king of Judah". ^[8]	2 Kgs. 15:5 , Hos. 1:1 , Mi. 1:1 , Is. 1:1
Manasseh	King of Judah	c. 687 – c. 643	Mentioned in the writings of Esarhaddon, who lists him as one of the kings who had brought him gifts and aided his conquest of Egypt. ^{[27][39]}	2 Kgs. 20:21 , Jer. 15:4
Menahem	King of Israel	c. 752 – c. 742	The annals of Tiglath-Pileser (<i>ANET</i> ³ 283) ^[40] record that Menahem paid tribute him, as stated in the Books of Kings. ^[41]	2 Kgs. 15:14–23

Name	Title	Date (BCE) ^[n 2]	Attestation and Notes	Biblical references ^[n 3]
Mesha	King of Moab	fl. c. 840	Author of the Mesha Stele . ^[42]	2 Kgs. 3:4 †
Merodach-Baladan	King of Babylon	722–710	Named in the Great Inscription of Sargon II in his palace at Khorsabat. ^[43] Also called "Berodach-Baladan" (Akkadian: <i>Marduk-apla-iddina</i>).	Is. 39:1 , 2 Kgs. 20:12 †
Nebuchadnezzar II	King of Babylon	c. 605–562	Mentioned in numerous contemporary sources, including the inscription of the Ishtar Gate , which he built. ^[44] Also called Nebuchadrezzar (Akkadian: <i>Nabû-kudurri-uṣur</i>).	Ez. 26:7 , Dn. 1:1 , 2 Kgs. 24:1
Nebuzaradan	Babylonian official	fl. c. 587	Mentioned in a prism in Istanbul (No. 7834), found in Babylon where he is listed as the "chief cook". ^{[45][46]}	Jer. 52:12 , 2 Kgs. 25:8
Nebo-Sarsekim	Chief Eunuch of Babylon	fl. c. 587	Listed as Nabu-sharrussu-ukin in a Babylonian tablet. ^{[47][48]}	Jer. 39:3 †
Necho II	Pharaoh of Egypt	c. 610 – c. 595	Mentioned in the writings of Ashurbanipal ^[49]	2 Kgs. 23:29 , Jer. 46:2
Omri	King of Israel	c. 880 – c. 874	Mentioned, together with his unnamed son or successor, on the Mesha Stele . ^[42]	1 Kgs. 16:16 , Mi. 6:16

Name	Title	Date (BCE) ^[n 2]	Attestation and Notes	Biblical references ^[n 3]
Pekah	King of Israel	c. 740 – c. 732	Mentioned in the annals of Tiglath-Pileser III. ^[34]	2 Kgs. 15:25 , Is. 7:1
Rezin	King of Aram Damascus	died c. 732	A tributary of Tiglath-Pileser III of Assyria and the last king of Aram Damascus. ^[50] According to the Bible, he was eventually put to death by Tiglath-Pileser.	2 Kgs. 16:7–9 , Is. 7:1
Sanballat	Governor of Samaria	fl. 445	A leading figure of the opposition which Nehemiah encountered during the rebuilding of the walls around the temple in Jerusalem. Sanballat is mentioned in the Elephantine Papyri . ^{[38][51]}	Neh. 2:10 , Neh. 13:28
Sargon II	King of Assyria	722–705	He besieged and conquered the city of Samaria and took many thousands captive, as recorded in the Bible and in an inscription in his royal palace. ^[52] His name, however, does not appear in the biblical account of this siege, but only in reference to his siege of Ashdod .	Is. 20:1 †
Sennacherib	King of Assyria	705–681	The author of a number of inscriptions discovered near Nineveh . ^[53]	2 Kgs. 18:13 , Is. 36:1
Shalmaneser V	King of Assyria	727–722	Mentioned on several royal palace weights found at Nimrud. ^[54] Another inscription was found that is thought to be his, but the name of the author is only partly preserved. ^[55]	2 Kgs. 17:3 , 2 Kgs. 18:9 †

Name	Title	Date (BCE) ^[n] _{2]}	Attestation and Notes	Biblical references ^[n] _{3]}
Taharqa	Pharaoh of Egypt, King of Kush	690–664	Called "Tirhaka, the king of Kush" in the books of Kings and Isaiah. ^[56] Several contemporary sources mention him and fragments of three statues bearing his name were excavated at Nineveh. ^[57]	Is. 37:9 , 2 Kgs. 19:9 †
Tattenai	Governor of Eber-Nari	fl. 520	Known from contemporary Babylonian documents. ^{[58][59]} He governed the Persian province west of the Euphrates river during the reign of Darius I.	Ezr. 5:3 , Ezr. 6:13
Tiglath-Pileser III	King of Assyria	745–727	Numerous writings are ascribed to him and he is mentioned, among others, in an inscription by Barrakab, king of Sam'al. ^[60] He exiled inhabitants of the cities he captured in Israel.	2 Kgs. 15:29 , 1 Chr. 5:6
Xerxes I	King of Persia	486–465	Called Ahasuerus in the books of Ezra and Esther. ^{[17][61]} Xerxes is known in archaeology through a number of tablets and monuments, ^[62] notably the " Gate of All Nations " in Persepolis. He is also mentioned in Herodotus' Histories .	Est. 1:1 , Dn. 9:1 , Ezr. 4:6

Deuterocanonicals or biblical apocrypha^[edit]

[Cleopatra Thea](#) with her first husband, [Alexander Balas](#)

The [deuterocanon](#) consists of books and parts of books that are included in the Old Testament canon of the [Eastern Orthodox](#) and/or [Roman Catholic](#) churches, but are not part of the Jewish [Tanakh](#), and are regarded as [apocryphal](#) by [Protestants](#). In contrast to the Tanakh, which is preserved in Hebrew (with some Aramaic parts), the deuterocanonical books are preserved mainly in [Koine Greek](#), though Hebrew and Aramaic fragments have been found among the [Dead Sea Scrolls](#).

While the deuterocanon describes events between the eighth and second centuries BCE, most historically identifiable people mentioned in the deuterocanon lived around the time of the [Maccabean Revolt](#) (167–160 BCE), by which time [Judea](#) had become part of the [Seleucid Empire](#). Coins featuring the names of rulers had become widespread and many of them were inscribed with the year number in the [Seleucid era](#), allowing them to be dated precisely. First-hand information comes also from the Greek historian [Polybius](#) (c. 200 – c. 118 BCE), whose [Histories](#) covers much of the same period as the [Books of Maccabees](#), and from Greek and Babylonian inscriptions.

Name ^[n 4]	Title	Date (BCE) ^[n 2]	Attestation and Notes	Scriptural references ^[n 3]
Alexander Balas	King of Asia ^[n 5]	150–146	Pretended to be a son of Antiochus Epiphanes, as he is also described in 1 Maccabees. ^[63] Mentioned in Polybius' <i>Histories</i> . ^[64]	1 Macc. 10:1 , 1 Macc. 11:1

Name ^[n.4]	Title	Date (BCE) ^[n.2]	Attestation and Notes	Scriptural references ^[n.3]
Alexander the Great	King of Macedon	336–323	Referred to by Athenian orator Aeschines , ^{[65][66]} and identified on his coins. ^[67]	1 Macc. 1:1 , 1 Macc. 6:2 1 Macc. 1:10 †
Antiochus III the Great	King of Asia	222–187	Mentioned by contemporary historian Polybius . ^{[68][69]} and coins with his name have survived. ^[70]	1 Macc. 1:10 , 1 Macc. 8:6
Antiochus IV Epiphanes	King of Asia	175–164	Known from Polybius' <i>Histories</i> ^{[71][72]} and from contemporary coins. ^[73]	1 Macc. 10:1 , 2 Macc. 4:7
Antiochus V Eupator	King of Asia	163–161	Executed by his half-brother Demetrius I when he was 11 years old. Identified in an inscription from Dymi , ^[74] and on contemporary coins. ^[75]	2 Macc. 2:20 , 2 Macc. 13:1
Antiochus VI Dionysus	King of Asia	145–142	Reigned only nominally, as he was very young when his father died, ^[76] but he is identified on contemporary coins. ^[77]	1 Macc. 11:39 , 1 Macc. 12:39
Antiochus VII Sidetes	King of Asia	138–129	Dethroned the usurper Tryphon. Coinage from the period bears his name. ^[78]	1 Macc. 15 †
Ariarathes V	King of Cappadocia	163–130	Mentioned by Polybius. ^{[79][80]}	1 Macc. 15:22 †

Name ^[n.4]	Title	Date (BCE) ^[n.2]	Attestation and Notes	Scriptural references ^[n.3]
Arsinoe III	Queen of Egypt	220–204	Married to her brother, Ptolemy IV. Several contemporary inscriptions dedicated to them have been found. ^[81]	3 Macc. 1:1 , 3 Macc. 1:4 †
Astyages	King of Medes	585–550	The contemporary <i>Chronicle of Nabonidus</i> refers to the mutiny on the battlefield as the cause for Astyages' overthrow ^[82]	Bel and the Dragon 1:1 †
Attalus II Philadelphus	King of Pergamon	160–138	Known from the writings of Polybius. ^{[83][84]}	1 Macc. 15:22 †
Cleopatra Thea	Queen of Asia	126–121	First married to Alexander Balas, ^[85] later to Demetrius II and Antiochus VII, she became sole ruler after Demetrius' death. ^[86] Her name and portrait appear on period coinage. ^[86]	1 Macc. 10:57–58 †
Darius III	King of Persia	336–330	Last king of the Achaemenid Empire , defeated by Alexander the Great. Mentioned in the Samaria Papyri. ^[87]	1 Macc. 1:1 †
Demetrius I Soter	King of Asia	161–150	A cuneiform tablet dated to 161 BCE refers to him, ^[88] and Polybius, who personally interacted with Demetrius, mentions him in his <i>Histories</i> . ^{[89][90]}	1 Macc. 7:1 , 1 Macc. 9:1
Demetrius II Nicator	King of Asia	145–138, 129 – 126	Ruled over part of the kingdom, simultaneously with Antiochus VI and Tryphon. He was defeated by Antiochus VII, but regained the throne in 129 BCE. Mentioned in the Babylonian Astronomical Diaries . ^[91]	1 Macc. 11:19 , 1 Macc. 13:34

Name ^[n.4]	Title	Date (BCE) ^[n.2]	Attestation and Notes	Scriptural references ^[n.3]
Diodotus Tryphon	King of Asia	142–138	Usurped the throne after the death of Antiochus VI . Although Antiochus VII melted down most of his coins, some have been found in Orthosias . ^[78]	1 Macc. 11:39 , 1 Macc. 12:39
Eumenes II Soter	King of Pergamom	197–159	Several of his letters have survived, ^[92] and he is mentioned by Polybius. ^[93]	1 Macc. 8:8 †
Heliodorus	Seleucid legate	fl. 178	Identified in contemporary inscriptions. ^{[94][95]}	2 Macc. 3:7 , 2 Macc. 5:18
Mithridates I	King of Parthia	165–132	Also called <i>Arsaces</i> . ^[83] He captured Demetrius II as recorded in the Babylonian Astronomical Diaries. ^[91]	1 Macc. 14:2–3 , 1 Macc. 15:22 †
Perseus	King of Macedon	179–168	Son of Philip V. ^[96] Mentioned by Polybius. ^[97] and identified on his coins. ^[98]	1 Macc. 8:5 †
Philip II	King of Macedon	359–336	Father of Alexander the Great. Known from contemporary coins, ^[99] and mentioned by Aeschines. ^{[65][66]}	1 Macc. 1:1 , 1 Macc. 6:2 †
Philip V	King of Macedon	221–179	His name appears on his coins, ^[100] and in Polybius' <i>Histories</i> . ^[101]	1 Macc. 8:5 †

Name ^[n.4]	Title	Date (BCE) ^[n.2]	Attestation and Notes	Scriptural references ^[n.3]
Ptolemy IV Philopator	King of Egypt	221–204	Mentioned together with his wife and sister Arsinoe III in contemporary inscriptions from Syria and Phoenicia. ^[81]	3 Macc. 1:1 , 3 Macc. 3:12
Ptolemy VI Philometor	King of Egypt	180–145	Referred to in ancient inscriptions, ^[102] and mentioned by Polybius. ^[103]	1 Macc. 1:18 , 2 Macc. 9:29
Simon II	High Priest of Israel	Late 3rd century-early 2nd century	Praised in Sirach for his apparent role in repairing and fortifying the Temple in Jerusalem, also briefly mentioned in Josephus' <i>Antiquities</i> . ^[104]	3 Macc. 2:1 , Sirach 50:1 , Sirach 50:20 , †

New Testament^[edit]

The [Blacas Cameo](#) (20–50 CE) depicting Roman emperor [Augustus](#)

By far the most important and most detailed sources for first-century Jewish history are the works of Jewish historian [Flavius Josephus](#) (37 – c. 100 CE).^{[105][106]} These books mention many of the same prominent political figures as the New Testament books and are crucial for understanding the historical background of the emergence of Christianity.^[107] Josephus also mentions [Jesus](#) and the execution of [John the Baptist](#)^[108] although he was not a contemporary of either. Apart from Josephus, information about some New Testament figures comes from Roman historians such as [Tacitus](#) and [Suetonius](#) and from ancient coins and inscriptions.

The central figure of the New Testament is [Jesus of Nazareth](#). Despite ongoing debate concerning the authorship of many of its books, there is a consensus^{[14][109]} among modern scholars that at least some were written by a contemporary of Jesus,^{[110][111]} namely the epistles of [Paul](#), parts of which are considered [undisputed](#). However, outside the New Testament, no contemporary references to Jesus are known, unless a very early dating is assumed of some uncanonical gospel such as the [Gospel of Thomas](#). Nevertheless, some authentic first century and many second century writings exist in which Jesus is mentioned,^[in 6] leading virtually all scholars to conclude that the [historicity of Jesus](#) is well established by historical documents.^{[112][113][114]}

Gospels^[edit]

Name ^[n 7]	Title	Attestation and Notes	Biblical references ^[n 3]
Augustus Caesar	Emperor of Rome	Reigned between 27 BCE and 14 CE, during which time Jesus was born. He left behind a wealth of buildings, coins and monuments, ^[115] including a funerary inscription in which he described his life and accomplishments. His life is also described in details by several ancient Roman historians.	Lk. 2:1 †
Caiaphas	High Priest of Israel	Mentioned by Josephus in the <i>Antiquities of the Jews</i> . ^[116] In 1990, workers found an ornate limestone ossuary while paving a road in the Peace Forest south of the Abu Tor neighborhood of Jerusalem . ^{[117][118]} This ossuary appeared authentic and contained human remains. An Aramaic inscription on the side was thought to read "Joseph son of Caiaphas" and on the basis of this the bones of an elderly man were considered to belong to the High Priest Caiaphas. ^{[117][119]} In 2011, archaeologists from Bar-Ilan University announced the recovery of a stolen ossuary . It is inscribed with the text: "Miriam, daughter of Yeshua, son of Caiaphas, Priest of Ma'aziah from Beth 'Imri". Based on it, Caiaphas can be assigned to the priestly course of Ma'aziah , instituted by King David .	Jn. 18:13 Jn. 11:49 Lk. 3:2

Name ^[n.7]	Title	Attestation and Notes	Biblical references ^[n.3]
Herod Antipas	Tetrarch of Galilee and Perea	A son of Herod the Great. Mentioned in <i>Antiquities</i> ^[120] and <i>Wars of the Jews</i> . ^[121] Both Mark , Matthew , Luke and Josephus record that he killed John the Baptist.	Lk. 3:1 , Mt. 14:1
Herod Archelaus	Ethnarch of Judea, Samaria and Edom	A son of Herod the Great. He is known from the writings of Flavius Josephus ^[120] and from contemporary coins. ^[122]	Mt. 2:22 †
Herod the Great	King of Judea	Mentioned by his friend, the historian Nicolaus of Damascus ^{[123][124]} and by Josephus in the <i>Antiquities</i> . His name is also found on contemporary Jewish coins. ^[122]	Mt. 2:1 , Lk. 1:5
Herodias	Herodian princess	The wife of Herod Antipas. ^[125] According to the synoptic gospels, she was formerly married to Antipas's brother Philip, apparently Philip the Tetrarch . However, Josephus writes that her first husband was Herod II . Many scholars view this as a contradiction, but some have suggested that Herod II was also called Philip. ^[126]	Mt. 14:3 , Mk. 6:17
James the Just	Bishop of Jerusalem and relative of Jesus	The brother (or stepbrother or cousin, depending on the interpretation) of Jesus and the first Bishop of Jerusalem . He is mentioned by Josephus in the <i>Antiquities</i> , ^[127] which state that he was arrested and stoned to death by order of High Priest Ananus ben Ananus . Ananus's decision angered Roman procurator Lucceius Albinus and local king Herod Agrippa II , who had him removed from his post.	Mk 6:3 , Mt 13:55–56 , Gal 1:19
Jesus of Nazareth	Galilean preacher and religious leader	The founder of Christianity, he was a Galilean itinerant preacher, who clashed with the Jewish authorities, was arrested and handed over to Roman prefect Pontius Pilate , who had him crucified . He is mentioned by Josephus in the <i>Antiquities</i> ^[128] and by Tacitus in his <i>Annals</i> . ^[129]	All four Gospels, most Pauline Epistles and most Catholic

Name ^[n.7]	Title	Attestation and Notes	Biblical references ^[n.3]
			Epistles .
John the Baptist	Jewish itinerant preacher	A Jewish itinerant preacher, known for having baptized Jesus . He is mentioned by Josephus in the <i>Antiquities</i> , ^[130] which state that he was arrested and executed by order of the ethnarch of Galilea Herod Antipas .	All four Gospels
Philip the Apostle	Bishop of Hierapolis	On Wednesday, 27 July 2011, the Turkish news agency Anadolu reported that archaeologists had unearthed a tomb that the project leader claims to be the tomb of Saint Philip during excavations in Hierapolis close to the Turkish city Denizli . The Italian archaeologist, Professor Francesco D'Andria stated that scientists had discovered the tomb within a newly revealed church. He stated that the design of the tomb, and writings on its walls, definitively prove it belonged to the martyred apostle of Jesus. ^[131]	Jn 12:21 Jn 1:43
Philip the Tetrarch	Tetrarch of Iturea and Trachonitis	Josephus writes that he shared the kingdom of his father with his brothers Herod Antipas and Herod Archelaus. ^[132] His name and title appear on coinage from the period. ^{[133][134]}	Lk. 3:1
Pontius Pilate	Prefect of Judea	He ordered Jesus's execution. A stone inscription was found that mentions his name and title: "[Po]ntius Pilatus, [Praef]ectus Iuda[ea]e" (Pontius Pilate, prefect of Judaea), ^{[135][136]} see Pilate Stone . He is mentioned by his contemporary Philo of Alexandria in his <i>Embassy to Gaius</i> , by Josephus in <i>The Jewish War</i> and the <i>Antiquities</i> and by Tacitus in his <i>Annals</i> .	Mt. 27:2 , Jn. 19:15–16
Publius Sulpicius	Governor of Syria	Conducted a census while governing Syria as reported by Luke and Josephus, ^[137] and confirmed by a tomb inscription of one Quintus Aemilius Secundus, who had served under him. ^[138] He is mentioned by Josephus in the <i>Antiquities</i> and by Tacitus in	Lk. 2:2

Name ^[n 7]	Title	Attestation and Notes	Biblical references ^[n 3]
Quirinius		the <i>Annals</i> .	
Tiberius Caesar	Emperor of Rome	Named in many inscriptions and on Roman coins. Among other accounts, some of his deeds are described by contemporary historian Velleius (died c. 31 CE). ^[139]	Lk. 3:1
Salome	Herodian princess	A daughter of Herodias. ^[125] Although she is not named in the Gospels, but referred to as 'the daughter of Herodias', she is commonly identified with Salome, Herodias' daughter, mentioned in Josephus' <i>Antiquities</i> . ^[140]	Mt. 14:6 , Mk. 6:22
Simon Peter	Peter the Apostle	A prominent apostle of Jesus and the first Bishop of Rome. He is mentioned by Ignatius of Antioch 's Letter to the Romans and to the Smyrnaeans , by Papias of Hierapolis 's fragments of <i>Exposition of the Oracles of the Lord</i> , and the First Epistle to the Corinthians by Clement , who also says that Peter died as a martyr . ^{[141][142][143][144]}	Mt. 4:18-20 , Mt. 16

[Acts of the Apostles](#) and [Epistles](#)^[edit]

Name ^[n 8]	Title	Attestation and Notes	Biblical references ^[n 3]
Ananias son of Nedebaos	High Priest of Israel	He held the office between c. 47 and 59 CE, as recorded by Josephus, ^[145] and presided over the trial of Paul.	Acts 23:2 , Acts 24:1 [†]
Antonius Felix	Procurator of Judea	Mentioned by historians Josephus, ^[146] Suetonius ^[147] and Tacitus ^[148] He imprisoned the apostle	Acts 23:24 , Acts

Name ^[n.8]	Title	Attestation and Notes	Biblical references ^[n.3]
		Paul around the year 58 CE, two years before Porcius Festus replaced him. ^[149]	25:14
Apollos		Both Paul and Clement affirmed that he was a Christian in Corinth . ^[141]	1 Cor 3:6
Aretas IV Philopatr	King of the Nabateans	According to Paul, Aretas' governor in Damascus tried to arrest him. Besides being mentioned by Josephus, ^[150] his name is found in several contemporary inscriptions ^[151] and on numerous coins. ^[152]	2 Cor. 11:32 †
Berenice	Herodian princess	A daughter of Herod Agrippa I . She appears to have had almost equal power to her brother Herod Agrippa II (with whom she was rumored to have an incestuous relationship, according to Josephus) ^[146] and is indeed called <i>Queen Berenice</i> in Tacitus's <i>Histories</i> . ^[153]	Acts 25:23 , Acts 26:30
Claudius Caesar	Emperor of Rome	Like other Roman emperors, his name is found on numerous coins ^[154] and monuments, such as the Porta Maggiore in Rome.	Acts 11:28 , Acts 18:2 †
Drusilla	Herodian princess	Married to Antonius Felix, according to the Book of Acts and Josephus' <i>Antiquities</i> . ^{[146][155]}	Acts 24:24 †
Lucius Junius Gallio Annaeanus	Proconsul of Achaia	Seneca the Younger , his brother, mentions him in his <i>epistles to Lucilius Junior</i> . ^[156] In Delphi , an inscription, dated to 52 CE, was discovered that records a letter by emperor Claudius , in which Gallio is also named as proconsul ^[157]	Acts 18:12–17 †
Gamaliel the	Rabbi of	He is named as the father of Simon by Flavius Josephus in his <i>autobiography</i> . ^[158] In	Acts

Name ^[n.8]	Title	Attestation and Notes	Biblical references ^[n.3]
Elder	the Sanhedrin	the Talmud he is also described as a prominent member of the Sanhedrin. ^[159]	5:34 , Acts 22:3 †
Herod Agrippa I	King of Judea	Although his name is given as <i>Herod</i> by Luke, ^[n.9] and as <i>Agrippa</i> by Josephus, ^[160] the accounts both writers give about his death are so similar that they are commonly accepted to refer to the same person. ^{[22][161]} Hence many modern scholars call him <i>Herod Agrippa (I)</i> .	Acts 12:1 , Acts 12:21
Herod Agrippa II	King of Judea	He ruled alongside his sister Berenice. Josephus writes about him in his <i>Antiquities</i> , ^[146] and his name is found inscribed on contemporary Jewish coins. ^[122]	Acts 25:23 , Acts 26:1
John of Patmos	Christian prophet and writer	Mentioned by the Fragments of Papias of Hierapolis and by his contemporary Ignatius of Antioch ^{[162][142]}	Rev. 1
Judas of Galilee	Galilean rebel	Leader of a Jewish revolt. Both the Book of Acts and Josephus ^[137] tell of a rebellion he instigated in the time of the census of Quirinius . ^[163]	Acts 5:37 †
Nero Caesar	Emperor of Rome	Mentioned in Contemporary Coins. ^[164]	Rev. 13:18 , 2 Thes. 2:3 †
Paul the Apostle	Christian apostle	Mention by Ignatius of Antioch 's Epistle to the Romans and Epistle to the Ephesians , Polycarp's Epistle to the Philippians , and in Clement of Rome's Epistle to the Corinthians , who also says that Paul Suffered martyrdom and that he had preached in the East	Gal. 1 , 1 Cor. 1

Name ^[n 8]	Title	Attestation and Notes	Biblical references ^[n 3]
		and in the Far West ^{[165][166][143][167]}	
Porcius Festus	Governor of Judea	Succeeded Antonius Felix, as recorded by Josephus and the Book of Acts. ^{[168][169]}	Acts 24:27 , Acts 26:25

Tentatively identified^[edit]

These are Biblical figures for which tentative but likely identifications have been found in contemporary sources based on matching names and credentials. The possibility of coincidental matching of names cannot be ruled out however.

Hebrew Bible (Protocanonical Old Testament)^[edit]

Timeline showing the kings of Israel and Judah according to the chronology from [Edwin R. Thiele](#). Kings that are known from contemporary extra-biblical sources are highlighted in yellow. Tentatively identified kings are highlighted in orange.

- [Ahaziah/Amaziah](#), King of Judah. The [Tel Dan Stele](#) contains, according to many scholars, an account by a Syrian king (probably Hazael), claiming to have slain "[Ahaz]iahu, son of [... kin]g of the house of David", who reigned c. 850 – 849 BCE.^{[170][171]} However, an alternative view, which dates the inscription half a century later, is that the name should be reconstructed as '[Amaz]iahu', who reigned c. 796–767 BCE.^[172]
- [Asaiah](#), servant of king [Josiah](#) ([2 Kings 22:12](#)). A [seal](#) with the text *Asayahu servant of the king* probably belonged to him.^[173]
- Azaliah son of Meshullam, scribe in the [Temple in Jerusalem](#): Mentioned in [2 Kings 22:3](#) and [2 Chronicles 34:8](#). A bulla reading "belonging to Azaliahu son of Meshullam." is likely to be his, according to archaeologist [Nahman Avigad](#).^[174]
- Azariah son of [Hilkiah](#) and grandfather of [Ezra](#): Mentioned in [1 Chronicles](#) 6:13,14; 9:11 and [Ezra](#) 7:1. A bulla reading *Azariah son of Hilkiah* is likely to be his, according to Tsvi Schneider.^[175]
- [Baalis](#) king of Ammon is mentioned in Jeremiah 40:14. In 1984 an Ammonite seal, dated to c. 600 BCE, was excavated in Tell El-`Umeiri, [Jordan](#) that reads "*belonging to Milkomor, the servant of Baalisha*". Identification of 'Baalisha' with the biblical Baalis is likely,^[176] but it is not currently known if there was only one Ammonite king of that name.^[177]
- [David](#), or more accurately his eponymous royal house, is mentioned in the [Tel Dan Stele](#), see above entry for *Ahaziah*.
- [Darius II](#) of Persia, is mentioned by the contemporary historian [Xenophon](#) of Athens,^[178] in the [Elephantine Papyri](#),^[38] and other sources. 'Darius the Persian', mentioned in Nehemiah 12:22, is probably Darius II, although some scholars identify him with Darius I or Darius III.^{[179][180]}

- [Gedaliah son of Ahikam](#), governor of [Judah](#). A seal impression with the name 'Gedaliah who is over the house' is commonly identified with Gedaliah, son of Ahikam.^[181]
- [Gedaliah son of Pashhur](#), an opponent of [Jeremiah](#). A [bullā](#) bearing his name was found in the [City of David](#).^[182]
- [Gemariah](#), son of [Shaphan](#) the scribe. A bulla was found with the text "To Gemaryahu ben Shaphan". This may have been the same person as "Gemariah son of Shaphan the scribe" mentioned in Jeremiah 36:10,12.^[183]
- [Geshem](#) (Gusham) the Arab, mentioned in Nehemia 6:1,6 is likely the same person as Gusham, king of Kedar, found in two inscriptions in [Dedan](#) and [Tell el-Mashkutah](#) (near the Suez Canal).^[184]
- [Hilkiah](#), high priest in the [Temple in Jerusalem](#): Mentioned throughout [2 Kings](#) 22:8–23:24 and [2 Chronicles](#) 34:9–35:8 as well as in [1 Chronicles](#) 6:13; 9:11 and [Ezra](#) 7:1. [Hilkiah in extra-biblical sources](#) is attested by the clay bulla naming a Hilkiah as the father of an Azariah,^[175] and by the seal reading *Hanan son of Hilkiah the priest*.^[185]
- [Isaiah](#), In February 2018 archaeologist [Eilat Mazar](#) announced that she and her team had discovered a small seal impression which reads "[belonging] to Isaiah nvy" (could be reconstructed and read as "[belonging] to Isaiah the prophet") during the [OpheI](#) excavations, just south of the [Temple Mount](#) in [Jerusalem](#).^[186] The tiny [bullā](#) was found "only 10 feet away" from where an intact bulla bearing the inscription "[belonging] to King Hezekiah of Judah" was discovered in 2015 by the same team.^[187] Although the name "Isaiah" in [Paleo-Hebrew alphabet](#) is unmistakable, the damage on the bottom left part of the seal causes difficulties in confirming the word "prophet" or a common Hebrew name "Navi", casting some doubts whether this seal really belongs to the prophet Isaiah.^[188]
- [Jehoram](#), King of Israel (c. 852 – 841 BCE) is probably mentioned in the Tel Dan inscription. According to the usual interpretation, the author of the text, probably Hazael, king of Syria,^[189] claims to have slain both [Ahaziah of Judah](#) and "[Jeho]ram".^{[170][171]} However, some scholars, reconstructing the pieces of the stela differently, do not see "[.]ram" as the name of an Israelite king.^[190]
- [Jehucal son of Shelemiah](#), an opponent of Jeremiah. Archaeologists excavated a bulla with his name,^[191] but some scholars question the dating of the seal to the time of Jeremiah. According to Robert Deutsch the bulla is from the late 8th to early 7th century BCE, before the time of Jeremiah.^[citation needed]
- [Jerahmeel](#), prince of [Judah](#). A bulla bearing his name was found.^[192]
- Jeroboam (II), king of Israel. A seal belonging to 'Shema, servant of Jeroboam', probably refers to king [Jeroboam II](#),^[193] although some scholars think it was [Jeroboam I](#).^[177]
- [Jezebel](#), wife of king Ahab of [Israel](#). A seal was found that may bear her name, but the dating and identification with the biblical Jezebel is a subject of debate among scholars.^[194]
- [Josiah](#), king of [Judah](#). Three seals were found that may have belonged to his son Eliashib.^[195]
- [Nathan-melech](#), one of Josiah's officials in [2 Kings](#) 23:11. A clay bulla dated to the middle of the seventh or beginning of the sixth century B.C was found in March 2019 during the [Givati Parking Lot dig](#) excavation in the City of the David area of Jerusalem bearing the inscription, "(belonging) to Nathan-melech, servant of the king."^{[196][197]}
- [Nergal-sharezer](#), king of [Babylon](#) is probably identical to an official of Nebuchadnezzar II mentioned in [Jeremiah](#) 39:3, 13.^[134] A record of his war with Syria was found on a tablet from the 'Neo-Babylonian Chronicle texts'.^[198]
- [Seraiah](#) son of Neriah. He was the brother of [Baruch](#). Nahman Avigad identified him as the owner of a seal with the name " to Seriahu/Neriyahu".^[175]

The so-called Shebna Lintel

- [Shebna](#) (or Shebaniah), royal steward of [Hezekiah](#): only the last two letters of a name (*hw*) survive on the so-called Shebna lintel, but the title of his position ("over the house" of the king) and the date indicated by the script style, have inclined many scholars to identify the person it refers to with Shebna.^[199]
- [Sheshonq I](#), Pharaoh of Egypt, is normally identified with king [Shishaq](#) in the Hebrew Bible. The account of Shishaq's invasion in the 5th year of [Rehoboam](#) (1 Kings 14:25–28) is thought to correspond to an inscription found at Karnak of Shoshenq's campaign into Palestine.^[200] However, a minority of scholars reject this identification.^[201]
- [Tou/Toi](#), king of Hamath. Several scholars have argued that Tou/Toi, mentioned in 2 Samuel 8:9 and 1 Chronicles 18:9, is identical with a certain 'Taita', king of 'Palistin', known from inscriptions found in northern Syria.^{[202][203]} However, others have challenged this identification based on linguistic analysis and the uncertain dating of king Taita.^[204]
- [Uzziah](#), king of [Judah](#). The writings of Tiglath-Pileser III may refer to him, but this identification is disputed.^[205] There is also an [inscription](#) that refers to his bones, but it dates from the 1st century CE.
- Zedekiah, son of Hananiah (Jeremiah 36:12). A seal was found of "Zedekiah son of Hanani", identification is likely, but uncertain.^[206]

Deuterocanonicals or biblical apocrypha^[edit]

- [Aretas I](#), [King of the Nabataeans](#) (fl. c. 169 BCE), mentioned in [2 Macc. 5:8](#), is probably referred to in an inscription from Elusa.^[207]

New Testament^[edit]

- '[The Egyptian](#)', who was according to Acts 21:38 the instigator of a rebellion, also appears to be mentioned by Josephus, although this identification is uncertain.^{[208][209]}
- [Joanna, wife of Chuza](#) An ossuary has been discovered bearing the inscription, "Johanna, granddaughter of [Theophilus](#), the High Priest.",^[210] It is unclear if this was the same Joanna since Johanna was the fifth most popular woman's name in Jewish Palestine.^[211]
- [Sergius Paulus](#) was proconsul of Cyprus (Acts 13:4–7), when [Paul](#) visited the island around 46–48 CE.^[212] Although several individuals with this name have been identified, no certain identification can be made. One Quintus Sergius Paulus, who was proconsul of Cyprus probably during the reign of Claudius (41–54 CE) is however compatible with the time and context of Luke's account.^{[212][213]}
- [Lysanias](#), was tetrarch of [Abila](#) around 28 CE, according to Luke (3:1). Because Josephus only mentions a Lysanias of Abila who was executed in 36 BCE, some scholars have considered this an error by Luke. However, one inscription from Abila, which is tentatively dated 14–29 CE, appears to record the existence of a later tetrarch called Lysanias.^{[214][215]}
- [Theudas](#). The sole reference to Theudas presents a problem of chronology. In [Acts of the Apostles](#), [Gamaliel](#), a member of the [sanhedrin](#), defends the apostles by referring to Theudas (Acts 5:36–8). The difficulty is that the rising of Theudas is here given as before that of [Judas of Galilee](#), which is itself dated to the [time of the taxation](#) (c. 6–7 AD). [Josephus](#), on the other hand, says that Theudas was 45 or 46, which is after Gamaliel is speaking, and long after Judas the Galilean.

List of Roman emperors

From Wikipedia, the free encyclopedia
[Jump to navigation](#)[Jump to search](#)

[Augustus](#), the first [Roman emperor](#)

The [Roman emperors](#) were the rulers of the [Roman Empire](#) dating from the granting of the title of [Augustus](#) to [Gaius Julius Caesar Octavianus](#) by the [Roman Senate](#) in 27 BC, after major roles played by the populist dictator and military leader [Julius Caesar](#). Augustus maintained a facade of Republican rule, rejecting monarchical titles but calling himself [princeps senatus](#) (first man of the council)^[1] and [princeps civitatis](#) (first citizen of the state). The title of Augustus was conferred on his successors to the imperial position. The style of government instituted by Augustus is called the [Principate](#) and continued until reforms by Diocletian. The modern word 'emperor' derives from the title [imperator](#), which was granted by an army to a successful general; during the initial phase of the empire, the title was generally used only by the [princeps](#). For example, Augustus' official name was *Imperator Caesar Divi Filius Augustus*.

The territory under command of the emperor had developed under the period of the [Roman Republic](#) as it invaded and occupied much of Europe and portions of northern Africa and western Asia. Under the republic, regions of the empire were ruled by provincial governors answerable to and authorised by the [Senate and People of Rome](#). During the republic, the chief magistrates of Rome were two [consuls](#) elected each year; consuls continued to be elected in the imperial period, but their authority was subservient to that of the emperor, and the election was controlled by the emperor.

In the late 3rd century, after the [Crisis of the Third Century](#), [Diocletian](#) formalised and embellished the recent manner of imperial rule, establishing the so-called [Dominate](#) period of the Roman Empire. This was characterised by the explicit increase of authority in the person of the emperor, and the use of the style *dominus noster* 'our lord'. The rise of powerful [Barbarian tribes](#) along the borders of the empire and the challenge they posed to defense of far-flung borders and unstable imperial succession led Diocletian to divide the administration geographically of the Empire in 286 with a co-Augustus.

In 313, [Constantine the Great](#), the first Christian emperor, issued the [Edict of Milan](#) along with [Licinius](#) that granted freedom in the worship of [Christianity](#). In 330, he established a second capital in [Byzantium](#), which he renamed [Constantinople](#). For most of the period from 286 to 480, there was more than one recognised senior emperor, with the division usually based in geographic terms. This division was consistently in place after the death of [Theodosius I](#) in 395, which historians have dated as the division between the [Western Roman Empire](#) and the [Eastern Roman Empire](#).^[2] However, formally the Empire remained a single polity, with separate co-emperors in the separate courts. The [fall of the Western Roman Empire](#), and so the end of a separate list of emperors below, is dated either from the *de facto* date of 476 when [Romulus Augustulus](#) was deposed by the Germanic [Herulians](#) led by [Odoacer](#) or the *de jure* date of 480, on the death of [Julius Nepos](#), when Eastern emperor [Zeno](#) ended recognition of a separate Western court. In the period that followed, the Empire is usually treated by historians as the [Byzantine Empire](#) governed by the [Byzantine emperors](#), although this designation is not used universally, and continues to be a subject of specialist debate today.^[3]

In the 7th century reign of [Heraclius](#), the [Byzantine–Sasanian War of 602–628](#) saw much of Rome's eastern territory lost to the [Sasanian Empire](#), recovered by Heraclius, and then lost permanently to [Arab Muslim conquests](#) after the death of [Muhammad](#) and establishment of [Islam](#). The Sasanian Empire was [conquered](#) by the [Rashidun Caliphate](#), ending the [Byzantine-Sasanian Wars](#).

The line of emperors continued until the death of [Constantine XI Palaiologos](#) during the [Fall of Constantinople](#) in 1453, when the remaining territories were captured by the [Ottoman Empire](#) under [Mehmed II](#).^[4] The [Ottoman dynasty](#) carried on using the title of [Caesar of Rome](#).

Counting all individuals to have possessed the full imperial title, including those who did not technically rule in their own right (e.g. co-emperors or minors during regencies), this list contains **194** emperors and **3** ruling empresses, for a total of **197** monarchs.

Legitimacy^[edit]

This article is about legitimate Roman emperors. For other individuals claiming the title of Emperor, see [List of Roman usurpers](#).

The emperors listed in this article are those generally agreed to have been 'legitimate' emperors, and who appear in published regnal lists.^{[5][6][7]} The word 'legitimate' is used by most authors, but usually without clear definition, perhaps not surprisingly, since the emperorship was itself rather vaguely defined legally. In Augustus' original formulation, the *princeps* was selected by either the Senate or "the people" of Rome, but quite quickly the legions became an acknowledged stand-in for "the people." A person could be proclaimed as emperor by their troops or by "the mob" in the street, but in theory needed to be confirmed by the Senate. The coercion that frequently resulted was implied in this formulation. Furthermore, a sitting emperor was empowered to name a successor and take him on as apprentice in government and in that case the Senate had no role to play, although it sometimes did when a successor lacked the power to inhibit bids by rival claimants. By the medieval (or Byzantine) period, the very definition of the Senate became vague as well, adding to the complication.^[8]

Lists of legitimate emperors are therefore partly influenced by the subjective views of those compiling them, and also partly by historical convention. Many of the 'legitimate' emperors listed here acceded to the position by usurpation, and many 'illegitimate' claimants had a legitimate claim to the position. That said, this list uses the following criteria:

- Any individual who undisputedly ruled the whole Empire, *at some point*, is a 'legitimate emperor' (1).
- Any individual who was nominated as heir *or* co-emperor by a legitimate emperor (1), and who succeeded to rule *in his own right*, is a legitimate emperor (2).
- Where there were multiple claimants, and none were legitimate heirs, the claimant accepted by the [Roman Senate](#) as emperor is the legitimate emperor (3), at least during the [Principate](#).

So for instance, [Aurelian](#), though acceding to the throne by usurpation, was the sole and undisputed monarch between 270 and 275, and thus was a legitimate emperor. Gallienus, though not in control of the whole Empire, and plagued by other claimants, was the legitimate heir of (the legitimate emperor) [Valerian](#). [Claudius Gothicus](#), though acceding illegally, and not in control of the whole Empire, was the only claimant accepted by the Senate, and thus, for his reign, was the legitimate emperor. Equally, during the [Year of the Four Emperors](#), all claimants, though not undisputed, were at some point accepted by the Senate and are thus included; conversely, during the [Year of the Five Emperors](#) neither [Pescennius Niger](#) nor [Clodius Albinus](#) were accepted by the Senate, and are thus not included. There are a few examples where individuals were made co-emperor, but never wielded power in their own right (typically the child of an emperor); these emperors are legitimate, but are not included in regnal lists, and in this article are listed together with the senior emperor.

Emperors after 395^[edit]

After 395, the list of emperors in the East is based on the same general criteria, with the exception that the emperor only had to be in undisputed control of the Eastern part of the empire, or be the legitimate heir of the Eastern emperor.

The situation in the West is more complex. Throughout the final years of the Western Empire (395–480) the Eastern emperor was considered the senior emperor, and a Western emperor was only legitimate if recognized as such by the Eastern emperor. Furthermore, after 455 the Western emperor ceased to be a relevant figure and there was sometimes no claimant at all. For the sake of historical completeness, all Western Emperors after 455 are included in this list, even if they were not recognized by the Eastern Empire;^[9] some of these technically illegitimate emperors are included in regnal lists, while others are not. For instance, [Romulus Augustulus](#) was technically a usurper who ruled only the Italian peninsula and was never legally recognized. However, he was traditionally considered the "last Roman Emperor" by 18th and 19th century western scholars and

his overthrow by [Odoacer](#) used as the marking point between historical epochs, and as such he is usually included in regnal lists. However, modern scholarship has confirmed that Romulus Augustulus' predecessor, [Julius Nepos](#) continued to rule as emperor in the other Western holdings and as a figurehead for Odoacer's rule in Italy until Nepos' death in 480. Since the question of what constitutes an emperor can be ambiguous, and dating the "fall of the Western Empire" arbitrary, this list includes details of both figures.

The Principate^{[edit](#)}

Main article: [Principate](#)

27 BC–68 AD: Julio-Claudian dynasty^{[edit](#)}

Main article: [Julio-Claudian dynasty](#)

Portrait	Name	Reign	Succession	Life details
	Augustus <i>Caesar Augustus</i>	16 January 27 BC – 19 August AD 14 (40 years, 7 months and 3 days)	Grandnephew and adopted son of Julius Caesar , became emperor as a result of settlement with the Roman Senate	23 September 63 BC – 19 August AD 14 (aged 75) ^{[10]} Died of natural causes
	Tiberius <i>Tiberius Caesar Augustus</i>	17 September 14 – 16 March 37 (22 years, 5 months and 27 days)	Stepson, former son-in-law and adopted son of Augustus	16 November 42 BC – 16 March AD 37 (aged 77) ^{[11]} Died probably of natural causes, possibly murdered at the instigation of Caligula

	<u>Caligula</u> (Gaius) <i>Gaius</i> Caesar Augustus Germanicus	18 March 37 – 24 January 41 (3 years, 10 months and 6 days)	Grandnephew and adoptive grandson of Tiberius, great-grandson of Augustus	31 August 12 – 24 January 41 (aged 28) ^[12] Murdered in a conspiracy involving the <u>Praetorian Guard</u> , senators and freedmen
	<u>Claudius</u> Tiberius <i>Claudius</i> Caesar Augustus Germanicus	24 January 41 – 13 October 54 (13 years, 8 months and 19 days)	Uncle of Caligula, grandnephew of Augustus, proclaimed emperor by the Praetorian Guard and accepted as such by the Senate	1 August 10 BC – 13 October AD 54 (aged 63) ^[13] Probably poisoned by his wife <u>Agrippina</u> , in favour of her son Nero
	<u>Nero</u> <i>Nero</i> Claudius Caesar Augustus Germanicus	13 October 54 – 9 June 68 (13 years, 7 months and 27 days)	Grandnephew, stepson, son-in-law and adopted son of Claudius, great-great-grandson of Augustus	15 December 37 – 9 June 68 (aged 30) ^[14] Committed suicide after being declared a public enemy by the Senate

68–96: Year of the Four Emperors and Flavian dynasty^[edit]

Main articles: [Year of the Four Emperors](#) and [Flavian dynasty](#)

Portrait	Name	Reign	Succession	Life details
	<u>Galba</u> Servius <i>Galba</i> Caesar Augustus ^[15]	8 June 68 – 15 January 69 (7 months and 7 days)	Revolted against Nero and seized power after his suicide	24 December 3 BC – 15 January AD 69 (aged 72) ^[16] Murdered by the <u>Praetorian Guard</u> in coup led by <u>Otho</u>
	<u>Otho</u> Marcus <i>Otho</i> Caesar Augustus ^[15]	15 January – 16 April 69 (3 months and 1 day)	Seized the purple in a coup against Galba	28 April 32 – 16 April 69 (aged 36) Committed suicide after losing the <u>Battle of Bedriacum</u> to Vitellius ^[17]
	<u>Vitellius</u> Aulus <i>Vitellius</i> Germanicus Augustus	19 April – 20 December 69 (8 months and 1 day)	Seized power with support of Rhine legions, in opposition to Galba and Otho	24 September 15 – 20/22 December 69 (aged 54) ^[18] Tortured and murdered by <u>Vespasian</u> 's troops

	<u>Vespasian</u> Caesar <i>Vespasianus</i> Augustus ^[15]	1 July 69 – 23 June 79 (9 years, 11 months and 22 days)	Seized power with the support of the eastern legions	17 November 9 – 23/24 June 79 (aged 69) Died of natural causes ^[19]
	<u>Titus</u> Titus Caesar Vespasianus Augustus ^[15]	24 June 79 – 13 September 81 (2 years, 2 months and 20 days)	Son of Vespasian	30 December 39 – 13 September 81 (aged 41) Died of natural causes ^[20]
	<u>Domitian</u> Caesar <i>Domitianus</i> Augustus ^[15]	14 September 81 – 18 September 96 (15 years and 4 days)	Brother of Titus and son of Vespasian, was accepted as emperor by the Praetorian Guard and the Senate	24 October 51 – 18 September 96 (aged 44) Assassinated in a palace conspiracy ^[21]

	<u>Gordian III</u> Marcus Antonius <i>Gordianus</i>	c. 29 July 238 – c. February 244 (5½ years)	Grandson of Gordian I, appointed as heir by Pupienus and Balbinus, upon whose deaths he succeeded as emperor	20 January 225 – c. February 244 (aged 19) Died during campaign against <u>Persia</u>, possibly in a murder plot instigated by his successor, <u>Philip the Arab</u>^[41]

	<u>Philip I "the Arab"</u> Marcus Julius <i>Philippus</i>	c. February 244 – c. September 249 (5 years and 7 months)	<u>Praetorian prefect</u> to Gordian III, took power after his death	Killed at the <u>Battle of Verona</u> against <u>Decius</u>
	<u>Philip II "the Younger"</u> Marcus Julius Severus <i>Philippus</i>	Summer 247 – c. September 249 (2 years)	Son of Philip the Arab, named co-emperor in 247	Murdered by the Praetorian Guard^[42]
	<u>Decius</u> Gaius Messius Quintus Traianus <i>Decius</i>	c. September 249 – June 251 (1 year and c. 9 months)	Proclaimed emperor by the troops in <u>Moesia</u>, then defeated Philip the Arab in battle	c. 201 – June 251 (aged approximately 50) Killed at the <u>Battle of Abrittus</u> against the <u>Goths</u>^[43]

	<u>Herennius Etruscus</u> Quintus <i>Herennius</i> <i>Etruscus</i> Messius Decius	c. June 251	Son of Decius, appointed joint emperor	Killed in battle against the <u>Goths</u> alongside his father, Decius ^[44]
	<u>Hostilian</u> Gaius Valens <i>Hostilianus</i> Messius Quintus	June – c. November 251 (approximately 5 months)	Son and heir of Decius, accepted as emperor by <u>Trebonianus Gallus</u>	Probably died of the plague, possibly killed by Trebonianus Gallus ^[45]
	<u>Trebonianus Gallus</u> Gaius Vibius <i>Trebonianus Gallus</i>	June 251 – c. August 253 (2 years and 2 months)	Proclaimed emperor by the army after Decius's death	c. 206 – c. August 253 (aged 47) Murdered by his own troops, in favour of <u>Aemilian</u> ^[46]
	<u>Volusianus</u> Gaius Vibius Afinius Gallus Veldumnianus <i>Volusianus</i>	c. August 251 – c. August 253 (2 years)	Son of Trebonianus Gallus, appointed joint emperor	c. 230 – c. August 253 (aged 23) Murdered by the soldiers, alongside his father ^[47]

	<u>Aemilian</u> Marcus Aemilius <i>Aemilianus</i>	c. July – September 253 (2–3 months)	Commander of the army in <u>Moesia</u>, proclaimed emperor by the soldiers after defeating barbarians, and in opposition to Gallus	Murdered by his own troops, in favor of <u>Valerian</u>^[48]
	<u>Valerian</u> Publius Licinius <i>Valerianus</i>	September 253 – c. June 260 (6 years and c. 9 months)	Army commander in <u>Raetia</u> and <u>Noricum</u>, proclaimed emperor by the legions in opposition to Aemilian	<u>Captured at Edessa</u> by the <u>Persian</u> king <u>Shapur I</u>, died in captivity possibly forced to swallow molten gold^[49]
	<u>Gallienus</u> Publius Licinius Egnatius <i>Gallienus</i>	September 253 – c. September 268 (15 years)	Son of Valerian, appointed joint emperor	c. 218 – c. September 268 (aged 50) Murdered in a conspiracy of army officers, involving his successors <u>Claudius</u> and <u>Aurelian</u>^[50]
	<u>Saloninus</u> (Publius Licinius Cornelius) <i>Saloninus</i> Valerianus	January 260 – fall 260	Son of Gallienus, briefly co- emperor	Murdered in 260 by the soldiers of <u>Postumus</u>^[51]

	<u>Claudius Gothicus</u> Marcus Aurelius <i>Claudius</i>	September 268 – c. April 270^[52] (1 year and c. 7 months)	Victorious general at <u>Battle of Naissus</u>, seized power after Gallienus's death	10 May 214 – 270 (aged 55) Died of disease, possibly the <u>plague of Cyprian</u>
	<u>Quintillus</u> Marcus Aurelius Claudius <i>Quintillus</i>	c. April–May 270 (17 days or more)	Brother of Claudius Gothicus, proclaimed emperor after his death	Committed suicide or killed at the behest of Aurelian^[53]
	<u>Aurelian</u> Lucius Domitius <i>Aurelianus</i>	c. May 270 – c. October 275 (5 years and c. 5 months)^[54]	Supreme commander of the Roman cavalry, proclaimed emperor by Danube legions after Claudius's death, in opposition to Quintillus	9 September 214 – c. October 275 (aged 61) Murdered by the troops^[55]
	<u>Tacitus</u> Marcus Claudius <i>Tacitus</i>	c. December 275 – c. June 276 (6–7 months)	Elected by the <u>Senate</u> to replace Aurelian	Died of an illness or killed by his own troops^[56]

	<u>Florianus</u> Marcus Annianus <i>Florianus</i>	c. June–September 276 (2–3 months)	Likely half-brother of Tacitus, proclaimed emperor by the troops after Tacitus's death	Murdered by his own troops, in favour of Probus ^[57]
	<u>Probus</u> Marcus Aurelius <i>Probus</i>	c. June 276 – c. September 282 (6 years and c. 3 months) ^[58]	Proclaimed emperor by eastern legions, in opposition to <u>Florianus</u>	19 August 232 – c. September 282 (aged 50) Murdered by his troops, in favour of <u>Carus</u> ^[59]
	<u>Carus</u> Marcus Aurelius <i>Carus</i>	c. September 282 – c. July 283 (10 months) ^[60]	Praetorian prefect to Probus, seized power before or after Probus's murder	Died during a campaign against <u>Persia</u> , likely of illness, or possibly killed by lightning ^[61]
	<u>Numerian</u> Marcus Aurelius <i>Numerianus</i>	c. July 283 – November 284 (1 year and 4 months)	Younger son and heir of Carus, reigned jointly with his older brother, Carinus	Died during army march to Europe, probably of disease, possibly assassinated ^[62]

	<u>Carinus</u> Marcus Aurelius <i>Carinus</i>	283–285 (2 years)	Eldest son of Carus, who appointed him joint emperor	Probably died in battle against Diocletian, likely betrayed by his men ^[63]

The Dominate^[edit]

Main article: [Dominate](#)

284–363: Tetrarchy and Constantinian dynasty^[edit]

Main articles: [Tetrarchy](#) and [Constantinian dynasty](#)

Note: To maintain control and improve administration, various schemes to divide the work of the Roman Emperor by sharing it between individuals were tried after 285. The "Tetrarchy" proclaimed by Diocletian in 293 split the empire into two halves each to be ruled separately by two emperors, a senior "Augustus", and a junior "Caesar".

Portrait	Name	Reign	Succession	Life details
	<u>Diocletian</u> Gaius Aurelius Valerius <i>Diocletianus</i>	20 November 284 – 1 May 305 (20 years, 5 months and 11 days)	Proclaimed emperor by the army after death of <u>Numerian</u> , and defeated Numerian's brother, <u>Carinus</u> , in battle	c. 242/245 – 311/312 (aged c. 68) Abdicated, later died in unclear circumstances ^{[64][65]}

	<u>Maximian</u> Marcus Aurelius Valerius <i>Maximianus</i>	1 April 286 – 1 May 305 (19 years and 1 month)	Elevated by Diocletian	c. 250 – c. July 310 (aged c. 60) Abdicated with Diocletian, later tried to regain the purple with, and then from, <u>Maxentius</u>, before being finally killed on orders of <u>Constantine I</u>
	<u>Galerius</u> <i>Galerius</i> Valerius Maximianus	1 May 305 – May 311 (6 years)	Appointed <i>Caesar</i> on 1 March 293 by Diocletian, upon whose abdication he succeeded as <i>Augustus</i>	c. 258 – May 311 (aged c. 53) Died of natural causes^[66]
	<u>Constantius I ("Chlorus")</u> Flavius Valerius <i>Constantius</i>	1 May 305 – 25 July 306 (1 year, 2 months and 24 days)	Appointed <i>Caesar</i> to Maximian on 1 March 293, upon whose abdication he succeeded as <i>Augustus</i>	c. 250 – 25 July 306 (aged 56) Died of natural causes^[67]

	<u>Constantine I "the Great"</u> Flavius Valerius <i>Constantinus</i>	25 July 306 – 22 May 337 (30 years, 9 months and 27 days)	Son of Constantius I, acclaimed by his father's troops. Accepted as <i>Caesar</i> by Galerius in 306, promoted to <i>Augustus</i> in 307 by Maximian, refused demotion to Caesar in 309.	27 February 272 – 22 May 337 (aged 65) Died of natural causes
	<u>Severus II</u> Flavius Valerius <i>Severus</i>	August 306 – c. April 307 (c. 8 months)	Elevated by Galerius upon Constantius I's death	Murdered or forced to commit suicide in September 307 after surrendering to Maximian and <u>Maxentius</u>^[68]
	<u>Maxentius</u> Marcus Aurelius Valerius <i>Maxentius</i>	28 October 306 – 28 October 312 (6 years)	Son of Maximian, seized power after being initially passed over in the succession	Died on 28 October 312 at the <u>Battle of the Milvian Bridge</u>, against Constantine I^[69]

	<u>Licinius</u> Valerius Licinianus <i>Licinius</i>	11 November 308 – 19 September 324 (15 years, 10 months and 8 days)	Elevated by Galerius to replace Severus, in opposition to Maxentius. Defeated <u>Maximinus Daza</u> in a civil war to become sole emperor of the <u>East</u> in 313.	c. 265 – 325 (aged around 60) Defeated, deposed and put to death by Constantine I^[70]
	<u>Maximinus ("Daza")</u> Galerius Valerius <i>Maximinus</i>	310 – c. July 313 (3 years)	Named <i>Caesar</i> by his uncle, Galerius, and proclaimed <i>Augustus</i> by his troops in 310	Died c. July 313 Defeated in civil war against Licinius, died shortly afterward^{[71][72]}
	<u>Valerius Valens</u> Aurelius Valerius <i>Valens</i>	October 316 – c. February 317	General under Licinius, elevated in opposition to Constantine	Executed in lead-up to a peace settlement between Licinius and Constantine^{[73][74]}
	<u>Martinian</u> Mar(...) <i>Martinianus</i>	July – 19 September 324 (2 months)	Senior bureaucrat under Licinius, elevated in opposition to Constantine	Deposed by Constantine and banished to Cappadocia, executed the following year^[75]

	<u>Constantine II</u> Flavius Claudius <i>Constantinus</i>	9 September 337 – April 340 (2 years and 7 months)	Son and heir of Constantine I, acclaimed by the troops jointly with his brothers, Constantius II and Constans	7 August 316 – April 340 (aged 23) Killed in war against his brother, Constans^[76]
	<u>Constantius II</u> Flavius Julius <i>Constantius</i>	9 September 337 – 3 November 361 (24 years, 1 month and 25 days)	Son and heir of Constantine I, acclaimed by the troops jointly with his brothers, Constantine II and Constans	7 August 317 – 3 November 361 (aged 44) Died of natural causes^[76]
	<u>Constans I</u> Flavius Julius <i>Constans</i>	9 September 337 – 18 January 350 (12 years, 4 months and 9 days)	Son and heir of Constantine I, acclaimed by the troops jointly with his brothers Constantine II and Constantius II	c. 323 – c. January 350 (aged 23) Overthrown and killed by <u>Magnentius</u>^[76]

	<u>Vetranio</u>	1 March – 25 December 350 (9 months and 24 days)	General of Constans, proclaimed emperor in opposition to Magnentius and temporarily recognized by Constantius II	Compelled to abdicate and retire, died 6 years later
	<u>Julian</u> <u>"the Apostate"</u> Flavius Claudius <i>Julianus</i>	3 November 361 – 26 June 363 (1 year, 7 months and 23 days)	Acclaimed by the Gallic army in early 360, became sole undisputed emperor after the death of his cousin, Constantius II	331 – 26 June 363 (aged 31–32) Last non-Christian emperor of Rome. Mortally wounded during <u>campaign against Persia</u> . ^[77]

363–395: from Jovian to Theodosius^[edit]

Portrait	Name	Reign	Succession	Life details
	<u>Jovian</u> <i>Jovianus</i>	27 June 363 – 17 February 364 (7 months and 21 days)	Commander of Julian's household guard, acclaimed as emperor by the troops after Julian's death	331 – 17 February 364 (aged 33) Allegedly died due to inhaling poisonous fumes ^{[78][79]}
	<u>Valentinian I</u> <i>Valentinianus</i>	26 February 364 – 17 November 375 (11 years, 8 months and 22 days)	Elected by the army to replace Jovian	3 May 321 – 17 November 375 (aged 54) Died of natural causes

	<u>Valens</u>	28 March 364 – 9 August 378 (14 years, 4 months and 12 days)	Elevated by his brother, Valentinian, and given charge of the eastern provinces	c. 328 – 9 August 378 (aged 49) Killed at the <u>Battle of Adrianople</u> against the <u>Goths</u> ^[80]
	<u>Gratian</u> <i>Gratianus</i>	24 August 367 – 25 August 383 (16 years and 1 day)	Son of Valentinian I, elevated by his father.	18 April 359 – 25 August 383 (aged 24) Overthrown and killed by <u>Magnus Maximus</u> ^{[81][82]}
	<u>Valentinian II</u> <i>Valentinianus</i>	22 November 375 – 15 May 392 (16 years, 5 months and 23 days)	Son of Valentinian I, elevated by Pannonian army, accepted as nominal ruler of Italy and north Africa by Gratian and Valens	371 – 15 May 392 (aged 21) Found hanged, probably committed suicide
	<u>Theodosius I</u>	19 January 379 – 17 January 395 (15 years, 11 months and 29 days)	Appointed by Gratian to replace Valens in the east. Last Roman emperor to personally rule both halves of the empire.	11 January 347 – 17 January 395 (aged 48) Died of natural causes

	<u>Magnus Maximus</u>	383 – 28 August 388 (5 years)	Usurped power from Gratian, recognized as ruler of <u>Gaul</u> , <u>Britain</u> , and <u>Hispania</u> by the other emperors	Died on 28 August 388 (aged 53) Executed by <u>Theodosius I</u> in <u>Aquileia</u> after the <u>Battle of the Save</u>
	<u>Victor</u>	384 or 387 – August 388	Elevated by his father, Magnus Maximus	Executed by count <u>Arbogast</u> at the behest of Theodosius I
	<u>Eugenius</u>	22 August 392 – 6 September 394 (2 years and 15 days)	Secretary of Valentinian II, elevated by the master of soldiers, <u>Arbogast</u> , after Valentinian's death	Died 6 September 394 Defeated at the <u>Battle of the Frigidus</u> and executed by Theodosius

Western emperors^{[\[edit\]](#)}

Main article: [Western Roman Empire](#)

395–455: Theodosian dynasty^{[\[edit\]](#)}

Main article: [Theodosian dynasty](#)

Note: *Theodosius I was the last person to rule both halves of the Roman Empire, dividing the administration between his sons Arcadius and Honorius on his death.*

Portrait	Name	Reign	Succession	Life details
	<u>Honorius</u>	17 January 395 – 15 August 423 (28 years, 6 months and 29 days)	Raised to the purple on 23 January 393 by his father, <u>Theodosius I</u> , after the death of <u>Valentinian II</u> , and became western emperor upon his father's death	9 September 384 – 15 August 423 (aged 38) Died of <u>edema</u>
	<u>Constantine III</u> Flavius <i>Claudius Constantinus</i>	407 – c. September 411 4 years	Usurper who declared himself emperor in the west in 407, recognized as co-emperor by <u>Honorius</u> in 409. Not recognized by the Eastern Empire.	Died in September 411 Abdicated, executed immediately thereafter

455–480: Last western emperors^{[[edit](#)]}

Portrait	Name	Reign	Succession	Life details
	<u>Petronius Maximus</u>	17 March – 31 May 455 (2 months and 14 days)	A prominent senator, seized power after instigating the death of <u>Valentinian III</u> , whose widow he then forcibly married. Not recognized by the Eastern Empire.	c. 397 – 31 May 455 (aged 58) Lynched by a mob in the lead-up to the <u>Vandal sack of Rome</u>
	<u>Avitus</u> <i>Eparchius Avitus</i>	9 July 455 – 17 October 456 (1 year, 3 months and 8 days)	A prominent Gallo-Roman aristocrat, proclaimed emperor by the <u>Visigoths</u> after Petronius's death. Recognized by the <u>Roman Senate</u> , but not the Eastern Empire.	Died in 457 Deposed by <u>Ricimer</u> and <u>Majorian</u> . Became bishop of <u>Placentia</u> , but died soon after, possibly murdered.

	<u>Majorian</u> Julius Valerius <i>Maorianus</i>	28 December 457 – 2 August 461 (3 years, 7 months and 5 days)	A leading officer in the Italian army, proclaimed emperor by the troops. Not recognized by the Eastern Empire.	c. 420 – 7 August 461 (aged 41) Deposed and executed by the master of soldiers, <u>Ricimer</u>
	<u>Libius Severus</u>	19 November 461 – 14 November 465 (3 years, 11 months and 26 days)	A senator, elevated by the master of soldiers, <u>Ricimer</u> . Not recognized by the Eastern Empire.	Died on 14 November 465
	<u>Anthemius</u> Procopius <i>Anthemius</i>	12 April 467 – 11 July 472 (5 years, 2 months and 29 days)	Son-in-law of eastern emperor <u>Marcian</u> , elevated by Marcian's successor <u>Leo I</u>	Died on 11 July 472 Murdered by Ricimer's nephew, <u>Gundobad</u>
	<u>Olybrius</u> Anicius <i>Olybrius</i>	11 July – 2 November 472 (3 months and 22 days)	Son-in-law of <u>Valentinian III</u> , elevated by <u>Ricimer</u> in opposition to Anthemius. Not recognized by the Eastern Empire.	Died of natural causes on 2 November 472, shortly after his elevation

	<u>Glycerius</u>	3/5 March 473 – 24 June 474 (1 year and 3 months)	Elevated by the patrician <u>Gundobad</u> . Not recognized by the Eastern Empire.	Deposed by <u>Julius Nepos</u> , appointed bishop of <u>Salona</u> afterward
	<u>Julius Nepos</u>	June 474 – 480 Driven out of Italy on 28 August 475 by the master of soldiers, <u>Orestes</u>	Head of the Roman army in Dalmatia, seized power from Glycerius. Recognized by the Eastern Empire.	Last claimant to the western imperial office. Continued ruling Dalmatia as a Roman rump state after <u>Odoacer</u> 's 476 coup in Italy. Murdered by several of his retainers in 480.
	<u>Romulus</u> (<u>"Augustulus"</u>)	31 October 475 – 4 September 476 (10 months and 4 days)	Appointed by his father, the master of soldiers, <u>Orestes</u> , after the deposition of Nepos. Not recognized outside Italy.	Deposed by <u>Odoacer</u> , which effectively ended the Western Empire in Italy. Most likely lived out his life in obscurity on a private villa.

Note: The classical Roman Empire is usually said to have ended with the deposition of Romulus Augustulus, with its continuation in the East referred to by modern scholars as the [Byzantine Empire](#), the Eastern Roman Empire, or the Medieval Roman Empire; the latter two beginning to replace the former in more modern scholarship.

Eastern emperors[\[edit\]](#)

867–1056: Macedonian dynasty^{[\[edit\]](#)}

See also: [Macedonian dynasty](#) and [Byzantine Empire under the Macedonian dynasty](#)

Portrait	Name	Reign	Succession	Life details

	<u>Basil I the Macedonian</u> (Βασίλειος ὁ Μακεδών) <i>with</i> <u>Constantine</u> (Κωνσταντῖνος)	24 September 867 – 29 August 886 867 – 3 September 868 (Constantine)	Co-emperor since 26 May 866, full emperor upon death of predecessor.	¿811? – 29 August 886 (aged 75) Died in a hunting accident
	<u>Leo VI the Wise</u> (Λέων ὁ Σοφός)	29 August 886 – 11 May 912	Son of Basil I (potentially in reality the son of Michael III), co-emperor since 6 January 870.	19 September 886 – 11 May 912 (aged 45)
	<u>Alexander</u> (Ἀλέξανδρος)	11 May 912 – 6 June 913	Son of Basil I, co-emperor since 879.	23 November 870 – 6 June 913 (aged 42) Died of exhaustion after a game of <u>tzykanion</u>

	<u>Constantine VII</u> (Κωνσταντῖνος)	6 June 913 – 9 November 959	Son of Leo VI, co-emperor since 15 May 908, sole ruler from 27 January 945	17/18 May 905– 9 November 959 (aged 54) Possibly poisoned by his son Romanos II
	<u>Romanos I Lekapenos</u> (Ῥωμανὸς Λεκαπηνός) <i>with</i> <u>Christopher Lekapenos</u> (Χριστόφορος Λακαπηνός) <i>and</i> <u>Stephen Lekapenos</u> (Στέφανος Λακαπηνός) <i>and</i> <u>Constantine Lekapenos</u> (Κωνσταντῖνος Λακαπηνός)	17 December 920 – 16 December 944 20 May 921 – August 931 (Christopher) 924 – 945 (Stephen & Constantine)	Regent for the young Constantine VII, crowned himself senior emperor during Constantine VII's minority. Proclaimed his three sons Christopher, Stephen and Constantine as co-emperors. Was overthrown by Stephen in 944, who briefly ruled as senior emperor (for a few weeks) until he himself was overthrown by Constantine VII.	Died as a monk on 15 June 948. Christopher died in August of 931. Both Stephen and Constantine died in exile as monks; Stephen on Easter 963 on Lesbos and Constantine in 946–948 on Samothrace trying to escape exile and reclaim imperial power
	<u>Romanos II</u> (Ῥωμανὸς)	9 November 959 – 15 March 963	Son of Constantine VII	15 March 963 (aged 24–25) Possibly poisoned

	<u>Nikephoros II Phokas</u> (Νικηφόρος Φωκᾶς)	16 August 963 – 11 December 969	Chosen by the army, acted as senior emperor during the regency of young emperors Basil II and Constantine VIII	11 December 969 (aged 56–57), Constantinople Assassinated by successor John I Tzimiskes
	<u>John I Tzimiskes</u> (Ιωάννης Τζιμισκής)	11 December 969 – 10 January 976	Nephew of Nikephoros II Phokas, succeeded as senior emperor and regent for the young emperors Basil II and Constantine VIII	Died on 10 January 976 (aged 50–51), poisoned by Imperial chamberlain Basil Lekapenos
	<u>Basil II</u> <u>"the Bulgar Slayer"</u> (Βασίλειος ὁ Βουλγαροκτόνος)	10 January 976 – 15 December 1025	Eldest son of Romanos II	958 – 15 December 1025 (aged 67–68)
	<u>Constantine VIII Porphyrogenetos</u> (Κωνσταντῖνος ὁ Πορφυρογέννητος)	15 December 1025 – 11 November 1028	Second son of Romanos II, co-emperor since 962.	960 – 11/12 November 1028 (aged 68)

	<u>Romanos III Argyros</u> (Ρωμανὸς Ἀργυρός)	15 November 1028 – 11 April 1034	Chosen by Constantine VIII to marry his daughter Zoe and succeed him as emperor.	968 – 11 April 1034 (aged 65–66), allegedly murdered
	<u>Michael IV the Paphlagonian</u> (Μιχαὴλ ὁ Παφλαγών)	12 April 1034 – 10 December 1041	Succeeded Romanos III as Zoe's husband and emperor.	1010 – 10 December 1041 (aged 31), died after a long illness.
	<u>Michael V Kalaphates</u> (Μιχαὴλ ὁ Καλαφάτης)	13 December 1041 – 21 April 1042	Nephew and adopted son of Michael IV.	1015 – 24 August, 1042 (aged 27). Deposed, blinded, castrated and tonsured after attempting to sideline Zoe and her sister Theodora.
	<u>Zoe Porphyrogenita</u> (Ζωὴ ἡ Πορφυρογέννητη)	21 April 1042 – 12 June 1042	Daughter of Constantine VIII. Her three husbands, Romanos III (1028–1034), Michael IV (1034–1041) and Constantine IX (1042–1050) ruled alongside her. She briefly ruled as full "emperor" in 1042.	c. 978 – June 1050 (aged 72)

	<u>Theodora Porphyrogenita</u> (Θεοδώρα ἡ Πορφυρογέννητος)	21 April 1042 – 31 August 1056	Younger sister of Zoe, raised to co-empress in 1042.	c. 980 – 31 August 1056 (aged 75–76), died after sudden illness.
	<u>Constantine IX Monomachos</u> (Κωνσταντῖνος Μονομάχος)	11 June 1042 – 11 January 1055	Zoe's third husband	c. 1000 – 11 January 1055 (aged ~55), died after illness.
	<u>Michael VI Bringas</u> (Μιχαὴλ Βρίγγας)	31 August 1056 – 31 August 1057	Chosen as successor by Empress Theodora on 22 August 1056	Died in 1059, confined to a monastery after having been deposed by his successor.
	<u>Isaac I Komnenos</u> (Ἰσαάκιος Κομνηνός)	8 June 1057 – 22 November 1059	Rebellion	Died around 1061 (aged 53) after having voluntarily abdicated.

1059–1081: Doukid dynasty^{[\[edit\]](#)}

See also: [Doukas](#)

Portrait	Name	Reign	Succession	Life details

	<u>Constantine X Doukas</u> (Κωνσταντῖνος Δούκας)	24 November 1059 – 22 May 1067	Chosen successor of Isaac I Komnenos	1006 – 22 May 1067 (aged 61)
	<u>Romanos IV Diogenes</u> (Ρωμανὸς Διογένης) <i>with</i> <u>Nikephoros Diogenes</u> (Νικηφόρος Διογένης) <i>and</i> <u>Leo Diogenes</u> (Λέων Διογένης)	1 January 1068 – 24 October 1071	Married to Constantine X's widow and senior emperor as guardian of her sons by Constantine X	1030 – 1072 (aged 42), died after having been deposed, blinded and exiled while in captivity after the Battle of Manzikert
	<u>Michael VII Doukas</u> (Μιχαὴλ Δούκας) <i>with</i> <u>Andronikos Doukas</u> (Ἀνδρόνικος Δούκας) <i>and</i> <u>Konstantios Doukas</u> (Κωνστάντιος Δούκας)	22 May 1067 – 31 March 1078 1068 – 1070s (Andronikos) 1060 – 1078 (Konstantios) 1074 – 1078 (Constantine)	Son of Constantine X Doukas and co-emperor since 1059, resigned the throne in 1078. Andronikos died in the 1070s while Konstantios briefly succeeded Michael as senior emperor before being handed over to the usurper Nikephoros III and exiled. Michael's son Constantine was also raised to co-emperor in 1074.	1050 – 1090 Konstantios died in the Battle of Dyrrhachium on 18 October 1081, having been recalled as a general by Alexios I. Constantine was later raised to co-emperor again under Alexios I and died in 1095

	<i>and</i> <u>Constantine Doukas</u> (Κωνσταντίνος Δούκας)			
	<u>Nikephoros III Botaneiates</u> (Νικηφόρος Βοτανειάτης)	31 March 1078 – 4 April 1081	Rebellion	1001 – 10 December 1081 (aged 80), died after having been deposed and exiled to a monastery

1081–1185: Komnenid dynasty^[edit]

See also: [Komnenos](#) and [Byzantine Empire under the Komnenos dynasty](#)

Portrait	Name	Reign	Succession	Life details
	<u>Alexios I Komnenos</u> (Ἀλέξιος Κομνηνός) <i>with</i> <u>Constantine Doukas</u> (Κωνσταντίνος Δούκας) (<i>second co-emperorship</i>)	4 April 1081 – 15 August 1118 1081 – 1087 (Constantine)	Rebellion, nephew of Isaac I Komnenos, appointed Constantine Doukas (a previous co-emperor under Michael VII) as co-emperor in 1081. Replaced Constantine with his own son John II in 1087.	1056 – 15 August 1118 (aged 70)

	<u>John II Komnenos</u> (Ιωάννης Κομνηνός) <i>with</i> <u>Alexios Komnenos</u> (Αλέξιος Κομνηνός)	15 August 1118 – 8 April 1143 1122 – 1142 (Alexios)	Son of Alexios I, co-emperor since 1087, appointed his son Alexios co-emperor in 1122	13 September 1087 – 8 April 1143 (aged 55) Accidentally cut himself on a poisoned arrow. Alexios died in Attaleia on 2 August 1142 of a fever
	<u>Manuel I Komnenos</u> (Μανουήλ Κομνηνός)	8 April 1143 – 24 September 1180	Son of John II	28 Nov. 1118 – 24 September 1180 (aged 61)
	<u>Alexios II Komnenos</u> (Αλέξιος Κομνηνός)	24 September 1180 – September 1183	Son of Manuel I	14 Sept. 1169 – October 1183 (aged 14) Deposed and killed by successor
	<u>Andronikos I Komnenos</u> (Ἀνδρόνικος Κομνηνός) <i>with</i> <u>John Komnenos</u> (Ιωάννης Κομνηνός)	September 1183 – 12 September 1185	Nephew of John II (son of his brother Isaac), uncle of Alexios II, appointed his son John as co-emperor in November 1183	c. 1118 – 12 September 1185 (aged 66–67) Overthrown and lynched in a popular uprising, John also seized and probably killed

1185–1204: Angelid dynasty^{[[edit](#)]}

See also: [Angelos](#) and [Byzantine Empire under the Angelos dynasty](#)

Portrait	Name	Reign	Succession	Life details
	Isaac II Angelos (Ἰσαάκιος Ἄγγελος) (<i>first reign</i>)	12 September 1185 – 8 April 1195 (9 years, 6 months and 27 days)	Rebellion	
	Alexios III Angelos (Ἀλέξιος Ἄγγελος)	8 April 1195 – 17/18 July 1203 (8 years, 3 months and 9 days)	Rebellion, elder brother of Isaac II	c. 1153 – 1211 (aged 58), Died in captivity in the Empire of Nicaea

	<u>Alexios IV Angelos</u> (Ἀλέξιος Ἄγγελος)	1 August 1203 – 27/28 January 1204 (5 months and 26 days)	Raised to the throne by the <u>Fourth Crusade</u> alongside his father Isaac II	c. 1182 – 8 February 1204 (aged 21–22) Strangled by successor
	<u>Isaac II Angelos</u> (Ἰσαάκιος Ἄγγελος) (<i>second reign</i>)	1 August 1203 – 27/28 January 1204 (5 months and 27 days)	Restored to the throne by the <u>Fourth Crusade</u> alongside his son Alexios IV	September 1156 – 25 January 1204 (aged 47) Died possibly of shock or poison
	<u>Alexios V Doukas "Murtzuphlus"</u> (Ἀλέξιος Δούκας ὁ Μούρτζουφλος)	5 February 1204 – 12 April 1204 (2 months and 7 days)	Coup in the Imperial Palace, son-in-law of Alexios III	c. 1140 – December 1204 (aged 64) Captured by crusaders of the newly founded <u>Latin Empire</u> and publicly executed

1204–1261: Laskarid dynasty^{[[edit](#)]}

See also: [Laskaris](#) and [Empire of Nicaea](#)

Note: Between 1204 and 1261 there was an interregnum when Constantinople was occupied by the crusaders of the Fourth Crusade and the Empire was divided into the Empire of Nicaea, the Empire of Trebizond and the Despotate of Epirus, which were all contenders for rule of the Empire. The Laskarid dynasty of the Empire of Nicaea is considered the legitimate continuation of the Roman Empire because they had the support of the (Orthodox) Patriarch of Constantinople and managed to re-take Constantinople.

Portrait	Name	Reign	Succession	Life details
	<u>Theodore I Laskaris</u> (Θεόδωρος Λάσκαρις) <i>with</i> <u>Nicholas Laskaris</u> (Νικόλαος Λάσκαρις)	1205 – November 1221	His brother Constantine Laskaris was elected emperor by the citizens of Constantinople on the day the city fell to the Crusaders; he later fled to Nicaea , where Theodore organized the Greek resistance to the Latins. Proclaimed emperor after Constantine's death in 1205, Theodore was crowned only in 1208.	c. 1174 – November 1221 (aged 48)
	<u>John III Doukas Vatatzes</u> (Ιωάννης Δούκας Βατάτζης)	15 December 1221 – 3 November 1254 (32 years, 10 months and 19 days)	Son-in-law of Theodore I	c. 1192 – 3 November 1254 (aged 62), Nymphaion
	<u>Theodore II Laskaris</u> (Θεόδωρος Λάσκαρις)	3 November 1254 – 16 August 1258 (3 years, 9 months and 13 days)	Son of John III	c. 1222 – 18 August 1258 (aged 36), Magnesia Epilepsy

	<u>John IV Laskaris</u> (Ιωάννης Λάσκαρις)	16 August 1258 – 25 December 1261 (3 years, 4 months and 9 days)	Son of Theodore II	Christmas 1250 – c. 1305 (aged 55) Blinded and imprisoned by successor in 1261, died in captivity

1261–1453: Palaiologan dynasty^{[[edit](#)]}

Portrait	Name	Reign	Succession	Life details
	<u>Michael VIII Palaiologos</u> (Μιχαήλ Παλαιολόγος)	1 January 1259 – 11 December 1282 (23 years, 11 months and 10 days)	Senior emperor and regent of John IV Laskaris, grandnephew of John III by marriage and great-grandson of Alexios III, his reign in Constantinople began on 15 August 1261	1223 – December 11, 1282 (aged 58)
	<u>Andronikos II Palaiologos</u> (Ἀνδρόνικος Παλαιολόγος)	11 December 1282 – 24 May 1328 (45 years, 5 months and 13 days)	Son of Michael VIII, crowned on 1272	25 March 1259 – 13 February 1332 (aged 72)

	<u>Michael IX Palaiologos</u> (Μιχαήλ Παλαιολόγος)	21 May 1295 – 12 October 1320 (25 years, 4 months and 21 days)	Son of Andronikos II, reigned alongside him as co-emperor with full imperial style	17 April 1277 – 12 October 1320 (aged 43)
	<u>Andronikos III Palaiologos</u> (Ἀνδρόνικος Παλαιολόγος)	24 May 1328 – 15 June 1341 (13 years and 22 days)	Son of Michael IX, named co-emperor in 1316 and rival emperor since 1321. Deposed his grandfather Andronikos II in 1328 and reigned as sole emperor	25 March 1297 – 15 June 1341 (aged 44) Possibly chronic malaria
	<u>John V Palaiologos</u> (Ἰωάννης Παλαιολόγος) (<i>first reign</i>)	19 November 1341 – 12 August 1376 (34 years, 8 months and 24 days)	Son of Andronikos III	Deposed

	<u>John VI Kantakouzenos</u> (Ἰωάννης Καντακουζηνός) with <u>Matthew Kantakouzenos</u> (Ματθαῖος Ἀσάνης Καντακουζηνός)	8 February 1347 – 4 December 1354 1353 – 1357 (Matthew) (7 years, 9 months and 26 days)	Maternal relative of the Palaiologi, declared co-emperor by John V in 1341 and recognized as senior emperor on 21 May 1347 following a civil war. Appointed his son Matthew as co-emperor in 1353	c. 1292 – 15 June 1383 (aged 90 or 91), deposed and in exile as a monk in the Peloponnese, Matthew was defeated in 1357 and later served as the governor of the Morea until his death on the same day as his father
	<u>Andronikos IV Palaiologos</u> (Ἀνδρόνικος Παλαιολόγος)	12 August 1376 – 1 July 1379 (2 years, 10 months and 19 days)	Son of John V, co-emperor since 1352, deposed his father John V in 1376	11 April 1348 – 28 June 1385 (aged 37)
	<u>John V Palaiologos</u> (Ἰωάννης Παλαιολόγος) (second reign)	1 July 1379 – 14 April 1390 (10 years, 9 months and 13 days)	Restored to the throne after overthrowing his son Andronikos IV	Deposed

	<u>John VII Palaiologos</u> (Ιωάννης Παλαιολόγος) (<i>first reign</i>)	14 April 1390 – 17 September 1390 (5 months and 3 days)	Rebellion, son and co-emperor of Andronikos IV, deposed his grandfather John V	1370 – 22 September 1408 (aged 38)
	<u>John V Palaiologos</u> (Ιωάννης Παλαιολόγος) (<i>third reign</i>)	17 September 1390 – 16 February 1391 (4 months and 30 days)	Restored to the throne after overthrowing his grandson John VII	18 June 1332 – 16 February 1391 (aged 58)
	<u>Manuel II Palaiologos</u> (Μανουήλ Παλαιολόγος) with <u>John VII Palaiologos</u> (Ιωάννης Παλαιολόγος) and <u>Andronikos V Palaiologos</u> (Ανδρόνικος Παλαιολόγος)	16 February 1391 – 21 July 1425 1403 – 1408 (John VII) 1403 – 1407 (Andronikos V) (34 years, 5 months and 5 days)	Son of John V, co-emperor since 1373. John VII, who previously usurped the throne, was proclaimed co-emperor in 1403, keeping the title until his death in 1408. John VII also proclaimed his son, Andronikos V, co-emperor but Andronikos died before his father, in 1407. The imperial status of John and Andronikos was purely honorary.	27 June 1350 – 21 July 1425 (aged 75) John died 22 September 1408 at Thessaloniki , Andronikos died aged 7 on September 24th, 1407.

	<u>John VIII Palaiologos</u> (Ιωάννης Παλαιολόγος)	21 July 1425 – 31 October 1448 (23 years, 3 months and 10 days)	Son of Manuel II, co-emperor since 1416 and full emperor from 19 January 1421	18 December 1392 – 31 October 1448 (aged 55), Constantinople
	<u>Constantine XI Dragases Palaiologos</u> (Κωνσταντῖνος Δραγάσης Παλαιολόγος)	6 January 1449 – 29 May 1453 (4 years, 4 months and 23 days)	Son of Manuel II	8 February 1405 – May 29, 1453 (aged 48) Refused to surrender Constantinople to the sultan <u>Mehmed II</u> and died fighting during the <u>final Ottoman attack</u>

Bronze Age

[2007 Schools Wikipedia Selection](#). Related subjects: [Ancient History](#), [Classical History and Mythology](#)

The **Bronze Age** is a period in a [civilization](#)'s development when the most advanced metalworking (at least in systematic and widespread use) consisted of techniques for smelting [copper](#) and [tin](#) from naturally occurring outcroppings of ore, and then alloying those metals in order to cast bronze. The Bronze Age is part of the three-age system for prehistoric societies. In that system, it follows the neolithic in some areas of the world. In many parts of [sub-Saharan Africa](#), the neolithic is directly followed by the [Iron Age](#).

Origins

The earliest evidence of bronze metalworking dates to the mid 4th millennium BCE Maykop culture in the Caucasus. From there, the technology spread rapidly to the Near East and after some time to the [Indus Valley Civilization](#) (see Meluhha).

Near Eastern Bronze Age

The Bronze Age in the Near East is divided into three main periods (the dates are very approximate):

- EBA - Early Bronze Age (c.3500-2000 BC)
- MBA - Middle Bronze Age (c.2000-1600 BC)
- LBA - Late Bronze Age (c.1600-1200 BC)

Each main period can be divided into shorter subcategories such as EB I, EB II, MB IIa etc.

Metallurgy developed first in Anatolia, modern [Turkey](#). The mountains in the Anatolian highland possessed rich deposits of copper and tin. Copper was also mined in [Cyprus](#), [Egypt](#), the Negev desert, [Iran](#) and around the [Persian Gulf](#). Copper was usually mixed with arsenic, yet the growing demand for tin resulted in the establishment of distant trade routes in and out of Anatolia. The precious copper was also imported by sea routes to the great kingdoms of [Ancient Egypt](#) and [Mesopotamia](#). The Early Bronze Age saw the rise of urbanization into organized city states and the invention of writing (the Uruk period in the fourth millennium BC). In the Middle Bronze Age movements of people partially changed the political pattern of the Near East (Amorites, Hittites, Hurrians, Hyksos and possibly the Israelites). The Late Bronze Age is characterized by competing powerful kingdoms and their vassal

states ([Ancient Egypt](#), [Assyria](#), [Babylonia](#), Hittites, Mitanni). Extensive contacts were made with the Aegean civilization (Ahhiyawa, Alashiya) in which the copper trade played an important role. This period ended in a widespread collapse which affected much of the Eastern Mediterranean and Middle East.

Iron began to be worked already in Late Bronze Age Anatolia. The transition into the Iron Age c.1200 BC was more of a political change in the Near East rather than of new developments in metalworking.

Indian Bronze Age

The Bronze Age on the Indian subcontinent began around 3300 BC with the beginning of the [Indus Valley civilization](#).

East Asian Bronze Age

Bronze artifacts were exhumed in historic site of Majiayao culture (3100 BC to 2700 BC) of [China](#). However, it is commonly accepted that China's bronze age began from around 2100 BC during the Xia dynasty.

In Ban Chiang, [Thailand](#), (Southeast Asia) bronze artifacts have been discovered dating to 2100 BC .

The Erlitou culture, Shang Dynasty and Sanxingdui culture of early [China](#) used bronze vessels for rituals as well as farming implements and weapons .

The Middle Mumun pottery period culture of the southern Korean Peninsula gradually adopted bronze production circa [700-600?] BC after a period when Liaoning-style bronze daggers and other bronze artifacts were exchanged as far as the interior part of the Southern Peninsula (circa 900-700 B.C.). The bronze daggers lent prestige and authority to the personages who wielded and were buried with them in high-status megalithic burials at south-coastal centres such as the Igeum-dong site . Bronze was an important element in ceremonies and as for mortuary offerings until AD 100.

Aegean Bronze Age

Bronze Age copper ingot found in Crete.

The Aegean bronze age civilizations established a far-ranging trade network. This network imported [tin](#) and charcoal to [Cyprus](#), where [copper](#) was mined and alloyed with the tin to produce bronze. Bronze objects were then exported far and wide, and supported the trade. Isotopic analysis of the tin in some [Mediterranean](#) bronze objects indicates it came from as far away as [Great Britain](#).

Knowledge of navigation was well developed at this time, and reached a peak of skill not exceeded until a method was discovered (or perhaps rediscovered) to determine longitude around 1750 AD, with the notable exception of the Polynesian sailors.

The [Minoan civilization](#) based from Knossos appears to have coordinated and defended its bronze-age trade.

One crucial lack in this period was that modern methods of accounting were not available. Numerous authorities believe that ancient empires were prone to misvalue staples in favour of luxuries, and thereby perish by famines created by uneconomic trading.

How the bronze age ended in this region is still being studied. There is evidence that Mycenaean administration of the regional trade empire followed the decline of Minoan primacy. Evidence also exists that supports the assumption that several Minoan client states lost large portions of their respective populations to extreme famines and/or pestilence, which in turn would indicate that the trade network may have failed at some point, preventing the trade that would have previously relieved such famines and prevented some forms of illness (by nutrition). It is also known that the breadbasket of the Minoan empire, the area north of the [Black Sea](#), also suddenly lost significant portions of its population, and thus probably some degree of cultivation in this era.

Recent research has discredited the theory that exhaustion of the [Cypriot](#) forests caused the end of the bronze trade. The Cypriot forests are known to have existed into later times, and experiments have shown that charcoal production on the scale necessary for the bronze production of the late bronze age would have exhausted them in less than fifty years.

One theory says that as [iron](#) tools became more common, the main justification of the tin trade ended, and that trade network ceased to function as it once did. The individual colonies of the Minoan empire then suffered drought, famine, war, or some combination of these three factors, and thus they had no access to the far-flung resources of an empire by which they could easily recover.

Another family of theories looks to Knossos itself. The Thera eruption occurred at this time, 40 miles north of Crete. Some authorities speculate that a [tsunami](#) from Thera destroyed Cretan cities. Others say that perhaps a tsunami destroyed the Cretan navy in its home harbour, which then lost crucial naval battles; so that in the LMIB/LMII event (c. 1450 BC) the cities of Crete burned and the Mycenaean civilization took over Knossos. If the eruption occurred in the late 17th century BC (as most chronologists now think), then its immediate effects belong to the Middle Bronze to Late Bronze Age transition, and not to the end of the Late Bronze Age; but it could have triggered the instability which led to the collapse first of Knossos and then of Bronze Age society overall. One such theory looks to the role of Cretan expertise in administering the empire, post-Thera. If this expertise was concentrated in Crete, then the Mycenaeans may have made crucial political and commercial mistakes when administering the Cretans' empire.

More recent archeological findings, including on the island of Thera (more commonly known today as Santorini), suggest that the center of Minoan Civilization at the time of the eruption was actually on this island rather than on Crete. Some think that this was the fabled Atlantis (a map drawn on a wall of a Minoan palace in Crete depicts an island similar to that described by Plato and similar too to the form Thera very likely had prior to its explosion). According to this theory, the catastrophic loss of the political, administrative and economic centre by the eruption as well as the damage wrought by the tsunami to the coastal towns and villages of Crete precipitated the decline of the Minoans. A weakened political entity with a reduced economic and military capability and fabled riches would have then been more vulnerable to human predators.

Each of these theories is persuasive, and aspects of all of them may have some validity in describing the end of the bronze age in this region.

Central European Bronze Age

Bronze age weaponry

In Central Europe, the early Bronze Age Unetice culture (1800- 1600 BC) includes numerous smaller groups like the Straubingen, Adlerberg and Hatvan cultures. Some very rich burials, such as the one located at Leubingen with grave gifts crafted from gold, point to an increase of social stratification already present in the Unetice culture. All in all, cemeteries of this period are rare and of small size. The Unetice culture is followed by the middle Bronze Age (1600- 1200 BC) Tumulus culture, which is characterised by inhumation burials in tumuli (barrows). In the eastern [Hungarian](#) Körös tributaries, the early Bronze Age first saw the introduction of the Mako culture, followed by the Ottomány and Gyulavarsand cultures.

The late Bronze Age urnfield culture, (1300 BC- 700 BC) is characterized by cremation burials. It includes the Lusatian culture in eastern [Germany](#) and [Poland](#) ((1300- 500 BC) that continues into the [Iron Age](#). The Central European bronze age is followed by the iron age Hallstatt culture (700- 450 BC).

Important sites include:

- Biskupin (Poland)
- Nebra (Germany)
- Zug-Sumpf, Zug, [Switzerland](#)

Nordic Bronze Age (1500-500 BC)

In northern [Germany](#), [Denmark](#), [Sweden](#) and [Norway](#), Bronze Age inhabitants manufactured many distinctive and beautiful artifacts, such as the pairs of lurer horns discovered in Denmark. Some linguists believe that a proto-Indo-European language was probably introduced to the area around 2000 BC, which eventually became the ancestor of the Germanic languages. This would fit with the evolution of the Nordic bronze age into the most probably Germanic pre-Roman iron age.

The age is divided into the periods I-VI according to Oscar Montelius. Period Montelius V already belongs to the [Iron Age](#) in other regions.

British Bronze Age

In [Great Britain](#), the Bronze Age is considered to have been the period from around 2100 to 700 BC. Immigration brought new people to the islands from the continent. Recent tooth enamel isotope research on bodies found in early Bronze Age graves around [Stonehenge](#) indicate that at least some of the immigrants came from the area of modern [Switzerland](#). The Beaker people displayed different behaviours from the earlier Neolithic people and cultural change was significant. Integration is thought to have been peaceful as many of the early henge sites were seemingly adopted by the newcomers. The rich Wessex culture developed in southern Britain at this time. Additionally, the climate was deteriorating, where once the weather was warm and dry it became much wetter as the bronze age continued, forcing the population away from easily-defended sites in the hills and into the fertile valleys. Large livestock ranches developed in the lowlands which appear to have contributed to economic growth and inspired increasing forest clearances. The Deverel-Rimbury culture began to emerge in the second half of the 'Middle Bronze Age' (c. 1400- 1100 BC) to exploit these conditions. Cornwall was a major source of [tin](#) for much of western Europe and [copper](#) was extracted from sites such as the Great Orme mine in northern [Wales](#). Social groups appear to have been tribal but with growing complexity and hierarchies becoming apparent.

Also, the burial of dead (which until this period had usually been communal) became more individual. For example, whereas in the Neolithic a large chambered cairn or long barrow was used to house the dead, the 'Early Bronze Age' saw people buried in individual barrows (also commonly known and marked on modern British Ordnance Survey maps as Tumuli), or sometimes in cists covered with cairns.

Irish Bronze Age

The Bronze Age in Ireland commenced in the centuries around 2000 B.C. when copper was alloyed with tin and used to manufacture Ballybeg type flat axes and associated metalwork. The preceding period is known as the Copper Age and is characterised by the production of flat axes, daggers, halberds and awls in copper. The period is divided into three phases Early Bronze Age 2000-1500 B.C.; Middle Bronze Age 1500-1200 B.C. and Late Bronze Age 1200-c.500 B.C. [Ireland](#), is also known for a relatively large number of Early Bronze Age Burials.

Andean Bronze Age

An Andean bronze bottle made by Chimú artisans from circa 1300 A.D.

The bronze age in the [Andes](#) region of [South America](#) is thought to have begun at about 900 B.C. when Chavin artisans discovered how to alloy copper with tin. The first objects produced were mostly utilitarian in nature, such as axes, knives, and agricultural implements. Later on, However, as the Chavin became more experienced in bronze-working technology they produced many ornate and highly decorative objects for administrative, religious, and other ceremonial purposes, as well as household use, as decorative work in gold, silver and copper was a highly developed tradition that had already long been known to the Chavin. RESEARCH: Therefore copper, Bronze, Lead, Tin, Iron, Silver, Gold, Diamonds, steel, airplane, test- tube babies (<https://www.dailyo.in/voices/did-rama-pushpak-viman-head-transplantation-even-exist-markanday-katju-answers/story/1/26866.html>; <https://www.thehindu.com/news/national/kauravas-were-test-tube-babies-ravana-had-24-types-of-aircrafts-andhra-university-v-cs-presentation-at-indian-science-congress/article25915645.ece>) etcetera are not discovered before 4234 BCE according to the Book of Yahweh (Isaiah 34:16), human history, and science. So the Carbon dating method (<https://www.britannica.com/science/carbon-14-dating>) is not useful to guess the years beyond 6 PM on 22nd Feb., 4234 BCE because there was no man (Life) in the Universe according to Genesis 1:1-8; Isaiah 34:16; Isaiah 45:12- 19; Daniel 4:32-37, and Human history. Yahweh created the Universe in 6 days and rested on the 7th day (Genesis 2:1-3). The beginning of 7 – Day Weekly Cycle, and 49 – Years (Formula of Luni Solar Calendar = 49 – Year Luni Solar Cycle = 49 – Year Tropical Cycle = Relation between Earth, Sun, Moon, and Stars) is written in Genesis 1:1-31; 2:1-3; Leviticus 25:8-9; Jeremiah 33:19-26; Job 38:1-33; John 11:9. Yahweh’s 49 – Year Luni Solar Cycle (Formula = Leviticus 25:8-9; Jeremiah 33:19-26) only gives accurate nights, days, Phases of the Moon (Months), Seasons, and Years (Genesis 1:13-19; Psalms 104:19; John 11:9). Hindu or Chinese 60 – Year Luni Solar Cycle is not giving accurate Phases of the Moon, and Seasons to this very day. Ugadi didn’t occur in the right Season in 46 BCE when Julius Caesar proposed the Julian calendar. Please study the data which is given in this History or under z51a to z51e, z52a to z52c on our website. **“Yahweh is proved as the Creator by the proofs of 7 – Day Weekly Cycle (Genesis 1:1-31; 2:1-3), History from the very first man to CE 2136 (Isaiah 34:16), 49 - Year Luni Solar Cycle (Leviticus 25:8-9), metals (Bronze, Copper, tin, lead, silver, gold, iron, steel - Genesis 4:19-24; 13:1-2; Exodus 28:18; 39:11; Joshua 17:18; 2 Sam. 22:35; Ps. 18:34; Jer. 15:12; Ezekiel 22:17-22; Nah. 2:3), and Diamonds”.** The Book of Yahweh gives the date of the Creation of Sun, Moon, and stars as 6 PM on 23rd Feb., 4234 BCE (Genesis 1:13-19; Jeremiah 33:19-26; John 11:9). That’s why we should count time and the Phases of the Moon as “ll.ST – h m s” only. So “UT ± h m s” is true if the earth is stopped. Jerusalem is proved as the center of the World according to Genesis 1:1-31; 2:1-3; Ezekiel 5:5; 38:12; Jeremiah 31:7 because time and Phases of the Moon counted from Jerusalem only before the Continental Drift (In 2477 BCE = Genesis 10:21-25 Cf. 11:1-9). NASA (<http://astropixels.com/ephemeris/phasescat/phasescat.html>), IAU, and all religious leaders are misleading the World with their inaccurate discoveries, and calculations under the veil of science and the Creator. Therefore this is the time to realize which history is suitable to accept the true Creator. This is the time to test your Creator whether He is true or fake. **USA (People like Abraham) is the Tribe of Manasseh (Genesis 48:8-20 Cf. Isaiah 44:1-8), and UK (People like Abraham) is the Tribe of Ephraim (Genesis 48:8-20 Cf. Isaiah 44:1-8).** Israel faces wars but finally wins always (Genesis 22:17; Isaiah 54:17 = 24:60 Cf. Judges 2:1-5). Yahweh punished Jewish people with starvation, pestilences, sword, captivity, eating their children, afterbirth and finally in the holocaust (Deut. 28:15-68; Luke 21:24). So every unrighteous Jew and gentile will be punished by Yahweh about in CE 3136 (Romans 2:1-16; 1 Cor. 6:9-10; Gal. 5:19-21; Rev. 20:15, 21:8; Jeremiah 25:29; Luke 6:25, 10:10-16; James 5:1-6; Heb. 10:26-31). The Jewish Messiah (Yahweh was manifest in the Flesh) was born on 10th Nov., 1 BCE in Augustus Caesar’s reign (Luke 2:1-21), and resurrected on 16th May, CE 33 in Tiberius Caesar’s reign. Yahweh is coming soon to rule the chosen people after the end of the reign of the Roman Empire about in CE 2136 (Ephesians 1:1-12; Revelations 13:1-18; 17:1-18; 19:1-24; 20:1-15).

0b00. FORMULA OF YAHWEH'S LUNI SOLAR CALENDAR - GENESIS 1:13-19; LEVITICUS 25:8-9; JEREMIAH 33:19-26; JOHN 11:9; PSALMS 104:19

Yahweh's Principle: The earth completed 49 revolutions around the sun while the moon completed 606 revolutions around the earth (Job 38:19-34) at + 35 degrees of Longitude.																									
49 Revolutions = 49 Tropical Years = 17,896 days; 606 Revolutions = 606 Lunar Months = 17,896 days = 49 LUNI SOLAR YEARS.																									
Yahweh's Formula = 49 - Year Cycle = 49 - Year Luni Solar Cycle = 49 - Year Tropical Cycle = 49 Luni Solar Years = 49 Tropical Years = 606 Lunar Months = 588 Tropical Months = 17,896 days = 17,896 nights + 17,896 days = 429,504 hours = 25,770,240 minutes = 1,546,214,400 seconds.																									
606 Revolutions = 606 Lunar Months = 49 Luni Solar Years = 17,896 nights and 17,896 days according to Genesis 1:13 - 19.																									
																		NOTE: There is no chance for 50th Yom Kippur but 49th only. Please note this today at least!!!!							

NOTE: There is no chance for 50th Yom Kippur but 49th only. Please note this today at least!!!

0b00. FORMULA OF YAHWEH'S LUNI SOLAR CALENDAR - GENESIS 1:13-19; LEVITICUS 25:8-9; JEREMIAH 33:19-26; JOHN 11:9; PSALMS 104:19

1 Cycle = 7 times 7 years = 49 Years = 49 - Year Luni Solar Cycle = 49 - Year Tropical Cycle = 606 Lunar Months = 588 Tropical Months = 17,896 days. Lunar Month = 29.53135314 days, Tropical Year = 365.2244898 days.

C 606	49 - YEAR LUNI SOLAR CYCLE						R 606	DAO	Days per Month and number of Yom Kippur	D/YC	D/Y R	C 606 X 29.53135314 days	RM	CM	d, D, A	Name of Month	LSDPM	Residue after EM	Number of Land Sabbaths and Yom Kippurs completed	
-	CY	YC	D/Y	RY	YR	D/Y	Principle: The Earth completed 49 revolutions around the Sun while the Moon completed 606 revolutions around the Earth (Gen. 1:13-19).													
So Lunar Month = 17,896 days/ 606 Lunar Months = 29.53135314 days (For right Phases of Moon - Genesis 1:13 - 19; Lev. 25:8 - 9). So Tropical Year = 17,896 days/49 Tropical Years = 365.2244898 days (For right Seasons - Leviticus 25:8 - 9; Jer. 31:35 - 37; Num. 23:19) Luni Solar Difference per Month (LSDPM) = Tropical Year - Lunar Month = 0.904021014 days (For right Seasons - Genesis 1:13 - 19). Where C 606 = Number of Civil Months completed out of 606 Civil Lunar Months; R 606 = Number of Religious Months completed out of 606 Religious Months; DAO = Days in Ascending Order; D/M = Days per Month; D/Y = Days per Year. C 606 X A = Number of Civil Months completed out of 606 Lunar Months X 29.53135314 days; A = 29.53135314 days. RM = Religious Months completed as 1/1, 2/1,3/1 and so on with respect to R 606 and 49 Religious Years. CM = Civil Months completed as 1/1, 2/1,3/1 and so on with respect to C 606 and 49 Civil Years; EM = Extra Month LSDPM = Luni Solar Difference Per Month (Leviticus 25:8 - 9; Job 38:19-34; Jeremiah 33:19 - 26, 32:26 - 27). This becomes Extra month.																			* The Scriptural Zero Degrees of Longitude passes through Jerusalem only because Yahweh, the Creator created Sun, Moon, and stars at the end of 3 days (72 hours or 4,320 minutes or 2,59,200 seconds strictly) with respect to Jerusalem (Genesis 1:13-19; Psalms 104:19; Job 38:1-34; Jeremiah 31:35-37, 33:19-26; Num. 23:19; Joshua 10:12-15; John 11:9)!	
We can get EXTRA MONTH if LSDPM is greater than or equal to THE SCRIPTURAL LUNAR MONTH according to Yahweh's Formula (Lev. 25:8-9).												CY = YC; RY = YR in case of Days per Year only!								
d1, d2, d3, d4, d5 d50 are The Day of Atonement with respect to Civil 50 - Year Lunisolar Cycle.												Note: d1 = d50 = D49 = Mystery just as Yahweh was manefest in the form of flesh = The Messiah.								
A1, A2, A3, A4, A5, A6 A49 are 1st Abib with respect to Religious 49 - Year Lunisolar Cycle.												Note: 35°E = The Scriptural Zero Degrees of Longitude.								
D1, D2, D3, D4, D5 D49 are the Day of Atonement with respect to Religious 49 - Year Luni Solar Cycle.																				
CY = Civil Years completed from the Creation of Sun, Moon and stars (CY = SM); YC = Years completed with respect to 49 Civil Years.																			* Those who are introducing false doctrines are the see of the serpents only!	
RY = Religious Years completed from the land of Canaan (RY = MH); YR = Years completed with respect to 49 Religious Years.																				
* Beginning of Lunar Month (Num. 10:10) = 1st Day of Lunar Month. This is calculated from the very first day of Lunar Month (Gen. 1:13-19).																				
** Full Moon Day (Psalms 81:1-5) = This is calculated from the very first day of Lunar Month (Genesis 1:13-19) = Half of Lunar Month completed.																			* NASA or any astronomer is misleading the people with inaccurate calculations.	
*** Ending of Lunar Month (Deut. 11:11-14) = This is calculated from the very first day of Lunar Month according to 29.53135314 days.																				
**** Days per every Luni Solar Year are indicated by Yahweh's Formula only because Luni Solar Difference per Month gives EXTRA MONTH.																				
Note: We should calculate 1st day of Lunar Month from the day of VISIBLE CRESCENT if the Sun is created after the end of 4 days where as the moon is created after the end of 3 days because the Moon gets illuminated as soon as she receives light from the sun.																			* So the Scriptures are the witnesses to this very day (Genesis 1:13-19).	
Note: The time between two Jubilees is 17,896 days always because more or less than 17,896 days can't give Seasons and Phases of the Moon.																				
* So 50th Yom Kippur (d50) = 49th Yom Kippur (D49) = 1st Yom Kippur (d1) = 24 hrs. = 10th day of Ethanim of every 49th Religious Year = Jubilee Year = 354 Days always (Leviticus 25:8-16).																				
Please prove your calculations if Yahweh, the Creator elected you to produce His Appointed times according to Lev. 25:8-9; 1 Cor. 11:17-19.

<http://astropixels.com/ephemeris/calendarconverter.html>

Where D/TY = Days per Tropical Year; RAO = Residue in Ascending Order; LD = Leap Day; D/7Y = Days per 7 Tropical Years; D/CY = Days per Civil Luni Solar Years which is counted from the Creation

of Sun, Moon, and stars; D/CM = Days per Civil Months; D/RM = Days per Religious Months; D/RY = Days per Religious Luni Solar Years which is counted from the land of Canaan; LS Years = Luni Solar Years;

**** The above Principles and Formulas are produced according to Genesis 1:13-19; Leviticus 25:8-9; Jeremiah 31:35-37, 33:19-26 and are Constant for ever.**

RESEARCH AGAIN	
FOR EXAMPLE - 1a. : 19 - YEAR LUNI SOLAR CYCLE IS CONSIDERED	
Conditions: (1). Day = 24 hours. (2). Lunar Month = 29.53058885 days. (3). Cycle = 19 - Year Luni Solar Cycle.	
Principle: The earth completed 19 revolutions around the sun while moon completed 235 lunar months around the earth.	
Formula: 19 Revolutions = 19 Tropical Years = 228 Tropical months = 19 Luni Solar Years = 235 lunar months = 6,939.68838 days (235 Lunar Months X 29.53058885 days).	
19 Tropical Years = 19 Luni Solar Years = 6,939.68838 days according to the Formula.	
We can simply get the length of Tropical Year with the help of the above equation.	
So 1 Tropical Year = 6,939.68838 days ÷ 19 Years = 365.2467568 days.	
So 1 Tropical Year = 365.2467568 days or 365 days, 5 hours, 55 minutes and 19.7900256 seconds. But it is more than 365.24219 days. So 19 - Year Cycle is disproved!	
FOR EXAMPLE - 2a. : 50 - YEAR LUNI SOLAR CYCLE IS CONSIDERED	
Conditions: (1). Day = 24 hours. (2). Lunar Month = 29.53058885 days. (3). Cycle = 50 - Year Luni Solar Cycle.	
Principle: The earth completed 50 revolutions around the sun while moon completed 618 lunar months around the earth.	
Formula: 50 Revolutions = 50 Tropical Years = 600 Tropical months = 50 Luni Solar Years = 618 lunar months = 18,249.90391 days (618 Lunar Months X 29.53058885 days).	
50 Tropical Years = 50 Luni Solar Years = 18,249.90391 days according to the Formula.	
We can simply get the length of Tropical Year with the help of the above equation.	
So 1 Tropical Year = 18,249.90391 days ÷ 50 Years = 364.9980782 days.	
*Note: This length is shorter than 365.24219 days. So 50 - Year Cycle is clearly disproved!	

* NOTE: (1). The residue at the end of the Cycle should be zero because we can't get night and day if the length of night or day is less than or greater than 12 hours. (2). Any Luni Solar Cycle or Tropical Cycle is true if the Seasons, and Phases of the Moon are occurring accurately from the beginning to this very day without change in the length of day, Lunar Month, and tropical year.

RESEARCH AGAIN	
FOR EXAMPLE - 1b. : 19 - YEAR TROPICAL CYCLE IS CONSIDERED	
Cond. (1). Day = 24 hours. (2). Tropical Year = 365.24219 days. (3). Cycle = 19 - Year Tropical Cycle.	
Principle: The earth completed 19 revolutions around the sun while moon completed 235 lunar months around the earth.	
Formula: 19 Revolutions = 19 Tropical Years = 228 Tropical months = 19 Luni Solar Years = 235 lunar months = 6,939.60161 days (19 Tropical Years X 365.24219 days).	
19 Luni Solar Years = 235 Lunar months = 6,939.60161 days according to the Formula.	
We can simply get the length of Lunar Month with the help of the above equation.	
So 1 Lunar Month = 6,939.60161 days ÷ 235 Lunar Months = 29.53021962 days.	
So 1 Lunar month = 29.53021962 days or 29 days, 12 hours, 43 minutes and 30.9749088 seconds. But it is less than 29.53058885 days. So 19 - Year Cycle is disproved!	
FOR EXAMPLE - 2b. : 50 - YEAR TROPICAL CYCLE IS CONSIDERED	
Cond. (1). Day = 24 hours. (2). Tropical Year = 365.24219 days. (3). Cycle = 50 - Year Tropical Cycle.	
Principle: The earth completed 50 revolutions around the sun while moon completed 618 lunar months around the earth.	
Formula: 50 Revolutions = 50 Tropical Years = 600 Tropical months = 50 Luni Solar Years = 618 lunar months = 18,262.1095 days (50 Tropical Years X 365.24219 days).	
50 Luni Solar Years = 618 Lunar months = 18,262.1095 days according to the Formula.	
We can simply get the length of Lunar Month with the help of the above equation.	
So 1 Lunar Month = 18,262.1095 days ÷ 618 Lunar Months = 29.550339 days.	
* This length is greater than 29.53058885 days. So 50 - Year Cycle is clearly disproved!	

0b00. FORMULA OF YAHWEH'S LUNI SOLAR CALENDAR - GENESIS 1:13-19; LEVITICUS 25:8-9; JEREMIAH 33:19-26; JOHN 11:9; PSALMS 104:19

1 Cycle = 7 times 7 years = 49 Years = 49 - Year Luni Solar Cycle = 49 - Year Tropical Cycle = 606 Lunar Months = 588 Tropical Months = 17,896 days. Lunar Month = 29.53135314 days, Tropical Year = 365.2244898 days.

C 606	49 - YEAR LUNI SOLAR CYCLE						R 606	DAO	Days per Month and number of Yom Kippur	D/YC	D/Y R	C 606 X 29.53135314 days	RM	CM	d, D, A	Name of Month	LSDPM	Residue after EM	Number of Land Sabbaths and Yom Kippurs completed
-	CY	YC	D/Y	RY	YR	D/Y	Principle: The Earth completed 49 revolutions around the Sun while the Moon completed 606 revolutions around the Earth (Gen. 1:13-19).												

Where (A). C 606 = Number of Civil months completed out of 606 Lunar Months in each Civil 49 - Year Lunisolar Cycle, (Q). R 606 = Number of Religious Months completed out of 606 Lunar Months in each Religious 49 - Year Luni Solar Cycle, (B). CCM = Number of Civil months completed from the date of Creation of the sun, moon and stars. (C). Year = Roman Year. (D). M = Roman Month. (E). D = Day.

(F). H = Hours; (G). M = Minutes. (H). S = Seconds. (I). DW = Day of Week. (J). Length of Lunar month according to 49 - Year Lunisolar Cycle as written in Leviticus 25:8,9; Genesis 18:14, 1:14-19; 8:22; Numbers 23:19; Jeremiah 31:35-37, 33:19-26; Job 26:7, 38:31-36; Psalms 104:5, 19-27, 19:1-4; John 11:9; Deuteronomy 11:12; Exodus 34:22; Ezk. 5:5, 38:12; Matthews 24:35).

(K). D/M = Days/Month, (L). New Moon or New Year Day = 1st Day of Lunar Month/Luni Solar New Year is confined according to (1). Celebrate the New Year Day from previous evening to next eveing (6 PM) if Year begins between 0 hours and 9 hours (9 AM). (2) Celebrate the 1st Day of Lunar Month from Evening to next Evening if the Lunar Month begins between 9 hours (9 AM) and 24 hours (12 PM) of Israel Local Standard Time at 35 °E (Deut. 11:12-14; Neh. 8:3-12; Acts 2:14 - 16, 15:28-29).

(M). NRM = Name of Religious Month completed, (N). Full Moon = 15th day of each month (Ps. 81:1-5). New Moon and Full Moon belongs to NRM, (O). RM = Rel. Months completed with respect to R606.

(P). CM = Civil Months completed with respect to C606. (Q). R606 = Number of Religious Months completed in each Religious 49 - Year Lunisolar Cycle which began from Canaan (Lev. 25:1-7).

(R). RCM = Number of Religious Months Completed from the plains of Moab (Num. 33:48-56) or Canaan.

(S). CY = Number of Civil Years completed from the date of Creation of Sun, Moon and stars (CY = SM).

RY = MH = Religious Years (Luni Solar) completed from the land of Milk and Honey (Lev. 25:1-7);

(T). YC = Civil Years completed out of 49 Civil Years (1 to 49), (U). D/YC = Days per YC.

Special Note: RCM gives number of Religious months completed from the land of Canaan.

Note: CCM gives number of Civil months completed from the date of Creation of Sun, Moon and stars.

*** In this way you too calculate the end of each Scriptural Lunar Month according to Leviticus 25:8 - 9.

* Any Religious Calendar is Luni Solar Calendar except Muslim. So Religious Calendar gives both the Phases of the Moon and Seasons. 60 - Year Cycle can't give accurate Phases of the MOON and SEASONS. But 49 - Year Cycle only gives accurate Phases of the Moon and Seasons.

RESEARCH: The volume of the Moon is Constant forever according to Jeremiah 33:19-26, 31:35-37; John 11:9; Psalms 104:19; Job 38:1-33, 26:7 etc.

* 49 - YEAR LUNI SOLAR CYCLE ONLY gives accurate Phases of the Moon and Seasons forever because it is established by the Creator, Yahweh at 6 PM of 23rd February, 4234 BCE on Tuesday. For details please study under z20 or 1b. Case - 5 in our website.

RESEARCH: 29.5 days as the Lunar Month is not proved because 606 Lunar Months = 17,877 days (606 Lunar Months X 29.5 days). Therefore those who are following Lunar Month as 29.5 days are misled by the Religious Leaders. Yahweh's Formula is proved theoretically, Historically and practically because Lunar Month is determined by Yahweh as 29.53135314 days. This Lunar Month (29.53135314 days) is giving accurate nights, days, Phases of the Moon, and Seasons if 49 - Years are counted as Commanded by Yahweh in Leviticus 25:8-9.

(V). RY = Number of Religious Years completed (from Canaan or plains of Moab).

Moab. (W). YR = Religious Years completed out of 49 Religious Years (1 to 49).

(X). D/YR = Days per YR. (Y). C 606 X A = Number of Civil months completed out of 606 months. So C 606 X 29.53135314 days. (Z). CCM X A = Number of Civil months completed from the Creation of sun, moon X 29.53135314 days (A = 29.53135314 days).

(AA). CCC = Number of Civil Cycles Completed or Number of Civil 49 - Year Lunisolar Cycles completed. (AB). RCC = Number of Religious Cycles Completed or Number of Religious 49 - Year Lunisolar Cycles completed.

DL = Degrees of Longitudes discovered by Scientists (UK is the center of the Globe).

DLM = Degrees of Longitudes determined by Yahweh (Genesis 1:1-31; Ezekiel 38:12).

35°E = Zero Degrees of Scriptural Longitudes Discovered by Me.

* RY/3 = Number of Years of Tithe completed (If the remainder is ZERO)

** RY/7 = Number of Sabbatical Years completed (If the remainder is ZERO)

*** RY/49 = Number of Jubilee Years completed (If the remainder is ZERO)

Special Note: ZERO residue is remained at the end of each 49 - Year Lunisolar Cycle.

**** CCC = CY/49 = Number Civil Cycles compld (If the remainder is ZERO).

***** RCC = RY/49 = Number Religious Cycles compld (If the remainder is ZERO).

RCM = CCM - 33,336 where 33,336 lunar months are constant.

C49 = CCM and R49 = RCM(What a wonderful theory and formula of YHWH!)

1/1 indicates 1st month of 1st year completed out of 49 Years. In this way you can understand.

12/1 indicates 12th month of 1st year completed out of 49. In this way you can understand the remaining.

12/2 indicates 12th month of 2nd year completed out of 49. In this way you can understand the remaining.

12/12 indicates 12th month of 12th year completed out of 49. In this way you can understand the remaining.

12/50 indicates 12th month of 50th Civil year completed out of 50 Civil Years.

Research: Yahweh's Universal Luni Solar Clock, the Sun, and Moon is giving accurate Phases of the Moon, and Seasons from the date of the Creation of Sun, Moon, and stars (6 PM on 23rd Feb., 4234 BCE, at 35°E, Jerusalem). Don't believe scientific fictions.

RESEARCH: The length of Tropical Year is Constant always as the volume of the Moon is Constant! So Yahweh, the Creator is controlling the Universe!

* All the religious leaders of Israel, China, India, Nepal, Srilanka etcetera are misleading their fellow brothers and sisters with their inaccurate Luni Solar Calendars. China banned 60 - Year Cycle in CE 1930 because it is not giving accurate Phases of the Moon, and Seasons.

Yahweh is proved as the Creator because His Formula is written in Leviticus 25:8-9; Jeremiah 33:19-26. His Formula only is giving 100% accurate Phases of the Moon, Seasons, Sabbatical and Jubilee Years etc. forever!

0b00. FORMULA OF YAHWEH'S LUNI SOLAR CALENDAR - GENESIS 1:13-19; LEVITICUS 25:8-9; JEREMIAH 33:19-26; JOHN 11:9; PSALMS 104:19

1 Cycle = 7 times 7 years = 49 Years = 49 - Year Luni Solar Cycle = 49 - Year Tropical Cycle = 606 Lunar Months = 588 Tropical Months = 17,896 days. Lunar Month = 29.53135314 days, Tropical Year = 365.2244898 days.

C 606	49 - YEAR LUNI SOLAR CYCLE						R 606	DAO	Days per Month and number of Yom Kippur	D/YC	D/Y R	C 606 X 29.53135314 days	RM	CM	d, D, A	Name of Month	LSDPM	Residue after EM	Number of Land Sabbaths and Yom Kippurs completed
-	CY	YC	D/Y	RY	YR	D/Y	Principle: The Earth completed 49 revolutions around the Sun while the Moon completed 606 revolutions around the Earth (Gen. 1:13-19).												

We should count 49 YEARS as 7 times 7 years as 606 Lunar Months = 17,896 days only but not as simple 49 years.

Are not there 17,897.25 days in 49 Julian Years (49 Tropical Years X 365.25 days)?

Are not there 17,896.8825 days in 49 Gregorian Years (49 Tropical Years X 365.2425 days)?

Are not there 17,894.8 days in 49 Hindu Tropical Years (49 Tropical Years X 365.2 days)?

So we should count 7 times 7 years in this way only if YAHWEH'S SPRIT inspires you.

We can count 7 times 7 years as 49 Years in terms of 49 Luni solar Years in this way only.

At the end of 7 Years = 7 Luni Solar Years = 86 months = 2,540 days because 1st 7th year takes 86 months or 2540 days.

At the end of 14 Years = 14 Luni Solar Years = 173 months = 5,109 days because 2nd 7th year takes 87 months or 2569 days.

At the end of 21 Years = 21 Luni Solar Years = 259 months = 7,648 days because 3rd 7th year takes 86 months or 2539 days.

At the end of 28 Years = 28 Luni Solar Years = 346 months = 10,218 days because 4th 7th year takes 87 months or 2570 days.

At the end of 35 Years = 35 Luni Solar Years = 433 months = 12,787 days because 5th 7th year takes 87 months or 2569 days.

At the end of 42 Years = 42 Luni Solar Years = 519 months = 15,327 days because 6th 7th year takes 86 months or 2540 days.

At the end of 49 Years = 49 Luni Solar Years = 606 months = 17,896 days because 7th 7th year takes 87 months or 2569 days

So 49 - Year Luni Solar Cycle takes 606 Lunar Months as 17,896 days only. So 49 Years = 606 Lunar Months = 17,896 days.

We call this as formula but the Book of Yahweh calls it as ORDINANCE or DECREE - Job 38:1-34; Jer. 33:19-26; Ps. 148:6 etc.

* Are NOT you counting 29 days, 30 days, 50 days, 49 years, 50 years ?

* Are NOT you counting 354 days per Year as 12 months X 29.5 days?

* How can you get 355 days if you took 12 months as 12 months X 29.5 days?

* Some people are counting the days from the Visible Crescent only because you don't know the formula and the principles of Yahweh's Luni Solar Calendar. That is why you are misleading the people of Yahweh (Jeremiah 28:15-17, 29:21-32). Didn't you realize that 29.5 days is not suitable to get accurate Phases of the Moon, Extra Months, and Seasons?

Every astronomer, Religious leader, and even NASA is misleading the World with their inaccurate calculations and discoveries. Jews, Chinese, Hindus, etcetera are following Luni Solar Calendar but they are following different Luni Solar Cycles as 19, 50, 60 etcetera. Now the time has come to realize that only one Luni Solar Cycle gives 100% accurate Phases of the Moon, Seasons, 7 times 7 years, days, months, and Extra Months. We should learn from the Sun, and Moon because it is the Universal Clock that is made by the Creator only. This Universal Luni Solar Clock proves that 49 - Year Luni Solar CYCLE is the formula determined by the Creator. This formula is written in Leviticus 25:8-9. This proves that the Creator is Yahweh only forever. We are living in a Robotic World. This formula (49 - Year Luni Solar Cycle) is giving the most accurate Phases of the Moon and Seasons from the beginning. So we can call this Clock the Universal Digital Luni Solar Clock. You will be confused if you don't know Yahweh's Luni Solar Calendar that gives accurate dates of all the Appointed times of Yahweh.

Therefore there is certainly no excuse for those who follow Lunar Month as 29.5 days (Religious Lunar Month) or 29.53058885 days (Discovered by Astronomers), 29.5309973 days (Hindu Lunar Month) and so on.

Note: Jews followed 49 - Year Luni Solar Cycle upto CE 135 only because they expelled from Israel (Hosea 6:1-3, Leviticus 26th and Deut. 28th Chapters).

***** You will die in your sins if you don't accept Yahweh's Calendar (Jn. 8:24-32) !!!**

I spent more than 29 full years to discover the accurate length of Day, Lunar Month and Tropical Year. I verified 120 Cycles and observed that 49 - Year Cycle only (Luni Solar and Tropical) gives 100 % accurate Seasons, Phases of Moon and so on. 400 - Year Gregorian Cycle takes 1,46,097 days (1582 to 1982). In the similar fashion 49 - Year Cycle takes 17,896 days only and it gives the length of Day as 24 hours strictly instead of 23 hrs. 56 min. and 4 sec., Lunar Month as 29.53135314 days strictly instead of 29.53058885 days and Tropical Year as 365.2244898 days strictly instead of 365.24219 days. I am disproving all inaccurate calculations of Jews, Hindus, and Chinese, NASA etcetera in case of Phases of Moon, Seasons and Luni Solar Years. I produced all the necessary data from the date of Creation of Sun and Moon which is fed in www.yahwehcalendar49.com. IAU or NASA is not authorized by Yahweh (Lev. 23:1-44).

* Are not there 606 Lunar Months, and 17,896 days after the end of 49 years if you counted 7 times 7 years as 49 years?

* Are not there 588 Tropical Months, and 17,896 days after the end of 49 years if you counted 7 times 7 years as 49 years?

* Yahweh commanded that count 7 times 7 years only.

* Is the Scriptural Lunar Month = 29.53135314 days if 606 Lunar Months = 17,896 days ?

* Is the Scriptural Tropical Year = 365.2244898 days if 49 Tropical Years = 17,896 days ?

* Is the Scriptural Extra Month occurring according to Luni Solar Difference per Month if we accept that Tropical Month - Lunar Month?

* Is the Scriptural Luni Solar Difference per Month = 0.904021014 days if we take as (30.43537415 days - 29.53135314 days) ?

* Is the Scriptural Tropical Month = 30.43537415 days if we take as (365.2244898 days ÷ 12 months) ? So don't follow NASA or IAU henceforth!

NASA, IAU AND ALL RELIGIOUS LEADERS ARE MISLEADING THE WORLD TO THIS VERY DAY UNDER THE VEIL OF SCIENCE, GOD, AND THE CREATOR

CASE - 1: Let's find out the length of different Lunar Months with the help of Tropical Year

Cycle	Lunar Months = Tropical Months	Tropical Year	Tropical Year = Length of Tropical Cycle ÷ Years per Tropical Cycle	Lunar Month = Length of Luni Solar Cycle ÷ Months per Luni Solar Cycle	Astronomical Formula: Luni Solar Cycle = Tropical Cycle (For accurate Nights, Days, Phases of the Moon, Months, Seasons, Years etc.)	Time completed per Luni Solar Cycle or Tropical Cycle	Research (1 Thessalonians 5:21 KJV; Matt. 6:31-33; Acts 17:10-12; Rev. 2:1-2; Php. 4:8-9; James 3:14-18, 4:17; 1 Cor. 13:10; 14:26-33; 2:10-16; 2 Cor. 12:18; 13:8; 1 Peter 3:10-12)
(Eg. 01). 4 Years	49 Lunar Months = 48 Tropical Months.	365.25 days (365d, 6h).	1,461 days ÷ 4 Years = 365.25 days (365d, 6h.).	1,461 days ÷ 49 Months = 29.81632653 days (29d, 19h, 35m, 31).	4 Years = 4 - Year Luni Solar Cycle = 4 - Year Tropical Cycle = 49 Lunar Months = 48 Tropical Months = 1,461 days (4 Years X 365.25 days).	1,461 days = 1,461 nights + 1,461 days. Note: This Tropical Year gives Lunar Month as 29.81632653 days (Fake).	This Lunar Month (29.81632653 days), and Tropical Year (365.25 days = Sosegenis = Julian Calendar) are not suitable to get accurate Phases of the Moon, and Seasons. So Julian Calendar is not inspired by the Creator.
(Eg. 02). 400 Years	4944 Lunar Months = 4800 Tropical Months.	365.2425 days (365d, 5h, 49m, 12s).	146,097 days ÷ 400 Years = 365.2425 days (365d, 5h, 49m, 12s).	146,097 days ÷ 4944 Months = 29.55036408 days (29d, 13h, 12m, 31s).	400 Years = 400 - Year Luni Solar Cycle = 400 - Year Tropical Cycle = 4944 Lunar Months = 4800 Tropical Months = 146,097 days (400 Years X 365.2425 days).	146,097 days = 146,097 Nights + 146,097 days. Note: This Tropical Year gives Lunar Month as 29.55036408 days (Fake).	50 - Year Cycle is repeating 8 times in 400 - Year Cycle. Both the Lunar Month (29.55036408 days), and Tropical Year (365.2425 days) are not giving accurate Phases of the Moon, and Seasons. So 50 - Year Cycle, and 400 - Year Cycle is not inspired by the Creator.
(Eg. 03). 50 Years	618 Lunar Months = 600 Tropical Months.	365.2425 days (365d, 5h, 49m, 12s).	18,262.125 days ÷ 50 Years = 365.2425 days (365d, 5h, 49m, 12s).	18,262.125 days ÷ 618 Months = 29.55036408 days (29d, 13h, 12m, 31.45631328s).	50 Years = 50 - Year Luni Solar Cycle = 50 - Year Tropical Cycle = 618 Lunar Months = 600 Tropical Months = 18,262.125 days (50 Years X 365.2425 days).	18,262 days = 18,262 Nights + 18,262 days + 3 hours. Note: This Tropical Year gives Lunar Month as 29.55036408 days (Fake).	This Lunar Month (29.55036408 days), and Tropical Year (365.2425 days = Christopher) are not suitable to get accurate Phases of the Moon, and Seasons. 18,263rd day takes 3 hours only which is impossible. So 50 - Year Cycle is not determined by the true Creator.
(Eg. 04). 49 Years	606 Lunar Months = 588 Tropical Months.	365.24219 days (365d, 5h, 48m, 45.216s).	17,896.86731 days ÷ 49 Years = 365.24219 days (365d, 5h, 48m, 45.216s).	17,896.86731 days ÷ 606 Months = 29.53278434 days (29d, 12h, 47m, 12.56696736s).	49 Years = 49 - Year Luni Solar Cycle = 49 - Year Tropical Cycle = 606 Lunar Months = 588 Tropical Months = 17,896.86731 days (49 Years X 365.24219 days).	17,896.86731 days = 17,897 Nights + 17,896 days + (8h, 48m, 55.584s). Note: This Tropical Year gives Lunar Month as 29.53278434 days (Fake).	This Lunar Month (29.53278434 days), and Tropical Year (365.24219 days = NASA/IAU) are not suitable to get accurate Phases of the Moon, and Seasons. 17,897th daytime takes 8h, 48m, 56s which is impossible. So 365.24219 days per Year is the inaccurate discovery only.
(Eg. 05). Hindu 60 Years	742 Lunar Months = 720 Tropical Months.	365.2 days (365d, 4h, 48m, 0s).	21,912 days ÷ 60 Years = 365.2 days (365d, 4h, 48m).	21,912 days ÷ 742 Months = 29.5309973 days (29d, 12h, 44m, 38.16711744s).	60 Years = 60 - Year Luni Solar Cycle = 60 - Year Tropical Cycle = 742 Lunar Months = 720 Tropical Months = 21,912 days (60 Years X 365.2 days).	21,912 days = 21,912 Nights + 21,912 days. Note: This Tropical Year gives Lunar Month as 29.5309973 days (Fake).	30 - Year Cycle is repeating 2 times in 60 - Year Cycle. And Lunar Month (29.5309973 days), and Tropical Year (365.2 days) are not giving accurate Phases of the Moon, and Seasons. So Hindu calendar is not determined by the Creator but by Brahmins only.
(Eg. 06). 30 Years	371 Lunar Months = 360 Tropical Months.	365.2 days (365d, 4h, 48m, 0s)	10,956 days ÷ 30 Years = 365.2 days (365d, 4h, 48m).	10,956 days ÷ 371 Months = 29.5309973 days (29d, 12h, 44m, 38s).	30 Years = 30 - Year Luni Solar Cycle = 30 - Year Tropical Cycle = 371 Lunar Months = 360 Tropical Months = 10,956 days (30 X 365.2).	10,956 days = 10,956 Nights + 10,956 days. Where TY = Tropical Year. Note: This Tropical Year gives Lunar Month as 29.5309973 days (Fake).	Hindu Lunar Month (29.5309973 days), and Hindu Tropical Year (365.2 days) are not suitable to get accurate Phases of the Moon/Seasons. None realized that 30 - Year Cycle is repeating in the 60 - Year Cycle. So Hindu/Chenese Calendar is not determined by the Creator but by men.
(Eg. 07). 19 Years	235 Lunar Months = 228 Tropical Months.	365.2105263 days (365d, 5h, 3m, 9.4737024s).	6939 days ÷ 19 Years = 365.2105263 days (365d, 5h, 3m, 9.4737024s).	6,939 days ÷ 235 Months = 29.52765957 days (29d, 12h, 39m, 49.7872368s).	19 Years = 19 - Year Luni Solar Cycle = 19 - Year Tropical Cycle = 235 Lunar Months = 228 Tropical Months = 6,939 days (19 Years X 365.2105263 days).	6939 days = 6939 Nights + 6939 days. Note: This Tropical Year gives Lunar Month as 29.52765957 days (Fake).	This Lunar Month (29.52765957 days), and Tropical Year (365.2105263 days) are not suitable to get accurate Phases of the Moon, and Seasons. So Metonic Cycle or any Luni Solar Cycle is fake except Yahweh's 49 Years.
(Eg. 08). Jewish 49 Years	606 Lunar Months = 588 Tropical Months.	365.2244898 days (365d, 5h, 23m, and 15.9183744s)	17,896 days ÷ 49 Years = 365.2244898 days (365d, 5h, 23m, 15.9183744s).	17,896 days ÷ 606 Months = 29.53135314 days (29d, 12h, 45m, 8.91088992s).	49 Years = 49 - Year Luni Solar Cycle = 49 - Year Tropical Cycle = 606 Lunar Months = 588 Tropical Months = 17,896 days. Note: 49 - Years are written in Leviticus 25:8-9.	17,896 days = 17,896 Nights + 17,896 days = Constant (Job 38:19-33). Note: This Tropical Year gives Lunar Month as 29.53135314 days (Genuine - Psalms 104:19; Genesis 1:13-19).	This Lunar Month (29.53135314 days), and Tropical Year (365.2244898 days) are suitable to get accurate Phases of the Moon, and Seasons. So Leviticus 25:8-9; Jer. 33:19-26; Jn. 11:9 are true forever (Matt. 24:35). This formula is determined by Yahweh only (Jer. 33:19-26; Isaiah 45:18).

(1). Inaccurate Lunar Month, (2) Inaccurate Tropical Year, and (3) The residue is not zero at the end of Lunisolar Cycle/Tropical Cycle, these three reasons are giving inaccurate Phases of the Moon, and Seasons.

NASA/IAU, AND ALL RELIGIOUS LEADERS ARE MISLEADING THE WORLD TO THIS VERY DAY UNDER THE VEIL OF SCIENCE, AND GODS/THE CREATOR

CASE - 2: Let's find out the length of different Tropical Years with the help of Lunar Month.

Cycle	Lunar Months = Tropical Months	Lunar Month	Tropical Year = Length of Tropical Cycle ÷ Years per Tropical Cycle	Lunar Month = Length of Luni Solar Cycle ÷ Months per Luni Solar Cycle	Astronomical Formula: Luni Solar Cycle = Tropical Cycle (For accurate Nights, Days, Phases of the Moon, Months, Seasons, Years etc.)	Time completed per Luni Solar Cycle or Tropical Cycle	Research (1 Thessalonians 5:21 KJV; Matt. 6:31-33; Acts 17:10-12; Rev. 2:1-2; Php. 4:8-9; James 3:14-18, 4:17; 1 Cor. 13:10; 14:26-33; 2:10-16; 2 Cor. 12:18; 13:8; 1 Peter 3:10-12)
(01). 4 Years	49 Lunar Months = 48 Tropical Months.	29.81632653 days (29d, 19h, 35m, 31s).	1,461 days ÷ 4 Years = 365.25 days (365d, 6h).	1,461 days ÷ 49 Months = 29.81632653 days (29d, 19h, 35m, 31s).	4 Years = 4 - Year Luni Solar Cycle = 4 - Year Tropical Cycle = 49 Lunar Months = 48 Tropical Months = 1,461 days (49 M X 29.81832653).	1,461 days = 1,461 nights + 1,461 days. Note: This Lunar Month gives Tropical Year as 365.25 days (Fake).	This Lunar Month (29.81632653 days), and Tropical Year (365.25 days = Sosegenis = Julian Calendar) are not suitable to get accurate Phases of the Moon, and Seasons. So Julian Calendar is not inspired by the Creator.
(02). 400 Years	4944 Lunar Months = 4800 Tropical Months.	29.55036408 days (29d, 13h, 12m, 31s).	146,097 days ÷ 400 Years = 365.2425 days (365d, 5h, 49m, 12s).	146,097 days ÷ 4944 Months = 29.55036408 days (29d, 13h, 12m, 31s).	400 Years = 400 - Year Luni Solar Cycle = 400 - Year Tropical Cycle = 4944 Lunar Months = 4800 Tropical Months = 146,097 days (4944 Months X 29.55036408 days).	146,097 days = 146,097 Nights + 146,097 days. Note: This Lunar Month gives Tropical Year as 365.2425 days (Fake).	50 - Year Cycle is repeating 8 times in 400 - Year Cycle. Both the Lunar Month (29.55036408 days), and Tropical Year (365.2425 days) are not giving accurate Phases of the Moon, and Seasons. So 50 - Year Cycle, and 400 - Year Cycle is not inspired by the Creator.
(03). 50 Years	618 Lunar Months = 600 Tropical Months.	29.55036408 days (29d, 13h, 12m, 31.45631328s).	18,262.125 days ÷ 50 Years = 365.2425 days (365d, 5h, 49m, 12s).	18,262.125 days ÷ 618 Months = 29.55036408 days (29d, 13h, 12m, 31.45631328s).	50 Years = 50 - Year Luni Solar Cycle = 50 - Year Tropical Cycle = 618 Lunar Months = 600 Tropical Months = 18,262.125 days (618 Months X 29.55036408 days).	18,262 days = 18,262 Nights + 18,262 days + 3 hours . Note: This Lunar Month gives Tropical Year as 365.2425 days (Fake).	This Lunar Month (29.55036408 days), and Tropical Year (365.2425 days = Christopher) are not suitable to get accurate Phases of the Moon, and Seasons. 18,263rd day takes 3 hours only which is impossible. So 50 - Year Cycle is not determined by the Creator.
(04). 49 Years	606 Lunar Months = 588 Tropical Months.	29.53278434 days (29d, 12h, 47m, 12.56696736s).	17,896.86731 days ÷ 49 Years = 365.24219 days (365d, 5h, 48m, 45.216s).	17,896.86731 days ÷ 606 Months = 29.53278434 days (29d, 12h, 47m, 12.56696736s).	49 Years = 49 - Year Luni Solar Cycle = 49 - Year Tropical Cycle = 606 Lunar Months = 588 Tropical Months = 17,896.86731 days (606 Months X 29.53278434 days).	17,896.86731 days = 17,897 Nights + 17,896 days + (8h, 48m, 55.584s). Note: This Lunar Month gives Tropical Year as 365.24219 days (Fake).	This Lunar Month (29.53278434 days), and Tropical Year (365.24219 days = NASA/IAU) are not suitable to get accurate Phases of the Moon, and Seasons. 17,897th daytime takes 8h, 48m, 56s which is impossible. So Gregorian Tropical Year is not determined by the Creator.
(05). 60 Years	742 Lunar Months = 720 Tropical Months.	29.5309973 days (29d, 12h, 44m, 38.16711744s).	21,912 days ÷ 60 Years = 365.2 days (365d, 4h, 48m).	21,912 days ÷ 742 Months = 29.5309973 days (29d, 12h, 44m, 38.16711744s).	60 Years = 60 - Year Luni Solar Cycle = 60 - Year Tropical Cycle = 742 Lunar Months = 720 Tropical Months = 21,912 days (742 Months X 29.5309973 days).	21,912 days = 21,912 Nights + 21,912 days. Note: This Lunar Month gives Tropical Year as 365.2 days (Fake).	30 - Year Cycle is repeating 2 times in 60 - Year Cycle always. And Lunar Month (29.5309973 days), and Tropical Year (365.2 days) are not giving accurate Phases of the Moon, and Seasons. Hindu calendar is Fake. So any 60 - Year Cycle is not determined by the Creator.
(06). 30 Years	371 Lunar Months = 360 Tropical Months.	29.5309973 days (29d, 12h, 44m, 38s).	10,956 days ÷ 30 Years = 365.2 days (365d, 4h, 48m).	10,956 days ÷ 371 Months = 29.5309973 days (29d, 12h, 44m, 38s).	30 Years = 30 - Year Luni Solar Cycle = 30 - Year Tropical Cycle = 371 Lunar Months = 360 Tropical Months = 10,956 days (371 Months X 29.5309973 days).	10,956 days = 10,956 Nights + 10,956 days. Note: This Lunar Month gives Tropical Year as 365.2 days (Fake).	Hindu Lunar Month (29.5309973 days), and Hindu Tropical Year (365.2 days) are not suitable to get accurate Phases of the Moon/Seasons. 30 - Year Cycle is repeating in the 60 - Year Cycle but none realized this. So Hindu/Chenese 30 or 60 - Year Luni Solar or Tropical Cycle is fake!
(07). 19 Years	235 Lunar Months = 228 Tropical Months.	29.52765957 days (29d, 12h, 39m, 49.7872368s).	6939 days ÷ 19 Years = 365.2105263 days (365d, 5h, 3m, 9.4737024s).	6,939 days ÷ 235 Months = 29.52765957 days (29d, 12h, 39m, 49.7872368s).	19 Years = 19 - Year Luni Solar Cycle = 19 - Year Tropical Cycle = 235 Lunar Months = 228 Tropical Months = 6,939 days (235 Months X 29.52765957 days).	6939 days = 6939 Nights + 6939 days. Note: This Lunar Month gives Tropical Year as 365.2105263 days (Fake).	This Lunar Month (29.52765957 days), and Tropical Year (365.2105263 days) are not suitable to get accurate Phases of the Moon, and Seasons. So Metonic Cycle or any Luni Solar Cycle is fake except Yahweh's 49 Years. So 19 - Year Cycle is not determined by the Creator.
(Eg. 08). Jewish 49 Years	606 Lunar Months = 588 Tropical Months.	29.53135314 days (29d, 12h, 45m, and 8.91088992s).	17,896 days ÷ 49 Years = 365.2244898 days (365d, 5h, 23m, 15.9183744s).	17,896 days ÷ 606 Months = 29.53135314 days (29d, 12h, 45m, 8.91088992s).	49 Years = 49 - Year Luni Solar Cycle = 49 - Year Tropical Cycle = 606 Lunar Months = 588 Tropical Months = 17,896 days (606 Months X 29.53135314 days).	17,896 days = 17,896 Nights + 17,896 days = Constant (Job 38:19-33). Note: This Lunar Month gives Tropical Year as 365.2244898 days (Genuine - Psalms 104:19; Genesis 1:13-19).	This Lunar Month (29.53135314 days), and Tropical Year (365.2244898 days) are suitable to get accurate Phases of the Moon, and Seasons. So Leviticus 25:8-9; Jer. 33:19-26; Jn. 11:9 are true forever (Matt. 24:35). This formula is determined by Yahweh only

(1). Inaccurate Lunar Month, (2) Inaccurate Tropical Year, and (3) The residue is not zero at the end of Lunisolar Cycle/Tropical Cycle, these three reasons are giving inaccurate Phases of the Moon, and Seasons.

NASA/IAU, AND ALL RELIGIOUS LEADERS ARE MISLEADING THE WORLD TO THIS VERY DAY UNDER THE VEIL OF SCIENCE, AND GODS/THE CREATOR

CASE - 3: Let's find out the length of different Lunar Months with the help of Tropical Year

Cycle	Lunar Months = Tropical Months	Tropical Year	Tropical Year = Length of Tropical Cycle ÷ Years per Tropical Cycle	Lunar Month = Length of Luni Solar Cycle ÷ Months per Luni Solar Cycle	Astronomical Formula: Luni Solar Cycle = Tropical Cycle (For accurate Nights, Days, Phases of the Moon, Months, Seasons, Years etc.)	Time completed per Luni Solar Cycle or Tropical Cycle	Research (1 Thessalonians 5:21 KJV; Matt. 6:31-33; Acts 17:10-12; Rev. 2:1-2; Php. 4:8-9; James 3:14-18, 4:17; 1 Cor. 13:10; 14:26-33; 2:10-16; 2 Cor. 12:18; 13:8; 1 Peter 3:10-12)
(01). 1 Year	12 Lunar Months = 12 Tropical Months.	355 days.	355 days ÷ 1 Year = 355 days. Note: Tropical Year = Lunar Year.	355 days ÷ 12 Months = 29.58333333 days (29d, and 14 hours only = Fake!).	1 Year = 1 - Year Luni Solar Cycle = 1 - Year Tropical Cycle = 12 Lunar Months = 12 Tropical Months = 355 days. So Muslim calendar is not determined by the Creator.	355 days = 355 nights + 355 days. Note: This Tropical Year gives Lunar Month as 29.58333333 days (Fake). So Muslim Calendar is fake.	This Lunar Month (29.58333333 days), and Tropical Year (355 days only) are not suitable to get accurate Phases of the Moon, and Seasons. So Muslim calendar should be based on 29.53135314 days only. Any Lunar Calendar (Muslim Calendar) is the inaccurate Cecept forever!
(02). 1 Year	12 Lunar Months = 12 Tropical Months.	354 days.	354 days ÷ 1 Year = 354 days. Note: Tropical Year = Lunar Year.	354 days ÷ 12 Months = 29.5 days (29 days, and 12 hours only = Fake).	1 Year = 1 - Year Luni Solar Cycle = 1 - Year Tropical Cycle = 12 Lunar Months = 12 Tropical Months = 354 days. So Muslim calendar is not determined by the Creator.	354 days = 354 nights + 354 days. Note: This Tropical Year gives Lunar Month as 29.5 days (Fake). So Muslim calendar is fake.	This Lunar Month (29.5 days, and 12 hours), and Tropical Year (354 days only) are not suitable to get accurate Phases of the Moon, and Seasons. So Muslim calendar should be based on 29.53135314 days only to get accurate Phases of the Moon at least.
(03). 19 Years	235 Lunar Months = 228 Tropical Months.	365.24219 days (365d, 5h, 48h, 45.216s).	6939.60161 days ÷ 19 Years = 365.24219 days (365d, 5h, 48m, 45.216s).	6939.60161 days ÷ 235 Months = 29.53021962 days (29d, 12h, 43m, 30.9749088s).	19 Years = 19 - Year Luni Solar Cycle = 19 - Year Tropical Cycle = 235 Lunar Months = 228 Tropical Months = 6939.60161 days (19 Years X 365.24219 days).	6939.60161 days = 6940 Nights + 6939 days + (02h, 26m, 19.104s). Note: This Tropical Year gives Lunar Month as 29.53021962 days (Fake).	This Lunar Month (29.53021962 days), and Tropical Year (365.24219 days) are not suitable to get accurate Phases of the Moon, and Seasons. 6940th day-time takes 2h, 26m, 19.104s which is impossible. Tropical Year as 365.24219 days required a Constant to get 365.2244898 days.
(04). 60 Years	742 Lunar Months = 720 Tropical Months.	365.24219 days (365d, 5h, 48h, 45.216s).	21914.5314 days ÷ 60 Years = 365.24219 days (365d, 5h, 48m, 45.216s).	21914.5314 days ÷ 742 Months = 29.53440889 days (29d, 12h, 49m, 32.92851936s).	60 Years = 60 - Year Luni Solar Cycle = 60 - Year Tropical Cycle = 742 Lunar Months = 720 Tropical Months = 21914.5314 days (60 Years X 365.24219 days).	21,914.5314 days = 21915 Nights + 21914 days + (00h, 45m, 12.96s). Note: This Tropical Year gives Lunar Month as 29.53440889 days (Fake).	This Lunar Month (29.53440889 days), and Tropical Year (365.24219 days) are not suitable to get accurate Phases of the Moon, and Seasons. 21915th day-time takes 00h, 45m, 12.96s which is impossible. Tropical Year as 365.24219 days required a Constant to get 365.2244898 days.
(05). 50 Years	618 Lunar Months = 600 Tropical Months.	365.24219 days (365d, 5h, 48m, 45.216s).	18,262.1095 days ÷ 50 Years = 365.24219 days (365d, 5h, 48m, 45.216s).	18,262.1095 days ÷ 618 Months = 29.550339 days (29d, 13h, 12m, 29.28932352s).	50 Years = 50 - Year Luni Solar Cycle = 50 - Year Tropical Cycle = 618 Lunar Months = 600 Tropical Months = 18,262.1095 days (50 Years X 365.24219 days).	18,262.1095 days = 18,262 Nights + 18,262 days + (02h, 37m, 40.8s). Note: This Tropical Year gives Lunar Month as 29.550339 days (Fake).	This Lunar Month (29.550339 days), and Tropical Year (365.24219 days) are not suitable to get accurate Phases of the Moon, and Seasons. And 18,263rd day takes 02h, 37m, 40.8s only which is fake. Tropical year as 365.24219 days required a Constant to get 365.2244898 days.

Cycle	Lunar Month	Tropical Year	Days per Cycle	Research	Cycle.	Lunar Month	Tropical Year	Days per Cycle
(01a). 19 - Year Cycle.	29.53058885 days	365.2467568 days	6939.68838 days.	The Creator, Yahweh determined the length of day (86,400s), Lunar Month (29.53135314d), and Tropical Year (365.2244898d) - Jeremiah 33:19-26.	(04). 19 - Year Cycle.	29.52765957 days.	365.2105263 days	6939 days.
(01b). 60 - Year Cycle.	29.53058885 days	365.1949488 days.	21911.69693 days.		(05). 60 - Year Cycle	29.5309973 days.	365.2 days	21,912 days.
(01c). 49 - Year Cycle.	29.53058885 days	365.2150376 days.	17,895.53684 days.		(06). 30 - Year Cycle.	29.5309973 days.	365.2 days	10,956 days.
(01d). 50 - Year Cycle.	29.53058885 days	364.9980782 days.	18249.90391 days.		(07). 50 - Year Cycle.	29.55036408 days.	365.2425 days	18,262.125 days.
(02a). 19 - Year Cycle.	29.53021962 days	365.24219 days	6939.60161 days		(08). 400 - Year Cycle.	29.55036408 days.	365.2425 days	146,097 days.
(02a). 60 - Year Cycle.	29.53440889 days	365.24219 days	21914.5314 days		(09). 01 - Year Cycle.	29.5 days.	354 days.	354 days
(03c). 49 - Year Cycle.	29.53278434 days	365.24219 days	17,896.86731 days.		(10). 19 - Year Cycle.	29.53191489 days.	365.2631579 days	6940 days.
(04d). 50 - Year Cycle.	29.550339 days	365.24219 days	18262.1095 days.		(11). 04 - Year Cycle.	29.81632653 days.	365.25 days	1,461 days.
(03). 49 - Year Cycle.	29.53135314 days.	365.2244898 days.	17,896 days (Study Leviticus 25:8-9)		(12). 50 - Year Cycle.	29.53074434 days.	365 days	1,8250 days.

(1). Inaccurate Lunar Month, (2) Inaccurate Tropical Year, and (3) The residue is not zero at the end of Lunisolar Cycle/Tropical Cycle, these three reasons are giving inaccurate Phases of the Moon, and Seasons.

NASA/IAU, AND ALL RELIGIOUS LEADERS ARE MISLEADING THE WORLD TO THIS VERY DAY UNDER THE VEIL OF SCIENCE, AND GODS/THE CREATOR

CASE - 4: Let's find out the length of different Tropical Years with the help of Lunar Month.

Cycle	Lunar Months = Tropical Months	Lunar Month	Tropical Year = Length of Tropical Cycle ÷ Years per Tropical Cycle	Lunar Month = Length of Luni Solar Cycle ÷ Months per Luni Solar Cycle	Astronomical Formula: Luni Solar Cycle = Tropical Cycle (For accurate Nights, Days, Phases of the Moon, Months, Seasons, Years etc.)	Time completed per Luni Solar Cycle or Tropical Cycle	Research (1 Thessalonians 5:21 KJV; Matt. 6:31-33; Acts 17:10-12; Rev. 2:1-2; Php. 4:8-9; James 3:14-18, 4:17; 1 Cor. 13:10; 14:26-33; 2:10-16; 2 Cor. 12:18; 13:8; 1 Peter 3:10-12)
(01). 49 Years	606 Lunar Months = 588 Tropical Months.	29.53135314 days.	17,896 days ÷ 49 Years = 365.2244898 days (365d, 5h, 23m, 15.9183744s).	17,896 days ÷ 606 Months = 29.53135314 days (29d, 12h, 45m, 8.91088992s).	49 Years = 49 - Year Luni Solar Cycle = 49 - Year Tropical Cycle = 606 Lunar Months = 588 Tropical Months = 17,896 days (606 Months X 29.53135314 days).	17,896 days = 17,896 Nights + 17,896 days = Constant (Job 38:19-33). Note: This Lunar Month gives Tropical Year as 365.2244898 days (Genuine - Psalms 104:19; Genesis 1:13-19).	This Lunar Month (29.53135314 days), and Tropical Year (365.2244898 days) are suitable to get accurate Phases of the Moon, and Seasons. Any Calendar should be based on this method only (Isaiah 45:1-25; Job 42:5-6).
(02). 1 Year	12 Lunar Months = 12 Tropical Months.	29.53058885 days.	354.3670662 days ÷ 1 Year = 354 days. Note: Tropical Year = Lunar Year.	354.3670662 days ÷ 12 Months = 29.53058885 days. Note: Tropical Month = Lunar Month.	1 Year = 1 - Year Luni Solar Cycle = 1 - Year Tropical Cycle = 12 Lunar Months = 12 Tropical Months = 354.3670662 days (12 Months X 29.53058885 days).	354.3670662 days = 354 nights + 354 days + 8h, 48m, 34.51968s . Note: This Lunar Month gives Tropical Year as 354.3670662 days (Fake).	355th day takes 8h, 48m, and 34.51968s which is impossible. Even a single Muslim didn't realize this residue. The residue should be zero at the end of any Cycle. Synodic Month (29.53058885 days) required a Constant to get 29.53135314 days.
(03). 19 Years	235 Lunar Months = 228 Tropical Months.	29.53058885 days (29d, 12h, 44m, 2.87664s).	6939.68838 days ÷ 19 Years = 365.2467568 days (365d, 5h, 55m, 19.7900256s).	6939.68838 days ÷ 235 Months = 29.53058885 days (29d, 12h, 44m, 2.87664s).	19 Years = 19 - Year Luni Solar Cycle = 19 - Year Tropical Cycle = 235 Lunar Months = 228 Tropical Months = 6939.68838 days (235 Months X 29.53058885 days).	6939.68838 days = 6940 Nights + 6939 days + (04h, 31m, 16.0104s) . Note: This Lunar Month gives Tropical Year as 365.2467568 days (Fake).	This Lunar Month (29.53058885 days), and Tropical Year (365.2467568 days) are not suitable to get accurate Phases of the Moon, and Seasons. And 6940th day-time takes 4h, 31m, 16.0104s which is fake.
(04). 60 Years	742 Lunar Months = 720 Tropical Months.	29.53058885 days (29d, 12h, 44m, 2.87664s).	21911.69693 days ÷ 60 Years = 365.1949488 days (365d, 4h, 40m, 43.5744192s).	21911.69693 days ÷ 742 Months = 29.53058885 days (29d, 12h, 44m, 2.87664s).	60 Years = 60 - Year Luni Solar Cycle = 60 - Year Tropical Cycle = 742 Lunar Months = 720 Tropical Months = 21911.69693days (742 Months X 29.53058885 days).	21,911.69693 days = 21912 Nights + 21911 days + (04h, 43m, 34.46688s) . Note: This Lunar Month gives Tropical Year as 365.1949488 days (Fake).	This Lunar Month (29.53058885 days), and Tropical Year (365.1949488 days) are not suitable to get accurate Phases of the Moon, and Seasons. And 21,912th day-time takes 4h, 43m, 34.46688s which is impossible. NASA, and IAU are using Synodic Month as 29.53058885 days but this should be 29.53135314 days only.
(05). 49 Years	606 Lunar Months = 588 Tropical Months.	29.53058885 days (29d, 12h, 44m, 2.87664s).	17,895.53684 days ÷ 49 Years = 365.2150376 days (365d, 05h, 09m, 39.2498496s).	17,895.53684 days ÷ 606 Months = 29.53058885 days (29d, 12h, 44m, 2.87664s).	49 Years = 49 - Year Luni Solar Cycle = 49 - Year Tropical Cycle = 606 Lunar Months = 588 Tropical Months = 17,895.53684 days (606 Months X 29.53058885 days).	17,895.53684 days = 17,896 Nights + 17,895 days + (00h, 53m, 3.24384s) . Note: This Lunar Month gives Tropical Year as 365.2150376 days (Fake).	This Lunar Month (29.53058885 days), and Tropical Year (365.2150376 days) are not suitable to get accurate Phases of the Moon, and Seasons. And 17,896th day-time takes 0h, 53m, 3.24384s which is impossible. The World is misleading by NASA, and IAU in the case of Phases of the Moon.
(05). 50 Years	618 Lunar Months = 600 Tropical Months.	29.53058885 days (29d, 12h, 44m, 2.87664s).	18,249.90391 days ÷ 50 Years = 364.9980782 days (364d, 23h, 57m, 13.9552704s).	18,249.90391 days ÷ 618 Months = 29.53058885 days (29d, 12h, 44m, 2.87664s).	50 Years = 50 - Year Luni Solar Cycle = 50 - Year Tropical Cycle = 618 Lunar Months = 600 Tropical Months = 18,249.90391 days (618 Months X 29.53058885 days).	18,249.90391 days = 18,250 Nights + 18,249 days + (09h, 41m, 37.76352s) . Note: This Lunar Month gives Tropical Year as 364.9980782 days (Fake).	This Lunar Month (29.53058885 days), and Tropical Year (364.9980782 days) are not suitable to get accurate Phases of the Moon, and Seasons. And 18,250th day-time takes 9h, 41m, 37.76352s which is fake. NASA, IAU, and all religious leaders are misleading with basic Astronomy.

This link gives 120 Luni Solar Cycles. 49 - Year Luni Solar Cycle only is proved Historically, and scientifically.

<https://drive.google.com/file/d/1m4fcY8SoslN4eaityqLcShwFqamsYSKp/view?usp=sharing>

Research: It is observed that each night takes 12 hours, and day takes 12 hours. More or less than 24 hours (86,400 seconds) per one day (1 night, and 1 day) on the Equator is not giving accurate Phases of the Moon, and Seasons. For the proof, please study under 79e4, 79e5, 79e1, 79e2, 79e3, 79e0, 79e00, 79e000a, 79e000b, z51a, z51b, z51e and so on on www.yhwhcalendar.com or www.yahwehcalendar49.com.

Yahweh's 49 - Year Luni Solar Cycle only gives accurate Days (Nights + days), Phases of the Moon, Seasons, and Years. So Yahweh is proved as the Creator by History, and Astronomy (Isaiah 45:1-25).

Research: Astronomers, and all the religious leaders didn't discover accurate length of day, Lunar Month, and Tropical Year. That's why they didn't discover the true Creator with the help of basic Astronomy even if the Book of Yahweh says 49 YEARS (Leviticus 25:8-9). So don't follow NASA/IAU or any Calendar henceforth. So schools, and Colleges require basic Astronomy.

Residue should be zero at the end of any Luni Solar/Tropical Cycle.

Solution: Astronomers, and all Religious leaders didn't study the relation between the Earth, Sun, and Moon in terms of Luni Solar Cycle, and Tropical Cycle. Accurate length of Day should be 86,400 seconds per day per 360°, Lunar Month should be 29.53135314 days per 360°, and Tropical Year should be 365.2244898 days per 360°. So basic Astronomy is necessary to save the people from religious and scientific cheating.

CALCULATIONS OF UGADI (1ST DAY OF CHAITRAM) WITH THE HELP OF DIFFERENT 60 - YEAR LUNI SOLAR CYCLE

UGADI ACCORDING TO HINDU 60 - YEAR LUNI SOLAR CYCLE										UGADI ACCORDING TO NASA 60 - YEAR LUNI SOLAR CYCLE								DAB
A = Ending time of each 60 - Year Luni Solar Cycle in Flowering in Winter (At 82.5°E). Note: Calculated according to Hindu Lunar Month = 29.5309973 days										B = Ending time of each NASA'S 60 - Year Luni Solar in Flowering in Winter (UT). Note: Calculated according to NASA/IAU Lunar Month = 29.53058885 days.

Note: Jewish Religious New Year (1st Abib = 22nd April 46 BCE = Right Season) occurs always in flowering time. For the proof, study under z51e/z20 or 1b Case - 5 on www.yhwhcalendar.com

NOTE: Bronze, Copper, Silver, Lead, Iron, Gold, Diamonds, Pearls, and Steel are discovered about between 3712 BCE and 1579 BCE (Genesis 4:16-22; Exodus 35:1-35; Deuteronomy 8:9-10; 1 Kings 4:29-34), and steel might be came into use between 800 BCE and 650 BCE (2 Chronicles 26:11-16 Cf. Jeremiah 15:12-14). Dinosaurs died in the flood in 2578 BCE (Genesis 7:1-23; baiah 34:16). For the complete picture of human history or Jewish history, please study under 8a on www.yhwhcalendar.com and www.yahwehcalendar49.com. Julian Calendar is introduced in 45 BCE. So "History" that is written in any Religious Book is based on Luni Solar Cycle only because there was no Tropical Calendar before 46 BCE. Therefore "History" should be proved in terms of Roman Calendar and Luni Solar Calendar also. Please study under "NASA, IAU, and all Religious leaders are misleading".

NOTE: Bronze, Copper, Silver, Lead, Iron, Gold, Diamonds, Pearls, and Steel are discovered about between 3712 BCE and 1579 BCE (Genesis 4:16-22; Exodus 35:1-35; Deuteronomy 8:9-10; 1 Kings 4:29-34), and steel might be came into use between 800 BCE and 650 BCE (2 Chronicles 26:11-16 Cf. Jeremiah 15:12-14). Dinosaurs died in the flood in 2578 BCE (Genesis 7:1-23; Isaiah 34:16). For the complete picture of human history or Jewish history, please study under 8a on www.yhwhcalendar.com and www.yahwehcalendar49.com. Julian Calendar is introduced in 45 BCE. So "History" that is written in any Religious Book is based on Luni Solar Cycle only because there was no Tropical Calendar before 46 BCE. Therefore "History" should be proved in terms of Roman Calendar and Luni Solar Calendar also. Please study under "NASA, IAU, and all Religious leaders are misleading".

Research: Hindu 60 - Year Luni Solar Cycle and NASA 60 - Year Luni Solar Cycle are not giving accurate Ugadi, Phases of the Moon, Seasons, Nights, and days. Yahweh's 49 - Year Luni Solar Cycle only gives accurate Phases of the Moon, Seasons, 1st Ethanim (Jewish New Year that occurs in Summer in Israel always), 1st Abib (Jewish New Year in Flowering), nights, and days. For the proofs, please observe the dates of Ugadi between 4000 BCE, and CE 4000 carefully, and compare with the occurrences of 60 - Year Luni Solar Cycle. So historical events depend on Phases of the Moon, and Seasons. People are losing money, and time under the veil of fake Calendars. So the true Calendar only proves who the true Creator is.

Research: Hindu 60 - Year Luni Solar Cycle and NASA 60 - Year Luni Solar Cycle are not giving accurate Ugadi, Phases of the Moon, Seasons, Nights, and days. Yahweh's 49 - Year Luni Solar Cycle only gives accurate Phases of the Moon, Seasons, 1st Ethanim (Jewish New Year that occurs in Summer in Israel always), 1st Abib (Jewish New Year in Flowering), nights, and days. So historical events depend on Phases of the Moon, and Seasons. People are losing money, and time under the veil of fake Calendars. So the true Calendar only proves who the true Creator is.

CALCULATIONS OF UGADI (1ST DAY OF CHAITRAM) WITH THE HELP OF DIFFERENT 60 - YEAR LUNI SOLAR CYCLE

UGADI ACCORDING TO HINDU 60 - YEAR LUNI SOLAR CYCLE										UGADI ACCORDING TO NASA 60 - YEAR LUNI SOLAR CYCLE										DAB	http://astropixels.com/ephemeris/calendconverter.html is useful to verify the calculations of astronomers/religious leaders because their calculations are misleading the World to this very day. Yahweh's Calendar formula is Constant. Astronomers are simply telling that the length of day, Lunar Month, and Tropical Year vary always because they were unable to verify their calculations in terms of Luni Solar Cycle. That is why they are telling like so.
A = Ending time of each 60 - Year Luni Solar Cycle in Flowering in Winter (At 82.5°E). Note: Calculated according to Hindu Lunar Month = 29.5309973 days										B = Ending time of each NASA'S 60 - Year Luni Solar in Flowering in Winter (UT). Note: Calculated according to NASA/IAU Lunar Month = 29.53058885 days.

Each day takes 86,400 seconds per 360° on the Equator always. More or less than 86,400 seconds per 360° is not giving accurate Phases of the Moon, and Seasons (Proof: 79e0 to 79e5, 79e00, 79e000a, 79e000b, 79e000c on www.yhwhecalendar.com).

CCM stands for Civil Lunar Months Counted from the date the Creation of Sun, Moon, and stars (At 18 hours on 23rd Feb., 4234 BCE, at 35°E).

R 606 = Religious Months completed out of 606 (Lev. 25:1-9);

RCM = Religious months Comepleted from Canaan; M = Month; D = Day; H = Hours; M = Minutes; S = Seconds; DW = Day of Week; Month = Jewish Months completed i.e Abib, the first month, Zif, Sivan, Tammuz, Ab, Elul, Ethanim, Bul, Kislev, Tebeth, Sebat, and **Adar the 12th Month**;

RCC = Number of Religious 49 - Year Luni Solar Cycles Completed. **Budding begins while the 6th civil month ends**. For the complete picture of Lunar Months, Extra Months, Seasons, Years: 0b00/z20 or 1b Case - 5 on www.yhwhecalendar.com and www.yahwehcalendar49.com.

Note: Abib (Jewish Religious 1st Month) begins in flowering time as soon as Adar (Jewish Religious 12th Month) ends (Genesis 1:13-19; Psalms 104:19).

Research: Jewish Religious New Year (1st Abib = 22nd April 46 BCE) occurred in FLOWERING but Ugadi (29th June 46 BCE or 9th July 46 BCE) was not occurred in FLOWERING when Julian Calendar proposed.

Yahweh created the Sun, Moon, and stars strictly at (1), 35 °E Jerusalem. So Phases of the Moon, Seasons, Civil years, and Extra Months begins from (1). RCC, all Religious months/ Years etcetera begins from (2).

Research: Astronomers are misleading the World under the veil of Astronomy (Phases of the Moon, Seasons etc.) whereas Religious leaders are misleading the World under the veil of Festivals of the Creator, god/gods (1st Abib/Ugadi etcetera). 49 - Year Luni Solar Cycle only proved that the Creator is Yahweh because 49 Years are written in Leviticus 25:8-9; Jer. 33:19-26; John 11:9.

HOW MANY CIVIL MONTHS, RELIGIOUS MONTHS AND YEARS ARE COMPLETED FROM THE BEGINNING TO CE 2021 OR 2022?

SOLUTION: It is so easy to count how many days, Weeks, Civil Lunar Months, Religious Lunar Months, Civil Luni Solar Years, and Religious Luni Solar Years are completed from the beginning to any date if there is accurate History, Beginning of 7 - Day Weekly Cycle, Formula of Luni Solar Calendar, and Tropical Calendar, and the date of the Creation of Sun, Moon, and stars. The Book of Yahweh gives all this information from the beginning. In the beginning, Yahweh created all trees with fruits (Genesis 1:9-13). So flowering is occurring in the Winter at the end of 6 Civil Lunar Months (Exodus 12:1-2; Luke 21:29-30). That is why Religious Years begin in flowering whereas Civil years begin in Summer in Israel (Deut. 16:13; Jer. 40:12; 41:1-18).

Formula of Yahweh's Luni Solar Calendar: 1 Cycle = 7 Times 7 Years = 49 Years = 1 Luni Solar Cycle = 1 Tropical Cycle = 49 - Year Luni Solar Cycle = 49 Luni Solar Years = 606 Lunar Months = 17,896 days = 49 Tropical Years = 588 Tropical Months = 49 -Year Tropical Cycle = Formula of Yahweh's Luni Solar Calendar = Formula of Yahweh's Tropical Calendar = Accurate relation between the Earth, Sun, Moon, and stars = Constant forever (Genesis 1:13-19; Leviticus 25:8-9; Psalms 104:19; 81:1-5; Job 26:7; 38:1-33; Jeremiah 31:35-37; 33:19-26; 32:26-27; Joshua 10:12-14; Isaiah 44th-48th Chapters). Please see the complete picture of Formula of Yahweh's Calendar. Yahweh didn't use Tropical Calendar because Tropical Calendar is not giving the Phases of the Moon.

606 Lunar Months = 17,896 days. 1 Lunar Month = How many days?	1 Lunar Month = (1 Lunar Month X 17,896 days) ÷ 606 Lunar Months = 29.53135314 days.	Yahweh, the Creator determined that the length of Day = 24 hours (12 hours per night + 12 hours per day = John 11:9 Cf. 2 Kings 20:8-11; Matthews 20:1-16; Jer. 33:19-26).
606 Lunar Months = 49 Luni Solar Years. 1 Lunar Month = How many Lunisolar years?	1 Lunar Month = (1 Lunar Month X 49 Lunisolar years) ÷ 606 Lunar Months = 0.080858085 Lunisolar years.	Therefore the Scriptural Lunar Month (Yahweh's Lunar Month) = 29.53135314 days = 29 days, 12 hours, 45 minutes, and 8.91088992 seconds = Constant (Jeremiah 33:19-26).
606 Lunar Months = 1 Lunisolar Cycle. 1 Lunar Month = How many Lunisolar Cycles?	1 Lunar Month = (1 Lunar Month X 1 Cycle) ÷ 606 Lunar Months = 1.650165017 X 10-03 Lunisolar Cycles.	Therefore the Scriptural Tropical Year (Yahweh's Tropical Year) = 365.2244898 days = 365 days, 5 hours, 23 minutes, and 15.9183744 seconds = Constant (Jeremiah 33:19-26).
588 Tropical Months = 17,896 days. 1 Tropical Month = How many days?	1 Tropical Month = (1 Tropical Month X 17,896 days) ÷ 588 Tropical Months = 30.43537415 days.	Tropical Month = 30.43537415 days (From the formula). You can get this as below also.
588 Tropical Months = 49 Tropical Years. 1 Tropical Month = How many Tropical years?	1 Tropical Month = (1 Tropical Month X 49 Tropical years) ÷ 588 Tropical Months = 0.0833333333 Tropical years.	Scriptural Tropical Month = Scriptural Tropical Year ÷ 12 Tropical Months = 365.2244898 days ÷ 12 Tropical Months = 30.43537415 days.
588 Tropical Months = 1 Tropical Cycle. 1 Tropical Month = How many Tropical Cycles?	1 Tropical Month = (1 Tropical Month X 1 Cycle) ÷ 588 Tropical Months = 1.700680272 X 10-03 Tropical Cycles.	Luni Solar Difference Per Month = Scriptural Tropical Month - Scriptural Lunar Month = 30.43537415 days - 29.53135314 days = 0.904021014 days.
49 Tropical Years = 17,896 days. 1 Tropical Year = How many days?	1 Tropical Year = (1 Tropical Year X 17,896 days) ÷ 49 Tropical Years = 365.2244898 days.	The Scriptural Zero Degrees of Longitudes passes through Jerusalem only because Yahweh, the Creator counted time, and Phases of the Moon from Jerusalem (Genesis 1:1-31; 2:1-3; Ezekiel 5:5; 38:12). Jerusalem is the center of the World before the Continental Drift (Genesis 11:1-9; 10:21-25). Jerusalem is the throne of Yahweh, the Creator (Matthews 5:34-35). So Yahweh is coming soon about in CE 2136 to rule His chosen righteous people.
49 Tropical Years = 588 Tropical Months. 1 Tropical Year = How many Tropical months?	1 Tropical Year = (1 Tropical Year X 588 Tropical Months) ÷ 49 Tropical Years = 12 Tropical Months.	Therefore 35°E = 0°DLM. Where DLM = Degrees of Longitudes discovered by Me by the inspiration of Yahweh (1 Corinthians 2:10-16; 13:10; 14:12-40; 2 Cor. 13:8;).
49 Tropical Years = 1 Tropical Cycle. 1 Tropical Year = How many Tropical Cycles?	1 Tropical Year = (1 Tropical Year X 1 Cycle) ÷ 49 Tropical Years = 0.020408163 Tropical Cycles.	Research: 1 Luni Solar Year is not equal to 365.2244898 days because each Scriptural Lunar Month takes 29.53135314 days.
49 Lunisolar Years = 17,896 days. 1 Lunisolar Year = How many days?	1 Lunisolar Year = (1 Lunisolar Year X 17,896 days) ÷ 49 Lunisolar Years = 365.2244898 days.	Research: 1 Luni Solar Year is not equal to 12.36734694 Lunar Months because 12 Scriptural Lunar Months = 354.3762376 days.
49 Lunisolar Years = 606 Lunar Months. 1 Lunisolar Year = How many Lunar Months?	1 Lunisolar Year = (1 Lunisolar Year X 606 Lunar Months) ÷ 49 Lunisolar Years = 12.36734694 Lunar Months.	The Book of Yahweh (Isaiah 34:16) gives World History (Daniel 2nd - 12th Chapters), and Astronomy. That's why History, and Astronomy proved that the Creator is Yahweh.
49 Lunisolar Years = 1 Lunisolar Cycle. 1 Lunisolar Year = How many Lunisolar Cycles?	1 Lunisolar Year = (1 Lunisolar Year X 1 Lunisolar Cycle) ÷ 49 Lunisolar Years = 0.020408163 Lunisolar Cycles.	

None can calculate accurate Phases of the Moon, Luni Solar New Years (Regarding any Religion), Extra Months, and Seasons without using a formula i.e accurate Luni Solar Cycle (Or Luni Solar Calendar). NASA and IAU used inaccurate discoveries [(Day = 23h, 56m, 4s; Synodic Month = 29.53058885 days; Tropical Year = 365.24219 days.]] in their data. That is why NASA is giving inaccurate Phases of the Moon, and Seasons from 2000 BCE to CE 4000 (www.astropixels.com/ephemeris/phasescat/phasescat.html). The accurate relation between the Earth, Sun, and Moon is the formula that gives accurate Phases of the Moon, and Seasons from the beginning. Yahweh's 49 - Year Luni Solar Cycle only gives accurate Phases of the Moon, and Seasons out 120 Luni Solar Cycles. I have given accurate Phases of the Moon, and Seasons from 4234 BCE to CE 2136 or CE 4000. Please study under z51e, z20 or 1b Case - 5. Now I am counting how many Civil Lunar Months, Religious Lunar Months, and Years (Civil/Religious Years) are completed from the date of the Creation of Sun, Moon, and stars to CE 2021.

I am giving appropriate proofs and explanation, so study with the help of table.

Where RM = Religious Lunar Month ends; C606 = Civil Lunar Months completed out of 606 Civil Lunar Months; CCM = Civil Lunar Months Counted from the date of the Creation of Sun, Moon, and stars to required event or date; RCM = Religious Lunar Months are Counted from the land of Milk and Honey (Exodus 3:8).

"Sivan to Ethaninim" = Summer (Jer. 39:1-17; 40:1-1; 41:1-18), Ethaninim to Tebeth = Rains (Ezra 10:9) and Tebeth to Sivan = Winter (Jer. 39:1; John 18:1-18; Joel 2:23).

Yahweh counted the very first 7 - Day Weekly Cycle from (a) - Genesis 1:1-2.
The very first Day out of 7 - Day Weekly Cycle is completed at (b) - Genesis 1:1-5.
2nd Day out of 7 - Day Weekly Cycle is completed at (c) - Genesis 1:6-8.
Very first Civil 49 - Year Luni Solar Cycle begins at (d) - Genesis 1:9-13.
4th Day out of 7 - Day Weekly Cycle is completed at (e) - Genesis 1:14-19.
5th Day out of 7 - Day Weekly Cycle is completed at (f) - Genesis 1:20-23.
6th Day out of 7 - Day Weekly Cycle is completed at (g) - Genesis 1:24-31.
The very first Sabbath out of 7 - Day Weekly Cycle is completed at (h) - Genesis 2:1-3.

Yahweh introduced Religious Calendar at (i) where Abib begins - Exo. 12:1-2.

Very first Religious 49 - Year Luni Solar Cycle begins at (j) - Lev. 25:1-9.

3560th Abib or 77,352nd Civil Month or 44016th Religious Month begins at (k).

Zif begins as soon as Abib ends at (l) - Leviticus 25:8-9; Gen. 1:13-19; Jer. 33:19-26.

12th Extra Month begins as soon as Zif ends at (m) - Leviticus 25:8-9; Gen. 1:13-19.

Sivan begins as soon as 12th Extra Month ends at (n) - Leviticus 25:8-9; Gen. 1:13-19.

4th Month begins as soon as Sivan ends at (o) - Leviticus 25:8-9; Gen. 1:13-19.

5th month begins as soon as 4th month ends at (p) - Leviticus 25:8-9; Gen. 1:13-19.

Elul begins as soon as 5th month ends at (q) - Lev. 25:8-9; Gen. 1:13-19; Jer. 33:19-26.

6256th Ethaninim or 77,359th Civil Month or 44023rd Religious Month begins at (r).

Bul begins as soon as Ethaninim ends at (s) - Lev. 25:8-9; Gen. 1:13-19; Jer. 33:19-26.

Chisleb begins as soon as Bul ends at (t) - Lev. 25:8-9; Gen. 1:13-19; Jer. 33:19-26.

Tebeth begins as soon as Chisleb ends at (u) - Lev. 25:8-9; Gen. 1:13-19; Jer. 33:19-26.

Sebat begins as soon as Tebeth ends at (v) - Lev. 25:8-9; Gen. 1:13-19; Jer. 33:19-26.

Adar begins as soon as Sebat ends at (w) - Lev. 25:8-9; Gen. 1:13-19; Jer. 33:19-26.

3561st Abib or 77,365th Civil Month or 44029th Religious Month begins at (x).

Zif begins as soon as Abib ends at (y) - Leviticus 25:8-9; Gen. 1:13-19; Jer. 33:19-26.

Sivan begins as soon as Zif ends at (z) - Leviticus 25:8-9; Gen. 1:13-19; Jer. 33:19-26.

4th month begins as soon as Sivan ends at (a1) - Lev. 25:8-9; Gen. 1:13-19; Jer. 33:19-26.

5th month begins as soon as 4th month ends at (a2) - Leviticus 25:8-9; Gen. 1:13-19.

Elul begins as soon as 5th Month ends (a3) - Lev. 25:8-9; Gen. 1:13-19; Jer. 33:19-26.

6257th Ethaninim or 77,371st Civil Month or 44035th Religious Month begins at (a4).

Bul begins as soon as Ethaninim ends at (a5) - Lev. 25:8-9; Gen. 1:13-19; Jer. 33:19-26.

Chisleb begins as soon as Bul ends at (a6) - Lev. 25:8-9; Gen. 1:13-19; Jer. 33:19-26.

Tebeth begins as soon as Kisleb ends at (a7) - Lev. 25:8-9; Gen. 1:13-19; Jer. 33:19-26.

For complete picture from the beginning, please study under z20 or 1b Case - 5 on www.yhwcalendar.com Use NASA Calendarconverter.

Research: We should count accurate Nights (43,200 seconds per one Night), days (86,400 seconds per one Day (1 Night + 1 Day)). Phases of the Moon, Seasons, New Years, Extra Months, and Sabbatical Years according to the Principles, and Formula of Yahweh only because these are happening from the beginning to this very day (Leviticus 25:8-9; Jeremiah 33:19-26; 33:135-37). NASA and IAU are telling that the length of the day, Lunar Month, and Tropical Year vary always. That's why NASA and IAU are not verifying their calculations. (The occurrences of nights, days, Phases of the Moon, and Seasons in terms of the Luni Solar Cycle, and Tropical Cycle. Gregorian 400 - Tropical Cycle is giving 146,097 Nights, and 146,097 Days but 400 - Year Cycle is not giving Phases of the Moon. There is no 400 - Year Luni Solar Cycle for 400 - Year Tropical Cycle to get accurate Phases of the Moon, and Seasons. That is why astronomers are misleading the World.

I am giving below the origin of 7 - Day Weekly Cycle (Genesis 1:1-31; 2:1-3), the date of the Creation of Sun, Moon, and stars (Gen. 1:13-19; Jer. 33:19-26), the date of the Religious Luni Solar New Year introduced in Egypt by Yahweh, (Exodus 12:1-2), the date of the 41st Religious Luni Solar New Year that occurred on the plains of Moab (Num. 33:48-56), and the occurrences of each Scriptural Month from March 2021 to December CE 2022. So these are counted from 18 hours on 23rd Feb., 4234 BCE, at 35°E by using Yahweh's Calendar Formula.

ORIGIN OF 7 - DAY WEEKLY CYCLE, NEW YEARS, SEASONS ETC. ACCORDING TO THE BOOK OF YAHWEH

Chisleb	411	77373	CE 2022	Dec.	24	3	44037	Winter	(a7)

The above data is counted according to Scriptural Day = 86,400 seconds; Scriptural Synodic Month = 29.53135314 days, and Scriptural Tropical Year = 365.2244898 days. So there is no fiction in the above data but NASA follows fake.

Let's count now how many Civil Lunar Months, and Civil Luni Solar Years are completed from the beginning of Civil 49 - Year Luni Solar Cycle to CE 2022 as below.

CASE - 1: The Julian, and Gregorian Calendar shows the end of Jewish Civil Luni Solar Years (SM) as below.

Roman Year	Month	Day	Hours	Minutes	Seconds	Day of Week	JRM/JCM	CCM	RCM	DL/DLM	C606/R606	CCM X 29.53135314 days	C606 X 29.53135314 d	SM (Civil Year)	CCC	Say
4234 BCE	February	20	18	00	00	Saturday	-	-	-	35°E/0°	-/-	-	-	-	-	(c0)
4234 BCE	February	23	18	00	00	Tuesday	-	0	-	35°E/0°	-/-	-	-	0	-	(c1)
1589 BCE	December	17	18	00	00	Monday	Elul/12	32,724	-	35°E/0°	606/-	966,384 days	17,896 days	2646	54	(c2)
1579 BCE	June	03	22	02	22.5024	Friday	Adar/06	32,841	-	35°E/0°	117/-	969,839.1683 days	3455.168317 days	2655.460396	54.19306931	(c3)
1539 BCE	June	11	22	30	53.3952	Sunday	Adar/06	33,336	0	35°E/0°	06/0	984,457.1881 days	177.1881188 days	2695.485149	55.00990099	(c4)
CE 1989	September	30	18	00	00	Saturday	Elul/12	76,962	43,626	35°E/0°	606/600	2,272,792 days	17,896 days	6,223	127	(c5)
CE 2022	September	26	13	00	35.712	Monday	Elul/12	77,370	44,034	35°E/0°	408/402	2,284,840.792 days	12,048.79208 days	6,256	127.6734694	(c6)

Yahweh counted the very first 7 - Day Weekly Cycle from (c0). Yahweh created Sun, Moon, and stars at (c1). Civil 49 - Year Luni Solar Cycle was completed 54 times at (c2). Religious Luni Solar Calendar introduced by Yahweh in Egypt at (c3).

Very first Religious 49 - Year Luni Solar Cycle began from Canaan at (c4). Civil 49 - Year Luni Solar Cycle was completed 127 times at (c5). 6257th Ethanim (Head of the Year) begins at (c6).

THIS TABLE SHOWS HOURS IN YAHWEH'S CALENDAR ARE IDENTICAL TO HOURS IN THE PRESENT CALENDAR

Jewish Time	1st Watch				2nd Watch			3rd Watch			4th Watch			Jewish Night (Genesis 1:1-31; 2:1-3)	How to use this Table? (1 Cor. 14:33; 13:10; 2:10-16; Lk. 8:17-18) CASE - 1 is identically equal to CASE - 2. The Day in Yahweh's Calendar begins at 6 PM (Sunset) and ends at 6 PM. I considered that 6 PM (18 hours) = Zero hours in Yahweh's Luni Solar Calendar which is written in Leviticus 25:8-9. Eg.:19 hours in Yahweh's Calendar = 13 hours in Gregorian or Julian Calendar = 1 PM. Please convert carefully.

Yahweh counted the very first 7 - Day Weekly Cycle from (d0). Yahweh created Sun, Moon, and stars at (d1). Civil 49 - Year Luni Solar Cycle was completed 54 times at (d2). Religious Luni Solar Calendar introduced by Yahweh in Egypt at (d3).

The Very first Religious 49 - Year Luni Solar Cycle began from Canaan strictly at (d4). Civil 49 - Year Luni Solar Cycle was completed 127 times at (d5). 6257th Ethanim (Head of the Year) begins at (d6).

Please note that CASE - A1 = CASE - B1. You may not understand the above data in CASE - B1 in Yahweh's Luni Solar Calendar even if you are a versatile Jew. You can understand if you study under z20 or 1b Case - 5 (yhwcalendar.com). You/I can count the above data if you/I already calculated the beginning of each Civil/Religious Lunar Month, and Year from the date of the Creation of Sun, Moon, and stars (4234 BCE) to CE 2136.

32724th Month, 32841st, 33336th, 76962nd Month, and 77370th Month are the Civil Lunar Months that are completed. 2646th Year, 6223rd Year, and 6256th Year are the Civil Luni Solar Years that are completed.

Let's count now how many Religious Lunar Months, and Religious Luni Solar Years are completed from the beginning of Religious 49 - Year Luni Solar Cycle to CE 2022 as below.

CASE - A1: The Julian, and Gregorian Calendar shows the end of Jewish Luni Solar Years (SM, and MH) as below.

Roman Year	Month	Day	Hours	Minutes	Seconds	Day of Week	JRM/JCM	DL/DLM	CCM/RCM	RCC	C606/R606	CCM X 29.53135314 days	C606 X 29.53135314 d	SM (Civil Year)	MH (Rel.Yr.)	Say
4234 BCE	February	20	18	00	00	Saturday	-	35°E/0°	-	-	-/-	-	-	-	-	(b0)

6223.485149	Adar	29	04	30	53.568	02	72	76,968	43,632	06	3528	2,272,969.188 days	177.1881188 days	06/606	35°E/0°	(t4)
6254.453795	Adar	30	16	42	46.368	07	-	77,351	44,015	06	3559	2,284,279.696 days	11487.69637	389/383	35°E/0°	(t5)
6255.504951	Adar	29	14	29	42.144	06	-	77,364	44,028	06	3560	2,284,663.604 days	11871.60396	402/396	35°E/0°	(t6)

Please note that CASE - A1 = CASE - B1. You may not understand the above data in CASE - B1 in Yahweh's Luni Solar Calendar even if you are a versatile Jew. You can understand if you study under z20 or 1b Case - 5 (yhwcalendar.com). You/I can count the above data if you/I already calculated the beginning of each Civil/Religious Lunar Month, and Year from the date of the Creation of Sun, Moon, and stars (4234 BCE) to CE 2136 only.

Yahweh counted the very first 7 - Day Weekly Cycle from (t0). Yahweh created Sun, Moon, and stars strictly at (t1). Religious Luni Solar Calendar introduced by Yahweh in Egypt at (t2). Very first Religious 49 - Year Luni Solar Cycle began from Canaan at (t3). Religious 49 - Year Luni Solar Cycle was completed 72 times at (t4). 3560th Abib (New Year) began at (t5). 3561st Abib (New Year according to Formula) begins at (t6).

43632nd Month, 44015th Month, and 44028th Month are the Religious Lunar Months that are completed. And 3528th Year, 3559th Year, and 3560th Year are the Religious Luni Solar Years that are completed.

Finally, History and Astronomy proved that the Creator is Yahweh but NASA, and IAU failed to discover Yahweh as the Creator even if a clue is given as Formula (49 Years) in Yahweh's Book (Leviticus 25:8-9).

(1). The birth of the Creator, Yahweh (Father = God = Spirit = John 4:24; Eph. 1:17-19) as the Jewish Messiah (Son of Man = 1 Tim. 3:16) is prophesied about in Eden in 4135 BCE (Genesis 3:15), in 791 BCE and 761 BCE (Isaiah 6:1, 7:1, 9:6). It is fulfilled (Luke 2:1-20) on the full moon at 9 PM on 10th November, 1 BCE (Wednesday). For the details, please study at 52,364 CCM under z20 or 1b Case - 5i on our website. Hebrew Date = 15 – 1 – SM 4235 = 15 – 7 – MH 1539. Note: Summer occurred in November in those days according to Yahweh's Formula (Luke 1:1-26, 26 - 38 Cf. 2:1-7; Jeremiah 39:1-18, 40:1-12, 13-16, 41:1-2). So summer occurred about from 2nd and 7th Months is true. NASA data (Seasons, and Phases of the Moon) is not authorized by Yahweh.

(2). The Impalement (Crucifixion) of the Creator, Yahweh (Spirit = Father = God = John 4:24) as the Jewish Messiah (Son = 1 Tim. 3:16) is Prophesied about in 4135 BCE (Genesis 3:15, read Isaiah 43:10). It is fulfilled on 13th May, CE 33 at 3 PM. For the details, please study at 52,766th CCM (Scriptural Lunar Month) on our website under z20 or 1b Case - 5i (Dan. 9:24-27). Hebrew Date = 14 – 7 – SM 4267 = 14 – 1 – MH 1572. Note: Winter occurred in May in those days according to Yahweh's Formula (John 18:18). Don't believe in NASA or IAU or any astronomer.

(3). Jewish Messiah as the Prophet is Prophesied between 1579 BCE and 1539 BCE (Deuteronomy 18:15-19) it is fulfilled between CE 29 and CE 33 (Acts 3:21-26).

(4). The birth of the Messiah is prophesied by Angel, Gabriel on 4th Feb., 1 BCE (Luke 1:26-38) it is fulfilled on 10th November, 1 BCE (Luke 2:1-20; 3:1-2).

(5). The Holocaust and the return of Jews are Prophesied by the Jewish Messiah in CE 33 (Luke 21:22-24) it is fulfilled between CE 1941 and 1948. Please watch Jewish Holocaust videos.

(6). Restoration of Physical Jews from all corners of the Earth is Prophesied about between 770 BCE and 615 BCE (Isaiah 11:11-12; Ezekiel 37:1-28) it fulfilled in CE 1948.

(7). 4 mighty Kingdoms are Prophesied about in 625 BCE (Daniel 1:1-21, 2:1-49). They are Iraq, Iran, Greece, and Italy (Luke 2:1-2) these are fulfilled between 626 BCE and CE 1798.

(8a). THE FALSE PROPHET is Prophesied appr. in CE 98 (Rev. 13:11-18). It will be fulfilled between CE 2132 CE 2136. Gog/Magog War appr. in CE 3136 (Eze. 38:1-23; 39:1-24 = Rev.20:7-9).

(8b). Armageddon War may happen before CE 2136. Note: I guess that Armageddon War is different from Gog/Magog War. Please compare Ezekiel 38:1-23; 39:1-24 with Rev.16:12-16; 20:7-10.

(9). The Roman Empire (Daniel 2:1-49) will rule again which is prophesied in about CE 98 (Rev. 13:1-18). It will be fulfilled between CE 2132 CE 2136 as One World Government.

(10). Yahweh elected some Jews and gentiles to His Kingdom about in 4234 BCE (Num. 14:19-38; Eph. 1:1-14; Rom. 11:1-22; Gen. 7:1; Ex. 32:33; 1 Ki. 19:18; 1 Pet. 4:16-19; Rev. 5:9-10).

(11). The name of the Persian Emperor is Prophesied as Cores between 733 BCE and 719 BCE it is fulfilled in 538 BCE (Isaiah 44:28;45:1-14; 2 Chr. 36:21-23; Ezra 1:1-5; 6:1-12).

(12). 70 Years of punishment is prophesied between 853 BCE and 719 BCE (Amos 1:1; 5:24-27). It was fulfilled from 608 BCE to 538 BCE.

NOTE: The length of day, Synodic Month, and Tropical Year are Constant forever - Jeremiah 31:35-37; 33:19-26 etcetera.

(13). The coming Kingdom of the Jewish Messiah is Prophesied between 733 BCE and 719 BCE (Isaiah 66:22-23), and in 98 BCE (Rev. 20:4-6). It will be fulfilled about in CE 2136 (Matt. 24:35).

(14). The Book of Yahweh is written between 1579 BCE and CE 99 by about 40 Prophets. Yahweh determined His Luni Solar Calendar Formula strictly after the end of 72 hours or 3 days ie. at 18 hours on 23rd February, 4234 BCE, at 35°E (Gen. 1:13-19).

The below link gives the proofs of the authors of Yahweh's Book.

<https://lifehopeandtruth.com/bible/holy-bible/who-wrote-the-bible/>

Yahweh punished Israelis with slavery, starvation, plagues, Sword, eating their children, afterbirth, holocaust, and so on (Deut. 28:15-68; Luke 21:24). Yahweh (The Jewish Messiah) will come to rule His chosen Jews and gentiles approximately from CE 2136 to CE 3136 (Isaiah 11:6-9; 65:17-25; 66:22-23; Luke 13:28-30; 22:28-30). Yahweh is going to punish all unrighteous Jews and Gentiles about from CE 3136 (Luke 6:24-26; Matthews 25:45-46; Rev. 20:11-15). So those who are not following the Commandments of Yahweh will be punished with slavery, starvation, the sword, plagues, eating their children, and so on is true according to Jeremiah 25:29. War is common in Israel because Yahweh cursed Israel (Judges 2:1-5; Joshua 23:12-13). Yahweh is punishing all countries to this very day because they disobeyed Him (Deut. 28:15-68; Lev. 18:24-30; Ezk. 14:12-23; Jer.25:29). **Yahweh blessed Israel** (Gen. 12:1-3; 22:17; 49:24-27; Ex. 15:26; Deut. 4:4-7; 7:12-15; 28:7; 33:7, 17, 20, 26; Zech. 8:11; 9:13; 10:3-12; 12:1-6; Zeph. 3:20; Hag. 2:22 etcetera. This is the time to follow Yahweh otherwise Yahweh will punish you certainly after the end of His rule on the Earth (Revelations 20:7-15; Luke 6:24-26; 2 Peter 2:3-12; Heb. 10:26-39; 12:11; 2 Thess. 1:1-12; 1 Cor. 11:31-32 etcetera). Many Rabbis and Christian leaders are misleading the people with inaccurate history, and Chronology to this very day. So accept true history now (1 Cor. 13:10).

Satan = The ancient Serpent = The Spirit of the Anti Messiah (2 Thess. 2:1-12 = The False Prophet = Rev. 13:11-18). Dragon = Friends of Satan which will be lived in the 7 Heads, and 10 Horns (Rulers) = Revelations 16:9-11, 13, 20:1-3; 7-13; 12:9 Cf. 1 Samuel 28:11-20; Luke 8:30-31; Matt. 25:41; 2 Peter 2:1-5; Eph. 2:2 etc. So the Serpent in Genesis 3:1-5, 13-15 is Satan is proved plainly. So don't be beguiled by Satan and his friends in the case of History, Chronology, New Years, Appointed times of Yahweh henceforth (Matthews 7:15-22; 24:1-24; Deut. 13:1-5; Isa. 9:15-16; Eze. 14:11). Beware of false Prophets!

I have given you all the necessary information concerning History that is recorded in the Book of YAHWEH. Please study this History with the help of z20 or 1b Case - 5/5i.

NASA AND IAU ARE MISLEADING THE WORLD UNDER THE VEIL OF SCIENCE, AND SCIENTIFIC FICTION

<http://astropixels.com/ephemeris/phasescat/phases1901.html>

<http://astropixels.com/ephemeris/phasescat/phases2001.html>

The above links give the below Phases of the Moon as below.

Note: Yahweh's Calendar (49 Years = 49 - Year Luni Solar Cycle) only gives accurate Phases of the Moon, and Seasons but fake Creator/astronomer gave inaccurate Calendar.

Year	New Moon	First Quarter	Full Moon	Last Quarter
1940			Jan 2 04:56	
Jan 9 13:53	Jan 17 18:21	Jan 24 23:22	Jan 31 14:47

Dec 28 03:20				

People are misled by NASA/IAU as they don't know basic Astronomy.

Research: The above NASA data is not accurate because you studied the calculations right side.

Research: The discoveries of NASA and IAU are not giving accurate Seasons, and Phases of the Moon. NASA and IAU didn't realize that the Seasons that are occurring according to any Luni Solar Cycle should be equal to the Seasons that are occurring according to similar Luni Solar Cycle. Yahweh, the Creator determined His formula as 49 - Year Luni Solar Cycle = 49 - Year Tropical Cycle = 606 Lunar Months = 588 Tropical Months = 17,896 days. Therefore the Book of Yahweh is proved as the Book of the true Creator because His Formula (49 - YEAR LUNI SOLAR CYCLE) gives accurate Nights, Days, Phases of the Moon, and Seasons. Yahweh's Formula is Constant forever (Jeremiah 33:19-26; 31:35-37).

LET'S CALCULATE HOW NASA IS CALCULATING.

CASE - 1: ACCORDING TO NASA'S WEBSITE.

Conditions: (1). Let's use 49 - Year Luni Solar Cycle. The World is following Gregorian 400 - YEAR TROPICAL CYCLE to get accurate nights, and days even though it is not giving accurate Seasons. (2). NASA used day = 86,400 seconds.

Let's calculate how many days, hours, and minutes are completed between 606 Synodic Months (NASA/IAU).

We know that 49 - Year Luni Solar Cycle takes 606 Lunar Months to get Phases of the Moon, and Seasons.

17,895 days, 9 hours, and 6 minutes are completed between (a1), and (a2).

Year	Month	Day	Hours	Minutes	Seconds	Day of Week	Units	Say
CE 1940	October	01	12	41	-	Tuesday	UT	(a1)
CE 1989	September	29	21	47	-	Friday	UT	(a2)

<http://astropixels.com/ephemeris/calendarconverter.html>

This link gives days, and Day of Week in seconds.

Research: 17895 days, 9 hours, and 6 minutes are completed at the end of 606 Synodic Months or 49 Luni Solar Years (49 - Year Luni Solar Cycle). 17,896th night is completed as 9 hours, and 6 minutes. We won't believe it if any night is completed in 9 hours, and 6 minutes. Therefore the discoveries or calculations of NASA/IAU are not giving accurate nights, and days if we counted in terms of Lun Solar Cycle and Tropical Cycle. **Even Gregorian 400 - Year Tropical Cycle gives 146,097 nights, and 146,097 days. Gregorian 400 - Year Tropical Cycle is not useful to get Phases of the Moon, and Seasons. Please study from 169th page to 179th page for the proof of Hindu/NASA'S 60 - Year Luni Solar Cycle. Please realize that the Seasons that are occurring according to Tropical Cycle should be equal to the Seasons that are occurring in Luni Solar Cycle (Psalms 104:19).** So the discoveries of NASA and IAU are not accurate.

Research: Gregorian 400 - Year Tropical Cycle is not scientific because there is no 400 - Year Luni Solar Cycle.

CASE - 2: ACCORDING TO NASA'S DISCOVERIES.

Conditions: (1). Let's use 49 - Year Luni Solar Cycle because the World is following Gregorian 400 - YEAR TROPICAL CYCLE to get nights, days, and Seasons. (2). NASA used day = 86,400 seconds. (3). NASA used Synodic Month = 29.53058885 days (New Moon to New Moon). (4). NASA used fictions. Solution: 606 Synodic Months = 606 X 29.53058885 days = 17,895.53684 days (17,896 days, 12 hours, 53 minutes, and 3.24384 seconds = 17,896 nights + 17,895 days + 17,896th day takes 53 minutes, and 3.24384 seconds). Please note the residue at the end of Cycle.

Let's calculate how many days, hours, minutes, and seconds are completed between 606 Months (NASA/IAU).

17,895 days are completed between (a1), and (a3).

Year	Month	Day	Hours	Minutes	Seconds	Day of Week	Units	Say
CE 1940	October	01	12	41	-	Tuesday	UT	(a1)
CE 1989	September	29	12	41	-	Friday	UT	(a3)
Let's add 12hours, 53 minutes, and 3.24384 seconds to (a3) to get end of 606th Synodic Month.								
CE 1989	September	29	12	41	-	Friday	UT	(a3)
			+ 12	+ 53	+ 3.24384	(Residue = 12h, 53m, 3.24384s)		
		29	24	94	3.24384			
CE 1989	September	30	01	34	3.24384	Saturday	UT	(a4)

Therefore 606th Synodic month ends at (a4) according to CASE - 2 whereas 606th Synodic month ends at (a2) according to CASE - 1. So CASE - 1 is entirely different from CASE - 2. NASA, and IAU are misleading the World is proved.

Research: Governments should introduce "Basic Astronomy" in the Schools, and Colleges too because Astronomers, and Religious Leaders are misleading the World under the veil of science and Religion. I used 49 - Year Luni Solar Cycle to disprove the calculations of NASA and IAU. You can use any Cycle.

RESEARCH: NASA and IAU have used the length of day as Constant (24 hours or 86,400 seconds) between 2000 BCE and CE 4000 in the case of the Phases of the Moon but the same NASA and IAU have not used Synodic Month (29.53058885 days) as Constant between those years. So 29.53058885 days as Synodic month and 365.24219 days as Tropical Year are not useful in terms of Luni Solar Cycle and Tropical Cycle.

HINDU AND CHINESE RELIGIOUS LEADERS ARE MISLEADING THE PEOPLE UNDER THE VEIL OF FESTIVALS OF THE CREATOR AND GODS

The below table shows the length of Hindu Lunar Month, and Tropical Year according to 60 - Year Luni Solar Cycle, and 30 - Year Luni Solar

Note: This Method is Scientific.

Cycle	Lunar Months = Tropical Months	Lunar Month	Tropical Year = Length of Tropical Cycle ÷ Years per Tropical Cycle	Lunar Month = Length of Luni Solar Cycle ÷ Months per Luni Solar Cycle	Astronomical Formula: Luni Solar Cycle = Tropical Cycle (For accurate Nights, Days, Phases of the Moon, Months, Seasons, Years etc.)	Time completed per Luni Solar Cycle or Tropical Cycle	Research (Please study under z51e on www.yhwcalendar.com)
(A1). 60 Years	742 Lunar Months = 720 Tropical Months.	29.5309973 days (29d, 12h, 44m, 38.16711744s)	21,912 days ÷ 60 Years = 365.2 days (365d, 4h, 48m).	21,912 days ÷ 742 Months = 29.5309973 days (29d, 12h, 44m, 38.16711744s).	60 Years = 60 - Year Luni Solar Cycle = 60 - Year Tropical Cycle = 742 Lunar Months = 720 Tropical Months = 21,912 days (742 Months X 29.5309973 days).	21,912 days = 21,912 Nights + 21,912 days. Note: This Lunar Month gives Tropical Year as 365.2 days (Fake).	30 - Year Cycle is repeating 2 times in 60 - Year Cycle always. And Lunar Month (29.5309973 days), and Tropical Year (365.2 days) are not giving accurate Phases of the Moon, and Seasons. So Hindu/Chinese calendar is Fake!
(A2). 60 Years	742 Lunar Months = 720 Tropical Months.	29.53234501 days (29d, 12h, 46m, 34.6091664s)	21,913 days ÷ 60 Years = 365.2166667 days (365d, 5h, 12m, and 2.88 X 10-05s)	21,913 days ÷ 742 Months = 29.53234501 days (29d, 12h, 46m, 34.6091664s).	60 Years = 60 - Year Luni Solar Cycle = 60 - Year Tropical Cycle = 742 Lunar Months = 720 Tropical Months = 21,913 days (742 Months X 29.53234501 days).	21,913 days = 21,913 Nights + 21,913 days. Note: This Lunar Month gives Tropical Year as 365.2166667 days (Fake).	30 - Year Cycle is repeating 2 times in 60 - Year Cycle always. And Lunar Month (29.53234501 days), and Tropical Year (365.2166667 days) are not giving accurate Phases of the Moon, and Seasons. So Hindu/Chinese calendar is not determined by the true Creator.
(B). 30 Years	371 Lunar Months = 360 Tropical Months.	29.5309973 days (29d, 12h, 44m, 38s).	10,956 days ÷ 30 Years = 365.2 days (365d, 4h, 48m).	10,956 days ÷ 371 Months = 29.5309973 days (29d, 12h, 44m, 38s).	30 Years = 30 - Year Luni Solar Cycle = 30 - Year Tropical Cycle = 371 Lunar Months = 360 Tropical Months = 10,956 days (371 Months X 29.5309973 days).	10,956 days = 10,956 Nights + 10,956 days. Note: This Lunar Month gives Tropical Year as 365.2 days (Fake).	Hindu Lunar Month (29.5309973 days), and Hindu Tropical Year (365.2 days) are not suitable to get accurate Phases of the Moon, and Seasons. So Hindu and Chinese 30 or 60 - Year Luni Solar or Tropical Cycle is fake. Is not 30 - Year Cycle is repeating in the 60 - Year Cycle?

Research: We can't get accurate Phases of the Moon, and Seasons if the length of 60 - Year Luni Solar Cycle or 60 - Year Tropical Cycle is more or less than 21,912 days. Please study under z51e.

The month of Phalguna ends as below according to the 30 - Year Cycle, 60 - Year Cycle and Hindu Lunar Month = 29.5309973 days (Constant).

Where DW = Day of Week; DL = Degrees of Longitudes; 30 - YC = 30 - Year Luni Solar Cycle ends; 60 - YC = 60 - Year Luni Solar Cycle ends; Month = Hindu or Telugu Month ends.

<http://astropixels.com/ephemeris/calendarconverter.html>

This link gives days, and Day of Week within seconds.

Roman Year	Month	Day	Hours	Minutes	Seconds	DW	DL	30 - YC	60 - YC	Month	Ugadi	Say	
4193 BCE	January	20	06	00	00	Friday	82.5°E	0	0	Phalguna	20th Jan.	(a1)	I used NASA Calendarconverter also to get the data in the table.
46 BCE	June	28	19	38	58.272	Sunday	82.5°E	-	-	Phalguna	29th June	(a2)	Let's say both the 30 and 60 - Year Luni Solar Cycle began at (a1).
45 BCE	June	17	04	34	36.48	Friday	82.5°E	-	-	Phalguna	17th June	(a3)	Ugadi begins as soon as the month of Phalguna strictly ends at (a2).
CE 1447	April	13	06	00	00	Thursday	82.5°E	188	94	Phalguna	13th April	(a4)	Ugadi begins as soon as the month of Phalguna strictly ends at (a3).

<http://astropixels.com/ephemeris/phasescat/phasescat.html>

This link gives inaccurate Phases of the Moon.

Search: Both 30 and 60 - Year Luni Solar Cycle are giving similar Phases of the Moon.

The above data (The month of Chaitram begins as soon as the Month of Phalguna ends) proved that 30 - Year Luni Solar Cycle = 60 - Year Luni Solar Cycle. So 60 - Year Luni Solar Cycle is not determined by the true Creator.

Research: The above data in the table is calculated from (a1). So Siddhantis are misleading Hindus is proved. Even IAS officers were unable to solve Ugadi date puzzle in CE 2017. Julian Calendar is proposed in 46 BCE during the days of Julius Caesar. Trees were flowering in April during those days. In the above table, Ugadi begins as soon as Phalguna ends. Ugadi didn't occur in the right Season during the days of Julius Caesar and in the remaining years. So Hindu or Chinese 60 - Year Luni Solar Cycle is not giving accurate Phases of the Moon, and Seasons. For the complete picture, please see from 169th page to 179th page, and 365th page to 371st page or under z51e on www.yhwcalendar.com.

Religious leaders are cheating the people under the veil of the Creator and His Festivals.

WHICH CALCULATIONS ARE ACCURATE? HOW CAN ONE COUNT JEWISH NEW YEAR IN CE 2022 (AD 2022)? WHO IS DOING THOSE CALCULATIONS NOW?

Yahweh's calculations are accurate because He determined the principles and Formula (Isaiah 34:16; Leviticus 25:8-9). We can count Jewish New Year in CE 2022 as below. I am doing those calculations now.

We can't talk, and prove anything without knowing thoroughly. So we should first know the basics of Astronomy that is recorded in the Book of Yahweh (Isaiah 34:16; Acts 24:14-15; 26:23; Leviticus 25:8-9). Yahweh determined the length of Day (12 steps per night, and 12 steps per day or 24 hours or 1440 minutes or 86,400 seconds), Lunar Month (29.53135314 days), and Tropical Year (365.2244898 days) in the beginning with respect to Jerusalem at 35°E (Genesis 1:14-19; Psalms 104:19; Jeremiah 33:19-26; John 11:9; 2 Kings 20:1-11; Acts 7:22; 4:27-28; Job 38:1-34 etcetera). Please read Ecclesiastes 3:11.

Yahweh determined the length of Day (24 hours) at (a), and He determined Lunar Month (29.53135314 days), and Tropical Year (365.2244898 days) at 18 hours on 23rd February 4234 BCE, 35°E (Genesis 1:13-19) at (b). You can study the proofs of the length of the day, Lunar Month, and Tropical year determined by Yahweh on the 2nd page, and 372nd page. You can't count the Phases of the Moon, Seasons, Sabbatical Years, Extra Months, Jubilee Years, and so on if you don't know History from the origin of 7 - Day Weekly Cycle, and history from the very first man, Adam. I counted History from Adam, and the origin of 7 - Day Weekly Cycle. That is why I am giving accurate Phases of the Moon, Seasons, History, New Years, Extra Months, Sabbatical years, and so on from the beginning.

We can't begin calculations without knowing the date of the Creation of the Sun, Moon, and stars. That is why Yahweh gave us all the necessary records of history and the Formula of His Luni Solar Calendar in His Book (Isaiah 34:16). The Spirit of Yahweh inspired me to count History from Yahweh's Book. So I counted (Leviticus 25:8-9; Daniel 12:4-10; 1 Peter 4:11; Jeremiah 23:28). I am proving my calculations from the beginning while I was disproving the calculations of all religious leaders and Astronomers. So please ask for the proof at all astronomers, and religious leaders henceforth. Don't believe any calculations concerning the Phases of the Moon, Seasons, New Years, Sabbatical Years, Jubilee Years, Extra Months, and so on if any Rabbi or Astronomer didn't give you proofs from the Book of Yahweh. Present Rabbis, religious leaders, and Astronomers are giving inaccurate History, and the Phases of the Moon according to their own will. There is no scientific of their calculations.

Yahweh gave Religious Luni Solar Calendar and the names of the Religious Months in Egypt in 1579 BCE. Israelis called months as 1, 2, 3, and so on.

So 12th Civil Month ends in Summer in Israel when Elul the sixth Religious month ends. So 12th Civil Month = Elul. In a similar way 6th Civil month = Adar.

That is why Israelis were celebrating the Feast of Sukkoth after the end of 12th Civil Lunar Month (Exodus 23:14-17; 34:22; Deut. 16:13).

6,256 Luni Solar Years are completed from 18 hours on 23rd February 4234 BCE (The date of the Creation of Sun, Moon, and stars) to the end of Elul in CE 2022.

Let's see how many Scriptural months are completed in 6256 Luni Solar Years. We know that 1 Cycle = 49 - Year Luni Solar Cycle = 49 Years = 49 Luni Solar Years = 606 Scriptural Lunar Months = 17,896 days (Lev. 25:8-9).

Research: NASA used 1 day as 86,400 seconds in the case of Phases of the Moon between 2000 BCE and CE 4000 but NASA didn't use Synodic Month (29.53058885 days) as Constant. Please note that Synodic Month (29.53058885 days) and Tropical Year (365.24219 days) are Constant between 2000 BCE and CE 4000 if one day is used as 86,400 seconds between 2000 BCE and CE 4000 because there was no change in the Formula (For example: The relation between the Earth, Sun, and Moon = 1 Cycle = 49 Years = 49 - Year Luni Solar Cycle = 49 - Year Tropical Cycle = 606 Lunar Months = 588 Tropical Months = 17,896 days). Please note that the formula will be altered if the volume of the Moon, Earth and the Sun are changed. So astronomers and Religious leaders are misleading the World under the veil of science, scientific fictions, gods, goddesses, and the Creator.

49 Luni Solar Years = 606 Lunar Months. How many Lunar Months are there in 6256 Luni Solar Years?	6,256 Luni Solar Years = (6256 Luni Solar Years X 606 Lunar Months) ÷ 49 Luni Solar Years = 77,370.12245 Scriptural Months.	Let's see the beginning of Jewish New Year (1st Ethanim) at the end of 77,370th Scriptural Lunar Month in CE 2022 (AD 2022).
Let's see how many times 49 - Year Luni Solar Cycle is completed in 6256 Luni Solar Years.		
49 Luni Solar Years = 1 Luni Solar Cycle is completed. 6,256 Luni Solar Years = How many Luni Solar Cycles are completed ?	6,256 Luni Solar Years = (6256 Luni Solar Years X 1 Luni Solar Cycle) ÷ 49 Luni Solar Years = 127.6734694 Cycles are completed.	127.6734694 Cycles = 127 Luni Solar Cycles + 0.673469388 Luni Solar Cycles. Let's convert these into Years, and Months to find out New Year.
1 Luni Solar Cycle = 49 Luni Solar Years. 127 Luni Solar Cycles = How many Luni Solar Years?	127 Luni Solar Cycles = (127 Luni Solar Cycles X 49 Luni Solar Years) ÷ 1 Luni Solar Cycle = 6,223 Luni Solar Years are completed.	Let's convert 0.673469388 Cycles into Luni Solar Years to get the beginning of Jewish New Year (1st Ethanim).
1 Luni Solar Cycle = 49 Luni Solar Years. 0.673469388 Luni Solar Cycles = How many Luni Solar Years?	0.673469388 Luni Solar Cycles = (0.673469388 Luni Solar Cycles X 49 Luni Solar Years) ÷ 1 Luni Solar Cycle = 33.00000001 Luni Solar Years.	So 127.6734694 Cycles = 6,223 Luni Solar Years + 33 Luni Solar Years = 6256 Luni Solar Years. Note: Please use formula to get the solution.

Let's convert Luni Solar Years, and Luni Solar Cycles into Lunar Months to get beginning of Jewish New Year. So 127 Cycles = 127 X 606 Months = 76,962 Lunar Months according to 49 - Year Luni Solar Cycle (Lev. 25:8-9).

33 Luni Solar Years = 408 Lunar Months according to 49 - Year Luni Solar Cycle. For the proof, please see on 364th page or from this. https://drive.google.com/file/d/1Pb3sben_qi5filBNHXZpT0tVVVRd7f9n/view?usp=sharing

So 6,256 Luni Solar Years = 127.6734694 Cycles = 6223 Luni Solar Years + 33 Luni Solar Years = 76,962 Lunar Months + 408 Lunar Months = 77,370 Scriptural Lunar Months.

RESEARCH: 77,370 Scriptural Lunar Months, and 2,284,840 days (2,284,840 Nights + 2284840 days) are completed in 6,256 Scriptural Luni Solar Years (4234 BCE to CE 2022). All astronomers (NASA/IAU) and Religious leaders (Rabbis, Imams, Panchang producers etcetera) are simply telling that 6,256 years are completed between 4234 BCE and CE 2022. So astronomers and religious leaders are misleading the World in the case of Phases of the Moon, and Seasons to this very day. So 6257th Civil Luni Solar Year or 34th Civil Luni Solar Year (Out of 49 years) or 1st Ethanim begins in Summer as below at (e3).

So it is proved that the Jewish Luni Solar New Year (Rosh Hashanah) that occurs always in Summer in Israel begins as soon as 77,370th Scriptural Lunar Month ends.

77,370 Months = 77,370 X 29.53135314 days = 2,284,840.792 days = 2,284,840 days, 19 hours, 0 minutes,, and 35.712 seconds. So Residue = 19 hours and 35.712 seconds.

Research: Formula of Yahweh's Luni Solar Calendar = 1 Cycle = 49 Years = 49 Luni Solar Years = 49 Tropical Years = 606 Lunar Months = 588 Tropical Months = 17,896 days. So 33rd Year out of 49 Luni Solar Years is completed at the end of 408th Lunar Month according to Yahweh's Formula. Yahweh's Luni Solar Calendar Formula is proved in the case of Phases of the Moon, and Seasons from the beginning to this very day because accurate Phases of the Moon, and Seasons are occurring.

THE APPOINTED TIMES OF YAHWEH IN CE 2022 ACCORDING TO 49 - YEAR LUNI SOLAR CYCLE

2,284,840 days are completed between (e1), and (e2). Add Residue (e0) to (e2) to get end of 77,370th Month.										
Roman Year	Month	Day	Hours	Minutes	Seconds	Day of Week	DL	DLM	CCM	Let' say
4234 BCE	February	20	18	00	00	Saturday	35°E	0°	-	(a)
4234 BCE	February	23	18	00	00	Tuesday	35°E	0°	0	(e1)
CE 2022	September	25	18	00	00	Sunday	35°E	0°	0	(e2)
			+ 19	+ 00	+ 35.712	[Residue = 19h, 0m, 35.712s is added to (e2)]				(e0)
			37	00	35.712		35°E	0°		
CE 2022	September	26	13	00	35.712	Monday	35°E	0°	77,370	(e3)

So 77,371st Civil Lunar Month or 6257th Civil Luni Solar Year or 34th Civil Luni Solar Year out of 49 Civil Luni Solar Years or 1st Ethanim begins strictly ast (e3) according to Yahweh's 49 - Year Luni Solar Cycle (Formula - Leviticus 25:8-9).

Now we can calculate the beginning of Religious Luni Solar New Year in CE 2022 from Canaan as commanded by Yahweh (Leviticus 25:1-7).

44,028 Religious Lunar Months = 44,028 X 29.53135314 days = 1,300,206.416 days = 1,300,206 days, 9 hours, 58 minutes, and 48.576 seconds. So Residue = 09 hours, 58 minutes, and 48.576 seconds. Let's say (r) = Residue.

1,300,206 days are completed between (c), and (d). Add Residue (r) to (d) to get end of 44,028th Religious Month.											
Roman Year	Month	Day	Hours	Minutes	Seconds	Day of Week	DL	DLM	CCM	RCM	Say
4234 BCE	February	20	18	00	00	Saturday	35°E	0°	-	-	(a)
4234 BCE	February	23	18	00	00	Tuesday	35°E	0°	0	-	(b)
1539 BCE	June	11	22	30	53.3952	Sunday	35°E	0°	0	0	(c)
CE 2022	April	01	22	30	53.3952	Friday	35°E	0°	0	-	(d)
			+ 09	+ 58	+ 48.576	[Residue = 09h, 58m, 48.576s is added to (d)]				-	(r)
CE 2022	April	02	08	29	41.9712	Saturday	35°E	0°	77,364	44,028	(e)
CE 2022	April	02	18	00	00	Saturday	35°E	0°	-	-	(e1)

3560 Religious Years are completed from 1539 BCE to CE 2022. So 3560 Years = 3560 ÷ 49 = 72.65306122 Cycles = 3528 Luni Solar Years + 32 Luni Solar Years = 43,632 Lunar Months + 396 Lunar Months = 44,028 Religious Lunar Months.

49 - Year Luni Solar Cycle is completed 72 times in 3560 Luni Solar years. 396 Lunar Months = 32 Luni Solar Years according to 49 - Year Luni Solar Cycle. Please see on 364th page (From Yahweh's Luni Solar Calendar Formula).

So 44,029th Religious Lunar Month or 3561st Religious Luni Solar Year or 33rd Religious Luni Solar Year out of 49 Religious Years or 1st Abib begins strictly ast (e1) according to Yahweh's 49 - Year Luni Solar Cycle (Formula - Lev. 25:8-9).

Research: The Sun and Moon (They = Genesis 1:14-19; Psalms 104:19) are giving accurate Nights (2,284,667 nights), and Days (2,284,667 days) to this very day is proved as determined by Yahweh (Genesis 1:13-19).

Yahweh's Lunar Month ends strictly as below									Beginning of Month	The Moon is full strictly as below					DL/DLM	NRM	RCM	CCM X 29.53135314 days	R 60

Research: The Book of Yahweh gives History from the very first man to CE 3136. Yahweh's Universal Luni Solar Calendar Formula is Constant forever. So the above data is genuine (Jer. 33:19-26).

Note: 26 - 27th September, CE 2022 is the Jewish New Year (1st Ethanim). This New Year occurs in Summer in Israel always - Genesis 1:13-19.

"BASIC ASTRONOMY" should be introduced in every country from the School level to the College level because people are misled by scientists and religious leaders.

Note: Yahweh created the Sun, Moon, and stars at (e1) [Gen. 1:13-19; Psalms 104:19].

Note: Yahweh determined the length of Day at (a). This is Constant - Jer. 33:19-26.

Note: Yahweh determined the length of Lunar Month, and Tropical Year at (e1).

Note: Yahweh determined the principles, and Formulas at (e1) [Jeremiah 33:19-26].

Note: 77,370 Scriptural Lunar Months are completed between (e1) and (e3).

Note: Jewish New Year (Rosh Hashanah) strictly begins at (e3) as soon as Elul ends.

Note: Jewish New Year (1st Ethanim) = From 6 PM on 26th to 6 PM on 27th Sep., 2022.

Note: 44,028 Scriptural Religious Lunar Months are completed from Canaan to CE 2022.

Note: Yahweh determined the length of Lunar Month, and Tropical Year at (b).

Note: 7 - Day Weekly Cycle begins from (a). The Book of Yahweh gives this information.

Note: Yahweh created the Sun, Moon, and stars at (b) [Gen. 1:13-19; Psalms 104:19].

Note: Yahweh determined the length of Day at (a). This is Constant - Jer. 33:19-26.

Note: First Religious 49 - Year Luni Solar Cycle strictly began at (c).

Note: Jewish New Year (1st Abib) strictly begins at (e) as soon as Adar ends.

Note: Jewish New Year (1st Abib) = From 6 PM on 1st Apr., to 6 PM on 2nd Apr., 2022.

Note: 44,028 Scriptural Religious Lunar Months are completed between (c) and (e).

Note: 326,381 Weeks (2,284,667 days) are completed between (a) and (e1).

Where (A) C 606 = Number of Civil months completed out of 606 Lunar Months in each Civil 49 - Year Lunisolar Cycle; DL = Degrees of Longitudes discovered by Scientists.

(B) CCM = Number of Civil months Counted from the Creation of sun, moon and stars (Gen. 1:13-19; Jer. 31:35-37). DLM = DL. Note: DLM is discovered by Me by the inspiration of Yahweh.

(C) Year = Roman Year. (D) Month = Roman Month. (E) DW = Day of Week. (F) NRM = Name of Religious Month. (G) R 606 = Number of Religious Months completed out of 606 Religious Months in the Religious 49 - Year Luni Solar Cycle.

(H) RCM = Religious Lunar months Counted from the land of Milk and Honey. Note: Land Sabbaths should be counted from Canaan only (Leviticus 25:1-7).

Where 29.53135314 days = Scriptural Month.

Jewish New Year = 1-2nd Apr., 2022.

For complete picture: z20 or 1b. Case - 5 on www.yhwhcalendar.com

* 3,561st New Year (From Canaan) = 6 PM on 1st April, to 6 PM on 2nd April, CE 2022.

* 3,561st Pesach = At Night on 14th April, CE 2022 (Bread and Wine - Gen. 14:18)

Days of 3,561st Chag HaMatzoth = 6 PM on 15th April, to 6 PM on 22nd Apr., CE 2022.

* Waving Sheaf = Morning on 17th April, CE 2022 (Fasting for few hours required).

3,561st Shavouth = 6 PM on 4th June, to 6 PM on 5th June, CE 2022 (Sat. to Sun.).

* 6,257th New Year (Head of Year) = 6 PM of 26th Sep., to 6 PM of 27th Sep., CE 2022.

* 3561st Yom Kippur = 6 PM on 5th October to 6 PM on 6th October, CE 2022.

* 3561st Feast of Sukkoth = 10th Oct., to 11th Oct., CE 2022 (Ps. 81:1-5).

* 7 Days of Sukkoth = 10th to 17th Oct., CE 2022.

* Shemini Atzeret = 6 PM of 17th Oct., to 6 PM of 18th Oct., 2022.

** Independence day of Israel = 6th Sivan = 5th June to 6th June CE 2022 according to the formula of Yahweh (Leviticus 25:8-9).

* 2631st Fasting day of 10th day of 10th Month = From 6 PM on 12th Jan., to 6 PM on 13th Jan., CE 2022 (Zech. 7:1-14; 8:18-19; Eph. 2:11-22; Rom. 11:13-23; Php. 3:3; Col. 3:1-11).

* 2512th Purim = From 6 PM on 16th Mar., to 6 PM on 18th Mar., CE 2022 (Est. 9:20-32; Eph. 2:11-22; Rom. 11:13-23; Php. 3:3; Col. 3:1-11; Gal. 6:15-16).

* 2630th Fasting day of 9th day of 4th Month = 7th July, to 8th July, CE 2022 (2 Ki. 25:1-7).

2630th Fasting day of 7th day of 5th Month = 6 PM on 4th August to 6 PM on 5th August, 2022 (2 Ki. 25:8-13; Zech. 8:18-20; Rom. 11:1-23).

1). PROOF: Jews celebrated the Purim from 6 PM on 19th Apr. (Fri.) to 6 PM on 21st April 490 BCE (2 Days) - Esther 9:1-32 (46,309 CCM on www.yhwhcalendar.com).

Formula: Number of anniversaries of Purim (14th/15th Adar) completed = MH -1048.

Satan is cheating with inaccurate 19 - Year Luni Solar Cycle.

2). PROOF: The army of Chaldees built forts against Jerusalem on Sunday morning 11th March 609 BCE - Eze. 24:1-2; 2 Ki. 25:1-2 (44,836 CCM/ www.yhwhcalendar.com).

Formula: Number of anniversaries of 10th day of Tebeth completed = MH -929.

Note: Satan is cheating with Grecian 19 - Year Cycle, and 50 - Year Cycle.

3). PROOF: Jerusalem was broken up, and Chaldees took Zedekiah on Friday night 23rd Aug., 608 BCE - 2 Ki. 25:1-7 (44,854 CCM on www.yhwhcalendar.com).

Formula: Number of anniversaries of 9th day of 4th Month completed = MH -931.

Satan is cheating with Enoch Calendar/Lunar Sabbath Calendar etc.

4). PROOF: The army of Chaldees burnt the House of Yahweh, and Jews carried away to Babylon on Friday 20th September 608 BCE - 2 Kings 25:8-13 (44,855 CCM).

Formula: Number of anniversaries of 7th day of 5th Month completed = MH -931.

NB: 10th day of 5th Month = The Poison = The Stumbling block = Jer. 52:12 = Jer. 6:16-21.

5). PROOF: Israelis celebrated Pesach in Egypt on Thursday night 16th June 1579 BCE - Exodus 12:1-14 (46,309 CCM on www.yhwhcalendar.com).

6). PROOF: Israelis came out of Egypt on Friday evening 17th June 1579 BCE - Numbers 33:1-5 (32,842 CCM on www.yhwhcalendar.com).

7). PROOF: Yahweh proclaimed the 10 Commandments on the Mount Sinai on Sunday morning 7th Aug., 1579 BCE - Exodus 19:1-25; 20:1-25 (32,844 CCM).

8). PROOF: Israelis celebrated Pesach in Gilgal on the plains of Jericho on Saturday night 24th June 1536 BCE - Joshua 5:10 (32,337 CCM on www.yhwhcalendar.com).

9). PROOF: The Jewish Messiah was born on Wednesday night 10th November 1 BCE - Luke 2:1-20 (52,364 CCM on www.yhwhcalendar.com).

Formula: Number of anniversaries of Birth day of the Messiah = MH -1538.

The Formula of the true Calendar (49 YEARS) proves who the Creator is!

10). PROOF: First Lord's Supper on Tuesday night 12th May CE 33 - Luke 22:14-21 (52,766 CCM on www.yhwhcalendar.com).

Formula: Number of anniversaries of Lords' Supper = MH -1571.

Israelis are celebrating the Appointed times of Yahweh in the wrong dates since CE 136.

This may be the last chance for you to realize that the Creator is Yahweh because History speaks to you in the form of the Metals, Alloys, 7 - Day Weekly Cycle, and 49 - Year Luni Solar Cycle (Lev. 25:8-9; Rom. 14:10-12).

RESEARCH: Gregorian 400 - Year Tropical Cycle is not equal to Gregorian 400 - Year Luni Solar Cycle. So Gregorian 400 - Year Tropical Cycle is the foolish Concept but Astronomers didn't realize this to this very day. The discoveries of Astronomers are not accurate in the case of length of day, Synodic Month, and Tropical Year.

Sometimes Extra Month is occurring after the end of Zif. Every 6th day of Sivan is the Shavouth is a false concept!

STUMBLING BLOCKS (Jer. 6:16-21; 1 Peter 2:8) !

* 14th Abib (Pesach) stands for "Yahweh passed over the doors of Israel"- Ex. 12:1-14, 27.

* 15th Abib is also called as Pesach because it is the Stumbling block. 14th Abib is not equal to 15th Abib.

Deut. 16:1-4 speaks about "The departure from Egypt - Ex. 12:42, 13:1-10, 23:15, 34:18". That's why Israelis came out of Egypt on the Full Moon Day.

Pesach is the stumbling block to this very day. This is killing many Spiritually. That is why the chosen people only can understand the Truth.

Research: 15th Abib is not equal to 14th Abib. The Moon is full when 14 days, 18 hours, 22 minutes, and 34.45544928 seconds are completed.

Satan is beguiling the people under the veil of History, Calendar, Chronology, Prophecy, Festivals, and so on (1 Cor. 13:10). Jews forgot Yahweh's Calendar Formula (49 Years = Leviticus 25:8-9) after CE 136 (Luke 21:24). Jews, and Gentiles are not searching the Scriptures for all truth (Matt. 6:31-33; 1 Thess. 5:21 KJV; Acts 17:10-12; Php. 4:8-9; 1 Cor. 14:33; Gal. 5:25; Rom. 2:26-29; Heb. 12:218-25; James 3:13-18; 4:17; Rev. 2:1-2; Rom. 12:1-18; John 4:21-24, 16:1-14). That is why the spirit of Error is misleading to this very day (1 Timothy 4:1-2; 1 John 4:1-6). The serpent seed is interested in the false doctrine (2 Timothy 4:1-4; 2 Thess. 2:10-12). This is the time to use science and technology to discover the true history, and the Creator (Daniel 12:3-10).

TEST YOUR CREATOR

Step - (00): Write down the proof of the Universal 7 – Day Weekly Cycle from your Creator’s Book. **Note:** This 7 – Day Weekly Cycle is Constant for all.

Step - (01): Write down the date of the Creation of the Sun, Moon, and stars from your Creator’s Book. **Note:** This date is Constant for all as it is science.

Step - (02): Write down the Formula of the Universal Calendar from your Creator’s Book. **Note:** The relation between Earth, Sun, and Moon is Constant.

Step - (03): Write down the length of Day from the Creator’s Book. **Note:** 86,400 seconds per day is Constant on the Equator. More or less than this is fake.

Step - (04): Write down the length of Lunar Month from your Creator’s Book. **Note:** This is Constant for all. More or less than 29.53135314 days is fake.

Step - (05): Write down the length of Tropical Year from your Creator’s Book. **Note:** This is Constant for all. More or less than 365.2244898 days is fake).

Step - (06): Write down History from the very first man to this very day via the Roman Empire from your Creator’s Book and History. This is Universal Truth.

Step - (07): Count/calculate the beginning and end of each Luni Solar Cycle from the date of the Creation of the Sun, Moon, and stars to this very day.

Note: You can see the beginning time of each Prabhava from 4193 or 4253 BCE to CE 3967, and Prabhava of 4 YUGAS from 38,90,521 BCE to CE 4,28,897 from 168th page to 176th page under Jewish History in www.yhwhcalendar.com. You can observe the occurrences of Ugadi (Telugu New Year) and Jewish New Year (1st Abib that occurs in flowering/budding) in 46 BCE because Julian Calendar proposed in 46 BCE by Julius Caesar in which April stands for budding (To open).

I AM TESTING MY CREATOR

Step - (00): Write down the proof of the Universal 7 – Day Weekly Cycle from your Creator’s Book. **Note:** This 7 – Day Weekly Cycle is Constant for all.

Solution: Yahweh Created the Universe according to the 7 - Day Weekly Cycle. Yahweh commanded to keep the Sabbath (**Gen. 1:1-31; 2:1-3; Ex. 20:8-11**).

Step - (01): Write down the date of the Creation of the Sun, Moon, and stars from your Creator’s Book. **Note:** This date is Constant for all as it is science.

Solution: Yahweh created the Sun, Moon, and stars **on Tuesday 23rd February 4234 BCE, at 18 hours (6 PM), 35°E Jerusalem** (Genesis 1:13-19; Isa. 34:16).

Step - (02): Write down the Formula of the Universal Calendar from your Creator’s Book. **Note:** The relation between Earth, Sun, and Moon is Constant.

Solution: **Formula** = 49 Years = 49 – Year Luni Solar Cycle = 606 Months = 17,896 days = 49 – Year Tropical Cycle = 588 Tropical Months (Leviticus 25:8-9).

Step - (03): Write down the length of Day from the Creator’s Book. **Note:** 86,400 seconds per day is Constant on the Equator. More or less than this is fake.

Solution: **1 Day** = 24 Steps = 24 hours = 1,440 min. = 86,400 seconds per 360° (2 Kings 20:8-11 Cf. John 11:9; Genesis 1:13-19; Jer. 33:19-26; Isaiah 34:16).

Step - (04): Write down the length of Lunar Month from your Creator’s Book. **Note:** This is Constant for all. More or less than 29.53135314 days is fake.

Solution: **1 Lunar Month** = 29.53135314 days per 360° (17,896 days ÷ 606 Lunar Months). Proof: Leviticus 25:8-9; Job 38:1-33; Gen. 1:13-19; 2 Ki. 20:8-11.

Step - (05): Write down the length of Tropical Year from your Creator's Book. **Note:** This is Constant for all. More or less than 365.2244898 days is fake).

Solution: **1 Tropical Year** = 365.2244898 days per 360° (17,896 days ÷ 49 Tropical Years). Proof: Lev. 25:8-9; Jeremiah 31:35-37; 33:19-26; Genesis 1:13-19.

Step - (06): Write down History from the very first man to this very day via the Roman Empire from your Creator's Book and History. This is Universal Truth.

Solution: The complete History (**Past/present/Future**): https://drive.google.com/file/d/1Cshz53zVKDSVcqHtiLmX_BR_WXTXfni/view?usp=sharing

Step - (07): Count/calculate the beginning and end of each Luni Solar Cycle from the date of the Creation of the Sun, Moon, and stars to this very day.

Solution: I calculated the beginning and end of each Civil and Religious 49 – Year Luni Solar Cycle.

Proof of Civil/Religious 49 – Year Luni Solar Cycle: https://drive.google.com/file/d/1TXq6LyL8_BHnMzOPFHvRPuKg0ka8D9m8/view?usp=sharing

Jubilee Years: <https://drive.google.com/file/d/1Pv03QD3-3M4nfpDVbJAKXwVpU7k5oGQ5/view?usp=sharing>

Note - 1: The data in the above links gave accurate Seasons, and Phases of the Moon. So Yahweh is proved as the Universal Creator.

Note - 2: Yahweh created trees with fruits on the 3rd day in the beginning (Gen. 1:9-13). Therefore the birds ate up fruits on the 5th day, and Adam ate up fruits on the 6th day (Genesis 1:20-31). Therefore the trees were created with fruits in the beginning is proved (Genesis 1:9-13, 29-30). The trees were budding in the beginning to indicate New Year as Ugadi is the fiction because men, birds, cattle etcetera can't eat buds as soon as they were created. This proved that the trees were budded after the end of 6 months in the beginning is genuine. That's why another Jewish New Year (1st Abib that occurs always in flowering time in the winter) introduced by Yahweh in Egypt after 2655.5 Luni Solar Years (Exodus 12:1-2). So Rosh Hashanah (1st Ethanim occurs in Summer always in Israel) is the Head of the Year is true. Therefore 1st Abib that occurs in the flowering in the winter in the Northern Hemisphere is not the Head of the Year. Religious 49 – Year Luni Solar Cycle is introduced by Yahweh (Exodus 12:1-2) is true because budding was occurring in the 6th civil month. So there was Summer in every Ethanim in Israel is proved (Genesis 1:13-19; Exodus 23:16-17; 34:22; Jeremiah 40:1-16; 41:1-8; Isaiah 34:16; Luke 2:8). So the Jewish Messiah was born in Summer, and impaled in Winter is proved (John 18:18; Exodus 9:22-35; Mark 11:12-13). **That's why Yahweh is proved as the Universal Creator whereas 60 –Year Cycle is not proved because the 30 – Year Cycle is repeating in the 60 – Year Cycle and it is not accurate.** 8 hours, 48 minutes, and 34.51968 seconds are remaining at the end of every Muslim Year. So Muslim calendar is not accurate concept. So this is the time to discover the truth.

<https://www.booksfact.com/archeology/kalpa-vigraha-oldest-hindu-idol-of-lord-siva-26450-bc.html> is the false carbon dating because there is no man, and metals or alloys between 26,450 BCE and 4234 BCE (<https://www.youtube.com/watch?v=JDBY3eJB1ac>; <https://www.youtube.com/watch?v=Hy6vcaZ5dA>).

For the discovery of bronze, iron, steel etc: https://drive.google.com/file/d/1k80nxHPQGp3a_SxhSex4LZGXrcaHNGG0/view?usp=sharing

For the complete picture of Months/Years: https://drive.google.com/file/d/1QWexCkPzqIRrBMcwT4Jpw2_2NVF7GdZd/view?usp=sharing

Formula of Yahweh's Luni Solar Calendar (Brief 1): <https://drive.google.com/file/d/11o98075V-SqVdlbQrf5ZpEn050MORgw2/view?usp=sharing>

Formula of Yahweh Luni Solar Calendar (Brief 2): <https://drive.google.com/file/d/1gJ5iqh2JqS-PbuDRZHwCEky4e-RxxFg7/view?usp=sharing>

Formula of Yahweh Luni Solar Calendar (Full): https://drive.google.com/file/d/1Pb3sben_qj5flmBNHXZpT0tVVERd7f9n/view?usp=sharing

So this may be the last chance for you to test your Creator with true History now because Yahweh is giving all the proof to you on these last days.
